OT 686 Residency (6 or 12, max 24, FaSpSm) Residency involving development, administration, evaluation, or policy formulation for occupation-centered programs in clinical or community settings. Development of portfolio for professional doctorate. Open to OT majors only. Graded CR/NC.
At the USC Gould School of Law, which has been in the practice of legal education for more than 100 years, students take law courses designed to challenge them to pursue transformative solutions.

The USC Gould School of Law provides a forward-looking, interdisciplinary and inter-professional legal education guided by nationally renowned professors and energized by an engaged and collegial student body. As one of the most diverse of the nation’s top law schools, USC Gould is made up of students from throughout the country and around the world whose ideas and experiences enrich the learning process and provide new perspectives on the law. Through close collaboration, interdisciplinary academic training and hands-on application of skills, students acquire the experiences and knowledge necessary to succeed as leaders in a global environment.

USC Gould alumni are partners in the world’s largest law firms, CEOs and presidents of multimillion-dollar companies, and leaders in government and public service organizations. Since its founding in 1900, the school has produced hundreds of judges on state and federal courts and elected officials ranging from mayor of cities large and small to a United States senator.

professional skills generally regarded as necessary in the practice of law. The remainder of the courses taken in the last two years are primarily elective.

Dual Degrees

USC Gould maintains dual degree programs with the graduate programs in accounting, business administration, economics, gerontology, pharmacy, philosophy, public administration, public policy, social work, political science, politics and international relations, religion, real estate development and communication. These programs enable qualified students to earn a law degree (J.D.) and the appropriate master’s degree. If the master’s degree normally requires one year of study, a student in a dual degree program earns both degrees in only three years. If the master’s normally requires two years of post-baccalaureate courses, a total of four years is required. To earn the J.D., all students (including dual degree students) must complete 33 numerically graded law units at USC beyond the first year curriculum.

The goal of these programs is to encourage law students to gain a recognized competence in another discipline that has a direct relevance to the roles lawyers play in society. The dual degree programs are based on the premise that some topics covered in the law school are also covered in the programs of the cooperating departments, so that some credit toward the law degree may appropriately be given for specified graduate work taken in the cooperating department. Similarly, the cooperating departments have recognized that some credit toward the master’s degree may appropriately be awarded for certain work completed in the law school.

LL.M. Degree

The residential LL.M. program is a master’s degree program for foreign graduate students trained in law. This two-semester, full-time program introduces foreign lawyers to American law and the U.S. legal system and prepares them for leadership roles in the global market. After successfully completing the program, students will be awarded the Master of Laws degree.

The online LL.M. program is a master’s degree program for foreign graduate students trained in law. This program is offered on a part-time or full-time basis in an online modality and introduces foreign lawyers to American law and the U.S. legal system and prepares them for leadership roles in the global market. After successfully completing the program, students will be awarded the Master of Laws degree.

MCL Degree

The MCL program is a master’s degree program for foreign graduate students trained in law who have already earned their LL.M. degree. This two-semester, full-time program is focused on the study of comparative law. Students are provided with the opportunity to study the differences, similarities and interrelationships of different systems of law around the world. After successfully completing the program, students will be awarded the Master of Comparative Law degree.

Honor Society

Order of the Coif. Order of the Coif is a national honorary scholastic society that encourages excellence in legal education.

Qualifications: Membership will be extended to a graduating law student whose cumulative grade point average ranks in the top 10 percent of all graduating students, provided that he or she has completed at least 75 percent (66 units) of law studies in graded courses.

Adviser: Scott Altman, Vice Dean, Gould School of Law, (213) 740-2544, saltman@law.usc.edu

Applications: Students are nominated by the law school.

Continuing Legal Education

The law school’s Continuing Legal Education Program provides the legal community with the greatest variety of offerings of any law school in the west. USC Gould has been approved as a provider of Minimum Continuing Legal Education (CLE) by the State Bar of California and offers general CLE and Legal Specialization Credit for lawyers, as well as continuing education credits for accountants and real estate professionals.

USC Gould is a national leader in continuing education, presenting six annual programs designed for sophisticated attendees from the bar, judiciary, accounting, business and law student communities and supported by both law firm and corporate sponsors.

CLE programs in 2012-2013 include the Institute on Entertainment Law and Business, Trust and Estate Conference, Tax institute, Institute for Corporate Counsel, Real Estate Law and Business Forum, and Intellectual Property Institute.

For detailed program and registration information, visit law.usc.edu/cle. For additional questions, call (213) 821-3580 or email cle@law.usc.edu.

Tuition and Fees (Estimated)

Students in the law school’s J.D. program pay tuition of $55,084 per year (two semesters) (26-34 units). For less than 17 units the tuition is $2,129 per unit, and tuition is an additional $2,129 for each unit over 17.

Students in the law school’s residential LL.M. and MCL programs pay tuition of $55,084 per year (two semesters). Students in the law school’s online LL.M. program pay tuition on a per unit basis.

The university reserves the right to assess new fees or charges as it may determine. The rates listed are subject to change without notice by action of the Board of Trustees.

These fees are based upon current information available at the time of publication and are subject to possible later change.

In addition to the mandatory fees charged to all USC students, law students must also join the Student Bar Association. In 2012-2013, this membership fee was $25 per semester.

Admission Requirements — J.D. and Dual Degrees

First-year students must have earned a bachelor’s degree from a regionally accredited college or university and be able to provide an official transcript denoting the degree conferred by the beginning of their law school classes. USC Gould does not require applicants to take any specific college courses, and discourages pre-law students from enrolling in college courses that duplicate the law school curriculum. The faculty recommends college courses that are intellectually challenging and require disciplined study. Training in careful reading and skilled writing is most valuable, as are courses involving seminar discussion and sustained research. The student will find that a broad exposure to such fields as economics, philosophy, history, political science, anthropology, mathematics and psychology is more useful than narrow exposure to vocationally oriented courses.

All applicants are required to take the Law School Admission Test (LSAT) administered by the Law School Admissions Council. Applicants must take the test no later than February if they seek to start law school the following August.

Like most law schools, the USC Gould School of Law requires students to apply online through the Law School Admission Council and register for the Credential Assembly Service (CAS). The CAS assembles an applicant’s transcripts, LSAT scores and letters of recommendation and forwards copies of them to law schools of the applicant’s choosing. Further information about the LSAT and the CAS may be obtained from the Law School Admission Council, 662 Penn St., Box 40, Newtown, PA 18940 and online at lsac.org.

Detailed information regarding admission application procedures is available from the Dean of Admissions, University of Southern California Gould School of Law, University Park, Los Angeles, CA 90089-0074 and on the school’s Website (law.usc.edu).

Transfer Students and Visiting Students

A student in good standing at a law school that is approved by the American Bar Association may apply for admission with advanced standing either as a transfer student or as a visiting student. Transfer students enter USC Gould after one year at another law school; they then spend two years at the law school and earn the J.D. degree from USC. Visiting students spend one or two semesters at the law school during their third year of law school; they are not eligible for a USC degree. For further information, please request Transfer/Visitor Information from the Admissions Office at USC Gould.

Transfer LL.M. Students

Law students who are enrolled in USC Gould’s residential and online LL.M. programs for foreign lawyers may apply to the J.D. program as transfer LL.M. students during the transfer application period. Only USC Gould LL.M. students may apply in this manner. Those who have already been awarded an LL.M. at another U.S. law school may apply as international J.D. applicants to the three-year program. For further information, request LL.M. transfer information from the Graduate and International Programs Office at USC Gould.

Admission Requirements — LL.M. Degree

Students submitting an application must have earned a basic law degree, a Bachelor of Laws (LL.B.), degree or the foreign equivalent. Some experience following the completion of the first professional degree is preferred. For further information, contact the law school at (213) 821-5516 or visit the school’s Website (law.usc.edu).

Admission Requirements — MCL Degree

Students submitting an application must have earned a basic law degree, a Bachelor of Laws (LL.B.), degree or the foreign equivalent and will have previously earned their LL.M. degree. Some experience following the completion of the first professional degree is preferred. For further information, contact the law school at (213) 821-5516 or visit the school’s Website (law.usc.edu).

Registration

Registration is handled by the Registration and Records Office of the USC Gould School of Law. First-year students will automatically be registered in their fall semester courses approximately two to three weeks prior
Grading and Attendance Policies

Grading

The grading system uses both numbers and letters in a range from 1.9 to 4.0. The grade equivalents are: A+ (4.1–4.4); A (3.8–4.0); A- (3.5–3.7); B+ (3.3–3.4); B (3.0–3.2); B- (2.7–2.9); C+ (2.5–2.6); C (2.4); C- (2.1–2.3); D (2.0); and F (1.9). Students receiving a grade of 1.9 will not be given credit for the course toward graduation. A student who fails a first-year course must repeat the course, but both grades will be included in computing that student’s general average. Other courses may not be repeated except on petition to the associate dean. A student with a weighted cumulative average of less than 3.0 at the end of the year will be placed on restricted enrollment. A student with a weighted cumulative average of less than 2.7 at the end of any year will not be permitted to continue.

Credit/D/F

After the first year, a student may take up to a total of 8 units on an elected CR/D/F basis, chosen from among courses otherwise graded in a normal manner. No more than 4 such units may be taken in a semester. The student must elect to take a course CR/D/F during the first two weeks of the semester. Courses or seminars may, at the instructor’s option, be designated prior to registration as not available for CR/D/F grading. To earn the J.D., all students (including dual degree students) must complete 35 numerically graded law units at USC beyond the first year curriculum.

Students may also take such courses regularly offered only on a CR/D/F basis, in addition to courses taken under this rule.

Withdrawals from Courses

A student may not withdraw from a course later than two weeks after the first day of classes of any semester without permission of both the associate dean and the instructor.

Attendance

Class attendance is an important part of law school education. It assists both the individual and fellow students in making the most of the educational opportunity offered. Students should, therefore, attend class regularly and participate in the discussion. Professors may require attendance and may take attendance into account in evaluating student performance.

Degree Programs

Juris Doctor

The Juris Doctor is the basic law degree. To obtain the degree, a student must satisfactorily complete 88 units, be in full-time attendance for six semesters and complete all required courses. Several options are available through which students may, with appropriate permission, take courses outside the law school. Except with special permission, however, each student (including a dual degree student) must successfully complete at least 35 units beyond the first-year curriculum, in law courses, taken at this law school, and graded in the normal manner. Each student must also complete a minimum of 65 of the required 88 units by attendance in regularly scheduled class sessions at the law school. A law student is expected to devote the major portion of his or her time to law studies; any outside employment must therefore be restricted. First-year students are not permitted to hold jobs, and second- and third-year students may not hold outside employment requiring more than 20 hours of work per week.

First-year students are required to carry the full load of courses prescribed for that year, and second- and third-year students are required to carry between 15 and 17 units each semester, unless special permission to carry a reduced or enlarged schedule is granted by the associate dean. After completion of the first full year of law study, students who are expecting a child may be given permission to carry a reduced load in their subsequent years, but they must complete all requirements for the degree within a reasonable period of time (usually within four years). All students must complete six full-time semesters.

Requirements for degrees, as well as the courses offered, may be changed by the faculty at any time. The associate dean may waive some requirements for individual students.

The First Year

During the first year, the student takes a required curriculum of basic courses that examines fundamental legal institutions and addresses legal problems relevant to today’s society and the modern practice of law.

In the fall semester, Law, Language, and Values introduces students to foundational concepts in legal reasoning, including theories of interpretation, the rule of law and normative reasoning.

Torts I explores the individual’s obligation to refrain from harming others and studies the bases for compensating persons who suffer injuries — either by holding responsible whoever is at fault for the harm, or by invoking other principles of liability including the efficiency of resource allocation and spreading of losses.

Procedure introduces students to the issues of what constitutes fair, adequate and efficient procedures in resolving legal disputes. Study focuses on the procedures outlined in Federal Rules of Civil Procedure.

Contracts studies the law regulating consensual arrangements entered into for commercial purposes. It concerns such questions as what promises do and should the state enforce and what remedies are available when enforceable promises are breached.

In the spring semester, students take Criminal Law, which studies issues relating to the decision, by legislature or court, to designate behavior as a “crime.” Significant attention is given to the moral, psychological and philosophical issues involved in ascribing criminal responsibility.

Legal Profession examines the functions of the lawyer in modern society, the history and organization of the legal profession, as well as lawyers’ conflicting duties. It also looks into the adversary system, equal access to justice, and other problems of ethics and professional responsibility.

Constitutional Law considers the delineation of spheres of responsibility between the judiciary and legislature, the nation and the state, and the government and the individual.

Property analyzes the development of rules dealing with land, water and other natural resources, frequently from historical and economic perspectives.

All students take a year-long course, Legal Research, Writing and Advocacy. The course is coordinated with other first-year courses, and provides students an opportunity to draft pleadings and to prepare legal memoranda and briefs. Toward the end of the second semester, each student participates in a moot court argument based on work previously prepared for the course.

Students study basic sources of the law — case reports, constitutions, statutes and interdisciplinary materials. There is no uniform method of teaching, but Socratic dialogue and class discussion are primarily employed to help the students analyze issues, reasons and arguments. Moreover, law school faculty have traditionally employed interdisciplinary approaches in analyzing legal problems. First-year classes meet in sections of 60 to 100 students, about half the class size of many law schools.

The Second and Third Years

Requirements

The upper two years of law study are primarily elective, with only two requirements. First, students must satisfy the upper division writing requirement, either by completing a major faculty-supervised writing project or by taking a course with a substantial writing component.

Second, students must enroll in course work that offers substantial instruction in professional skills generally regarded as necessary for the effective and responsible participation in the legal profession. Such course work includes simulation courses (including Trial Advocacy and Pretrial Advocacy), live-client clinical offerings and courses involving the drafting of legal documents (including Contract Drafting and Negotiation).

Course Offerings

The basic courses that most students elect to take — for example: Business Organizations, Evidence, Taxation, and Gifts, Wills and Trusts — are offered every year and usually twice a year. Other courses listed are offered once a year, or in some cases, once every several years. Each year the law school attempts to provide upper-division students with a wide variety of optional specialized courses. Often these reflect the research interests of the faculty. Some examples in recent years have been Biotechnology and the Law, Global Warming, Counterterrorism and Homeland Security, Wrongful Convictions, Reproductive Rights, Special Education and Disability Law, and seminars on the Enron era. Because there are specialty courses in nearly every major area of the law, upper-division students are able to concentrate in a particular area, or, if they prefer, pursue a broad, basic legal education.

Clinical Offerings

The upper-division curriculum includes a variety of opportunities for clinical legal education. “Clinical” courses are of two kinds. First, clinical refers to courses in which the learning of legal principles occurs through actual work on cases in particular subject matter areas. For example, the law of prisoners’ rights and post-conviction remedies is taught in the Post-Conviction Justice Project, a course in which students represent inmates in the California Institution for Women. This representation is under the direct supervision of full-time law school faculty members. About 20 students participate each semester, traveling to the prison to meet with their clients on a regular basis, attending seminars at
the law school, preparing briefs and papers, drafting habeas petitions, and negotiating and dealing with prosecutors and prison and court personnel. In addition, students make court appearances on behalf of clients in state and federal courts, as well as courts of appeals.

The second type of clinical course concentrates on specific lawyering skills taught in a classroom setting through the use of hypothetical case materials, with actors playing the roles of clients. The best illustration of this form of clinical teaching is the three-course sequence of Pretrial, Trial and Appellate Advocacy, which covers the stages in the litigation process suggested by the course titles. In these courses, students actually perform, in a simulated courtroom or law office environment, the multiple tasks required of lawyers. Most work is done in small groups; students are videotaped and intensively reviewed by the instructors. A student can take part or all of this sequence. The three courses together require the student to do at least the following: client interviewing and counseling, legal research, fact-finding, drafting of legal documents, negotiation with opposing counsel, arguing pretrial motions to a judge, preparing witnesses to testify, selecting a jury, conducting direct and cross-examination, proposing and opposing exhibits and testimonial evidence, arguing to a jury, and drafting and arguing an appellate brief.

The Post-Conviction Justice Project and the advocacy courses are not the only clinical courses in the curriculum, but they are useful examples of the variety of clinical teaching. A course in a specific area of law, like the Post-Conviction Justice Project, necessarily requires students to acquire basic courtroom, negotiation and client interviewing skills. The skills-oriented advocacy courses require students to be familiar with substantive areas like evidence, procedure and the law in the area of the hypothetical client’s problems. These two kinds of clinical courses supplement each other, just as substantive knowledge and expert skills do in the practice of law. Considered as a whole, USC’s clinical courses provide the foundation of knowledge and skill necessary to begin the practice of law.

Judicial Externships and Clinical Internships

The clinical opportunities listed previously are focused primarily within the law school. In addition, there are two categories of clinical options for students to pursue outside the law school in the actual environments of courts and law offices.

The first of these, the judicial externship program, enables students to receive credit for full- or part-time work as an extern to a judge of the state or federal court. Students are selected by the judges themselves. USC students have served as externs in the California Supreme Court, U.S. Court of Appeals, U.S. District Court, U.S. Bankruptcy Court, California Court of Appeal and Superior Court. During the externship, each student is supervised by the assistant dean and the placement supervisor.

The second program, the clinical internship option, allows USC Gould students to work part-time in government agencies, legal services programs or other nonprofit organizations under the supervision of practicing attorneys and faculty members. Students earn academic credit while providing representation to actual clients, learning important government processes or participating in large-scale impact litigation. Since the program includes more than 70 pre-approved agencies, students may choose from a wide range of clinical internships.

Neither program is considered a regularly scheduled class session for purposes of graduation requirements.

Individual Research Projects

A wide variety of courses and institutes offers opportunities for upper-division students to engage in individual research under faculty supervision and often in conjunction with course offerings, as well as to participate in large research projects. Projects presently undertaken include the uses of ocean and sea resources, the development and regulation of geothermal energy, sentencing practices in felony cases, the effects of real estate taxation, the delivery of legal service to low- and middle-income persons, the civil commitment of elderly persons, the relationships between corporate law and actual corporate practices, and theoretical studies in law and economics. Such research projects are financed by grants from the Brookings Institution, the U.S. Commission on Civil Rights, the National Science Foundation, the Ford Foundation, the Lincoln Institute of Land Policy, the National Institute of Mental Health, and the Energy Research and Development Administration.

Independent research completed for academic credit is not considered a regularly scheduled class session for purposes of graduation requirements.

Courses Outside the Law School

With the concurrence of the associate dean, a student may receive up to 12 units of J.D. credit for courses taken outside the law school. These courses must be on the graduate level and may be taken only at USC. Taking graduate level courses outside the law school is an alternative to the dual degree program; a student may not pursue both approaches. With the approval of the associate dean, a student may receive a limited number of J.D. credits for undergraduate language courses taken at USC. For purposes of meeting the 35-graded-units rule, all non-law courses are counted as CR/DF units.

A student may, with permission of the associate dean, enroll in and transfer the credit from a law course taken at another school that is a member of the Association of American Law Schools, if the course is equivalent to one included in the USC Gould curriculum that will not be offered here during the semester the student takes the course. Credit will be granted only for courses graded "C" or better. A maximum of 5 such units may be counted toward the J.D.

Courses taken outside of the law school are not considered regularly scheduled class sessions for purposes of graduation requirements.

Course Selection in the Upper Division

With such a variety of courses available, how do second- and third-year students go about selecting the program that will be best suited to their individual interests and ambitions?

There are no precise rules or proven methods for selecting second- and third-year courses. To a large extent, these choices reflect each student’s personal assessment at the end of the first year — strengths and weaknesses, developing intellectual interests and first tentative career plans. For this reason, the combination of courses most desirable for one person will not necessarily be best for anyone else. Students are urged to be wary of the notion that there is a specific, recommended curriculum to follow. But reluctance to impose a model course of study does not mean that no guidance is available, for there are at least four ways of thinking about these choices that, in combination, will help each student choose the best array of courses.

One recommended approach to course selection is to choose courses taught by professors the student admires, without regard to subject matter. For each student there are teachers who are particularly able to create intellectual excitement and whose approach to analysis and teaching strikes a responsive note. Students will benefit as much from exposure to a specific professor’s analytic skills and approach to legal issues as from specific course content.

A second approach is to choose courses that look exciting, without worrying about whether such courses are directly related to the student’s current career plans or to some idea of traditional curriculum. If it appears that a course will be intellectually interesting, will expose students to a new area of the law, or provide needed variety, there is already more reason to enroll. Courses taken because of enthusiasm for either the instructor or the subject matter often lead to the richest academic experience of law school.

The third way to make decisions about taking courses is to classify them according to clusters that emphasize similar issues or themes and then select from each area. For example, a student interested in ideas about family relationships will find them discussed in different contexts in Gifts, Wills, and Trusts; Family Law; and the Children’s Legal Issues Practicum. Trial Advocacy and Pretrial Advocacy are courses that teach practical litigation skills, relating various performance tasks to the underlying skills of legal writing, advocacy, legal counseling, negotiation, and factual analysis. A further example includes courses involving close work with statutes, such as Labor Law, Securities Regulation and Taxation, any of which will provide opportunities to develop important and transferable skills.

Finally, students might think about selection as a way of building a wide substantive expertise in an area of particular interest. For example, the following courses are crucial to one anticipating a substantial wills and estate planning practice: Family Law; Community Property; Taxation; Estate Planning; Real Estate Transactions; and Gifts, Wills and Trusts. This kind of course planning requires some thought and investigation, since a casual examination might omit such courses as Community Property (which may affect one’s legal ability to transfer property by will), and Real Estate Transactions (since various forms of property ownership may dictate a specific will or create planning considerations).

These approaches to course selection describe only some of the ways in which students might make reasoned choices about their academic programs. Formal and informal academic counseling are available from the associate dean, the assistant deans and other faculty. In addition, students are encouraged to follow the written recommendations available in the online Student Handbook available via the Student Portal on the USC Gould School of Law Website.

Degree Programs

Dual Degrees

Admission

Students may be accepted for a dual degree program when they are accepted to the law school, although most students do not apply until near the end of the first year. All programs require that students successfully complete the required first year of law school before beginning work toward the master’s degree. Credit toward the law degree may not be given for graduate work completed prior to the completion of the first year of law school, although some credit toward the master’s degree may be allowed by the faculty of the cooperating department of approved work completed prior to the first year. Students are not eligible for either of their dual degrees until they complete the requirements for both degrees. All students
of the M.S. program.

**Juris Doctor/Master of Arts in Economics**

Students are required to complete 92 units of law and economics course work, 4 units of which must constitute a thesis acceptable to the faculties of the law school and the Department of Economics. Before enrolling in economics courses, students must have completed an undergraduate course in probability and statistical inference (e.g., BUAD 310). Students with undergraduate degrees in such disciplines as business, economics, mathematics and psychology will usually have taken such a course as part of their undergraduate program.

**First Year: Required law school courses.**

**Elective Course Work**

The second and third year of law study are primarily elective with one requirement. Students must satisfy the upper division writing requirement, either by completing a major, faculty-supervised writing project such as a dissertation, or by taking a course with a substantial writing component.

The law school will waive 14 units of electives which are required in the regular J.D. program.

**Juris Doctor/Master of Business Administration**

In addition to the LSAT, applicants to this dual degree program are listed in the Marshall School of Business section of this catalogue.

**Juris Doctor/Pharm.D.**

**Admission Requirements**

Admission to the dual Pharm.D./J.D. program is competitive, and involves meeting admission requirements and gaining acceptance to both the School of Pharmacy and the law school. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students that have a baccalaureate degree may apply to the dual Pharm.D./J.D. degree program in two ways. First, they may apply at the time they submit their Pharm.D. application by concurrently submitting applications to both schools. Students who elect this approach must identify themselves on their Pharm.D. applications as potential dual Pharm.D./J.D. degree students. Students who are admitted to both schools will be offered admission to the dual degree contingent on passing all courses in their first year of the Pharm.D. with a minimum 3.0 GPA.

Students pursuing the dual Pharm.D./J.D. degree must notify the law school in a timely fashion that they will be enrolling in the dual Pharm.D./J.D. degree program and will not matriculate at the law school until the following year. Students who are accepted only by one school may choose to attend that school but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the law school during their first year of enrollment in the Pharm.D. program prior to the law school’s published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the law school using this approach would be offered admission to the dual degree contingent on passing all courses in their first year of the Pharm.D. with a minimum 3.0 GPA. See the admissions section of the School of Pharmacy and the law school for specific requirements.

**Degree Requirements**

The professions of pharmacy and law are distinctly different, yet pharmacists are often involved in legal issues and lawyers frequently deal with pharmacy, drug, health care, product development and toxin-related matters. This dual degree program provides qualified students with an efficient mechanism for obtaining the expertise and professional credentials that will enable them to develop professional practices that bring together expertise in both areas.

**Overall Requirements**

A student is required to complete all work for both degrees within six years of the date of matriculation at the School of Pharmacy (Pharm.D.) and five years of matriculation at the law school (J.D.). The entire dual degree program will take six years to complete. Dual degree students will be allowed to use 12 units of approved J.D. course work (elective or required) to meet 12 units of Pharm.D. electives and 12 units of approved Pharm.D. course work (elective or required) to meet 12 units of law school course work.
The dual degree allows students to acquire a blend of the analytic skills of public policy and an understanding of legal institutions and processes. This combination of knowledge is well suited for law students who want to affect the policy-making process and craft legislation to aid in achievement of public policy goals. It is equally appropriate for prospective policy analysts who are interested in law and public policy.

Students must apply to, and be accepted by, both schools. They may be accepted to the dual degree at the time of their acceptance to the law school or at the beginning of their second year of law school. Dual degree students spend the first year of the program completing the required first year of law school. The remaining units of law school courses and the required 36 units of core MPP courses are taken by students in the second through fourth years.

Students are required to complete 114 units of course work, including 78 units in the Gould School of Law and 36 units in the USC Price School of Public Policy. The MPP program has a statistics prerequisite. See the Master of Public Policy section. Requirements for this dual degree are listed in the USC Price School of Public Policy section.

First Year: Required law school courses.

Second and Third Years: 20 units of communications courses and 38 units of law courses, of which 8 units must be approved for appropriate acceptance by the Annenberg School for Communication and Journalism toward its degree. All students take CMGT 597 in the third year.

Application to pursue the dual degree should be made before completion of 15 units of work on law or 8 units toward the M.A. Admission by the law school to its J.D. degree will be evaluated as a substitute for GRE scores.

Juris Doctor/Master of Real Estate Development

The Juris Doctor/Master of Real Estate Development dual degree program provides the opportunity for in-depth study of legal issues and real estate development. The increasingly regulatory environment developers work within demands that professionals in the real estate industry have a strong understanding of the legal system. Lawyers who plan to specialize in real estate law will benefit from a thorough understanding of the development process, including financial, planning, marketing and design issues.

Application must be made to both the Gould School of Law and the USC Price School of Public Policy. This program normally requires three years (including one summer) of full-time study in residence to complete.

Students must have used an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills; a calculator and/or spreadsheet class is offered online via the internet.

Requirements for completion of the dual degree program are 112 units, including 78 units in law and 34 units in planning. For a complete listing, see Public Policy.

Juris Doctor/Master of Arts, Philosophy

Students must complete 24 units in the USC School of Philosophy and 69 units in the Gould School of Law.

First Year: Required law school curriculum.

Second and Third Years: The School of Philosophy prefers that students take at least one philosophy course each semester. During the four semesters, students must take at least 16 units at the 500 level, including PHIL 450 Intermediate Symbolic Logic and PHIL 500 Introduction to Contemporary Philosophical Literature; one 400- or 500-level course in ethics or social/political philosophy or aesthetics or philosophy of law; one 400- or 500-level course in metaphysics or epistemology or philosophy of language or philosophy of science or philosophy of mind;

Pharm.D. Requirements

Dual degree students must successfully complete 144 units of Pharm.D. and acceptable J.D. units to receive the Pharm.D. degree. The 144 units must include 132 units of required and elective pharmacy course work plus 12 units of J.D. course work deemed acceptable to meet Pharm.D. elective requirements. Dual degree students should graduate with their Pharm.D. degrees at the completion of the first semester of the sixth academic year of the dual degree program. Students will be eligible to sit for the Pharmacy Board Exams after completion of the Pharm.D. degree requirements. However, dual degree students will not actually be awarded their Pharm.D. degrees until they complete requirements for both degrees.

Juris Doctor Requirements

Dual degree students must successfully complete 88 units of J.D. and acceptable Pharm.D. course work during the second to sixth years of the dual degree program to receive the J.D. degree. The 88 units must be composed of 76 units of J.D. course work, including satisfaction of the upper-division writing requirement and any other substantive requirements, plus 12 units of Pharm.D. course work deemed acceptable to meet J.D. elective requirements. No J.D. credit will be awarded for Pharm.D. course work completed prior to matriculation in the law school. Students cannot receive the J.D. degree under requirements for the dual degree program without prior or simultaneous completion of the Pharm.D. degree.

Both professions require passing a state board or bar exam to practice the respective professions. Neither of these degrees requires a thesis or comprehensive final exam.

Recommended Program

Pharm.D./J.D. dual degree students will begin with the first year of the Pharm.D. curriculum (36 units). During the second year, students will take the first year law core (13 units), plus 3-5 Pharm.D. units. Due to the rigor of the law school core, pharmacy courses during the first year of law school are limited to non-science courses. The third through fifth years of the program focus on Pharm.D. courses with sufficient law courses to maintain students’ educational momentum in law. Students should complete their Pharm.D. requirements during the fall of their sixth year of the program and their law course work also during the sixth year. Students must complete both degree requirements by the end of the sixth year of the program.

Juris Doctor/Master of Public Administration

Students are required to complete 97 units of course work. Candidates for the dual degree must fulfill the statistics requirement of the MPA degree. See the Master of Public Administration section. Requirements for this dual degree program are listed in the USC Price School of Public Policy section of this catalogue.

Juris Doctor/Master of Public Policy

The USC Price School of Public Policy and the law school offer a dual degree that enables qualified students to earn both a Juris Doctor and a Master of Public Policy in approximately four years of study.

units of J.D. electives. A faculty qualifying exam committee will determine the exact program for each student, including the appropriateness of courses in one program used to meet elective requirements for the other program. A total of 208 units is required for the dual degree.
J.D. Study Abroad Programs

UCSC Gould offers five study abroad programs for J.D. students that provide opportunities to learn about foreign legal systems and to experience different cultures. Qualified second- and third-year J.D. candidates are exposed to international law as they take part in exchange programs with leading partner institutions worldwide.

University of Hong Kong: The semester exchange program at the University of Hong Kong (HKU) allows USC Gould J.D. students to experience Hong Kong and its legal culture and business in the Pacific Rim.

HKU was established in 1911 and is a leading university in Asia. It is linked with over 80 partner institutions in 15 countries and has exchange programs with prominent universities worldwide. The language of teaching at HKU for its law courses is English.

Bocconi University: USC Gould J.D. students have the opportunity to learn about law and business in Milan, Italy, in this semester exchange program with Bocconi University. An Italian course is available to interested exchange students who wish to study the language before the law program begins.

Bocconi University, a private institution in Milan, Italy, has a global reputation as a research university in business, economics, and law. Bocconi offers its exchange students law courses in English. These include courses in international and European law, international trade law, and comparative business and corporate law.

University Jean Moulin Lyon 3: The semester abroad program at the University Jean Moulin Lyon 3 allows USC Gould J.D. students the chance to study in English at a leading law school in Lyon, France. After earning the J.D. degree, graduates may elect to return to Lyon for a semester to complete an LL.M. in international and European law.

The University Jean Moulin Lyon 3 is a public university ranked among the top in France. Lyon 3 is one of three universities in Lyon with a combined population of 100,000 students. Lyon is the second-largest city in France with a great selection of cultural and professional opportunities.

Bond University: USC Gould J.D. students have the opportunity to live in Queensland, on the Gold Coast of Australia, for a semester while studying at Bond University.

Bond University has a distinctly global perspective, aspiring to a 50:50 ratio of Australian to international students, who come from 80 countries worldwide. Under the guidance of Australia’s most eminent legal professionals, internationally renowned criminologists and specialists, students benefit from the mentoring relationship fostered at Bond where professors take an active role in charting student success.

Fundação Getulio Vargas University: The semester exchange with Direito GV, the law school of FGV, allows J.D. students to study at their campus in São Paulo, Brazil. Direito GV has one of the top law faculties in Brazil. They offer law courses in English for their exchange students.

Fundação Getulio Vargas has developed a highly innovative curriculum. The Brazilian Ministry of Education and Culture and the Brazilian Bar Association have granted FGV their highest classification of academic rigor. This exchange introduces J.D. students to the Brazilian legal system and promotes a broad debate on the issues of global relevance within a South American perspective.

Certificate Programs

Certificate in Alternative Dispute Resolution

J.D. students must complete at least 14 units of arbitration and mediation-related courses to receive this certificate. Interested J.D. students must submit their applications for this certificate program after completing the first year of law school. J.D. students complete the certificate requirements during their second and third years of law school, and courses may count both toward the J.D. degree and the certificate.

LL.M. students must complete at least 14 units of arbitration and mediation-related courses to receive this certificate. LL.M. students complete the certificate requirements during the year they are taking their LL.M. course work, and courses may count both toward the LL.M. degree and the certificate.

All students are required to take both mandatory courses (Survey of ADR Law and Policy And Domestic Ethics in ADR) and a selection of elective courses (such as ADR Clause Drafting and Business Mediation).

Certificate in Business Law (Residential)

J.D. students must complete at least 27 units of business-related courses to receive this certificate. Interested J.D. students must submit their applications for this certificate program after completing the first year of law school. J.D. students complete the certificate requirements during their second and third years of law school, and courses may count both toward the J.D. degree and the certificate.

LL.M. students must complete at least 14 units of business-related courses to receive this certificate. LL.M. students complete the certificate requirements during the year they are taking their LL.M. course work, and courses may count both toward the LL.M. degree and the certificate.

All students are required to take both mandatory courses (such as business organizations) and a selection of elective business law courses (such as mergers and acquisitions, advanced contracts and bankruptcy).

Certificate in Entertainment Law (Residential)

J.D. students must complete at least 21 units of entertainment-related courses to receive this certificate. J.D. students must submit their applications for this certificate program after completing the first year of law school. J.D. students complete the certificate...
requirements during their second and third years of law school, and courses may count both toward the J.D. degree and the certificate.

LL.M. students must complete at least 14 units of entertainment-related classes to receive this certificate. LL.M. students complete the certificate requirements during the year they are taking their LL.M. course work, and courses may count both toward the LL.M. degree and the certificate.

All students are required to take both mandatory entertainment law courses (such as intellectual property) and a selection of elective entertainment law courses (such as copyright, legal issues in music and sports law).

Certificate in Business Law (Online)

USC Gould School of Law Online LL.M. and Business Law Certificate students will enroll in the Online Business Law Certificate program and will take each of their courses in the online modality.

USC Gould School of Law J.D. and LL.M. residential students will enroll in the residential Business Law Certificate program and will take each of their courses in residence.

The Online Business Law Certificate program requires Business Organizations (4 units) as a core, mandatory course. Students are required to complete an additional 10 business law units online to earn the certificate.

Electives include Securities Regulation (3 units), Business for Lawyers (2 units), Contract Drafting and Strategy (2 units) and Mergers and Acquisitions (3 units and for which Business Organizations is a prerequisite). Students must complete a minimum of 14 units to receive this online certificate.

The program is structured especially for working professionals who wish to take one or two courses per term in an online format. Students are expected to enroll each semester until the program is completed.

Degree Programs

Undergraduate Programs

B.A. Philosophy, Politics and Law

This interdisciplinary program consists of nine courses chosen from philosophy, political science, law and anthropology courses. See Philosophy for degree requirements.

Minor in Law and Public Policy

The minor in law and public policy draws upon four fields of study: public policy and management, law, economics and political science. It provides students with an understanding of the political and economic contexts in which laws are made, as well as how legal institutions shape policy formulation. Students learn to analyze the consequences of policy and alternatives; the roles played by government, business and nonprofit organizations in public decision-making; and the legal bases for various areas of public policy. See Public Policy for requirements.

Minor in Law and Society

This interdisciplinary program focuses on the effect of law on society and the way in which social forces influence the legal system. The idea is that students will understand the law if they look beyond “law in books” to “law in action.” See Political Science for requirements.

Minor in Psychology and Law

This interdisciplinary minor brings together courses in psychology that focus on the social, ethical, cognitive and societal aspects of psychology and how it relates to law. This knowledge is augmented with law courses that identify the relationship between mental health, social psychology and law. See Psychology for requirements.

Courses of Instruction

Law (LAW)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Courses numbered 500 and above are open only to law students except by special permission from the associate dean.

LAW 200X Law and Society (4) Sources and structure of law; history of Bill of Rights emphasizing effect on criminal justice system; limits of law in solving problems in American society. Not available for major credit to law students.

LAW 201X Law and Politics: Electing a President (4) Examination of the rules and realities of American politics, and the role politics plays in American life and culture. Not available for major credit to law students.

LAW 200 Concepts in American Law (4) The main concepts and topics in American law, in the historical, economic and cultural contexts in which they have developed. Open only to students enrolled in the Philosophy, Politics and Law (PPL) major.

LAW 301 The Constitution in Transnational Perspective (4) Examines the Constitution of the United States in transnational perspective, both historically and today. Focuses on democracy, slavery, emancipation, and freedom; empire; and governmental structures.

LAW 403 Mental Health Law (4, Sp) Issues at the intersection of law and psychology, both civil — e.g., civil commitment — and criminal — e.g., the insanity defense. Emphasis on ethical issues.

LAW 404 Law and Psychology: Examining the Criminal Justice Process (4, FaSpSm) Examination of the capacity of the criminal justice process to produce accurate verdicts. Application of psychological research on witnesses, detectives, suspects, judges and jurors. Recommended preparation: PSYC 100.

LAW 444 Civil and Political Rights and Liberties (4) (Enroll in POSC 444)

LAW 503 Procedure I (4, Fa) Consideration of the participants in litigation — private and public plaintiffs, defendants, and courts. Information exchange, process, outcomes, and costs of lawsuits.

LAW 503 Contracts (3-4, Fa) The interpretation and enforcement of promises and agreements.

LAW 504 Criminal Law (3, Sp) The crime problem and the legislative response to it through substantive criminal law; administration of criminal justice through police, prosecutorial, sentencing, and penological discretion.

LAW 505 Legal Profession (2-4) Functions of the lawyer in modern society; history and organization of the legal profession; the adversary system; equal access to justice; other problems of ethics and professional responsibility.

LAW 507 Property (4, Sp) The idea of property as understood through economic and philosophical concepts. Rights in land, water and other natural resources. Forms of shared ownership (e.g., landlord and tenant), and a survey of mechanisms for controlling land use.

LAW 508 Constitutional Law I (2-5, FaSp) Considers the delineation of spheres of responsibility between the judiciary and legislature, the nation and the state, and the government and the individual.

LAW 509 Torts I (4, Fa) Individual’s obligation not to harm others; bases for compensating persons who are harmed, either by holding responsible whoever is at fault or by invoking other principles of liability, including the efficiency of resource allocation and the spreading of losses.

LAW 510 Legal Research (0 or 1, FaSpSm) Examination of the basic sources of law for federal and California jurisdictions, utilizing a vast array of sources from books to computer-assisted research and analyzing research methodology and techniques. Graded CR/D/F.

LAW 511A Legal Writing (2, 1-2, Fa; 0: 1-2, Sp) Two-semester course focusing on developing analytic and communication skills. Lawyers will analyze legal principles and incisively apply them to facts. Graded CR/D/F.

LAW 513 Law, Language and Values (2-4) An introduction to legal interpretation and normative reasoning. Among the topics addressed are statutory and common law interpretation, the rule of law, externalities, and inequality.

LAW 515 Legal Research, Writing and Advocacy I (2-5) Development of legal research, writing and advocacy skills. Emphasis on objective legal writing, including appellate briefs, and researching statutory and administrative law. Participation in a moot court program. Prerequisite: LAW 515.

LAW 520 Introduction to U.S. Legal System (2) The basic structure of government in the U.S., including the constitutionally mandated division of power in the federal government and the federal system of power sharing between state and federal systems. A comparative perspective on selected substantive and procedural matters, such as common law reasoning, jury trials, adversary process, and various aspects of civil procedure. Open to LL.M. students only.

LAW 521 Topics in American Law (1-4, FaSp) This course provides LL.M. and MCL students with a survey of various topics in American law, including criminal law, evidence, family law, constitutional law, torts, wills and trusts, administrative law and property law. Open to LL.M. and MCL students only.

LAW 535 Special Topics (2-4, max 8)
LAW 653 Legal Issues in the Music Industry (1-4, FaSp) The course will focus on contract drafting and negotiation issues relevant to an artist's pursuit of a career in the music business.

LAW 654 Legal Issues in the Television Industry (2-4) An in-depth study of television industry legal concepts, contracts, business structures and economic models.

LAW 655 Environmental Law (2-4) Focus on environmental law policy and practice. This course is a combination of regulatory and private law, with a special emphasis on disputes and regulations involving contamination in soil, water and air.

LAW 656 The Business of Entertainment, Media and Technology (1, 2) Introduces aspiring attorneys to important concepts in the entertainment business, and builds context for more advanced courses in entertainment, media, technology and intellectual property law. Graded CR/NC.

LAW 657 International Protection of Intellectual Property (1-4) The laws concerning how to enforce and exploit rights protecting media creations, marketing symbols, computer programs, new technologies, designs, know-how, and data across national borders.

LAW 658 Mergers and Acquisitions (1-4, Sp) Problems of integrating the corporate, securities, tax, business, antitrust, accounting and contractual aspects of corporate mergers and acquisitions. Prerequisite: LAW 640.

LAW 659 Legal Issues in the Motion Picture Industry (2-4) Involves the legal and business principles involved in structuring, negotiating and documenting agreements relating to the development, production and distribution of theatrical motion pictures. Prerequisite: LAW 772 or LAW 841; corequisite: LAW 650.

LAW 660 Advanced Trademark Law (1-4) A rigorous introduction to a law of trademarks. A trademark can be any word, symbol, design, sound, fragrance or product configuration that is used to distinguish the goods or services of one person from those of another, and to indicate the origin of the goods or services. Prerequisite: LAW 772 or LAW 841.

LAW 661 National Security Law (2-4) Examination of the nature of United States' national security law, focusing on how it is created, violated and enforced.

LAW 662 Public International Law (3-4) Principles of international law involving relations among governments. The function of international tribunals and organizations.

LAW 665 Art Law (1 or 3) Provides an overview, often from a litigation perspective, of legal issues affecting artworks and cultural property.

LAW 667 Hale Moot Court Brief (1) Invitation-only course offered to second-year students as part of the Hale Moot Court Honors Program. Students write an appellate brief. Open only to students in J.D. program (including dual degrees).

LAW 668 Hale Moot Court Oral Advocacy (1, Sp) Invitation-only course for students in the Hale Moot Court Honors Program. Students present an oral argument and judge first-year student rounds. Graded CR/NC. Prerequisite: LAW 667.

LAW 669 Moot Court Supervision (1-3, max 6, FaSp) Evaluation and supervision of the preparation of briefs and oral arguments in the Hale Moot Court honors competition. Graded CR/D/F.

LAW 670 Advanced Moot Court Oral Arguments (1-3, max 5, Sp) Preparation of oral arguments in approved moot court competitions, such as national and state prize rounds (other than Hale Moot Court Program). Graded CR/D/F.

LAW 671 Advanced Moot Court Briefs (1-3, Sp) Preparation of briefs in approved moot court competitions, such as national and state prize rounds (other than Hale Moot Court Program).

LAW 672 Jessup Moot Court Briefs (1-3, Fa) Students prepare for competition by writing a brief on the issues in a problem that is the basis for the Jessup International Moot Court Competition. Participation is by faculty selection only.

LAW 675 Mental Health Law (2-4) Studies the important issues at the intersection of law and psychology/psychiatry, both civil and criminal.

LAW 678ab Review of Law and Social Justice Staff (1-1; 1-4) Writing, source-checking, and preliminary editing of articles and comments for publication in the Review of Law and Social Justice. For second-year students serving as staff members on the Review. Graded CR/D/F.

LAW 680ab Review of Law and Social Justice Editing (1-3; 1-4) Supervision of research and writing, and final editing of articles and comments for publication in the Review of Law and Social Justice. For editors of the Review. Graded IP to CR/D/F.

LAW 681 Analytical Methods for Lawyers (2-4) Teaches important business and economic concepts that will assist with problems lawyers in every practice area routinely encounter.

LAW 682 Jessup Moot Court Oral Arguments (1, Sp) Students prepare oral arguments on the issues in a problem that is the basis for the Jessup International Moot Court competition. Participation is by faculty selection only. Graded CR/D/F. Prerequisite: LAW 672.

LAW 683 Client Interviewing and Counseling (2, 3, FaSp) Introduction to a practice-oriented approach to interviewing and counseling clients. Enables students to develop a useful framework for effectively interviewing and representing clients.

LAW 684 Suing the Government (2-4, FaSp) Deals with suits against federal and state governments. Intended for aspiring government workers or representatives of plaintiffs who sue a government official or entity.

LAW 685 Civil Discovery (2-4) Focuses on the discovery phase of pre-trial litigation and many of the skills new lawyers are called upon to use right out of law school.

LAW 687 Foreign Relations and National Security Law (2-4, FaSp) This course will examine the statutory, constitutional, and international legal structures that form the base of American diplomacy.

LAW 700 Health Care Regulations (1-4) Regulation of the medical profession; the physician-patient relationship; professional and institutional liability; health care institutions and delivery systems; quality control; access to health care services and problems of distribution and rationing; cost control, including government and private health care programs; patient rights; antitrust.

LAW 701 Child Interviewing Seminar (1-4) Students learn how to effectively interview child witnesses. Students will practice mock interviews, and may be eligible to conduct actual interviews of child witnesses.

LAW 702 Children, Sexuality and the Law (2-4) Explores laws designed to protect children from sexual abuse and exploitation, with a limited emphasis on foreign and international law for comparative perspective.

LAW 704ab Children's Legal Issues (1-4; 3-4) Students will work on cases in the following areas: (1) Dependent and neglected children: All children who are wards of the court must have legal counsel. (2) Children with AIDS: Legal implications of such issues as health care and custody. (3) Guardianships or other temporary arrangements for children whose parents are terminally ill or are otherwise unable to care for them. Graded CR/D/F.

LAW 704 Poverty Law (2-4, FaSp) An introduction to the problem of poverty in the United States and to the response of government and the legal system to the problems of the poor.

LAW 705 Community Property (1-3) The law of community property, including disposition of property on dissolution of the marriage and questions of conflict of laws. May be offered as a reading course.

LAW 706 Public Health Law (3, 3, 4) Provides an introduction to the legal foundations of the public health system in the United States.

LAW 708b Reviewing and Negotiating Business Contracts (2-4, FaSp) Covers the fundamentals of reviewing and analyzing business contracts and strategies for negotiating business issues with an emphasis on developing practical skills.

LAW 709 Contract Drafting and Negotiation (2-4, FaSp) Contract Drafting and Negotiation will teach students the mechanics of drafting and negotiating sophisticated contracts from a variety of legal disciplines including entertainment law, real estate law and general corporate law.

LAW 710 Contract Drafting and Strategy (2, 3) Students examine contracts and present to the class their assessment of why the specific provisions were drafted and possible alternatives and challenges to those provisions.

LAW 711 Access to Justice Practicum (2-4) Real world advocacy projects involving issues such as civil rights, disability rights, foster care, welfare, and health care, among others.

LAW 711 Negotiation and Mediation Advocacy (2 or 3, FaSp) Develops enhanced negotiation skills and a working understanding of ADR processes and procedures in an interactive classroom experience. (Duplicates credit in LAW 638; 1-3) Graded CR/NC.

LAW 712 International Human Rights (2-4, FaSp) This course will address the international law and institutions which have developed since World War II for the protection of human rights.
LAW 714 U.S. Foreign Policy and International Law (1-4) Discusses current U.S. foreign policy challenges and the underlying international legal issues and principles which shape them.

LAW 715 Law and Policy of Alternative Dispute Resolution (2-4) Exploration of the origin, development, and practice of mediation, arbitration and other forms of ADR, emphasizing the policies underlying these increasingly significant and evolving areas.

LAW 716 Race and Gender in the Law (1-4) Investigates the experience of women and people of color as they have encountered legal institutions and processes.

LAW 717 Estate Planning (3, FaSp) Legal and tax considerations important to the lawyer advising his client on the transmission of wealth from one generation to the next.

LAW 718 Sports Law (1-4, Sp) Sports law is a blend of contract, labor, antitrust, agency, tax, intellectual property, tort, civil rights and constitutional law.

LAW 719 Corporate Finance (2-4) Legal and economic aspects of corporate finance including capital structure, policy, mergers, takeovers, and freeze-outs; analysis of policy relating to present law and possible reforms.

LAW 720 Topics in Corporate Law (1-4, max 8, FaSp) Executive malfeasance, shareholder rights, securities classes actions, asset securitizations, hedge fund regulation and corporate social responsibility from a theoretical and corporate finance framework.

LAW 721 Class Actions (3) Studies the theory and practice of class action litigation in the United States.

LAW 725 Bioethics and Law (3) Legal, ethical, and economic problems of advanced biological technologies, for example, behavior, genetic, and reproductive control; control of the processes of dying; organ transplantation and the use of artificial organs; regulation of scientific research and human experimentation.

LAW 726 Stereotypes, Prejudice, and the Rule of Law (2-4, FaSp) An examination of the role of race (and other markers of social marginality) in the administration of justice in American courts.

LAW 727 Partnerships and Limited Liability Companies (3-4, FaSp) Deals with the formation, features and functions of general partnerships, limited partnerships and limited liability companies. Also focuses on business planning, recognizing business and legal partnerships and limited liability companies. Also focuses on business planning, recognizing business and legal partnerships and limited liability companies.

LAW 728 Bioethics and Law Seminar (1-4, max 8) Covers legal and law-related issues, including constitutional law perspectives, concerning biomedical technologies.

LAW 729 Corporate Reorganization (2 or 3) Reorganization of failing corporations under Chapter XI of the Bankruptcy Act. Claims, protective committees, plans, tax considerations.

LAW 730 Local Government Law (3 or 4) Study and evaluation of the municipal and regional legal institutions. Emphasis on the crises in financing and governing the urban society.

LAW 731 Small Business Clinic I (2-4, FaSp5m) Students provide legal assistance to small businesses, entrepreneurs and non-profit organizations that cannot pay market rates for legal services. Graded CR/NC.

LAW 732 Small Business Clinic II (2-4, 5p) Continuation of Small Business Clinic 1. Prerequisite: LAW 731.

LAW 733 Reproductive Rights and Justice (4) Students will acquire a basic familiarity with the constitutional rules governing reproductive rights, and with legal and sociological theories that interpret and challenge those rules.

LAW 734 Federal Criminal Law (2-4, max 8) Covered topics include offenses relating to fraud and political corruption, terrorism, narcotics, money laundering, organized crime, false statements and obstruction of justice.

LAW 735 Critical Race Theory (2-4) Intersectionality, destruction and critical historiography; specifically affirmative action in education, hate speech and immigration reform.

LAW 736 Securitization of a Home (1-4, FaSp) Executive malfeasance, shareholder rights, securities classes actions, asset securitizations, hedge fund regulation and corporate social responsibility from a theoretical and corporate finance framework.

LAW 737 Sexual Orientation and the Law (2-4, FaSp) Explores the ways in which American law has responded to the diversity that exists within human sexual orientation.

LAW 740 Financial Institutions (3) The legal and economic aspects of financial institutions including the creation and regulation of them.

LAW 741 Federal Securities Regulation (2-4, Sp) Regulation by state and federal agencies of issuance of, and trading in, stocks, bonds, and other securities.

LAW 742 Business Law (3) Deals with the formation, features and functions of general partnerships, limited partnerships and limited liability companies.

LAW 743 Federal Criminal Law (2-4, max 8) Covered topics include offenses relating to fraud and political corruption, terrorism, narcotics, money laundering, organized crime, false statements and obstruction of justice.

LAW 744 Critical Race Theory (2-4) Intersectionality, destruction and critical historiography; specifically affirmative action in education, hate speech and immigration reform.

LAW 745 Federal Criminal Law (2-4, max 8) Covered topics include offenses relating to fraud and political corruption, terrorism, narcotics, money laundering, organized crime, false statements and obstruction of justice.

LAW 746 Critical Race Theory (2-4) Intersectionality, destruction and critical historiography; specifically affirmative action in education, hate speech and immigration reform.

LAW 747 Federal Criminal Law (2-4, max 8) Covered topics include offenses relating to fraud and political corruption, terrorism, narcotics, money laundering, organized crime, false statements and obstruction of justice.

LAW 748 Federal Criminal Law (2-4, max 8) Covered topics include offenses relating to fraud and political corruption, terrorism, narcotics, money laundering, organized crime, false statements and obstruction of justice.

LAW 749 Securities Regulation (2-4, Sp) Regulation by state and federal agencies of issuance of, and trading in, stocks, bonds, and other securities.

LAW 750 Choice of Law (2, 3) Introduces students to the doctrines of choice of law. This field determines which state’s law applies when events causing disputes happen in several locations.

LAW 751 Sexual Orientation and the Law (2-4, FaSp) Explores the ways in which American law has responded to the diversity that exists within human sexual orientation.

LAW 752 Digital Media Transactions: Policy and Practice (3) Considers the policy and practice of digital media law in several disciplines including music, social media and other models for online content creation and distribution. Open only to Law School students.

LAW 753 Antitrust Law I (2 or 4) Laws designed to preserve and promote business competition, with heavy emphasis on the federal antitrust laws.

LAW 754 Antitrust and Intellectual Property Law (2-4) Covers the interface between antitrust law and intellectual property law.

LAW 755 Sex, Gender and the Law (1-4, FaSp) Explores law’s response to the questions of sex discrimination and gender identity and expression, with emphasis upon legal issues facing transgender and intersex persons.

LAW 756 Identity Categories (2-4, FaSp) Drawing on feminist legal theory, critical race theory, and lesbian/gay/bisexual and queer theory, this seminar will explore the treatment of identity categories in United States law.

LAW 757 Immigration Law (2-4) Covers the interface between antitrust law and intellectual property law.

LAW 758 Identity Categories (2-4, FaSp) Drawing on feminist legal theory, critical race theory, and lesbian/gay/bisexual and queer theory, this seminar will explore the treatment of identity categories in United States law.

LAW 759 Internet Law (2-4, FaSp) Integration of cyberspace and the Internet into existing legal structures. Topics include: First Amendment issues; intellectual property, privacy and child protection; criminal activity and governance and jurisdictional activities.

LAW 760a Interdisciplinary Law Journal Staff (1-10 or 2, FaSp) Source-checking and preliminary editing of articles and comments for publication in the Interdisciplinary Law Journal. For third-year students serving as staff members on the Journal. Graded A at IP to CR/D/F; B: CR/D/F.

LAW 761 Interdisciplinary Law Journal Writing (1-4, max 4, FaSp) Students will write journal notes as members of the Interdisciplinary Law Journal.

LAW 762a Interdisciplinary Law Journal Writing (1-4, max 4, FaSp) Students will write journal notes as members of the Interdisciplinary Law Journal. Graded IP to CR/D/F.

LAW 763 Federal Courts: The Federal System II (1-5, FaSp5m) Problems of adjudication in a federal system. Allocation of authority between federal and state courts and among Congress, the Executive and the Courts; choice of federal and state law; jurisdiction of federal courts and significant rules of practice.

LAW 764 International Business Transactions (3 or 4) Survey of legal aspects of international trade and investment transactions, including tax considerations.

LAW 765 Topics in Intellectual Property Law (1-4) Analyzes selected contributions to intellectual property scholarship and explores some challenging problems in contemporary intellectual property law.

LAW 766 Writing for Publication Seminar (1-4, max 8, FaSp) Special seminars to provide a forum for students who wish to produce a paper for academic publication to receive guidance and feedback.

LAW 767a Law Review Staff I (1-1 or 2) Writing, source-checking, and preliminary editing of articles and comments for publication in the Southern California Law Review. For second-year students serving as staff members on the Review. Graded CR/D/F.

LAW 768 Law Review Writing (1-4, max 4) Writing, source-checking and preliminary editing of articles and comments for publication in the Southern California Law Review. For officers of the Review. Graded IP to CR/D/F.

LAW 771 Intellectual Property and Technology Law Clinic I (2-5, Fa) Provides law students with the ability to represent clients (under the supervision of the professor) in cutting-edge issues of intellectual property and technology law. Corequisite: LAW 772 or LAW 841. Graded CR/NC.

LAW 772 Intellectual Property (2 or 4) The protection of intellectual property and encouragement of creativity. Explores copyright, trademarks, patents, and selected state law theories.

LAW 773 Internet Law (2-4, Fa) Integration of cyberspace and the Internet into existing legal structures. Topics include: First Amendment issues; intellectual property, privacy and child protection; criminal activity and governance and jurisdictional activities.

LAW 774 Immigration Law (2-4) The development of immigration law to its present state.

LAW 775 Immigration Clinic I (2-5, FaSp5m) Students represent clients before Immigration and Customs Enforcement, the Immigration Court, and certain law enforcement agencies in cases including applications for relief under the Violence Against Women Act, for asylum, and for relief against deportation.

LAW 776 Sales (2-4, FaSp) Analysis of the buying and selling of goods both in domestic and international transactions with a heavy focus on Article 2 of the Uniform Commercial Code.

LAW 777 Regulated Industries (2-4) Provides students with an understanding and an appreciation of regulated industries.
LAW 780 Intellectual Property and Technology Law Clinic II (2-5, FaSpSm) Continuation of LAW 779.

LAW 781 Clinical Internship/Externship I (1-12, FaSpSm) A clinical internship or judicial externship allows a student to gain hands-on legal experience in legal settings. Students will be assigned to a legal services program, government agency, or state or federal judge under faculty supervision. Graded CR/D/F.

LAW 782 Clinical Internship/Externship II (1-12, FaSp) Advanced clinical training/externship. Graded CR/D/F.

LAW 783 General Counsel Practicum (1-2, max 8) Students will work under the direction of an experienced attorney in a general counsel’s office. Graded CR/NC.

LAW 784 Theories of International Law (2-4) Explores theories of international law, examining classical and modern ideas of international legal obligations. Students develop their own intellectual structures for explaining international norms.

LAW 785 International Sales of Goods (2-4)

LAW 791 Law and Society (2-4) Examines the law coming from, how it operates in society, and how it shapes and is shaped by competing social economic, and political institutions.

LAW 792 Law and Philosophy (2-4, max 8) Examines the examination of the best scholarly work currently done by legal, moral and political philosophers in the country.

LAW 793 Law and Economics Seminar (1-4, max 8) Key concepts and cutting-edge research in law and economics. Workshops with leading scholars from around the country.

LAW 794 Law of the Political Process (2-4, max 8) Examines the state and federal laws regulating the political process and related Constitutional issues.

LAW 795 Immigration Clinic II (2-5, Sp) Continuation of LAW 774. Enrollment restricted to law students. Prerequisite: LAW 774.

LAW 796 Public Policy in Law: Analysis and Advocacy (1-4) Focuses on contemporary policy problems, identifies relevant legal issues and utilizes multidisciplinary techniques found in law, political science, economics and history to formulate positions.

LAW 797 Law, Mental Health and Ethics (2-4, max 8, FaSp) Focuses on one or two topics per year at the intersection of law, mental health and ethics and explores them from an interdisciplinary perspective.

LAW 801 Venture Capital Law and Finance (2) Introduces students to the unique legal and financial aspects of the venture capital industry and the skills needed to represent entrepreneurs and venture capital investors. Prerequisite: LAW 603; corequisite: LAW 681 or LAW 719.

LAW 802 Psychology for Lawyers (1, 2) Examines the psychological research on cognitive errors and biases that threaten to compromise a lawyer’s performance. Also examines ethical issues and professional happiness.

LAW 808 Medical-Legal Community Partnership Seminar and Practicum (1-4) Medical and law students, in conjunction with public policy advocates, work together to identify and improve health outcomes for vulnerable populations.

LAW 809 Deposition Strategies and Techniques (2, 3) Emphasizes strategies and tactics in asking and objecting to questions at a deposition in a civil case. Students will conduct mock depositions.

LAW 810 Patent Law (2-4, Sp) Patent laws, litigation and the process of prosecuting the patent application. The concept of invention and ownership of rights under patents.

LAW 811 Health Law and Policy (2-4) Examines the statutes and regulations that govern the health care system and the policies that shape its development.

LAW 812 Domestic Arbitration (3) Introduces students to the range of issues addressed by the Federal Arbitration Act and state arbitration laws.

LAW 814 Current Issues in Alternative Dispute Resolution (1) Examines current issues and topics that practitioners face when seeking to resolve conflicts with the help of ADR.

LAW 815 Deals (2-4) Examines the collaboration between business people aiming to accomplish a goal and lawyers translating their business objectives into contract language to achieve the goal.

LAW 816 Deal Making in the Entertainment Industry (1-2) Examines the major components of deals in the entertainment industry, and provides students the opportunity to learn real-world negotiating skills in the process.

LAW 817 International Laws and Institutions (1) Examines methods of dispute resolution used in other countries and compares them to those employed in the United States.

LAW 818 International and Domestic Ethics in ADR (2) Provides law students, lawyers and professional neutrals with an in-depth examination of the rules guiding our behavior in various dispute resolution processes. Open only to law students.

LAW 820 Pretrial Advocacy (3 or 4) Examines conceptual and practical aspects of interviewing, counseling, negotiation, settlement, drafting, and formal advocacy in the handling of legal cases.

LAW 821 Trial Advocacy (3 or 4, FaSp) Examines decision-making by counsel in the litigation of cases. Emphasis is given to decisions involving tactics and strategies and their implications for the functioning of legal institutions and substantive doctrine. Extensive use of simulated trial practice exercises.

LAW 822 Alternative Dispute Resolution Clause Drafting (1) Explores a variety of contract provisions, and teaches students the important drafting skills necessary to achieve a client’s goal.

LAW 823 Statutory Interpretation (2 or 3) Examines the change and evolution of law to discover its political roots and the ways policy making branches work to make and implement law.

LAW 824 Arbitration Advocacy (1) Helps students understand the basic approaches to preparing and presenting cases in the arbitration context.

LAW 827 Counseling the Startup Company (2-4, Sp) Role of the attorney in startup firms: business plan, employment agreements, lease, stock option plan, financing documents and distribution and strategic partnership arrangements.

LAW 829 Advanced Copyright Law (2-4) Study of federal copyright law, analysis of property rights and interests created thereunder. Manner in which these rights can be exploited in the various entertainment media. Prerequisite: LAW 772 or LAW 841.

LAW 840 Copyright and Fictional Characters (2-4) Involves the treatment of fictional characters by the courts and in new media and the fundamental copyright concepts that have shaped that treatment.

LAW 841 Copyright, Trademark and Related Rights (3) An introductory survey of statutory and case law, and underlying policy issues, concerning copyright, trademark and certain related legal rights.

LAW 842 Partnership Taxation (2-4)

LAW 843 Tax Policy Seminar (2-4) Students will write and present papers discussing topics in tax policy.

LAW 847 Refugee and Forced Migration Law (2-4) Examines refugee law and forced migration, including the causes and consequences of forced migration and the responses to forced migration.

LAW 849 International Human Rights Clinic I (4-5) Students work under close faculty supervision on cases and projects that involve the application of international law to address human rights violations.

LAW 850 International Human Rights Clinic II (4 or 5) Continuation of the International Human Rights Clinic. Prerequisite: LAW 849.

LAW 851 Topics in Criminal Law and Criminology (1-4, max 8, FaSp) Selected topics in criminal law or criminalology. May be repeated with permission of the instructor as topics vary.

LAW 854 Legal Design Lab (3) Students work in teams to develop innovative ways of addressing shortcomings in our legal systems to improve access, quality, efficiency and global integration and prosperity.

LAW 855 Topics in Maritime and Admiralty Law (2-4, max 6, FaSp) Taught in honor of James Ackerman, USC Law graduate of 1948, this class examines selected topics in maritime and admiralty law. May be repeated with permission of the instructor as topics vary.

LAW 856 Transnational Human Rights Litigation (1-4, Fa) Provides an introduction to the legal and political issues raised by cases involving international human right violations.

LAW 859 Regulation of Telecommunications (2-4, FaSp) Concentration on the regulation of broadcast television, cable television, telephone, and spectrum management.

LAW 860 International Criminal Law (4) Covers the prosecution, trial and punishment of individuals suspected of crimes considered among the most serious violations of international humanitarian and human rights law.

LAW 861 International Law Seminar (2-3, max 6, 5p) Investigation of selected problems of international law. May be repeated with permission of the instructor as topics vary.

LAW 862 Iraqi Refugee Assistance Project Seminar (1-4, max 8) Formally instructs students on U.S. and international refugee law and policy regarding the Iraqi refugee humanitarian crisis. Graded CR/D/F.

LAW 863 International Negotiations and Mediation (2-4) Introduction to negotiation and mediation from an international perspective. Development of essential skills for effective client representation in negotiation and mediation.
**LAW 864 International Insolvency (1-4)** Deals with multi-jurisdictional insolvency. Examines the insolvency laws of several different countries as well as Chapter 15 of the U.S. Bankruptcy Code and other issues.

**LAW 866 Counterterrorism, Privacy and Civil Liberties (2-4, FaSpSm)** Explores the spectrum of interrelated legal and policy issues known as “homeland security” since the events of September 11, 2001.

**LAW 867 Corporate Fraud (2-4, FaSpSm)** Introduces law students to the real world issues of major civil and criminal corporate fraud.

**LAW 880 Business Enterprise Taxation (2-4, FaSp)** Examination of the taxation of corporations, partnerships, and limited liability companies.

**LAW 870 Legal Writing Fellows (1-4, max 7, FaSpSm)** Assist in teaching writing and advocacy. Responsibilities include helping prepare lesson plans and drafting writing assignments and sample answers; leading class exercises; and judging first-year moot court practice rounds. Graded CR/D/F.

**LAW 871 First Amendment (2-4, FaSp)** Freedom of expression (political speech, symbolic expression, obscenity, commercial speech, defamation), rights of access to the media, religious protection and prohibition of establishment of religion.

**LAW 875 Advanced Legal Writing and Advocacy: Appellate Advocacy (1-4, FaSp)** Students will research, write, and rewrite an appellate brief and may work on motions and oral advocacy as well.

**LAW 877 Judicial Opinion Writing (2-4)** Students write a majority opinion and a dissenting opinion based on cases pending before the U.S. Supreme Court. This is a writing-intensive course.

**LAW 874 Media Law in the Digital Age (2-4)** Explores the interplay between the law, politics, and media, particularly mass media, in the digital age.

**LAW 875 Constitutional Theory Seminar (1-4)** Seminar course devoted to different methods of reading the Constitution.

**LAW 877 Major Trends in American Legal Thought (1-3)** Survey of major trends in American legal thought.

**LAW 878 Evolutionary Game Theory and the Law (1-3)** Uses the Evolutionary Game Theory methodology to explore the dynamics of cooperative interaction among people, and the role that legal punishment plays.

**LAW 881 Constitutional Innovation (2-4)** Examines the U.S. Constitution in transnational perspective. The focus is democracy; slavery, emancipation, and freedom; empire; and governmental structures.

**LAW 882 Advanced Legal Writing for Pretrial Practice (2)** Holc written advocacy skills for pretrial litigation practice. Draft motions, letters, and other communications to court, opposing counsel, and client. Practice oral communication through exercises.

**LAW 883 Advanced Legal Writing for International Business Lawyers (2)** Develop communication skills for international transactional practice. Practice drafting memoranda, letters, and other communications to partners, clients, and other attorneys. Practice negotiation in intercultural setting.

**LAW 884 Constitutional Law: Equality and Liberty (3-4)** Focuses on individual rights and liberties, with special attention paid to equal protection and substantive due process.

**LAW 888 First Amendment: Law and Religion (1-2)** Explores the laws that govern and affect religious groups and religious belief-systems and religious experience in the United States.

**LAW 889 Law Informed by Faith (2-4)** Considers the role of faith in a lawyer’s life and work. Discusses issues in constitutional law, tort law, criminal law, professional responsibility and more. (Duplicates credit in LAW 748.)

**LAW 890 Directed Research (1-4)** Directed Research may be taken only with the approval of the Administrative Board. This course is intended for substantial independent research and study that does not result in a paper of publishable quality. It includes, but is not limited to, preparation of research memorandum for faculty research projects, empirical research for such projects, and supervised independent study. Directed research is to be supervised by a regular, full-time faculty member (including full-time visiting faculty). Students may take a maximum of 4 units of Directed Research during their educational experience at the law school.

**LAW 891 Post-Conviction Justice Seminar I (1-5, max 5, Fa)** Examines the substantive rights of federal prisoners with respect to parole, sentencing, validity of conviction and conditions of confinement and the procedural mechanisms by which to enforce those rights. Under faculty supervision, students provide legal assistance to federal inmates in administrative and judicial proceedings. Graded CR/D/F.

**LAW 892 Post-Conviction Justice Seminar II (1-5, max 5, Sp)** Continuation of LAW 891. Prerequisite: LAW 891.

**LAW 893 Advanced Clinical Training (1-5, max 10, FaSp)** For third-year students who wish to continue their clinical training.

---

**Keck School of Medicine of USC**

Founded in 1885, the Keck School of Medicine of USC is part of Keck Medicine of USC, a major center of medical research, education and patient care with more than 1,100 full-time faculty members and a voluntary faculty of more than 4,000 physicians. Faculty includes national leaders in each of its 25 clinical and basic science departments. Located on the university’s 30.8-acre Health Sciences Campus three miles northeast of downtown Los Angeles, the Keck School is adjacent to the Los Angeles County-USC Medical Center, one of the largest teaching hospitals in the United States.

The Keck School’s faculty, students and residents serve more than one million patients each year through the Los Angeles County-USC Medical Center, the USC Norris Cancer Hospital, the Keck Hospital of USC, Children’s Hospital Los Angeles, USC Verdugo Hills and a network of USC-affiliated hospitals throughout Southern California. More than 500 faculty physicians care for patients with complex medical needs as well as provide primary care.

The new Eli and Edythe Broad GRB Center for Regenerative Medicine and Stem Cell Research of USC, which opened in the fall of 2010, joins the Harlyne J. Norris Cancer Research Tower and USC Zilkha Neurogeneic Institute in providing state-of-the-art facilities for important scientific discovery. With more than $2.48 million in total federal research support, the Keck School ranks among the top U.S. medical schools in federal funding.

The Keck School of Medicine of USC is at the forefront of medical education and was among the first medical schools to adopt introduction to Clinical Medicine courses for first-year students, providing direct experience in patient care from the start.

FAX: (323) 442-2433

Associate Dean, Admissions: Raquel D. Arias, M.D.

The Keck School of Medicine of USC Committee on Admissions is responsible for selecting members of the entering class. The committee comprises both faculty and students. The committee reviews candidates whose academic achievement, commitment to service and personal qualities distinguish them from the many thousands of applicants who apply.

The applicant’s undergraduate major may be in any subject area from an accredited college or university. Although sound preparation in the basic sciences is essential, a background in the humanities, and depth and breadth of personal experience are also important.

General Admissions Information

The Keck School of Medicine of USC participates in the centralized American Medical College Application Service (AMCAS) and also requires the submission of the Keck School of Medicine supplemental application. Approximately 7,500 applications are received per year and 750 applicants receive interview invitations. Interviews begin in mid-September and end in early March. Students receive acceptance letters beginning in October.

Requirements

All applicants to the Keck School of Medicine of USC M.D. program must have completed a baccalaureate degree, or its equivalent, from an accredited college or university prior to matriculation. The school has no specific course requirements. Strong applicants will have distinguished themselves in their chosen field of study and have demonstrated competency in the sciences at the time of their application. The Medical School Admission Requirement (MSAR) guide may be referenced for recommended course work. The MCAT is required, and scores must be from within the previous three years of the date of matriculation.

International applicants must hold a degree considered equivalent to a U.S. bachelor’s degree as evaluated by the USC Office of Graduate and International Admissions.

Individuals who have discontinued studies in medical school for academic reasons are not eligible to apply to the Keck School of Medicine of USC.

Medical College Admission Test (MCAT)

The MCAT is required of all applicants. Applicants to the entering class are required to take the MCAT within the previous three years of the date of matriculation and no later than August in the year that the application becomes available. Scores from administrations of the examination taken outside of this time period will not be accepted.

Applications

The Keck School of Medicine of USC participates in the American Medical College Application Service (AMCAS). AMCAS reproduces and distributes an application and standardized academic record to participating medical schools designated by the student. Applications may be obtained from its Website (aamc.org).

Applications are available after June 1 for the class entering in August of the following year. Applications to USC must be returned to AMCAS before November 3, but earlier application is encouraged. The Keck School of Medicine of USC participates in the Early Decision Program. Interested applicants apply between June 1 and July 31 and are notified of the Admissions Committee’s decision by September 1.

The Committee on Admissions reviews all information submitted on the AMCAS application as well as the school’s supplemental application. The nonrefundable supplemental application fee is $100.

Personal Interviews

Personal interviews are a required aspect of the application process. Interviews are conducted at the Keck School of Medicine on the Health Sciences Campus of the University of Southern California.

Notice of Acceptance

Notices of acceptance will be sent to successful candidates beginning in October until the class is filled. Since Keck uses a rolling admissions process, it is highly recommended to submit a completed application early in the cycle. If not chosen for an interview, candidates are usually notified by March of the application year.

Candidates must reply to an offer of admission and agree to the Essential Characteristics and Abilities Required for the Completion of the MD Degree within 10 business days of receiving the offer of admission. A letter of withdrawal, via email or post mail, is required if students wish to relinquish their place in the class; release is granted automatically when the letter is received.

M.D./Ph.D. Program

The Keck School of Medicine has developed an M.D./Ph.D. program designed for individuals who aspire to a career in academic medicine or a leadership role within the biomedical industry. Students are expected to acquire the modern skills that are required for physician competence. Additionally, the M.D./Ph.D. program provides an opportunity for the development of research expertise and academic excellence while fulfilling the requirements for a Ph.D. degree.

A joint program between the Keck School of Medicine and the California Institute of Technology (Caltech) was established in fall 1997 for the granting of the M.D./Ph.D. degree. Ph.D. studies may be carried out at Caltech or through collaboration between two laboratories at both institutions. The M.D. will be awarded from the Keck School of Medicine and the Ph.D. will be awarded from Caltech.

The M.D./Ph.D. executive committee is responsible for selecting students for the M.D./Ph.D. program. Members of the committee review the qualifications of each applicant, including MCAT scores, academic performance, letters of recommendation and research experience. The committee interviews candidates and then selects students for admission to the program. All applicants to the joint program interview at Keck School of Medicine and the California Institute of Technology.

General Information

The M.D./Ph.D. program enrolls four students annually. Students have the option of doing the Ph.D. at USC or Caltech. Each student accepted to the program must also be accepted to the Keck School of Medicine. All positions are fully funded.

Requirements

Admission requirements for the M.D./Ph.D. program are those of one of the graduate programs at Caltech, the Keck School of Medicine and USC. Students select the program of their choice during the first two years of the medical curriculum; descriptions of these programs are available from each department or program and Caltech.

Graduate Record Examinations (GRE)

To assist the M.D./Ph.D. Committee in its evaluation of candidates, applicants to the M.D./Ph.D. program are encouraged to provide recent GRE scores. The committee does not, however, require GRE scores in order to consider an application.

Applications

Applicants to the Keck School of Medicine are advised to request information about the M.D./Ph.D. program at the time of application. In addition to completing the medical school application, applicants should indicate their interest in the M.D./Ph.D. program.

Students who are currently pursuing the medical curriculum at the Keck School of Medicine may apply to the M.D./Ph.D. program by contacting: M.D./Ph.D. Program, Keck School of Medicine, 1975 Zonal Avenue (KAM 200), Los Angeles, CA 90089-9023; (323) 442-2965; FAX: (323) 442-2318.

Personal Interviews

All applicants are screened by members of the M.D./Ph.D. Executive Committee; candidates who meet the basic criteria of the program are then invited to be interviewed by members of the committee and faculty at USC and Caltech.

Notice of Acceptance
Students selected for acceptance to the M.D./Ph.D. program are notified between January and May of each year. Students begin their program in the fall semester and register for courses in the medical curriculum at that time.

Further information about the M.D./Ph.D. program at the Keck School of Medicine may be obtained by contacting: M.D./Ph.D. Program, Keck School of Medicine, 1975 Zonal Avenue (KAM 200), Los Angeles, CA 90089-9023; (323) 442-2966, FAX: (323) 442-2318; email: mdpdhpgm@usc.edu.

Graduate Degree Programs

Admission standards for these curricula are established jointly by the Keck School of Medicine, its participating programs and the Graduate School.

Applicants to graduate degree programs offered at the Keck School of Medicine must meet the general criteria for acceptance to the Graduate School. Each participating program may have additional requirements for application. The programmatic requirements for the Keck School of Medicine's graduate programs are detailed in the Graduate Degree Programs section.

Further information about graduate degree programs at the Keck School of Medicine may be obtained by contacting: Office of the Associate Dean for Graduate Studies, Keck School of Medicine, 1975 Zonal Avenue (KAM 409), Los Angeles, CA 90089-9023; (323) 442-1199, FAX: (323) 442-1199.

Tuition and Fees

The tuition and fees listed below are estimated for fall semester, 2013. All fees are subject to change without notice by action of the University of Southern California Board of Trustees. The university reserves the right to assess new fees or charges. Tuition is not refundable; late registration fees are mandatory and cannot be waived.

Tuition for each semester of the medical school curriculum is due and payable at the beginning of the semester. Registration is not permitted after the third week of instruction. Late payment of tuition is subject to a mandatory late fee. Average budgets for medical students will vary according to their year in the curriculum. Sample budgets for Year I, Year II, and the Junior/Senior Continuum may be requested from the Office of Financial Aid. Tuition, mandatory fees and parking are the same for all years.

For courses of the medical curriculum, the Keck School of Medicine does not award numerical or letter grades. The evaluation process leading to a pass or fail grade is based on performance of the student in relation to announced course criteria. Throughout medical school, students will be evaluated on their fund of knowledge, problem-solving ability, professional behavior, relevant personality traits and clinical and interpersonal skills. Additional information on grading and evaluation is contained in the handbook provided to every enrolled medical student.

Faculty instructors are responsible for establishing evaluation criteria appropriate to the objectives of each course, discipline and clerkship, and for specifying the manner in which evaluative information is to be gathered. Instructor comments on student performance form an integral part of a student’s total evaluation. For each evaluation, descriptive comments based on the student’s overall performance in relation to course criteria are submitted for permanent file to the office of the associate dean for student affairs, together with performance reports.

The student’s permanent file is used to prepare a letter from the senior associate dean of Student Affairs and Educational Affairs of the Keck School of Medicine, which accompanies student applications for internships and residencies. These records are maintained by the Office of Student Affairs; students may review their records during regular office hours by scheduling an appointment. During the lifetime of the physician, the permanent student record may be consulted as evidence of completion of the required curriculum and as certification for licensure.

Grading and evaluation policies for graduate degree programs and for joint M.D./Ph.D. degrees are established in conjunction with the Graduate School. In general, courses taken in partial fulfillment of graduate degree requirements receive letter grades that are recorded by the university.

Optional Fees

- Parking fee, per semester (see Tuition and Fees).

Degrees and Requirements

The Keck School of Medicine and its departments offer types of curricula leading to award of: the Doctor of Medicine; joint M.D./Ph.D.; joint M.D./MBA; joint M.D./MPH; M.D./M.S., Global Medicine; a Master of Academic Medicine, MAM; Global Medicine, M.S.; Pharm.D./M.S., Global Medicine; Global Health, B.S.; Health Promotion and Disease Prevention Studies, B.S.; graduate degrees in conjunction with the Graduate School in Applied Biostatistics/Epidemiology, M.S.; Biochemistry and Molecular Biology, M.S.; Biostatistics, M.S., Ph.D.; Cancer Biology and Genomics, Ph.D.; Cell and Neurobiology, M.S.; Clinical, Biomedical and Translational Investigations, M.S.; Development, Stem Cells, and Regenerative Medicine, Ph.D.; Epidemiology, Ph.D.; Experimental and Molecular Pathology, M.S.; Medical Biology, Ph.D.; Molecular Epidemiology, M.S., Ph.D.; Molecular Microbiology and Immunology, M.S.; Molecular Structure and Signaling, Ph.D.; Nurse Anesthesia, M.S.; Physiology and Biophysics, M.S.; Psychology and Public Health, Ph.D./MPH; Stem Cell Biology and Regenerative Medicine, M.S.; Integrative Biology of Disease, Ph.D.

The Department of Preventive Medicine has two academic divisions: the Health Behavior Research Division, which offers a B.S., Global Health; B.S., Health Promotion and Disease Prevention Studies; B.S., Global Health/Master of Public Health; B.S., Health Promotion and Disease Prevention Studies/Master of Public Health; Master of Public Health; Pharm.D./Master of Public Health; Ph.D., Physical Therapy/Master of Public Health; Ph.D., Preventive Medicine (Health Behavior Research); and the Biostatistics Division, which offers M.S. programs in Biostatistics, Molecular Epidemiology, and Applied Biostatistics/Epidemiology. The division also offers Ph.D. programs in Biostatistics, Epidemiology, and Molecular Epidemiology.

In addition, departments of the school have certificate programs in certain medical specialties.

The Medical Education Committee (MEC) is responsible for overall planning of the medical school curriculum. Separate curriculum committees plan and supervise the instructional programs for each year of medical school. Each of the committees includes student representatives and faculty members from the departments involved in each year’s teaching program.

The curriculum of medical education at USC continues to emphasize preparation of the student to give optimal patient care. Students are progressively involved in patient care beginning with their first semester. The curriculum is patient-oriented, and students are expected to assume increasing responsibility for patient care as they acquire sufficient knowledge and skills. During the clinical experiences of the Junior/Senior Continuum students eventually attain a level equivalent to that of an intern.

At the same time, the school recognizes that the explosion of knowledge and techniques brought about by the current “biotechnology revolution” is rapidly altering the practice of medicine. During the four years of medical school, students cannot be taught all that will be needed for the practice of medicine – either now or in the years ahead. To a far greater degree than in the past, the present curriculum encourages students to acquire skills and habits of self-education and self-instruction that will prepare them for lifelong learning.

The faculty of the school recognize that while most students will eventually practice medicine, some will choose an academic research career. The plan of medical education fosters the development of individuals whose careers may be directed along this path. Faculty are available to counsel and encourage research participation by students during their medical school training.
The curricula of the Keck School of Medicine and its departments acknowledge the crucial role of basic medical science in the advance of modern clinical practice. Both basic and clinical science are taught throughout the four years of the undergraduate medical curriculum. Basic science is taught both as pure basic science and in correlation with clinical science. In addition, a number of the school’s departments cooperate with the USC Graduate School to offer degree courses leading to the award of the Master of Science and Doctor of Philosophy. Most of these graduate courses may also be taken as part of the school’s joint M.D./Ph.D. program.

Doctor of Medicine

The Keck School of Medicine awards the Doctor of Medicine to enrolled students who have satisfactorily completed the four-year curriculum of the school. This curriculum integrates instruction in all departments of the school: Department of Anesthesiology, Department of Biochemistry and Molecular Biology, Department of Cell and Neurobiology, Department of Dermatology, Department of Emergency Medicine, Department of Family Medicine, Department of Medical Education, Department of Medicine, Department of Molecular Microbiology and Immunology, Department of Neurological Surgery, Department of Neurology, Department of Obstetrics and Gynecology, Department of Ophthalmology, Department of Orthopaedics, Department of Otolaryngology – Head and Neck Surgery, Department of Pathology, Department of Pediatrics, Department of Physiology and Biophysics, Department of Preventive Medicine, Department of Psychiatry and the Behavioral Sciences, Department of Radiation Oncology, Department of Radiology, Department of Stem Cell Biology and Regenerative Medicine, Department of Surgery and Department of Urology.

The sections that follow provide a synopsis of the emphases and organization of this four-year curriculum.

Years I-II (two academic years)

The curriculum is designed to enhance the students’ understanding of the basic sciences and their relevance to clinical medicine. The methodology used will improve students’ problem-solving and independent study skills. Curriculum themes are delivered in a case-centered format with the integration of small-group learning sessions, directed independent study and newer instructional technologies emphasized.

Year I-II begins in the first semester with Foundations of Medical Sciences followed by organ system review ending with integrated Case Study section. There is an eight-week summer break between the first and second years. Students also take Clinical Translational Research (CTR), Evidence Based Medicine (EBM), Introduction to Clinical Medicine (ICM) and Professionalism and the Practice of Medicine (PPM).

Each week of the academic year is composed of approximately 20 hours of lecture and small group sessions with an additional 20 hours of independent directed study, CTR, EBM, ICM and PPM. Examinations in all systems throughout the first two years are graded Pass/Fail. Dean’s recognition is awarded on the basis of year-end comprehensive examinations and special projects.

Foundations of Medical Sciences (FMS)

This 19-week introductory system provides the student with the fundamental knowledge necessary for the integrated study of the basic and clinical sciences in the human organ systems. Foundations of Medical Sciences is divided into three sections: FMS I, II and III. The overarching goal for these sections is the use of knowledge of medical science to describe basic concepts relating to the structure and function of the human body in normal and diseased states, and thus, provide a foundation for comprehending the disease-specific content required to achieve the case-based objectives in subsequent organ systems.

Gross Anatomy

Cadaver dissection remains a unique teaching tool by which the three dimensional organization of the human body is studied. Gross Anatomy will begin in the Core Principles of health and disease system with the dissection of the body wall and major body cavities followed by head and neck dissection in the neurosciences system, limbs, dissection during the musculoskeletal system and pelvic cavity dissection in reproduction system. Continued study of gross anatomy by use of prosected anatomical specimens as well as computer programs, selected review lectures, and so on, continues throughout the integrated organ systems.

Introduction to Clinical Medicine (ICM)

ICM expresses the strongly patient-centered orientation of the medical school curriculum. The student is introduced to patients and is involved in patient care activities from day one. Students are introduced to the principles of patient care and management and examine what it means to be a physician and how one becomes a physician.

The major content areas of the course include communication in the setting of illness, the unified concept of health and disease (the biopsychosocial model), basic clinical skills and the correlation of basic science with clinical medicine.

ICM emphasizes the systematic acquisition of the clinical skills of interviewing, history taking, physical examination, elementary clinical problem solving and medical record keeping. Throughout the Year I-II continuum, the ICM clinical skills curriculum is integrated with basic science instruction. Students can therefore learn and apply basic science knowledge in the clinical setting. By encouraging a thorough understanding of the direct applications of basic science research to modern clinical medicine, instructors motivate the student to learn, use and retain more of the content and concepts presented in the basic science portions of the curriculum.

A group of five or six students spends from four to eight hours each week with an instructor from the clinical faculty who remains with the group for one to two years. As the group deals with basic medical themes (death, pain and helplessness) and issues (patient responsibility, learning to live with ambiguity and uncertainty), instructors help students to cope with their own feelings. This format opens the door for student-faculty interaction and improvement of student-faculty communication.

Instructors encourage students to take advantage of the learning experiences provided by their roles as helping and therapeutic persons. Students develop their ability to communicate with patients in the setting of illness and are guided by patient concerns to enhance their own growing knowledge, skills, abilities and responsibilities. Students are expected to acquire skills and habits of self-education and self-instruction that will prepare them for lifelong learning.

The unified concept of health and disease presented in this course enables students to comprehend the human organism in all its complexity. Using their clinical experiences as a teaching model, students are taught to consider the patient as an integrated whole and to view the patient’s illness or disease as more than simply a disruption of physiologic processes or a collection of physical findings.

Additional learning experiences occur through workshops and focus experiences. ICM workshops provide standardized instruction in history taking and physical examination, as well as integrated instruction in areas that cross disciplines. These include physician well-being, substance abuse, domestic violence, and ethics. Through focus experiences, students are encouraged to explore a variety of practice environments as well as community-based health and social services. For example, students may visit outpatient clinical settings, a geriatrics long term care facility, a hospice care facility or homeless services organizations.

Professionalism and the Practice of Medicine (PPM)

The purpose of the PPM course is to create a community and social context to provide, identify and facilitate learning from professional role models for students throughout the first two years of the medical school curriculum, as well as to help students gain skills and competence in the areas of communication, the social and community context of health care, ethical judgment, self-awareness and reflection, self-care and personal growth, professionalism, cultural competence, and lifelong learning. The curriculum is dynamic and interactive, allowing for much small-group discussion and participation. Students are encouraged to work collaboratively and enhance small-group skills, in order to improve their participation in Introduction to Clinical Medicine (ICM), Gross Anatomy, MDL laboratories and large-group sessions, as well as to prepare them for the team work of their clinical years.

The PPM course sessions meet on Monday afternoons, typically for two hours per session. The students meet in groups with two faculty members, who serve as their mentors throughout the first year of their pre-clinical education; at least one mentor is a clinician. The clinical faculty comes from multiple disciplines within Keck and the local community. While the course features large lectures, there is a great emphasis on small-group learning acquired from community leaders, faculty-mentored small-group discussions, student presentations and student-led sessions.

The students participate in a core curriculum in Year I, which includes general topics such as cultural competence, ethics, health care policy and finance, professionalism, and empathy. In Year II, the students are allowed to select from nine different areas of interest (selectives), and meet in groups with faculty having expertise in the given area. Examples of selectives presented include advanced ethics, medicine and the mind, spirituality and medicine, medical arts and humanities, global health, complementary and alternative medicine, medicine’s interaction with technology, physicians operating outside their comfort zones, and the future of health care.

The PPM course provides students with an opportunity to build a professional identity, develop relationships with faculty mentors, and increase team-building and community-building skills. Students receive an introduction to the concepts of professionalism and ethics, with a better understanding of their real-world implications. The PPM course encourages leadership while engaging in the process of learning, characterized by presentations within both small and large groups, as well as professional development through exposure to multiple professional, ethical, and cross-cultural scenarios, cases, and providers. Evaluation is provided through student submission of portfolios containing written self-reflections, responses to faculty and peer feedback, and evaluations completed over the course of a two-year
longitudinal curriculum. Finally, PPM hones sensitivity and skills relevant to medical professionalism to better prepare students for their transition into the clinical years of the medical school curriculum.

**Clinical Translational Research**

This course, a series of on-line lectures accompanied by small group discussion sessions, is intended to introduce students to the methods of clinical and translation research (CTR) and prepare them for carrying out research as medical students. Students are required to complete a Required Scholarly Project (RSP) and this course will provide students with the basic skills and competencies needed to plan, conduct, and complete their RSP. Regardless of a student’s future career path, the practice of medicine will be driven by the findings of CTR. Rapid advances in basic sciences, driven to new technologies such as genomics, have brought exciting new possibilities for identifying people at risk for disease, for identifying disease in its earliest stages, and in targeting therapies on an individual basis. On the verge of a new era of “personalized medicine”, healthcare provision is driven by what is known about the characteristics of each individual and of the diseases that they may have.

CTR represents the research approach for moving from basic discovery in the laboratory to application in individual patients and in making populations healthier. Medical researchers have long carried out patient-oriented or clinical research. The term CTR is more recent, coming into use over the last decade in recognition of the research continuum from basic discovery in the laboratory to application in patients and on to populations. One problem in bringing discoveries into practice has been a gap between the work of laboratory researchers and clinical investigators; CTR bridges that gap.

**Evidence Based Medicine (EBM)**

Evidence-based medicine (EBM) is the clear, conscientious, and prudent use of current best evidence in making patient care decisions. Evidence-based guidelines are considered to be the basis for decision-making in clinical practice, guiding screening, diagnosis and treatment. In a new era of healthcare reform, EBM will likely be given even greater weight and outcomes are tracked carefully in order to evaluate the effectiveness of guideline-driven care.

Evidence-based practice is primarily based on five well defined steps: 1) Asking Focused Questions: translation of uncertainty to an answerable question; 2) Finding the Evidence: systematic retrieval of best evidence available; 3) Critical Appraisal: testing evidence for validity, clinical relevance, and applicability; 4) Making a Decision: application of results in practice; and, 5) Evaluating Performance: auditing evidence-based decisions.

EBM foundational material is taught during Foundations of Medical Sciences I as part of the biostatistics and epidemiology curriculum. Along with the clinical and translational research series during the first year of medical school, this information lays the foundation for the EBM curriculum during the remaining years of instruction.

**Organ System Review**

A sequence of study presenting integrated basic and clinical science instruction involving human organ systems – skin, hematology and clinical immunology, neurosciences, musculoskeletal, cardiovascular, renal, respiratory, endocrine/metabolism, reproduction, gastrointestinal/liver – follows Foundations of Medical Sciences.

**Integrated Case Study**

This section completes the second year of the Year I-II continuum and emphasizes patient-centered problems that integrate the basic and clinical science presented in the preceding organ systems. Students will explore the multi-organ effects of disease processes and reinforce diagnostic reasoning skills. In addition, concepts of pathophysiology, evaluation and management that can be applied to any organ system will be included. This section will also reinforce the appropriate use of medical information resources, effective self-directed learning skills, and interpersonal and group communication skills.

Separate review sessions of the important basic science and clinical concepts covered during the previous two years also occur during this seven-week section. These sessions will assist students in preparing to take Step I of the United States Medical Licensing Examination (USMLE).

By early spring of the second year of the Year I-II continuum, students are expected to select their academic advisors and to begin arranging the schedule of clerkships to be taken during Year III-IV. By the end of the fall semester, Year II, each student receives information that describes the curriculum requirements of Year III-IV. By the end of the fall semester, Year II, each student receives information that describes the curriculum requirements of Year III-IV. Students choose the area of medical practice that they are most likely to pursue and an advisor is assigned from that discipline. The adviser counsels the student on clerkships and opportunities in graduate medical education.

**Required Scholarly Project**

The Required Scholarly Project (RSP) is designed to provide medical students with the opportunity to become engaged in hypothesis-driven research to promote analytical thinking skills and ultimately, physician leaders. The aim of the RSP is to expose students to the process of scientific inquiry, teaching them how to formulate an answerable question and the requisite methodology in seeking appropriate answers. Each student undertakes a faculty mentored research project in a discipline of his or her choice. Viable disciplines encompass a wide spectrum to include: biomedical research, from discovery to application, and health care, i.e., basic science, clinical, educational, behavioral science, health services, community and epidemiological activities. The RSP is a longitudinal experience throughout all four years of medical school, with successful completion being required for graduation. Students with projects deemed meritorious by the RSP steering committee will receive “Distinction in Research” recognition at graduation.

**Year III-IV (two academic years)**

The final two years of medical school are designed as a continuum of two calendar years, beginning in July at the end of Year II. During the spring of their second year, students schedule clerkship rotations to be taken during the two years. Each student’s program is designed with the assistance of faculty advisers and includes 50 weeks of required clerkships, 16 weeks of elective clerkships and 16 weeks of required clerkships.

All degree candidates are required to take Step I of the United States Medical Licensing Examination (USMLE) prior to entering Year III-IV and pass it before starting their senior year. Students must pass Step II CK and CS of the USMLE as a graduation requirement.

During Year III-IV, each student may schedule 16 weeks of discretionary time for personal convenience, remedial work, funded research work and other non-curricular activities, such as investigating postgraduate training programs. Although every effort is made to provide flexibility in the scheduling of each student’s program, some inherent limitations are imposed by the maximum enrollment permitted for each clerkship. Students are a vital part of the university’s medical team, which provides health care for patients throughout the year. Vacations are therefore subject to some scheduling adjustments.

**Intercession I and II**

The intercession curriculum is two, one-week sessions established for Year III students that will enable learners to pause, reflect and consolidate the many and varied clinical experiences that they encounter in their third year of medical school; to promote advanced clinical skills, professional development, health policy formulation and ethical decision-making, and patient safety; and to further prepare for the residency application process.

This individualized curriculum will allow students to revisit and focus basic-science topics through the prism of newly learned clinical material and to foster capacity for the analysis and formulation of health care policy in light of the political, economic, legal and social, and ethical dimensions of health care.

Students will be instructed in a systems-based approach to patient safety by stimulating the imagination, curiosity and skills of close observation and careful interpretation through engagement with the arts and humanities. Developing and building advanced clinical skills by acquiring, appraising and applying evidence in the context of individual patient decision-making, (i.e., Evidence Based Medicine) are two important goals of the intercession curriculum.

Providing comprehensive, coordinated and consistent career advising along with fostering the continuing professional development of the learners in the frame of clinical practice are key components. Finally, the curriculum will provide ongoing instruction in the provision of culturally competent care and prepare learners for their required community project.

**Selective Clerkships**

Students are required to schedule 16 weeks of selective clerkships, chosen from a list of four- or six-week clerkships approved by the Clinical Curriculum Committee. Selective clerkships are carried out at USC-affiliated hospitals and encompass virtually all specialty areas. Information is available at medweb.usc.edu.
Elective Clerkship

The elective period consists of 16 weeks, during which electives may be taken on campus, at USC-affiliated hospitals or at more distant medical schools or medical centers. Approved on-campus electives that are offered regularly are listed in the elective catalogue.

Proposals for other on-campus and off-campus electives are reviewed individually by a committee composed of faculty members and students. All petitions must be submitted at least six weeks before the beginning of the rotation. Off-campus electives require documentation from the off-campus preceptor, endorsement of the student’s medical school adviser, and prior approval and review by the Clinical Curriculum Committee. Credits are not given for electives until an evaluation has been received from the preceptor and a critique of the elective submitted by the student. Students with an academic deficiency may not schedule off-campus electives.

Business of Medicine (BOM)

This course, designed for Year III medical students, will introduce students to the fundamentals of the business of medicine, including the nuts and bolts of medical business, practice management and law, physician leadership, health care finance, and health care quality and costs. The BOM course will be case-based and interactive, and facilitated by leaders in the fields of health care business and management.

Program in Medical Humanities, Arts and Ethics

This four-year curriculum begins with collaborative discourse about ethical problems to help students learn to identify, analyze and resolve ethical problems. This exercise is followed by interim skills building/maintenance and by instructor-facilitated discussion of videotaped ethics cases.

In Year II, the program focuses on ethical discernment and action in simulated settings and the study of the human dimensions of medicine. Standardized patients interact with students to help teach the telling of bad news, and students also learn from the humanities about patients as persons. The program concludes with a forum in which students must decide what action to take based on their own convictions.

Year III is devoted to ethics education by clinical role models and encompasses instruction in the core clerkship by ethical standard-bearers. Students also participate in home hospice care and pain management cases.

During Intersession, the program includes a series of sessions that focus on contemporary health care and the physician-in-society. The goal of the sessions is to provide students with the experience of integrating the principles, methods and bedside issues included in Years I-III of the program. Students practice applying the micro-level (individual/clinical) decisions to the ethical dilemmas and policy issues that face physicians at the mezzo-level (health care organizations), and to the macro-level (professional society and nation). Topics include issues of professionalism; allocation of resources; the economics, organization and societal oversight of health care; and the care of dying patients.

Fifth-year Research Option and Dean’s Scholars

USC offers students the opportunity to take a full year of research experience with either a Keck School of Medicine faculty mentor or an approved faculty mentor at another institution. This program is open to any student in good to excellent academic standing who has completed his or her first year of medical school. Students interested in the option must study a faculty preceptor and present a description of the proposed research program and funds available in support of the program to the associate dean for curriculum. A stipend, comparable to that received by a graduate student at the postgraduate level, is available. Application for this program is made through the Office for Student Affairs (KAM 100B) and will be supervised through the Office of the Associate Dean for Student Affairs (KAM 100B). Dean’s research scholarships are available for selected dean’s research scholars pursuing this option.

M.D./Ph.D. Program

Departments and programs of the University of Southern California and the California Institute of Technology participate in the joint M.D./Ph.D. degree program administered by the USC Graduate School, the Keck School of Medicine and the California Institute of Technology. This program integrates the medical school curriculum with graduate curricula in the basic sciences, to provide a unified course of study leading to both the M.D. and Ph.D. degrees.

This program is especially designed to prepare highly qualified students for careers in academic medicine and medical research. Formal course work and dissertation research provide the student with in-depth scientific preparation and research experience which enhances the application of basic science information to the diagnosis, treatment and prevention of disease. Conversely, the Ph.D. education becomes more meaningful because of its disease-oriented emphasis.

The curriculum for M.D./Ph.D. students differs from that of Ph.D. graduate students in the basic sciences in that the former take medical school courses as well as selected graduate level basic science courses and specific courses designed for M.D./Ph.D. students. The integrated training of the M.D./Ph.D. program enables students to compress their total academic effort by applying some course work toward the requirements of both degrees. On average, completion of the combined program requires a total of eight years.

The following graduate programs from the Keck School of Medicine participate in the M.D./Ph.D. program:

- Cancer Biology and Genomics
- Development, Stem Cells and Regenerative Medicine
- Medical Biology
- Molecular Structure and Signaling
- Biologic Sciences/Neurosciences, Molecular and Computational Biology
- Engineering
- Preventive Medicine (Biostatistics, Epidemiology, IPR/Health Behavior, Molecular Epidemiology)
- Selected graduate programs from the USC Viterbi School of Engineering and the USC Dornsife College of Letters, Arts and Sciences also participate in the combined degree program.

Time limits for qualifying examinations and other procedures are determined by considering M.D./Ph.D. students as medical students for the periods when they are following the medical curriculum and as full-time graduate students during their years of graduate research prior to advancement to the Junior/Senior Continuum.

M.D./Ph.D. candidates have the option of pursuing a laboratory experience before beginning the Year I medical curriculum through laboratory rotations at either USC or the California Institute of Technology. This laboratory experience is strongly encouraged although not required.

During the first two years of their program, M.D./Ph.D. students follow the medical school curriculum and gain added exposure to research faculty through a special survey course. Students are guided by the M.D./Ph.D. executive committee, which outlines the integration of the graduate program with the medical school curriculum and serves as the students’ liaison until they have selected a graduate program and graduate research adviser. The graduate programs vary widely in the extent to which they allow credit toward the Ph.D. for courses taken during the first two years of medical school. M.D./Ph.D. students are encouraged to select a graduate program by early spring of the second year of medical school. Students are required to apply for admission to the Ph.D. program of their choice by the recommended deadline on the graduate application.

Prior to entering Ph.D. studies, the Keck School of Medicine allows M.D./Ph.D. students the option of beginning their clinical training by taking one six-week required clerkship in either Family Medicine or Pediatrics. This can provide an early introduction to clinical medicine and a context for integration with the basic sciences of the thesis years.

Beginning with the third year of the M.D./Ph.D. program, students enter their selected program as full-time graduate students. Although the content of graduate courses required of M.D./Ph.D. students is generally identical to that required of Ph.D. students in the same graduate program, M.D./Ph.D. students are permitted greater latitude in the scheduling of their graduate courses. Four years are commonly necessary to fulfill requirements for the Ph.D., including course work, qualifying examinations, independent dissertation research, and writing of the dissertation.

After completion of the graduate program, the student is advanced to the Junior/Senior Continuum and completes the final two years of clinical training required by the medical school curriculum. No portion of clinical training is deleted from the joint program. Prior to entering the clinical component of the joint degree, students will be expected to participate in a clinical shadowing experience, which could be done throughout the Ph.D. studies or as part of an intensive program prior to entering the clinic. Students will also be required to participate in the Medical Scholars Program clinical tutoring skills program held in the spring of each year and re-take the Year II Objective Structured Clinical Examination at the end of May with the second year medical students.

Keck School of Medicine-Caltech M.D./Ph.D. Program

A joint program between the Keck School of Medicine and the California Institute of Technology (Caltech) was established for the granting of the M.D./Ph.D. degree. Students do their preclinical and clinical work at the Keck School of Medicine and their Ph.D. work with any member of the Caltech faculty, including the biology, chemistry, engineering, applied sciences divisions and interdisciplinary programs divisions.

Admission to this joint program is made through the usual Keck/USC M.D./Ph.D. process. All applicants are interviewed at Keck School of Medicine and Caltech. Matriculated students in this program have the option of doing their Ph.D. at USC or Caltech. The M.D. degree will be awarded from the Keck School of Medicine and the Ph.D. from Caltech.
Further information about the M.D./Ph.D. program at the Keck School of Medicine may be obtained by contacting: M.D./Ph.D. Program, Keck School of Medicine, 1975 Zonal Avenue (KAM 200), Los Angeles, CA 90089-9031; (323) 442-3965, FAX: (323) 442-2318; email mdphdpgm@usc.edu.

M.D./MBA Dual Degree Program

In response to the ongoing reorganization of health care delivery systems, and the growing awareness of the impact of business decisions on health care, the Keck School of Medicine and the USC Marshall School of Business jointly offer an innovative program for individuals seeking knowledge in both medicine and business administration. The program is designed to prepare its graduates to assume leadership in the design and management of health care systems.

The M.D./MBA program spans five years. Interested students apply during their second or third year of medical school, and begin required MBA courses following successful completion of the first two or first three years of medical school. The remaining time is devoted to the clinical clerkships of the Keck School of Medicine and completion of graduate business elective courses. At the conclusion of the program, students will have completed 48 units in the Marshall School of Business, including required and elective courses, and four years of courses in the medical curriculum.

Students must complete 90 units in the Marshall School of Business, including required and elective courses, and four years of courses in the medical curriculum. The remaining time is devoted to the clinical clerkships of the Keck School of Medicine and completion of graduate business elective courses. At the conclusion of the program, students will have completed 48 units in the Marshall School of Business, including required and elective courses, and four years of courses in the medical curriculum.

All students in the M.D./MBA program must meet course requirements, grade point average requirements and program proficiency requirements of both programs. Students must have a grade point average of 3.0 in the MPH curriculum to meet graduation requirements. The M.D. and the MBA degrees are awarded simultaneously upon completion of the Keck School of Medicine and the Master of Public Health program requirements. For more information, contact the MPH Program Office at (323) 442-7057.

Ph.D. Programs in Biomedical and Biological Sciences (PIBBS)

Keith Administration Building 409

pibbs.usc.edu

Program Director: Ite A. Laird-Offringa, Ph.D.

The USC Ph.D. Programs in Biomedical and Biological Sciences (PIBBS) is a gateway program into graduate studies at the USC Health Sciences Campus, leading to a Ph.D. degree in a broad range of biomedical and biological disciplines.

PIBBS students are expected to complete 25 units of core classes during the fall, spring and summer semesters of the PIBBS year, including courses in cell biology, molecular biology, human genetics and genomics, biostatistics, bioethics and scientific writing. Students will also complete three research rotations during the first year.

At the end of the spring semester of the first year, students are expected to have selected a faculty mentor/research advisor. Previous research experience is expected. Students are admitted for the academic year in the fall semester. Applicants who are accepted with minor deficiencies are expected to correct these during the first year following enrollment. Although there is no formal application deadline, complete applications received by December 1 will be given priority.

Financial Support

Admitted students are supported by research assistantships or fellowships during their graduate career. Tuition, health insurance and health fees are also covered.

Lab Rotations

During the first year, students register for INTD 790 Research (4 units in the fall semester and 3 units in the spring semester) and rotate through the labs of three faculty members of the program (potential research advisors). By the first summer of graduate study, but no later than after 12 months in the program, each student is expected to have selected a faculty mentor/research advisor.

Admission Requirements for Ph.D. Programs

Admission to the Keck School of Medicine Ph.D. Program is open to all incoming PIBBS students provided all PIBBS admission requirements are met and all first year course and lab rotation requirements have been satisfactorily completed. Students from other sources, such as M.D./Ph.D. students and clinician scientists, may also be eligible on a case-by-case basis.

In general, new graduate students apply for admission to USC through the Ph.D. programs in Biomedical and
Biological Sciences (PIBBS), and become enrolled in one of four Ph.D. programs at the Keck School of Medicine after the successful completion of the PIBBS year. During the PIBBS year, students must complete the core curriculum of 25 units, maintain a 3.0 grade point average with no grade lower than a C on all courses and must complete three laboratory rotations in order to continue into a Ph.D. program.

Application information is available by contacting the PIBBS Program at pibbs@usc.edu.

Doctor of Philosophy in Cancer Biology and Genomics

Program Director: Gerhard Coetzee, Ph.D.
The Ph.D. program in Cancer Biology and Genomics (CBG) focuses on training investigators in strategies to understand the mechanisms of cancer development and progression which includes cell biological and genomic approaches. The ultimate objective is to translate basic findings into diagnostics, treatments and ultimate cures. The program applies a multidisciplinary approach toward these goals, with the full realization that cancers in different organs represent different diseases. However all cancers share common cellular proliferation with many cancers having a strong genetic predisposition. Consequently, major features of this program include the breadth of medically related interests and training and faculty characterized by wide and varied skills in many cancer-related research areas. To facilitate the application of multidisciplinary approaches to make cancer a disease of the past, close and regular contact between participating faculty of different disciplines and students is a major theme of this Ph.D. program.

Cancer Biology and Genomics students are required to take CBG 580, INTD 504 and INTD 685; and must complete a total of 4 units from the following: INTD 549, PM 512, PM 572AB, PM 531*, PM 534*, PM 570*, PM 589, MPTX 500 or other courses approved by the academic adviser. In the second year, students are required to register for INTD 575 in the fall and spring semesters. In the third and subsequent years, students should register for INTD 600 every fall and spring semester. In addition, students are required to complete at least 4 units of CBG 794ab Doctoral Dissertation.

Ph.D. students must supplement course work by registering for CBG 790 Research during the fall, spring, and summer semesters as needed to complete the minimum 60 units required for the Ph.D. program.

As part of the requirements for the Ph.D. degree in Development, Stem Cells, and Regenerative Medicine, students are required to complete DSR 542 and at least 2 units from the following: DSR 610, DSR 620, INTD 504 or other courses approved by the faculty adviser. In the second and subsequent years, students are required to register in DSR 574 every fall and spring semester. In addition, students are required to complete at least 4 units of DSR 794ab Doctoral Dissertation.

MEDB students must supplement course work by registering for DSR 790 Research during the fall, spring, and summer semesters as needed to complete the minimum 60 units required for the Ph.D. program.

As part of the requirements for the Ph.D. degree in Molecular Biology and Genomics, students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation and oral defense as outlined in the sections following the descriptions of the Ph.D. programs.

Doctor of Philosophy in Medical Biology

Program Director: W. Martin Kast, Ph.D.
The objective of the Ph.D. program in Medical Biology (MEDB) is to educate investigators to develop strategies to translate and implement knowledge from cellular, molecular and genetic advances into studies of normal human organ system function as well as mechanisms of human organ system dysfunction in disease and how to reverse this dysfunction by medical treatment. Animal disease models as well as clinical trials in patients are frequently used to advance this field.

The program applies multidisciplinary approaches to understanding the human organism as a whole. Breadth of medically related interests and training are major features of this track and will be provided to students through a core curriculum and course requirements for one of the four Ph.D. programs, the student, in consultation with his/her faculty adviser, will nominate five faculty members to form the student’s guidance committee. In the second and subsequent years, students are required to register in INTD 574 every fall and spring semester. In addition, students are required to complete at least 4 units of MEDB 794ab Doctoral Dissertation.

The MEDB program caters to M.D./Ph.D. students, clinician scientists and PIBBS students interested in but not limited to the following fields: immunology (including cancer immunology), virology (including cancer virology), microbiology, physiology and pathology (for example: diabetes, obesity, autoimmunity, infectious diseases, gastro-intestinal and liver diseases, heart and lung diseases, hypertension, central nervous system diseases, etc.)

Medical Biology students are required to complete 8 units from the following courses: INTD 504, INTD 523, INTD 549, INTD 550, INTD 551, INTD 572, INTD 573 or other courses approved by the faculty adviser. In the second and subsequent years, students are required to register in INTD 574 every fall and spring semester. In addition, students are required to complete at least 4 units of MEDB 794ab Doctoral Dissertation.

Ph.D. students must supplement course work by registering for MEDB 790 Research during the fall, spring, and summer semesters as needed to complete the minimum 60 units required for the Ph.D. program.

As part of the requirements for the Ph.D. degree in Molecular Structure and Signaling, students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation and oral defense as outlined in the sections following the descriptions of the Ph.D. programs.

Unit/Course Requirements

A minimum of 60 units of graduate course credits is required for the Ph.D., including course work, seminars, research and dissertation units. No more than 8 units of 794 may be applied toward the Ph.D. degree. Students must complete the first year PIBBS core curriculum as well as course requirements for their specific Ph.D. program. Thirty units of course work, including the PIBBS core curriculum, must be completed before they are considered for the qualifying examination. Additional course work relevant to the research interests of the student may be required by the student’s qualifying exam committee or by the student’s faculty adviser.

Guidance Committee

After 30 units of course work, which includes the PIBBS core curriculum and course requirements for one of the four Ph.D. programs, the student, in consultation with his/her faculty adviser, will nominate five faculty members to serve on the guidance committee for the qualifying examination. A minimum of three of these must be from the student’s Ph.D. program, and one must be a faculty member from outside the Ph.D. program. The chair of the guidance committee must be a member of the student’s Ph.D. program and the faculty adviser is not allowed to be on the committee (but may be a silent presence during the exam). These nominations are submitted to the chair of the program for formal appointment.

Qualifying Examination
Students in the Ph.D. program must pass both the written screening and the oral portions of the qualifying examination administered by their guidance committee during the second year of graduate study.

The written screening exam involves writing a research grant proposal. The deadline for completion of the written screening is January 5 of the second year. Students who receive a failing score will be allowed one resubmission, with a deadline of March 5 of the same year. The written portion must be passed before the oral portion can be taken.

The oral examination must be completed no later than September 1 of the beginning of the third year and only after successful completion of the written screening exam. The oral examination consists of two parts. The first part consists of a presentation of the proposed thesis research. The second part consists of an open forum in which the guidance committee asks general questions on any topic related to the student’s research.

Final evaluation of the examination is determined by a consensus of the guidance committee. If a student fails, it is at the discretion of the committee to allow the student to repeat the oral examination within 60 days. A second failure will be grounds for dismissal from the program.

Advancement to Candidacy

Recommendation for advancement to candidacy for the Ph.D. degree is based on the student’s progress in fulfilling the requirements of the Ph.D. program and on the student’s maintenance of at least a 3.0 GPA. A student who has not been recommended for advancement to candidacy at the end of the first semester of the third year will be dismissed from the program.

Annual Research Appraisal (ARA)

After advancing to candidacy, each graduate student presents a progress report to his or her dissertation research committee. Prior to the meeting, the student prepares a short written document describing significant experiments, problems and projected studies. This document is distributed to the committee and is included in the student’s file. The ARA meeting is intended to be a working session between the student and his or her committee; experimental results and problems are discussed with this context. In addition the student presents a research plan for the next year of work. A satisfactory ARA is required of every student for each year of residence after the completion of the qualifying examination. A final ARA is required the semester before the student is permitted to defend the dissertation.

Dissertation Committee

After advancement to candidacy, the student must form a dissertation committee, in consultation with their faculty advisor. A minimum of three committee members must be selected, one of which is the faculty advisor, and at least one of which must be a tenured or tenure-track faculty member of the student’s Ph.D. program. One committee member may be non-tenure track. The chair of the dissertation committee must be a member of the student’s Ph.D. program and may not be the faculty advisor. The dissertation committee is responsible for counseling the student during preparation of the dissertation and conducting the final oral examination during the dissertation defense. Students are expected to meet with the dissertation committee once per year to discuss progress. Dissertation committee members are expected to read and comment on a dissertation within two weeks from its submission. The student and faculty will coordinate a timeline for the student to present the thesis to the dissertation committee. This timeline must allow all dissertation committee members enough time to fulfill their responsibilities within the four-week deadline.

Dissertation and Oral Defense

The student’s research is reported in a dissertation written under the guidance of the dissertation committee. The dissertation must demonstrate the student’s capacity for independent research, scholarly achievement and technical mastery of a special field. Students should have at least one first author publication accepted in a peer-reviewed journal before the defense.

When the final draft of the dissertation is ready, the student will take the final oral defense. Students must submit their dissertation to the dissertation committee at least one month before the student expects to make final revisions; committee members are expected to respond within two weeks.

The dissertation defense is a formal public presentation of the student’s research before the program faculty and students. Dissertation defenses must be publicized at least two weeks prior to the oral defense.

All doctoral candidates must be registered in 794 Doctoral Dissertation each semester (excluding summer sessions) from the time of their advancement to candidacy until their dissertation is approved and submitted to the Graduate School.

Courses of Instruction

Cancer Biology and Genomics (CBG)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

CBG 580 Topics in Cancer Biology and Genomics (1, max 12, Sp) Selected topics in Cancer Biology and Genomics including review of contemporary literature and research. Prerequisite: INTD 504. Open only to graduate students.

CBG 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Open only to doctoral students. Graded CR/NC.

CBG 794abcd Doctoral Dissertation (2-2-2-2, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC. Open only to doctoral students.

Development, Stem Cells and Regenerative Medicine (DSR)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

DSR 542 Principles of Developmental and Stem Cell Biology (4, 5M) Introduction to developmental and stem cell biology. Lectures and lab component prepare students for a career in developmental and stem cell biology and regenerative medicine.

DSR 574 Stem Cell and Developmental Biology Seminar Series (1, max 10, FaSpSm) Selected topics in Development, Stem Cell, and Regeneration. Open only to Development, Stem Cell, and Regeneration Ph.D. students. Graded CR/NC.

DSR 610 Current Topics in Regenerative Medicine (1, max 12, Sp) Selected topics on sub-fields within developmental and stem cell biology including review of contemporary literature and research. Prerequisite: DSR 542. Open only to master and doctoral students.

DSR 620 Current Topics in Stem Cell Biology and Organogenesis (1, max 12, Fa) Selected topics on sub-fields within stem cell biology and organogenesis includes review of contemporary literature and research. Prerequisite: DSR 542. Open only to master and doctoral students.

DSR 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Open only to doctoral students. Graded CR/NC.

DSR 794abcd Doctoral Dissertation (2-2-2-2, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC. Open only to doctoral students.

Medical Biology (MEDB)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

MEDB 590 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Open only to doctoral students. Graded CR/NC.

MEDB 794abcd Doctoral Dissertation (2-2-2-2, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC. Open only to doctoral students.

Molecular Structure and Signaling (MSS)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

MSS 574 Molecular Structure and Signaling Seminar Series (1, max 12, FaSpSm) Selected topics in Molecular Structure and Signaling. Open only to doctoral students.

MSS 580 Experimental Design and Execution in Molecular Biology (4, Fa) To provide in depth knowledge on experimental design, execution and data analysis/interpretation for generating high impact publications. Open only to graduate students.

MSS 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Open only to doctoral students. Graded CR/NC.

MSS 794abcd Doctoral Dissertation (2-2-2-2, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC. Open only to doctoral students.

Courses of Instruction

Interdepartmental (INTD)
INTD 500 Ethics and Accountability in Biomedical Research (1, 5M) The purpose of this course is to engage current (and potential) research trainees in discussions about the responsible conduct of science. The course is designed as an option for meeting current federal regulations which require that all predoctoral and postdoctoral fellows paid from federal contracts and grants have a component of ethical training. Graded CR/NC.

INTD 501 Recent Advances in Vision Science (1, max 4, FaSp) Recent advances in the understanding of the ocular surface are reported and discussed; students will learn how to read papers critically, develop speaking skills to explain a research paper and attend a three-day workshop on NIH proposal development and scientific manuscript preparation. Graded CR/NC.

INTD 504 Molecular Biology of Cancer (4, 2 years, Sp) Epidemiology, pathobiology, carcinogenesis, tumor biology and heterogeneity; retroviruses, oncoproteins, cell cycle control, genetics of cancer, tumor immunology; treatment strategies.

INTD 522 Infection and Host Responses (4, Sp) Overview of microbes, their life cycles and the host response they elicit, evade or exploit, including the manipulation and the malfunction of the immune system.

INTD 531 Cell Biology (4, Fa) Current perspectives on major research areas in cell biology. Emphasis will be on in-depth examination of cellular structures, regulatory processes, intra-cellular routing and targeting, and cell/environmental interactions.

INTD 535 Continuing Introduction to Clinical Medicine for M.D./Ph.D. Students (1, FaSp) Course for M.D./Ph.D. students in Ph.D. years designed to allow maintenance and improvement of clinical skills prior to re-entry in clinical rotations in the Year III medical curriculum. Open only to medical students who have completed Years I and II. Graded CR/NC.

INTD 537 The Structure of Scientific Revolutions in Molecular Biology (1, Irregular) A course in how scientific breakthrough discoveries and whether there are predictable ingredients for significant changes in perception of the living system. Open only to graduate-level students in any of the biological sciences. Recommended preparation: one year in cell and molecular biology.

INTD 545 Protein Chemistry – Structure and Function (4, Sp) Chemistry of peptides and proteins; protein structure and folding; molecular basis of protein action. Recommended preparation: general biochemistry.

INTD 550 Introduction to Pathology (4, Fa) Normal histology and introduction to basic pathological concepts. Provides a solid and basic understanding of normal structures and how they relate to function.

INTD 551 Pathobiology of Disease (4, Sp) Relationship between histopathological and clinical manifestations of disease and their underlying molecular mechanisms. Topics include inflammatory, developmental, environmental, degenerative, and neoplastic disease processes. Prerequisite: INTD 550.

INTD 555 Biochemical and Molecular Bases of Disease (4) Biochemical and molecular abnormalities in disease states. Prerequisite: general biochemistry.

INTD 561 Molecular Biology (4, Fa) Biochemistry and molecular biology of replication, transcription, RNA processing, translation, and regulation of gene expression with emphasis on multicellular eukaryotic organisms and comparisons to prokaryotes.

INTD 567 Molecular and Cellular Neurobiology (4) (Enroll in NSCI 531) INTD 571 Biochemistry (4, Sp) Physical-chemical basis of life processes: protein structure and enzyme function; synthesis and metabolism of carbohydrates, lipids, amino acids, and nucleotides. Duplicates credit in former BIOC 441. Prerequisite: open to qualified students.

INTD 572 Systems Physiology and Disease I (4, Fa) Mammalian organ systems operation during health, and pathobiologic analysis of related diseases with focus on muscle, respiratory, cardiovascular and renal systems. Faculty from basic and clinical sciences. Open to graduate students in biomedical science only.

INTD 573 Systems Physiology and Disease II (4, Sp) Mammalian organ systems operation during health, and pathophysiologic analysis of related diseases with focus on neuroscience, immunology, metabolism, endocrine, reproduction, GI and liver. Faculty from basic and clinical sciences. Open to graduate students in biomedical science only.

INTD 574 Systems Biology and Disease Seminar (1, max 16, FaSp) Selected topics in systems biology and disease. Graded CR/NC. Open only to integrative biology of disease Ph.D. students.

INTD 575 Interdisciplinary Research Presentations (1, max 12, FaSp) Broad Topics on Biomedical Research, Human Diseases and Career Development. Open only to doctoral students.

INTD 577 Writing in the Biomedical and Biological Sciences (1, Sp) Writing instruction for graduate students focusing on grant proposals and scientific papers. Includes both writing and providing critiques of classmates’ work. Lectures and discussion. Open only to doctoral students in the school of Medicine.

INTD 600 Student Research Presentation (1, max 12, FaSp) Students prepare and present their own research to an audience of faculty and peers. Graded CR/NC. Open only to graduate students.

INTD 620 Medical Students Elective Program (0) Opportunities for medical students as preceptors in research laboratories or in field medical service under guidance of sponsors approved by faculty committees. Graded CR/NC.

INTD 51ab Introduction to Clinical Medicine (ICM) for HTE (2: 1, 3, 1, 3) A strongly patient-centered course in which both Ph.D. engineering and M.D. students experience how doctors handle communications, basic diagnostic thinking and engineering perspectives. Open only to Health, Technology and Engineering students. Graded CR/NC.

INTD 621 Pre-clinical System Block for Health, Technology and Engineering (1-5, FaSp) A three-to-nine week block of lectures and laboratories focused on particular body system (e.g., cardiovascular, renal, etc.). Open only to Health, Technology and Engineering students. Graded CR/NC.

INTD 650 Stem Cell Biology and Medicine (4, FaSp5m) Basic principles, available embryonic and adult stem cells, principles of organogenesis and regeneration, animal models, delivery of engineered tissues to path mods, promise and limitations of stem cells. Open to master’s and Ph.D. students on the Health Sciences Campus and to medical and post-doctoral fellow trainees only.

INTD 685 Bioinformatics in Genome Analysis (4, 5M) Basic programming concepts for computational genomic analysis.

INTD 730 Research (1-12, FaSp5m) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Open only to doctoral students. Graded CR/NC.

Master of Academic Medicine
Keith Administration Building 211
1975 Zonal Avenue
Los Angeles, CA 90033
(323) 442-0257
FAX: (323) 442-2051
Email: nyquist@usc.edu

Program Director: Julie G. Nyquist, Ph.D.
Faculty
Professors: Donna Elliott, M.D., Ed.D. (Pediatrics); Jerry Gates, Ph.D. (Family Medicine); Win May, M.D., Ph.D. (Medical Education); Julie G. Nyquist, Ph.D. (Medical Education); Beverly Wood, M.D., Ph.D. (Medical Education)

Associate Professors: Kathleen Besinque, Pharm.D., M.S.Ed. (Pharmacay); Cha-Chi Fung, Ph.D. (Medical Education)

Assistant Professors: Dixie Fisher, Ph.D. (Medical Education); Lori Marshall, Ph.D., MSN (Pediatrics); Niiurka Rivero, M.D. (Pediatrics); Samuel Yanofsky, M.D., M.S.Ed. (Anesthesiology)

The Master of Academic Medicine is offered by the Keck School of Medicine in collaboration with the Schools of Dentistry and Pharmacy. The goal is to develop leaders who will create and enhance academic and training programs for health care professions globally. Academic medicine is defined in broad terms as relating to those who lead training worldwide in medicine or in other health care related fields. Enacting this vision is possible due to the flexible delivery model selected. The program employs a hybrid model, combining on-campus face-to-face sessions, blended with online course work. During the 32- unit program, the majority of sessions will be delivered using interactive online delivery methods. All students will also be on campus for one-week intensive sessions in the spring of each year, which focus on community building and the development and evaluation of skills.

The program addresses the unique population of medical and health professions faculty who are focused on leading the academic enterprise for health professionals at the undergraduate, graduate and continuing education levels. Our graduates will be positioned to guide future generations of health professionals around the world toward better meeting the health needs of our global society. For those with a clear focus on the academic enterprise, a complementary degree in academic medicine offers the specialized skills needed to lead worldwide development of enhanced training for health professionals, increases professional capacity and provides new opportunity for promotion. The audiences for this degree will typically have primary professional degrees in health fields (e.g., M.D., DDS, DPT, R.N., MSN, P.A., DVR, D.O., Pharm.D., D.C., DOM). The Master of Academic Medicine will provide the needed complementary training for clinician educators.

Admission

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.
Applicants for admission to the Master of Academic Medicine program are generally expected to have an advanced degree in a health profession. Proof of graduation is required. For applicants who do not have a degree in a health profession, a bachelor’s degree or its equivalent from an accredited institution is required, a grade point average of 3.0 (A – 4.0) is usually expected as well as satisfactory scores on the Graduate Record Examinations (GRE) General Test and three letters of recommendation. For specific information on admission and application procedures, contact the Office of Medical Education, (323) 442-2372.

Students are admitted for the academic year beginning in the fall, although those admitted prior to March 15 may enroll in summer courses. Although there is no formal application deadline, complete applications received before March 1 will be given priority. Application inquiries should be made to: Master of Academic Medicine Program, University of Southern California, Office of Medical Education, 1975 Zonal Avenue, KAM 211, Los Angeles, CA 90033, telephone (323) 442-2372.

Satisfactory Academic Progress

A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified.

A minimum of 32 units of graduate-level course work is required.

Courses of Instruction

ACADEMIC MEDICINE (ACMD)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

ACMD 501 Introduction to Academic Medicine Worldwide: Introduces the master’s program; includes historical development of training in the health professions; current issues, challenges and opportunities in academic medicine and health worldwide. Open only to Academic Medicine majors.

ACMD 502 Becoming a Leader in Academic Medicine Worldwide: Current approaches to leadership within the context of global academic medicine and health professions education; individual applications, group dynamics, teamwork, and interpersonal skill enhancement. Open only to Academic Medicine majors.

ACMD 503 Leading Change in Academic Medical Centers: Exploration and practice of skills for promoting programs within academic medicine and health professions’ education; building trust, organizational change, conflict resolution, negotiation, and managing resources. Open only to Academic Medicine majors.

ACMD 511 Competencies in Academic Medicine and Health I: Acquisition of cognitive knowledge and problem-solving skills in health professions worldwide; instructional methods, assessment techniques, designing curricula for health professions education. Open only to Academic Medicine majors.

ACMD 512 Competencies in Academic Medicine and Health II: Learning theory, teaching methods, assessment techniques related to acquisition and reinforcement of competencies related to patient care, practice-based learning and improvement and systems-based practice. Open only to Academic Medicine majors.

ACMD 513 Professionalism in Academic Medicine and Health: Acquisition and evaluation of interpersonal and communication skills and professionalism including ethics and cultural competence; within the context of health care disparities and health initiatives. Open only to Academic Medicine majors.

ACMD 514 Accreditation and Program Evaluation in Academic Medicine: Evaluating health professions training programs within guidelines of relevant accreditation organizations; models of evaluation, designing plans and tools for evaluation of program elements. Open only to Academic Medicine majors.

ACMD 515 Professionalism in Academic Medicine and Health: Designing research on innovations in academic medicine (2) Introduction to design and scholarly review of innovations in health professions education; needs assessment, problem selection, use of research methods to study an innovation. Open only to Academic Medicine majors.

ACMD 591 Designing Research on Innovations in Academic Medicine: Mentored research on an innovation in academic medicine leading to the master’s degree. The project will result in a formal written research report. Open only to Academic Medicine majors. Prerequisite: ACMD 592.

ACMD 593 Foundations of Academic Writing: Academic writing for conference papers, grant proposals and journal articles. Open only to Academic Medicine majors. Recommended preparation: A completed study of an innovation in academic medicine or other health-related field that is ready to move to publication.

ACMD 598 Fieldwork: Designing Innovations for the Health Professions: Individual projects designing curricular or other innovations for the home program as an application of Year 1 concepts and as part of the capstone experience. Open only to Academic Medicine majors.

ACMD 604 Supporting the Educational Enterprise in Academic Medicine: Explores support functions in academic medical centers and health professions schools; financial, scientific, educational, faculty and student affairs departments, and offices of medical education. Open only to Academic Medicine majors.

ACMD 605 Faculty Development for Health Sciences Faculty Educators: Role of faculty development programs in health professions schools; tools for delivering effective continuing education and faculty development; models for mentoring clinical faculty. Open only to Academic Medicine majors.

ACMD 615 Maintenance of Competence in the Health Professions: Maintenance of competence and continuing professional development (CPD) of physicians and other health care professionals; trends, needs, strategies, assessing outcomes, examining effectiveness of CPD programs. Open only to Academic Medicine majors.

ACMD 631 Capstone Portfolio for the Master of Academic Medicine: Role of portfolios for teachers and learners; develop a personal capstone portfolio that represents each learner’s accomplishment of the core competencies of the MACM program. Open only to Academic Medicine majors. Graded CR/NC.

Master of Science in Clinical, Biomedical and Translational Investigations

Keith Administration Building 200 (323) 442-1965 Email: mscnlbio@usc.edu

Program Co-Directors:

Stanley P. Azen, Ph.D., Professor, Co-Director of Biostatistics, Preventive Medicine, Co-Director CETCD

Michael L. Paine, B.Sc., B.D.S., Ph.D., Associate Professor, Director, Graduate Program in Craniofacial Biology

The Master of Science in Clinical, Biomedical, and Translational Investigations (CBI) is a joint effort to train medical students, fellows or other health professionals, including faculty and other scientists conducting clinical-related research, in clinical research methods to translate clinical, biomedical and technological discoveries into advances in population-based, clinical or basic science research. The M.S. Program of Clinical, Biomedical, and Translational Investigations (CBI) is available to medical students who have completed their second year of medical school, and pre-doctoral students who are...
interested in expanding their pre-doctoral training to include methodology associated with conducting translational research. Pre-doctoral students will earn a joint degree (Ph.D. in their research area and an M.S. in CBTI). In addition, the M.S. CBTI Program is tailored to MDs doing fellowships at USC or Children’s Hospital Los Angeles (CHLA), faculty interested in expanding their research careers, or are recipients of Young Investigator Awards, including Southern California Clinical Translational Science Institute’s (SC CTSI) Center for Education, Training, and Career Development K and T Awardees. Tracks include: 1) Clinical Translational Research, 2) Community-based Intervention Trials, 3) Design, Conduct and Analysis of Clinical Studies, 4) Epidemiology and Disease Epidemiology, 5) Health Outcomes Research, 6) Environmental Epidemiology, 7) Molecular Biology, 8) Cell Biology, 9) Vision Science, and 10) Alternative Options Track.

The M.S. program in Clinical and Biomedical Investigations is designed to train students, fellows and faculty for future independent research careers in an academic, government or private sector setting. The objective of the M.S. program is to produce a clinical researcher with either an in-depth knowledge in laboratory methodologies or statistical and analytic skills in population-based, clinical studies or outcomes research. The program gives students a solid background in the methodological aspects of translational research, and in statistical thinking as applied to molecular epidemiology, as well as a solid grounding in biostatistical, epidemiological methods, and community based intervention strategies.

Admission Requirements

Applicants must apply to the Graduate School and meet the minimum requirements for admission to the Graduate School. The Department of Preventive Medicine, Cell and Neurobiology, Family Medicine, and the Center for Education, Training and Career Development (CTCD) jointly administer the program through the MS Program Office.

The program will consider applicants who satisfy all requirements for admission to the Graduate School. For the M.S. program in Clinical and Biomedical Investigations, MCAT scores may be substituted for the GREs. Applicants not meeting Graduate School requirements for regular standing may, with approval of the Graduate School, be conditionally admitted. Regular standing is contingent upon maintaining a GPA of 3.0 in the first 12 units of graduate studies. All graduate students must maintain a GPA of 3.0 throughout their graduate studies.

General Requirements

Graduation requires the completion of a minimum of 29 units, of which a minimum of 13 units are didactic course credits taken in the first year (including summer sessions), with the remaining units being directed to: a) PM 590 (directed research, 1-12 units) and PM 594ab (thesis, 4 units) taken in the second year. The equivalent of one year of full-time effort must be devoted to research leading to a master’s thesis. The thesis provides a structure for the development of a plan to address a research problem and a suitable approach to the analysis and presentation of the results.

Because the background and interests of applicants varies widely, one of the co-directors will consult with each student prior to the first year in order to design an individualized schedule of recommended courses, or this may be negotiated with a student’s faculty sponsor. At the end of the first year, the trainee must submit a final program plan to the co-directors. This will summarize the courses taken, the proposed thesis title, and the names and credentials of the M.S. thesis committee. One of the members of the M.S. thesis committee will be the trainee’s research adviser and will serve as the chair of the committee. At least one member of the thesis committee must be from outside the student’s department. For faculty, at least two members of the thesis committee must be from outside the student’s department.

For those trainees or SC CTSI’s CETCD K and T awardees who do not wish to pursue an M.S. degree, the school offers a certificate in clinical, biomedical, and translational investigations (CTBI). The certificate program requires completion of 12 credits, and a minimum of six months of practical research experience working on a research project (PM 590) approved by either an Oversight Committee or the CETCD’s K and T Award Committee Review Process.

Students are expected to attend the three day workshop on NIH proposal development if offered by Thomas Ogden, M.D., Ph.D., and a workshop on the principles of scientific manuscript preparation.

Certificate in Clinical, Biomedical and Translational Investigations

Students who do not wish to pursue an M.S. degree may earn a university certificate in clinical, biomedical, and translational research. The program gives students a solid background in the methodological aspects of translational research, and in statistical thinking as applied to molecular epidemiology, as well as a solid grounding in biostatistical, epidemiological methods, and community based intervention strategies.

Recommended Core Courses for Each Research Track

Clinical Translational Research (17-16 Units)

SUMMARY

Health professionals include coursework that examines methods used to create innovative programming, solutions and responses to global health challenges, thereby furnishing them with the problem-solving skills and analytical frameworks essential to their future career paths. Through partnerships with the Marshall School of Business and the Viterbi School of Engineering, the M.S. in Global Medicine also includes a management track for students who intend to pursue international health management.

Upon completion of the M.S. in Global Medicine, students will be equipped to serve as leaders within the allied health field, including, but not limited to: medicine, pharmacy, dentistry and nursing. In addition, graduates will be prepared to collaborate with or seek employment from a variety of international aid, nonprofit, and global health organizations such as: the United Nations, the International Red Cross, United Nations Joint Programme on HIV/AIDS, United Nations Children’s Fund, World Health Organization, World Bank and the Centers for Disease Control and Prevention.

Admission

Applicants for admission to the program must have a bachelor’s degree or its equivalent from an accredited institution and have earned a GPA of 3.0 (A = 4.0) in undergraduate work. Prerequisite undergraduate coursework for Clinical Track applicants must include one year of general biology, one year of general chemistry, one year of organic chemistry and one semester of calculus. Applicants to the Management Track should consult with advisers for prerequisite exceptions.

Applicants are required to have taken the Graduate Record Examinations (GRE) General Test, the Dental Admission Test (DAT) or the Medical College Admission Test (MCAT). A minimum score of 300 (1000 on old scale) on the GRE, 18 on the DAT or 28 on the MCAT is required. International Medical Graduates (IMGs) from accredited institutions can submit their USMLE results in lieu of GRE, DAT or MCAT scores. Applicants must also supply three letters of recommendation from evaluators qualified to assess their potential for graduate work. If applying for the advanced standing option, U.S. applicants must have successfully completed their first year of an M.D. (Doctor of Medicine) or DDS (Doctor of Dental Surgery) program or earned a Pharm.D. degree from a U.S.-accredited institute; international applicants must have earned a bachelor’s degree in medicine and surgery or a degree equivalent of DDS (Doctor of Dental Surgery) or a Pharm.D. degree from an accredited institute.

Applicants must supply a completed application for graduate studies including: transcripts from all institutions previously attended, standardized test scores and three letters of recommendation. Applications are considered for enrollment in both fall and spring semesters. For further information contact: Dr. Elahe Nezami, Master of Science in Global Medicine Program, 1975 Zonal Ave., KAM 317, Los Angeles, CA 90089-9324 Tel: (323) 442-3141 Fax: (323) 442-1766 keck.usc.edu/mgsm

Program Director: Elahe Nezami, Ph.D.

The Master of Science in Global Medicine (MSSM) is offered by the Department of Educational Affairs of the Keck School of Medicine. The program aims to train medical, dental and pharmacy students: current physicians and allied health professionals; and those planning to pursue degrees in the allied health professions to analyze and address critical issues in global medicine. The program provides a solid foundation in basic science while also exposing students to a broad scope of pertinent issues in global medicine. The program offers an advanced standing option for physicians, dentists, current medical/dental students and applicants with a Pharm.D. degree from accredited institutions. Students admitted to the advanced standing option may use previous equivalent course work for 8 units of credit toward MDS 503 I Core Principles System I and MDS 504 I Core Principles System II course requirements. The advanced standing option allows students to bypass the foundation coursework and focus on globally oriented coursework.

By providing the knowledge and training necessary to address current and future global medical challenges, the M.S. in Global Medicine program responds to the Institute of Medicine’s recommendation that the education of health professionals include course work that promotes literacy in global medicine. In addition to gaining a strong medical science foundation, students are immersed in course work that examines methods used to create innovative programming, solutions and responses to global health challenges, thereby furnishing them with the problem-solving skills and analytical frameworks essential to their future career paths. Through partnerships with the Marshall School of Business and the Viterbi School of Engineering, the M.S. in Global Medicine also includes a management track for students who intend to pursue international health management.

Upon completion of the M.S. in Global Medicine, students will be equipped to serve as leaders within the allied health field, including, but not limited to: medicine, pharmacy, dentistry and nursing. In addition, graduates will be prepared to collaborate with or seek employment from a variety of international aid, nonprofit, and global health organizations such as: the United Nations, the International Red Cross, United Nations Joint Programme on HIV/AIDS, United Nations Children’s Fund, World Health Organization, World Bank and the Centers for Disease Control and Prevention.

Advisement

The program recommends that students meet with an academic advisor of the program each semester prior to registration.

Satisfactory Academic Progress

A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified. A minimum of 32 units of graduate level course work is required for graduation from the clinical or management track. A minimum of 24 units of graduate level course work is required for graduation with the advanced standing option.

The dual degree in Pharmacy and Global Medicine is designed for students who are interested in providing pharmaceutical care to underserved populations around the world. Students enrolled in this dual degree program will benefit from an advanced understanding of the role of, and issues surrounding, modern medicine in developing countries.

Requirements

Students must gain admission to and fulfill the degree requirements for both programs, which include 158 units for the Doctor of Pharmacy and 24 units for the M.S. in Global Medicine. Six units of MEDS elective units can be used toward the Pharm.D. elective requirement, and PHRD 503 and PHRD 504 substitute for MEDS 503 and MEDS 504.

Program Adaptation

Because MEDS 503 and MEDS 504, core requirements for the M.S. in Global Medicine program, cover the same material as PHRD 503 and PHRD 504, the Pharm.D./Global Medicine dual degree program substitutes PHRD 503 and PHRD 504 for MEDS 503 and MEDS 504 as core requirements for the dual degree.

Graduate Certificate in Global Medicine

The certificate program in global medicine is for students who do not wish to pursue an M.D. degree in global medicine, but hope to pursue or expand careers in global health care. Students will study current topics in global health and health care, and will have a strong grounding in cultural competence, specific diseases, and creating and implementing health interventions in developing countries.

Students take 16 units of graduate course work that may not be used or have been used for any other degree or certificate program. These units include two core classes and eight units of electives, as follows:

</tr>
</tbody>
</table>

**ELECTIVE COURSES**

Students will take 8 units of electives, chosen in consultation with their advisor, from among all MEDS courses numbers 510 or above. For example, there are groups of courses relevant to women’s and family health; infectious diseases; health care in developing countries; working with diverse populations in the United States, etc.

Courses of Instruction

Medical Sciences (meds)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**MEDS 500** Basic Concepts in Global Health (4, FaSpSm) Exploration of global health issues facing resource-poor societies; emphasizes contributing factors including behavioral and physiological bases, economic, social, and political context.

**MEDS 501** Critical Issues in Global Health (4, FaSpSm) Evaluation of government and non-government organizations’ new global health responses, and critical issues affecting global health including: environment, workforce conditions, obesity, nutrition, drugs, poverty.

**MEDS 502** Global Epidemiology of Diseases and Risk Factors (4, FaSpSm) Survey of major populations’ crises and risk factors accounting for global health challenges; evaluation of case studies of global health interventions and effective methodologies.

**MEDS 510** Core Principles System I (4, FaSpSm) Introduction to basic medical concepts and biological system functions; examination of core principles of science and medical treatment.

**MEDS 514** Core Principles System II (4, FaSpSm) Continuation of concepts from MEDS 510. Basic medical concepts and biological system functions; examination of core principles of science and medical treatment. Prerequisite: MEDS 510.

**MEDS 510** Global Health Modules, Malaria (2, FaSpSm) Critical issues in international control and treatment of malaria. Exploration of biological and epidemiological fundamentals of human-parasite interaction, including dynamics of transmission among populations.

**MEDS 511** Global Health Modules, Tuberculosis (2, FaSpSm) Exploration of biological and epidemiological fundamentals of tuberculosis including dynamics of transmission among populations. Overview of clinical manifestations, diagnosis, and treatment of infections.

**MEDS 512** Global Health Modules, Maternal and Child Health I (2, FaSpSm) Biopsychosocial, cultural and economic aspects of women’s health: pregnancy, childbirth, marriage. Examination of health promotion and policy efforts to improve women’s health globally.

**MEDS 513** Global Health Modules, Maternal and Child Health II (2, FaSpSm) In-depth examination of women’s health issues; health promotion and policy efforts to improve women’s health globally.

**MEDS 514** Global Health Modules, Tropical Disease (2, FaSpSm) Examination of prevalent tropical diseases: epidemiology, clinical manifestations, treatment, impact on economies of tropical countries. Key issues related to these diseases; World Health Organization responses.

**MEDS 515** Global Health Modules, HIV/AIDS (2, FaSpSm) HIV epidemiology, basic biology of transmission and pathophysiology, associated opportunistic infections, and challenges to providing care in the developing world, including government responses.

**MEDS 516** Cultural Competence in Health and Medicine (2, FaSpSm) Practical approach to the development of professional skills for providing culturally sensitive clinical health services to ethnically and linguistically diverse patients.

**MEDS 518** Children in Emergency Situations: Global Policies and Programs (2, 3p) Focuses on children in emergency situations, including natural and man-made disasters, such as floods, earthquakes, conflicts, or war, with an emphasis on the poorest and most vulnerable children. Open only to Global Medicine majors.

**MEDS 519** Global Oral Health (2, FaSpSm) Better understand the key issues impacting global oral health, how better care can help reduce the disease prevalence, and ways to prepare the next generation of
global health leaders to address the key issues. Open only to Global Medicine majors.

**MEDS 520 Medical Spanish for the Health Professions (3, FaSpSm)** Spanish language course for students planning to enter the health professions.

**MEDS 521 Emerging and Re-emerging Infectious Diseases (2, FaSpSm)** Exploration of the threat of major worldwide epidemics and diseases with a focus on the recent emergence of new plagues.

**MEDS 522 Human Hepatitis Viruses (2, FaSpSm)** Human hepatitis and the viruses that cause them, how they are spread, symptoms, treatment, and prevention.

**MEDS 523 Global Toxicity and Carcinogenesis (2, FaSpSm)** Covers the occurrences of toxic substances and the toxicity/diseases they cause, and chemical carcinogens and the types of cancer they cause worldwide.

**MEDS 524 Grantwriting for Non-Government Organizations (2, FaSpSm)** Instruction on the process and methods of writing effective grants from identifying appropriate funders to implementing project upon receipt of funding award.

**MEDS 525 Global Mental Health (2, FaSpSm)** Examines the major mental health diagnoses from clinically relevant perspectives and their prevalence in specific geographical regions around the world.

**MEDS 526 Alternative and Eastern Medicine: A Biomedical Approach (2, FaSpSm)** Exploration of issues of complementary and alternative medicine (CAM) and traditional Eastern medical views of health and illness from a Western biomedical perspective.

**MEDS 527 Zoonotic Infectious Diseases (2, SpSm)** Background information on a group of infections that are transmitted via animal contact. Understanding of the epidemiology, clinical manifestations, treatment, and impact of the diseases on the economies of the countries in which they are found. Open only to graduate students. Recommended preparation: MEDS 500.

**MEDS 528 Global Health Modules, Sexually Transmitted Infections (2, SpSm)** Examines clinically relevant perspectives from distinguished international authors on STI issues and the devastating effect on particular geographical regions around the world.

**MEDS 529 Refugee Health Care (2) Introduction to refugee health and life events which impact health. Discuss medical needs of long-term displaced populations with specific case studies. Open only to graduate students.

**MEDS 530abc Foundation of Medicine: Anatomy, Physiology, and Pathology (4-6-4, FaSpSm)** a: Fundamentals of physiology, chemistry, anatomy, biochemistry and microbiology, as well as pharmacological issues, mathematical basis of lab instruments or techniques, and computational modeling. b: The basics of human anatomy (gross anatomy, histology, radiographic anatomy), physiology (cellular physiology, organ system areas) and pathology (general, systemic, cellular pathology). c: Continues material from MEDS 530a and MEDS 530b, covering human anatomy (gross anatomy, histology, radiographic anatomy), physiology (cellular physiology, organ systems) and pathology (general, systemic, cellular pathology).

**MEDS 531 The Politics of Global Health (2, FaSpSm)** Examines the impact of politics on global health progress and declines. Open only to Global Medicine majors.

**MEDS 532 Culture, Lifestyle, and Health (2, FaSpSm)** Overview of national and international variations in health status indicators in regard to cultural and lifestyle differences.

**MEDS 533 Clinical Medicine and Health Care Reform in Taiwan (2, Sm)** Two-week in-depth study abroad in Taipei, Taiwan, focused on understanding Taiwan’s health care system, health priorities, and needs.

**MEDS 534 Clinical Medicine and Socioeconomic Factors in Uganda (2, Sm)** Two-week course that provides students with hands-on experience in clinical medicine/public health and exposure to the various socioeconomic factors impacting health in the developing world.

**MEDS 535 Clinical Medicine and Health Care Reform in Jordan (2, Sm)** A two-week, in-depth study abroad course that explores the economic, social, political, and health issues in the Middle East region and specifically Jordan.

**MEDS 536 Clinical Medicine and Health Care Challenges in India (2, Sm)** Two-week study abroad course that explores the health dynamics and health care settings of India.

**MEDS 537 Clinical Medicine and Healthcare Delivery in Panama (2, SpSm)** A two-week course providing students with hands-on experience in the practice of rural medicine as they gain exposure to the various socio-economic factors present in Bocas del Toro, Panama. Recommended preparation: MEDS 500, MEDS 511, MEDS 514, MEDS 515. Open only to Global Medicine majors.

**MEDS 538 Global Health Field Study, New York (2, Sp)** Two-week course providing students with a solid understanding of the United Nations' major agencies influential in global health, their mandate, their strengths and challenges. Includes field visit to selected UN organizations all located in NYC. Open only to Global Medicine majors.

**MEDS 539 Clinical Medicine and Healthcare Access in Honduras (2, Sm)** A three-week hybrid course providing students with hands-on experience in clinical medicine/public health and exposure to the various socio-economic factors impacting healthcare delivery in the developing world, specifically in Honduras. Recommended preparation: MEDS 500, MEDS 501, MEDS 511, MEDS 514, MEDS 515. Open only to Global Medicine majors.

**MEDS 540 Global Health Field Study, Taiwan (2, SpSm)** Two-week course that provides a venue for careful examination and assessment of the economic, social, political, and specific health issues currently faced by countries in the European Region. Open only to Global Medicine majors.

**MEDS 541 Clinical Medicine and Translational Research in Argentina (2, SpSm)** Two-week in-depth course examining and assessing the economic, social, political and unique health issues faced by the Latin American Region especially Argentina. Open only to Global Medicine majors.

**MEDS 542 Clinical Medicine and Healthcare Determinants in China (2, SpSm)** A two-week intensive course abroad in Shanghai, China, focused on understanding clinical realities of Chinese medicine, health determinants and healthcare delivery. Recommended preparation: MEDS 500, MEDS 501, MEDS 511, MEDS 515. Open only to Global Medicine majors.

**MEDS 543 Directed Research (1-12, max 12, FaSpSm)** Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

**MEDS 544 Health Technology Internship (1-1, FaSpSm)** a: Internship course on the use of new technology based on sensors and wireless communications to the healthcare industry. b: Internship course on the use of new technology based on sensors and wireless communications to the healthcare industry. Continues material from CM 597a. Open only to M.S., Electrical Engineering (Wireless Health Technology) students. Graded CR/NC.

**MEDS 599 Special Topics (2-4, FaSpSm)** Lecture and discussion focused on specific topics within global medicine. Course topic will vary from semester to semester.

**Graduate Certificate in Health, Technology and Engineering (HT@USC)**

**Academic Director:** Terry Sanger, M.D., Ph.D., Provost Associate Professor of Biomedical Engineering, Neurology, Biostatistics, and Physical Therapy

**Administrative Director:** George Tolomienko, Ph.D., Assistant Professor, Neurology

This program offers current second-year USC Ph.D. engineering students and first-year M.D. students an opportunity to learn about and gain experience in medical device and process innovation. Through project-based and interdisciplinary collaboration, students will augment their current programs with a set of courses and lab experiences linking medical and engineering research groups. By applying design-informed approaches toward problem identification and solution prototyping, students will be involved in all the steps of medical device innovation from conception to commercialization. The program aims to create interdisciplinary, boundary-spanning, inventive entrepreneurs seeking early practical experience with device and method innovation in health care. Program participants will form bonds with a group of like-minded medical students and engineers who will be their mentors, colleagues and contacts as they advance in their careers.

The courses unique to the program include a seminar sequence (Topics in Health, Technology and Engineering), which must be taken during the first two years of involvement with the HT@USC program, a case studies sequence taken during the second year and a research course to earn project-related credits:

### Undergraduate Minor Program

#### Minor in Health Care Studies

The USC Dornsife College of Letters, Arts and Sciences and the Keck School of Medicine offer an interdisciplinary minor in health care studies. This minor is targeted to those undergraduates who wish to pursue a postgraduate career in health care or health care related fields. The minor brings together a background in fundamental science necessary to understand the biological basis of medicine with course work that explores health care both in classroom and clinical settings. The minor requires a minimum of 28 units, at least 16 of which must be at the upper-division level. If the core required courses listed below are already included in a student’s major, then other lower division courses may be selected from the electives list.

Students should consult their advisers in selecting courses. Depending on the major, prerequisites may increase total units required to complete this minor.

**REQUIRED COURSES (12 units)**

* Prerequisite required

#### Courses of Instruction

#### Medical Sciences (meds)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**MEDS 220 Preparation for the Clinical Experience (2, Sp)** is a prerequisite.

**MEDS 220 Introduction to Surgical Principles (2, Fa)** is a prerequisite.

**MEDS 245 Medical Examiner-Coroner: Investigating Death (2, Fa)** is a prerequisite.

**MEDS 465 Emergency Health Care (2, Fa)** is a prerequisite.

**MEDS 466 Wilderness and Survival Medicine (4, Sp)** is a prerequisite.

**MEDS 350 Drugs and the Brain (2, Sp)** is a prerequisite.

**MEDS 360 Current Research Approaches to Biomedical Problems (2, Fa)** is a prerequisite.

**MEDS 370 Organ Failure: Non-Communicable Chronic Disease (2, Sp)** is a prerequisite.

**MEDS 440 Introduction to Surgical Principles (2, Fa)** is a prerequisite.

**MEDS 441 Cancer: Introduction to Oncology in the Modern Era (2, Fa)** is a prerequisite.

**MEDS 450 Ob/GYN: The Medicine and Surgery of Reproduction (2, Fa)** is a prerequisite.

**MEDS 460 Principles of Immunology (2, Fa)** is a prerequisite.

**MEDS 465 Emergency Health Care (2, Fa)** is a prerequisite.

**MEDS 466 Wilderness and Survival Medicine (4, Sp)** is a prerequisite.

**MEDS 320 Preparation for the Clinical Experience (2, Sp)** is a prerequisite.

**MEDS 440 Introduction to Surgical Principles (2, Fa)** is a prerequisite.

**MEDS 445 Medical Examiner-Coroner: Investigating Death (2, Fa)** is a prerequisite.

**MEDS 465 Emergency Health Care (2, Fa)** is a prerequisite.

**MEDS 466 Wilderness and Survival Medicine (4, Sp)** is a prerequisite.

**MEDS 350 Drugs and the Brain (2, Sp)** is a prerequisite.

**MEDS 360 Current Research Approaches to Biomedical Problems (2, Fa)** is a prerequisite.

**MEDS 370 Organ Failure: Non-Communicable Chronic Disease (2, Sp)** is a prerequisite.

**MEDS 440 Introduction to Surgical Principles (2, Fa)** is a prerequisite.

**MEDS 441 Cancer: Introduction to Oncology in the Modern Era (2, Fa)** is a prerequisite.

**MEDS 450 Ob/GYN: The Medicine and Surgery of Reproduction (2, Fa)** is a prerequisite.

**MEDS 460 Principles of Immunology (2, Fa)** is a prerequisite.

**MEDS 465 Emergency Health Care (2, Fa)** is a prerequisite.

**MEDS 466 Wilderness and Survival Medicine (4, Sp)** is a prerequisite.

**MEDS 320 Preparation for the Clinical Experience (2, Sp)** is a prerequisite.

**MEDS 440 Introduction to Surgical Principles (2, Fa)** is a prerequisite.

**MEDS 445 Medical Examiner-Coroner: Investigating Death (2, Fa)** is a prerequisite.

**MEDS 465 Emergency Health Care (2, Fa)** is a prerequisite.

**MEDS 466 Wilderness and Survival Medicine (4, Sp)** is a prerequisite.

**MEDS 350 Drugs and the Brain (2, Sp)** is a prerequisite.

**MEDS 360 Current Research Approaches to Biomedical Problems (2, Fa)** is a prerequisite.

**MEDS 370 Organ Failure: Non-Communicable Chronic Disease (2, Sp)** is a prerequisite.

**MEDS 440 Introduction to Surgical Principles (2, Fa)** is a prerequisite.

**MEDS 445 Medical Examiner-Coroner: Investigating Death (2, Fa)** is a prerequisite.

**MEDS 465 Emergency Health Care (2, Fa)** is a prerequisite.

**MEDS 466 Wilderness and Survival Medicine (4, Sp)** is a prerequisite.

**MEDS 320 Preparation for the Clinical Experience (2, Sp)** is a prerequisite.

**MEDS 440 Introduction to Surgical Principles (2, Fa)** is a prerequisite.

**MEDS 445 Medical Examiner-Coroner: Investigating Death (2, Fa)** is a prerequisite.

**MEDS 465 Emergency Health Care (2, Fa)** is a prerequisite.

**MEDS 466 Wilderness and Survival Medicine (4, Sp)** is a prerequisite.

**MEDS 320 Preparation for the Clinical Experience (2, Sp)** is a prerequisite.

**MEDS 440 Introduction to Surgical Principles (2, Fa)** is a prerequisite.

**MEDS 445 Medical Examiner-Coroner: Investigating Death (2, Fa)** is a prerequisite.

**MEDS 465 Emergency Health Care (2, Fa)** is a prerequisite.

**MEDS 466 Wilderness and Survival Medicine (4, Sp)** is a prerequisite.

**MEDS 320 Preparation for the Clinical Experience (2, Sp)** is a prerequisite.

**MEDS 440 Introduction to Surgical Principles (2, Fa)** is a prerequisite.

**MEDS 445 Medical Examiner-Coroner: Investigating Death (2, Fa)** is a prerequisite.

**MEDS 465 Emergency Health Care (2, Fa)** is a prerequisite.
medical care, and basic survival strategies, led by Emergency Medicine physicians. Prerequisite: BISC 220 or BISC 231; and MEDS 220.

MEDS 490X Directed Research in Biomedical Science (2-8, max 8, F, 5P5M) Individual research and readings. Not available for graduate credit. Prerequisite: BISC 220L or BISC 231L and CHEM 1012L or CHEM 1014L; recommended preparation: MEDS 300, MEDS 360.

Program Director: Michele E. Gold, Ph.D.
Associate Program Director: Teresa Norris, Ed.D.
Assistant Program Director of Clinical Services: Karen Embrey, Ed.D.

Faculty

Chair and Professor: Philip Lumb
Professor of Pediatrics and Anesthesiology: Randall Wetzel

Professors of Clinical Anesthesiology: Jack Berger; Mary Joseph; Ronald Katz; Duralay Thangathurai; Vladimir Zelman

Associate Professors of Clinical Anesthesiology: Steven Haddy; Jeffrey Lee; Michele Gold; Rajesh Patel; Steven Richheimer; Earl Strum

Assistant Professors of Clinical Anesthesiology: Rudolf Amaya; Dimiter Arnaudov; Tawfik Ayoubi; Armin Azad; Jason Bang; Maxim Benbassat; Martin Bohorquez; Kari Cole; Ahmed Darwish; James Daniel; Karen Embrey; Maria Espi; Gilgor Guce; Wayne Kaufman; Mona Kulkarni; Rodney McKeever; Mariana Mogens; Rana Movahedi; Ali Nemati; Teresa Norris; Shatel Patel; Catherine Rodziewicz; Ashraf Sedra; Fayeck Taka; Candace Tay; Chelsea Varner; Samuel Yanofsky

Instructors of Clinical Anesthesiology: Roberta Ashley; Deborah Arnet; Brindusa Bauer; Paula Balson; Eric Bowles; Douglas Brannan; James Carey; Jennilyn Casalme; Johnny Cheng; Geoffrey Edwards; Judith Franco; Charlotte Garcia; Katharine Getz; Dolores Gibbs; Amy Gibb; Sarah Giron; Elizabeth Glazer; David Godden; Jessica Harris; Jennifer Hogan; Dina Hunt; Monique Jabbour; Kim Jones-Tang; Rory Keenan; Cathy Kiem; Alla Kryukova; Vladimir Kuraev; Benjamin Lindsey; Victoria McKinzie; Cameron Meyer; Blair Mostofii; Arthur Norcliffe; Michelle Olivares; Margaret Oliveto; Robert Olsen; Patricia Omoto Paik; Nilu Patel; Nancy Perez; Erin Peters; Gabriel Punsalan; Christina Quinn; Elle Rawson; Dhanya Renjith; Ilene Richards; Sara Rondinone; Joseph Sammut; Susan Shenkosky; Tahira Smith; Helen Stepan; Crystal Trinooson; Regalado Valerio; Rhona Wang; Kelly Zhou

The nurse anesthesia program prepares qualified nurses in the specialty of nurse anesthesia and qualifies the graduate to sit for the certification examination given by the Council on Certification of Nurse Anesthetists. The graduate attains a high level of clinical competence with an extensive body of didactic knowledge relevant to the specialty and advanced practice nursing. The mission of the USC Program of Nurse Anesthesia is to share the knowledge and professional development of future nurse anesthetists with the academic strength and leadership skills to advance our profession.

Students enrolling in the M.S., Nurse Anesthesia course of study must complete the nurse anesthesia core curriculum and specialty practicum. The program consists of 47 units and is completed in 27 months of continuous enrollment (seven semesters; the first semester 2-unit course is provided in a hybrid online platform). There is an optional one-semester clinical fellowship offered in the eighth semester of enrollment to provide specialty training in a clinical area of choice: critical care, cardiovascular, neurosurgical, ambulatory anesthesia or pain management. Students may sit for the certification examination during this semester.

The program is based in the Department of Anesthesiology, and classroom instruction is provided by nurse anesthesia program faculty and faculty from the Department of Anesthesiology, the Department of Physiology and Biophysics, and the Department of Cell and Neurobiology within the Keck School of Medicine, as well as clinical faculty from the program clinical sites. Clinical training occurs at Los Angeles County + USC Medical Center, Keck Hospital of USC, Harbor-UCLA Medical Center, Long Beach Veterans’ Administration Medical Center and West Los Angeles Veterans’ Administration Medical Center for the primary rotations. Advanced rotations occur at those sites, as well as Cedars-Sinai Medical Center, Children’s Hospital of Los Angeles, Northridge/Hallmark Pain Management and Surgery Center, Arrowhead Regional Medical Center and UCLA Medical Center.

Master of Science (in Nurse Anesthesia)

General requirements for admission include a minimum 3.0 undergraduate grade point average, a minimum score on the verbal and quantitative sections of the Graduate Record Examination of 300 (or a score of 1000 on the GRE prior to September 2013), completion of the university and Program supplemental application, current licensure as a Registered Nurse, a bachelor’s degree in nursing or a related field from an accredited university or college, submission of an essay describing the applicant’s career goals, professional resume and three letters of reference.

Competitive applicants will be interviewed and must demonstrate an acceptable understanding of the role and responsibilities of certified registered nurse anesthetists. Shadowing experience of CRNAs must be demonstrated. Selections are made on the basis of the formal interview and consideration of a variety of factors that include academic record, type and amount of clinical experience and professionalism.

Academic and Scientific Prerequisites

The admission requirements also include appropriate undergraduate course work in biology, anatomy, physiology, chemistry, biochemistry, physics and statistics (or nursing research). A minimum of one year of experience in critical care nursing as a registered nurse is required. Licensure as an RN in California and current BCLS, ACLS and PALS certifications are required prior to enrollment. Conversational Spanish is strongly recommended.

All students will take the Self-Evaluation Examination (SEE) administered by the Council on Certification of Nurse Anesthetists at the end of the first clinical year. Student scores must be above the national mean for advancement into the research capstone experience.

Admission

Prospective students should contact the program’s admission office, (323) 442-2037 or uscnnap@usc.edu for evaluation of previous course work and clinical background.

Advisement

Prospective students should contact the program’s admission office, (323) 442-2037 or uscnnap@usc.edu for evaluation of previous course work and clinical background.

Prerequisite: BISC 220L or BISC 231L and CHEM 1012L or CHEM 1014L; recommended preparation: MEDS 300, MEDS 360.
Courses of Instruction

Anesthesiology (ANST)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

ANST 500 Human Anatomy (3, Fa) Lectures and laboratory simulation in anatomy emphasizing structure and function of major organs to include brain, cardiovascular, lungs, liver, kidneys and musculoskeletal system. Open to nurse anesthesia students only.

ANST 503 Principles of Nurse Anesthesia Practice (4, Fa) Basic theory of anesthesia administration, preanesthetic assessment, physical examination, monitoring. Case management including airway and blood/fluid management, anesthesia machine, and postoperative pain. Lecture/course study format. Open to nurse anesthesia students only.

ANST 505 Clinical Residency in Nurse Anesthesia I (2, FaSpSm) Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical setting with observation and supervised clinical residency.

ANST 506 Advanced Principles of Nurse Anesthesia Practice (4, Sm) Advanced theory of anesthesia management for general and specialized procedures, diagnostic procedures, pediatrics and obstetrics. Prerequisite: ANST 503, ANST 504, ANST 505.

ANST 507 Clinical Residency in Nurse Anesthesia II (2, FaSpSm) Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical setting with observation and supervised clinical residency. Open only to nurse anesthesia majors. Prerequisite: ANST 503, ANST 504, ANST 505.

ANST 508 Research: Investigative Inquiry (3, Fa) Utilization of research, which includes the evaluation of research, problem identification within the practice setting, awareness of practice outcomes and the clinical application of research. Recommended preparation: research course; basic statistics.

ANST 509 Advanced Clinical Residency in Nurse Anesthesia I (2, FaSpSm) Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to geriatric, obstetrical, and pediatric anesthesia; anesthetic management to include medically compromised patients. Open only to nurse anesthesia majors. Prerequisite: ANST 506, ANST 507.

ANST 510 Leadership and Professional Aspects of Nurse Anesthesia (2, Fa) Emphasis on the professional components of nurse anesthesia practice, including socialization, regulation, culture, ethics, law, employment, advocacy, and contemporary practice issues.

ANST 511 Advanced Clinical Residency in Nurse Anesthesia II (2, FaSpSm) Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to neuroanesthesia, cardiac anesthesia, trauma anesthesia, critical care and pain management. Open only to nurse anesthesia majors.

ANST 512 Research Integration: Capstone Experience (2, FaSpSm) A capstone course that requires students to demonstrate ability to integrate theory, research, and practice through a mentored research experience with direct relevance to graduate specialization. Open only to nurse anesthesia majors.

ANST 513 Advanced Clinical Residency in Nurse Anesthesia III (2, FaSpSm) Correlation of advanced techniques of anesthesia administration with application of scientific and pharmacologic theory in diverse specialty anesthesia rotations. Prerequisite: ANST 511.

ANST 514 Specialty Fellowship (2, Fa) Optional internship to develop advanced skills and critical assessment of anesthesia specialty or clinical research. Graded CR/NC. Prerequisite: ANST 513; graduate of an accredited nurse anesthesia program.

ANST 520 Directed Research (1-12, FaSpSm) Research leading to the master’s degree in nurse anesthesia. Maximum units which may be applied to the degree to be determined by the department. Open to nurse anesthesia majors only. Graded CR/NC. Prerequisite: ANST 508.

ANST 521 Special Projects (1-4, max 4, FaSpSm) Supervised learning in functional and/or clinical area of focus reflecting current trends and development in the field of nurse anesthesia. Open to nurse anesthesia majors only. Graded CR/NC.

ANST 522 Advanced Health Assessment (2, Sm) Advanced health assessment of all human systems utilizing advanced assessment techniques, concepts and approaches. Graded CR/NC. Open to nurse anesthesia majors only.

Assistant Professors: R. Bajpai (Dentistry); S. Curran (Biochemistry); M. Frey (Pediatrics); A. Kobielak (Otolaryngology); C. Lien (Pediatrics); A. Merrill Dentistry; W. Lu; A. Siemer (Dentistry)

Assistant Professors of Research: T. Miki; S. Swenson; D. Weisenberger; S. Zhong

The USC Department of Biochemistry and Molecular Biology prides itself on maintaining a broad-based approach to various aspects of biochemical and molecular biological research. In 2010, the department received more than $10 million in research funding for its primary faculty members.

Altogether, the department numbers 42 primary and joint-appointment faculty members, who conduct research in a variety of areas including: molecular biology and genetics of development and cell differentiation; mammalian and human genetics; DNA methylation, replication, recombination and repair; membrane transport; kinetics and mechanism of enzyme action; protein structure-function interrelationships; carcinogenesis and cancer chemotherapy; and stem-cell biology.

The department also has major research programs in the molecular basis of control and regulation of gene expression, epigenetics, molecular mechanisms of signal processing and transduction, developmental and stem cell biology, detailed analysis of macromolecular structure and function, the biochemistry and molecular biology of the brain, and genetic medicine including gene therapy.
The department’s exceptionally strong research into various aspects of the biochemistry and cell biology of cancer is internationally recognized. Ongoing research programs in this area include mechanism of action of cancer chemotherapeutic agents, tumor cell invasion and metastasis, and cancer cell epigenetics and gene regulation.

Many members of the department are members of the USC Norris Comprehensive Cancer Center, USC Institute for Genetic Medicine (IGM), USC Zilkha Neurogenetic Institute (ZNI), Eli and Edythe Broad CIWM Center for Regenerative Medicine and Stem Cell Research at USC, and Children’s Hospital Los Angeles (CHLA).

The USC Norris Comprehensive Cancer Center maintains a microchemical core facility that includes capabilities for gas phase protein sequencing, amino acid analysis, peptide synthesis, DNA synthesis and sequencing. The Institute for Genetic Medicine maintains a customized microarray core facility. Other facilities available to support the research of members of the department include mass spectrometry, transgenic mice, flow-cytometry, biostatistics, microchemical resource for DNA, and protein sequencing and synthesis core facilities.

The primary offices and laboratories of the department are located on the Health Sciences Campus.

Graduate Programs
Admissions

The prerequisite for applicants to the graduate program in biochemistry and molecular biology is a bachelor’s degree with an undergraduate major in one of the natural sciences. Undergraduate course work should have included organic chemistry, the physics and mathematics required of a chemistry major and some courses in the biological sciences. A course in general biochemistry is also required, but may be taken during the period of graduate study. Previous course work in physical chemistry is strongly recommended. A minimum GPA of 3.0 in the natural sciences (including mathematics) is normally required.

Applicants must pass satisfactorily the general portions of the Graduate Record Examinations. In addition, the department requires at least three letters of recommendation from faculty members who can evaluate the applicant’s potential for graduate work and independent research.

Faculty members of the Department of Biochemistry and Molecular Biology participate in a variety of interdisciplinary Ph.D. programs. Students interested in pursuing a Ph.D. degree in the fields related to biochemistry, molecular and cellular biology, and genetics should apply to USC’s Programs in Biomedical and Biological Sciences (PIBBS). Applications for the Ph.D. Programs in Biomedical and Biological Sciences should be submitted online through the PIBBS Website (usc.edu/pibbs).

Applications should be submitted before the application due date specified on the PIBBS Website. Applications for the M.S. program in biochemistry and molecular biology can be obtained from the department at the address listed below. In addition to the university application, a supplemental departmental application must be completed and returned with transcripts, GRE scores and letters of recommendation to: Graduate Admissions Committee, Department of Biochemistry and Molecular Biology, 1533 San Pablo Street, Los Angeles, CA 90089-1911.

Fellowships

Students admitted to PIBBS are awarded fellowships which pay for tuition and provide a stipend. No fellowships are available for master’s degree students.

Master of Science

The Department of Biochemistry and Molecular Biology offers a program for the Master of Science degree. The primary objectives of this program are to provide the necessary theoretical preparation for biochemical careers and to expose students to biochemistry and molecular biology related research activities culminating with the Master of Science degree. Goals of the program are to train students in preparation for (1) further doctoral study, (2) advanced biochemical research positions in industry and academia and (3) teaching positions at the community college level.

In general, admission requirements are the same as for the Doctor of Philosophy degree. The prerequisite for applicants to the graduate program in biochemistry is a bachelor’s degree with an undergraduate major in one of the natural sciences. A minimum GPA of 3.0 in the natural sciences (including mathematics) is normally required. Applicants must satisfactorily pass the general and advanced (chemistry, or biology or molecular biology) portions of the Graduate Record Examinations. In addition, the department requires at least three letters of recommendation from faculty members who can evaluate the applicant’s potential for graduate work and independent research. Demonstrated proficiency in the English language is required. Special circumstances may provide consideration for conditional admission.

The master’s degree in biochemistry and molecular biology requires 34 units of elective graduate study to be determined by the student’s advisory committee. Fourteen or more course units must be taken in biochemistry and molecular biology; eight units may be pursued outside the department. Students interested in the commercial aspects of biotechnology may take courses focusing on business entrepreneurship, finance, management and marketing in the USC Marshall School of Business. Master’s students have the option of completing a research thesis. Upon approval, a maximum of 10 units of directed research in biochemistry will be applied to the degree. Up to six units of graduate course work taken outside of USC may be applied toward the M.S. degree. Flexibility exists to plan each student’s program to suit individual needs, ambitions and background.

Master of Science, Molecular Epidemiology

A joint program with the Department of Preventive Medicine offers an M.S. degree in Molecular Epidemiology that requires 37 units of graduate study (see the program page for course requirements). Students must also complete a master’s thesis. Students can register for up to 10 units of master’s research units. Interested students should contact the Department of Preventive Medicine.

Ph.D. in Molecular Epidemiology

Faculty members in the Department of Biochemistry and Molecular Biology participate in the Molecular Epidemiology Ph.D. program. For admission information and degree requirements, see the Department of Preventive Medicine.

Courses of Instruction

Biochemistry (BIOC)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

BIOC 501 Recent Advances in Biochemistry (3, max 16, Fa). Lectures on areas of intermediary metabolism and the chemistry of natural products. Prerequisite: BIOL 455, CHEM 430AB.

BIOC 502 Biochemistry Seminar (1, max 12, FaSp) Formal presentations and discussion by students of material from research literature.

BIOC 504 Molecular Biology of Cancer (4, 5p) (Enroll in INTD 504)

BIOC 512 Molecular Basis of Cell Proliferation and Differentiation (2, Irregular) An advanced seminar course in molecular cell biology, discussing current literature with significant impact on the understanding of the cell cycle and differentiation of various cell types. Recommended preparation: basic cell biology and molecular biology. (Frenkel)

BIOC 522 Applications of Physical Methods in Biochemistry (2, FaSp) Applications of physical analytical methods commonly utilized in research in biochemistry and molecular biology. Concurrent enrollment: CHEM 521. (Langen)

BIOC 531 Cell Biology (4) (Enroll in INTD 531)

BIOC 536 Molecular Biology of Cellular Communication in the Nervous System (2, Sp) Discussion of cellular communications in the nervous system through neurotransmitters and their receptors, neuromodulators; biochemical changes during development and the impact of human genomic research. Recommended preparation: one year of general biochemistry or molecular biology. (Tookes)

BIOC 542 Cellular and Molecular Basis of Animal Development (4, Fa) Processes of cell type specification, determination, and morphogenesis in metazoans from vertebrates to insects. Genetic, paragenetic and molecular biological approaches to developmental processes. Prerequisite: INTD 571. (Maxson)

BIOC 543 Human Molecular Genetics (4, Fa) Comprehensive course covering basic principles of human genetics, genetic disease, the Human Genome Project, and gene therapy. Recommended preparation: undergraduate genetics. (Allyaei)

BIOC 549 Protein Chemistry - Structure and Function (4, FaSp) (Enroll in INTD 549)

BIOC 551 Proacrylatic Molecular Genetics (4, Fa) (Enroll in MICB 551)

BIOC 555 Biochemical and Molecular Bases of Disease (4) (Enroll in INTD 555)

BIOC 581 Molecular Biology (4, Fa) (Enroll in INTD 561)

BIOC 571 Biochemistry (4, Fa) (Enroll in INTD 571)

BIOC 573 Optimal Research Presentations by Ph.D. Students (1, max 12, FaSp) Students will attend lectures by peers, and after their first year in the Ph.D. program, prepare and present their own research to an audience of faculty and peers. Open to Ph.D. students
in Genetic, Molecular and Cellular Biology Program (GMCB), Biochemistry and Molecular Biology and Molecular Epidemiology only. Graded CR/NC. (Hrong)

BIOC 574 Systems Physiology and Disease II (4, 5P) (Enroll in INTD 573)

BIOC 575 Predictive and Prognostic Biomarkers in Cancer Treatment (5) Exploration of how appropriate biomarkers can predict response to cancer therapy, tumor recurrence after surgery, rapid detection of tumor response and overall prognosis. Recommended preparation: INTD 571 and a basic understanding of molecular biology.

BIOC 590 Directed Research (1-10, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

BIOC 594abz Master’s Thesis (2-2-0, FaSpSm) Credit on acceptance of thesis. Graded IP/CR/NC.

BIOC 599 Special Topics (2-4, max 8)

BIOC 604 Current Topics in Animal Development (2, 5P) (Enroll in CNB 604)

BIOC 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

BIOC 794abcdz Doctoral Dissertation (2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.

Department of Cell and Neurobiology

Faculty

Professor and Chair: Mikel H. Snow

W.M. Keck Provost Professor of Neurogenetics, Neuroscience, Psychiatry, Psychology and Pharmacy: Pat Levitt, Ph.D.

Professors: J. Chen; M. E. Fini; P. Levitt; A. McDonough; T.H. McNeill*; J.E. Schechter*; M. Snow; R. I. Wood*; S.Y. Ying

Associate Professors: G.H. Albrecht*; K. Eagleson; J.A. Garner*; R. Gopalakrishna*; J.D. Miller; P. Elyse Schauwecker; H. Sucov*; Q.-L. Ying

Assistant Professors: G. Adams; A. Bonnin; K. Chang; G. Crump; G. Field; M. Habib; F. Mariani; B. Patel; H. Tae; M. Winfield; H. Wu

Emeritus Professor: Dwight Warren III

* Recipient of university-wide or school teaching award.

The Department of Cell and Neurobiology provides interdisciplinary training in molecular, cellular and systems biology. Ongoing programs explore basic mechanisms in cellular and molecular neurobiology, neurogenetics, endocrinology, pharmacology, stem cell biology and vertebrate evolution. Disease-oriented research, bridging basic and clinical disciplines, investigates inherited or acquired disorders in vision, stroke, Parkinson’s disease, Alzheimer’s disease, epilepsy and steroid abuse. The challenge is to wield interdisciplinary activities into a conduit for transferring basic science discoveries into more effective and innovative clinical interventions in the treatment of disease-related disabilities.

The Department of Cell and Neurobiology has 24 primary faculty members.

The graduate program of the Department of Cell and Neurobiology is dedicated to excellence and state-of-the-art training and education in molecular and cellular aspects of normal function and in acquired or genetic disorders that cause human disease. Professional and intellectual development is fostered through a broadly based curriculum from which students can tailor a menu of specialization and by a supportive environment of faculty interactions. Graduate education is designed to prepare the student for a lifetime of learning, exploring the limits of research, teaching and creative activities.

Cell and Neurobiology Graduate Program

The graduate program offered in cell and neurobiology provides a flexible, individualized course of study directed toward developing independent, researchful scholars. The major thrust of this program is devoted to students training for the Ph.D. degree but study toward the M.S. degree is also possible.

Admissions

Master of Science

(No longer accepting applications)

The prerequisite for applicants to the M.S. graduate program in cell and neurobiology is a bachelor’s degree with a science major or equivalent. Applicants should have a superior undergraduate record at an accredited college or university. Additional requirements include three letters of recommendation and satisfactory performance on the general and advanced (biology or chemistry) portions of the Graduate Record Examinations. Students are normally admitted for the academic year beginning in the fall; however admission to the master’s program can begin in the spring semester with approval from the Graduate Admission Committee. Application deadline for the following academic year is January 1.

Doctor of Philosophy

(No longer accepting applications)

Doctoral candidates interested in working with CNB faculty in the areas of neural, computational, cognitive and behavioral science should apply through either of the two university wide interdisciplinary graduate programs at USC: the Neuroscience Graduate Program or the Program in Biomedical and Biological Science (PIBBS). Applicants interested in working with CNB faculty as part of the M.D./Ph.D. program should apply directly to the Keck School of Medicine.

Application deadlines:

- M.D./Ph.D. program — American Medical College Application Service (AMCAS) — November 1; Supplemental — December 1
- Neuroscience Graduate Program — January 15 (see the Graduate School section for Ph.D. student funding deadline information)

- PIBBS — December 1

Master of Science

The Master of Science degree is awarded for demonstrated competence in the cell biological sciences, broadly defined. Two options are available: (1) a non-thesis M.S. program based entirely on course work followed by a comprehensive examination; and (2) a thesis M.S. program that includes fewer courses but requires a written thesis based on original laboratory research. Students take courses both from the Department of Cell and Neurobiology and other departments to obtain a broad appreciation of structure and function. Students must maintain a minimum GPA of 3.0. The Master of Science candidate may engage in teaching if this is beneficial to the individual program.

Students in the non-thesis program must complete a minimum of 34 units of graduate level courses (500 or higher) beyond the baccalaureate degree.

Non-thesis students must take 16 units from the following list of courses: BISC 421, BME 552, BME 575L, BME 670, BME 671, CB 501AB, CB 511AB, CB 512L, CB 513, CB 517L, CB 525, CNB 534, INTD 504, INTD 551, INTD 552, INTD 571, INTD 572, INTD 573, MICB 551, NSCI 524. All students must pass additional courses totaling 18 units. All course work must be approved by the student’s graduate adviser and the chair of the graduate program.

Students in the thesis program must complete a minimum of 38 units of graduate level courses (500 or higher) beyond the baccalaureate degree.

The regulations for thesis students are the same as specified above, except the student is required to take only 12 units from the course list and an additional 16 units from other departmental or non-departmental courses. Students will also take 6 units of CNB 530. The thesis M.S. student is required to take at least 4 units of Master’s Thesis (CNB 594). All course work must be approved by the student’s graduate adviser and the chair of the graduate program.

Doctor of Philosophy

The Ph.D. student develops background knowledge in cellular, molecular and structural biological sciences. The objective of the Ph.D. program is rigorous, original research experience obtained by design and execution of a dissertation project. Active research areas for which guidance is available include cell and molecular biology, neurobiology of circadian rhythms, visual neuroscience, neuropharmacology, neurodegenerative and neurogenetic diseases, developmental and cellular neuroscience, neuroendocrinology, reproductive endocrinology and evolutionary biology.

Research Tool-Statistics

Each student must demonstrate competence in statistics. The student must demonstrate competence in the theory and use of statistics including knowledge of regression, correlation and analysis of variance. A student who has prior experience in statistics should consult the faculty adviser and petition the Graduate Advisory Committee to waive the research tool requirement. This requirement may be fulfilled by obtaining a grade of B (3.0) or higher in specified courses. This requirement must be fulfilled before the qualifying examination.

Course Requirements

A minimum of 60 units of course credit is required for the Ph.D. Course requirements vary according to the specific needs of the student. Graduate students must
take at least 16 units from the following list of courses: BISC 421, BME 552, BME 572, BME 670, BME 671, CNB 501a, INTD 501a, INTD 571, INTD 572, INTD 524, CNB 631, INTD 504, INTD 521, INTD 555, INTD 561, INTD 573, INTD 572, INTD 573, MCB 551, MSCI 524. Ph.D. students must take additional classes or research units totaling 44 units from other departmental or non-departmental courses. All course work must be approved by the student’s graduate adviser and the chair of the graduate program.

Prior to the qualifying examination, each student must complete at least three, eight-week periods of introductory research in the laboratories of departmental faculty. The purpose of the laboratory rotations is to encourage one-on-one interactions between new students and departmental faculty while at the same time providing an introduction to research in a sampling of departmental laboratories.

Course work outside of the departmental offerings is often encouraged and may be required by the student’s qualifying exam committee. In most instances, a program will include extra departmental courses such as physiology, biochemistry and molecular biology. A grade point average of at least 3.0 (A = 4.0) must be maintained in both departmental and overall course work.

Communication Skills Requirement

The department considers teaching experience to be an important part of graduate education. Students in the Ph.D. program are required to serve a teaching practicum during at least one semester of their graduate training.

Screening Procedure

The graduate affairs committee conducts a screening for each student at the end of one full year in the program. The committee reviews thoroughly all facets of the student’s performance in the graduate program. The student’s progress must be judged satisfactory before a qualifying exam committee can be nominated.

Qualifying Exam Committee

Students are expected to select a general area of research interest and a dissertation adviser as soon as possible but no later than 18 months after entering the graduate program in this department. The dissertation adviser and the graduate affairs committee consult with the student to select a qualifying exam committee. After the student has successfully completed the first-year screening, the qualifying exam committee’s nomination is forwarded to the Graduate School.

Qualifying Examination

Before the end of their fifth semester of graduate standing, students in the Ph.D. program must pass both the written and oral portions of a qualifying examination. The examination is intended to reveal the student’s insight and understanding of general concepts and the ability to apply this knowledge to current research problems. The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Cell and Neurobiology (CNB)

CNB 501ab Gross Human Anatomy (3-4, FaSp) A complete dissection of the body. Supplementary lectures and demonstrations. Emphasis on correlating development, structure and function.

CNB 510abL Microscopic Anatomy (3-3, FaSp) Lectures and laboratory in microscopic anatomy emphasizing embryonic origin of the basic body plan, cells, tissues, and organs; ultrastructural and functional correlations.

CNB 512 Pharmacology I (5, Fa) Actions, chemical properties, bodily distribution, and toxicology of drugs. Laboratory. (Duplicates credit in former PHNU 510L.)

CNB 513 Pharmacology II (5, Sp) Continuation of 512L. (Duplicates credit in former PHNU 511.) Prerequisite: CNB 512.

CNB 521 Neuroanatomy (3, Fa) Structure and function of the human nervous system with emphasis on central conduction pathways, especially those of clinical significance.

CNB 525 Neural Development (3, Fa) Cellular, molecular, and physical development and plasticity in the nervous system. Lecture and student presentations and discussions of classic and current research literature. Prerequisite: BISC 524; recommended preparation: background in neurosciences.

CNB 531 Anatomy for the Artist (1-2, Irregular) This course includes lectures and demonstrations of human anatomy specifically for the artist, and art instruction on drawing the human figure.

CNB 534 Molecular Aspects of Neuropharmacology (2, FaSp) Current advances in selected areas of molecular neuropharmacology, e.g., mechanisms by which drugs affect neurotransmitter systems, neural plasticity, treatment of neurological and psychiatric diseases.

CNB 550 Cell and Neurobiology Seminar (1, max 6, FaSp) Reports and discussion on recent advances in anatomy. Graded CR/NC. (Duplicates credit in former ANCB 550.)

CNB 561 Molecular Biology (4, Fa) (Enroll in INTD 561)

CNB 571 Biochemistry (4, Fa) (Enroll in INTD 571)

CNB 572 Systems Physiology and Disease I (4, Fa) (Enroll in INTD 572)

CNB 573 Systems Physiology and Disease II (4, Sp) (Enroll in INTD 573)

CNB 590 Directed Research (1-12, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.

CNB 594abz Master’s Thesis (2-2-0, FaSpSm) Credit on acceptance of thesis. Graded IP/CR/NC.

CNB 598 Introductory Laboratory Rotations (1-2, FaSpSm) Introductory laboratory rotations wherein students are directed in individualized research, reading and discussion to provide perspective and supplemental background in areas of faculty research interests.

CNB 599 Special Topics (2-6, max 8, FaSpSm) Special topics provided for background and research and research in the Department of Cell and Neurobiology through lectures, discussions, assigned readings, and student presentations. (Duplicates credit in former ANCB 599 and PHNU 599.)

CNB 600 Literature Tutorial (1, max 3, FaSpSm) Individualized readings and discussions culminating in a literature-review paper; to promote the acquisition of critical thinking skills in the evaluation of scientific problems. Recommended preparation: background in biological sciences.

CNB 603 Current Topics in Vision Research (2, Sp) Basic science (e.g., anatomy, cell biology, electrophysiology) and clinical aspects of the eye: cornea, lens, retina, and optic nerve. USC faculty and authorities from other institutions will lecture.

CNB 604 Current Topics in Animal Development (2, 2 years, Sp) Current research in selected aspects of mammalian and non-mammalian developmental biology, including the molecular genetics and molecular biology of organogenesis, morphogenesis, lineage specification, and differentiation. Prerequisite: INTD 561 and CNB 542.

CNB 651 Morphogenesis and Regeneration (2, 2 years, Sp) Analysis of developing and regenerating systems: historical and recent interpretations of morphogenetic movements, tissue interactions, fields, gradients, differentiation, and determination.

CNB 661 Brain-Endocrine Interactions in Reproduction (2, 2 years, Fa) Past and current experimental approaches to morphology and endocrinology at hypothalamic, pituitary, and gonadal levels in both males and females. Prerequisite: CNB 511abL or a general endocrinology course.

CNB 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

CNB 794abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.

Department of Family Medicine

Division of Physician Assistant Studies
Primary Care Physician Assistant Program
1000 South Fremont Avenue
Unit 7, Building A11, Room 11-150
Alhambra, CA 91803
(626) 457-4340
FAX: (626) 457-4445
Email: uyspca@usc.edu
usc.edu/pa

Program Director: Kevin Lohenery, Ph.D., PA-C

Medical Directors: Ignacio DeArtola, M.D.; Raymond Wallany, M.D.

Faculty
The list above are faculty with the Primary Care Physician Assistant Program.

The Primary Care Physician Assistant Program prepares students to practice medicine under the supervision of a physician. Students earn a Master of Physician Assistant Practice (MPAP) degree upon completion of the program.

The MPAP degree program offered by the Division of Physician Assistant Studies is part of the Department of Family Medicine. Preclinical instruction is provided by physician assistant program faculty and faculty from other departments within the Keck School of Medicine, the USC School of Pharmacy, other divisions within the Health Sciences Campus, as well as clinicians from the surrounding communities. Emphasis is placed on primary care medicine and caring for medically underserved populations. Clinical training occurs at various clinical sites throughout the greater Los Angeles region, including the Los Angeles County-USC Medical Center, Arrowhead Regional Medical Center, Long Beach Memorial Family Practice Residency, private offices and managed-care settings, community-based clinics, VA facilities and specialty settings. Opportunities to train in selected off-site settings serving Native American populations in the Southwest are also available to students upon approval.

Students complete eight, six-week clinical clerkships in emergency medicine, family medicine, internal medicine/geriatrics, orthopedics/occupational medicine, pediatrics, general surgery and women’s health. These clerkships emphasize the development of necessary clinical skills as well as learning how to work as part of a health care team. The Primary Care Physician Assistant Program is committed to recruiting diverse applicants and preparing graduates to practice in medically underserved communities.

The USC Primary Care Physician Assistant Program is accredited by the Accreditation Review Committee on Education for the Physician Assistant (ARC-PA), which is sponsored by seven national medical associations including the American Medical Association. The program is approved by the Physician Assistant Committee (PAC) of the Medical Board of California. Graduates must pass the National Commission on Certification of Physician Assistants (NCCPA) Physician Assistant National Certifying Exam to qualify for licensure throughout the United States.

Master of Physician Assistant Practice

Admission Requirements and Procedures

Application to the Physician Assistant Program requires completion of a bachelor’s degree (in any discipline) from a regionally accredited four-year institution and completion of academic prerequisite requirements.

Admission to the program is for the fall semester only. Admission is granted by the physician assistant admissions committee after careful review of all applications. Selections are made on the basis of a formal interview (for competitive applicants) and consideration of a variety of factors which include: academic record, type and amount of clinical experience, multicultural sensitivity, community service experience and professional experience.

Applicants are required to submit an application through the Central Application Service for Physician Assistants (CASPA) as well as a USC Supplemental Application by November 1 of each year. Further details regarding admission procedures including those for international student applicants are provided online at usc.edu/pa.

Transfer Students or Advanced Placement

The Physician Assistant Program does not accept transfer students, nor do we allow advanced placement based on prior education or clinical experience. Each applicant who is admitted is required to complete the full Master of Physician Assistant Practice curriculum in residence at USC. No waivers or substitutions are permitted.

Registration

Students receive information regarding registration procedures during an orientation program held the week before classes begin.

Advisement

Information sessions are available for prospective students who would like to receive more information regarding the program. Applicants are encouraged to attend one of the program’s information sessions where PA faculty and staff describe the program, the application process and answer general questions. Information sessions are held on the Alhambra Campus, Building A1t. Contact the PA Program for further details and RSVP at uscspa@usc.edu or call (626) 457-4240. The information session schedule may be viewed at usc.edu/pa.

Degree Prerequisites

A bachelor’s degree from a regionally accredited institution and completion of all prerequisite course work are required for admission to the Physician Assistant Program.

Science Prerequisites

A one-year general biology sequence with lab and a one-year general chemistry sequence with lab, each course designed for science majors. All science prerequisites must be completed within 10 years of application to the program.

Three semester units or 4 quarter units of general chemistry with lab.

Distance learning courses are acceptable provided they are equivalent in all dimensions (including laboratory requirements) to courses taught in “traditional” educational settings (e.g., hybrid courses). All distance learning course credit must be provided by regionally accredited institutions of higher education.

Online science courses are not eligible for consideration as a prerequisite.

Students are expected to have a strong competency in medical terminology.

All science prerequisites should be completed within 10 years of application to the program. Exceptions to the 10-year science prerequisite time frame may be granted on an individual basis to those individuals who have completed one of the following: 1) at least 2 semester units of graduate credit in a medically related natural science discipline with an overall grade point average of 3.0 or better, completed within seven years of the application deadline, or 2) received an advanced degree in the natural or clinical sciences (e.g., M.S., DVM, Pharm.D., Ph.D., M.D.) within 10 years of the application deadline. In either case, all course work completed and degrees conferred must be from institutions of higher education accredited by an accrediting agency recognized by the Secretary of the U.S. Department of Education. Requests for this 10-year exemption should be directed to the chair of Admissions.

Non-science Prerequisites

Three semester units or 4 quarter units of each of the following: general psychology and statistics.

Two semesters of beginning college level Spanish language earned through course work or by placement examination. There are no language substitutions or waivers.

Two semester units or three quarter units of English composition are required for international applicants only. AP course work is acceptable.

Students who intend to apply to the Physician Assistant Program should contact the admission office for evaluation of previous baccalaureate and/or post-baccalaureate course work.

Standardized Tests

Applicants are required to take either the GRE or MCAT examination. The examination must be taken within five years of the application deadline of November 1. Official scores of the general and analytical sections of the GRE must be submitted to USC by using the Institutional Code 4852 (departmental code is not necessary). Applicants with MCAT scores must provide their AAMC verification code to the USC PA Program. GRE or MCAT scores must be submitted by November 1. The PA Program expects that all applicants earn a combined quantitative and verbal GRE score of no less than 1,000 (on the older version of the exam) and 255 (on the newer version of the exam).

Clinical Experience Prerequisite

“Hands-on” patient care experience is preferred. Most successful applicants typically have 2,000 hours or more of paid clinical hours and have worked as one of the following: emergency medical technician, licensed vocational nurse, medical assistant, medical scribe, medical technologist, military medical corpsman, paramedic, psychiatric technician, physical therapy aide, radiological technician, respiratory therapist or registered nurse. Other health care experience is equally acceptable as long as the experience is “hands-on” in nature.

Physician Assistant Shadowing Experience

Shadowing a physician assistant in a clinical setting is expected. This activity provides the applicant with the up-close experience needed to understand the role and responsibilities of the PA and may help the applicant make a better informed decision in choosing a career as a physician assistant.

Community Service Prerequisite

Community service activities/projects are expected of all applicants. Service which benefits medically underserved or disadvantaged populations is preferred.

Curriculum Requirements
The completion of the 33-month professional curriculum is required to earn the Master of Physician Assistant Practice degree. Students do not have choices of courses to take nor are they permitted to drop any course or courses during the semester. Progress is permitted only when the prior semester is successfully completed. Students should view the curriculum outlined here as advisory only and subject to modification.

Summative Evaluation

A summative evaluation is conducted on each student during the sixth and final semester of the program to verify that each student is prepared to enter clinical practice.

Health Requirements and Technical Standards

All accepted candidates are required to meet the program’s technical standards (physical and psychological competencies of performance) prior to entering the program and throughout training. Upon acceptance, students will be required to submit and maintain evidence of current health status and immunizations. Specific details outlining these technical standards are located at usc.edu/pa.

Background Check

All USC Physician Assistant students are required to pass a background check upon admission to the Master of Physician Assistant Practice (MPAP) Program.

Degree Requirements

All students in the Master of Physician Assistant Practice degree program must meet course and grade point average requirements. All course requirements must be completed with a grade of “B” or better. The degree will not be conferred until the student has successfully completed all degree requirements. Students are subject to the degree requirements in the catalogue current for the semester of their admission into the program.

Physician assistant students are enrolled in a standard curriculum during their 33 months in the program. The following courses must be successfully completed in order to earn the Master of Physician Assistant Practice degree. Only physician assistant students may enroll in these courses. Departmental clearance is required to enroll.

Year IV, Summer Session

Requests for further information may be addressed to: Primary Care Physician Assistant Program at USC, 1000 South Fremont Avenue, Unit 7, Building A11, Room 1100, Alhambra, CA 91803, or via email at uscpa@usc.edu. The program’s Website is usc.edu/pa.

Courses of Instruction

Primary Care Physician Assistant (PCPA)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

PCPA 503 Behavioral Sciences I (4, Fa) First of three-semester sequence in current topics in behavioral medicine, psychological and cultural factors in health and illness, interpersonal and sociological aspects of patient care, and competencies for PA practice. Open to physician assistant practice majors only.

PCPA 506 Behavioral Sciences II (4, Sp) Second of three-semester sequence in current topics in behavioral medicine, psychological and cultural factors in health and illness, interpersonal and sociological aspects of patient care, and competencies for PA practice. Open to physician assistant practice majors only.

PCPA 509 Behavioral Sciences III (4, Fa) Last of three-semester sequence in current topics in behavioral medicine, psychological and cultural factors in health and illness, interpersonal and sociological aspects of patient care, and competencies for PA practice. Open to physician assistant practice majors only. Prerequisite: PCPA 503.

PCPA 550 Basic Medical sciences (6, Fa) A one-semester overview of clinical anatomy, physiology, pathophysiology, and pathology essential to understanding disease mechanisms commonly encountered in primary care and specialty practices of medicine. Open to physician assistant practice majors only.

PCPA 551 Clinical Skills IV (3, SpSm) Laboratory experiences with basic clinical skills essential to medical practice. Last of four courses. Open to physician assistant practice majors only. Prerequisite: PCPA 550.

PCPA 552 Clinical Skills IV (3, Sp) Laboratory experiences with basic clinical skills essential to medical practice. Last of four courses. Open to physician assistant practice majors only. Prerequisite: PCPA 529.

PCPA 553 Topics in Medicine I (4, Fa) Basic instruction in normal/abnormal states of organ systems in the study of human disease. The first of three courses that includes instruction in pathophysiology, pharmacology, diagnostic studies, and medicine. Open to physician assistant practice majors only.

PCPA 556 Topics in Medicine II (4, Sp) Basic instruction in normal/abnormal states of organ systems in the study of human disease. The second of three courses that includes instruction in pathophysiology, pharmacology, diagnostic studies, and medicine. Open to physician assistant practice majors only. Prerequisite: PCPA 543.

PCPA 559 Topics in Medicine III (4, Fa) Basic instruction in normal/abnormal states of organ systems in the study of human disease. The third of three courses that includes instruction in pathophysiology, pharmacology, diagnostic studies, and medicine. Open to physician assistant practice majors only. Prerequisite: PCPA 546.

PCPA 561 Clinical Assignment I (4.5, FaSpSm) One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Graded CR/NC.

PCPA 562 Clinical Assignment II (4.5, FaSpSm) One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Graded CR/NC.

PCPA 563 Clinical Assignment III (3.5, FaSpSm) One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Graded CR/NC.

PCPA 564a Clinical Assignment IV (4, FaSpSm) One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Graded CR/NC.

PCPA 564b Clinical Assignment V (4, FaSpSm) One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Graded CR/NC.

PCPA 565 Clinical Assignment VI (3.5, FaSpSm) One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Graded CR/NC.

PCPA 567 Clinical Assignment VII (3.5, FaSpSm) One discrete consecutive five-day-a-week...
PCPA 568 Clinical Assignment VIII (3.5, F, S, P$) One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Graded CR/NC.

PCPA 583 Advanced Topics in PA Studies: Education (4, Sp) Seminar format: students explore educational theories and methods used by PAs in a variety of settings, including clinical practice, classroom and community. Open to physician assistant practice majors only.

PCPA 586 Advanced Topics in PA Studies: Research (4, Sp) Seminar format: students receive an integrated experience in research methods including methodology, data collection, analysis and evaluation. Open to physician assistant practice majors only.

PCPA 589 Advanced Topics in PA Studies: Medical Care Organization (4, Sp) Seminar format: students explore current topics in medical care organization and physician assistant practice including administration, financing, changing organizational settings, and workforce issues. Open to physician assistant practice majors only.

Department of Molecular Microbiology and Immunology

Hoffman Medical Research Center 401 3011 Zonal Avenue Los Angeles, CA 90089-9094 (323) 442-1712 FAX: (323) 442-1721 Email: mmiddept@usc.edu keck.usc.edu/en/Education/Academic_Department_and_Divisions/Department_of_Molecular_Microbiology_and_I mmunology

Faculty

Distinguished Professor and Chair: Jae U. Jung, Ph.D.
Fletcher Jones Foundation Chair of Molecular Biology and Immunology and Hastings Foundation Professor of Molecular Microbiology and Immunology: Jae Jung, Ph.D.
Rita and Edward Polusky Chair in Basic Cancer Research: Michael Lieber, Ph.D., M.D.
Walter A. Richter Chair in Cancer Research: W. Martin Kast, Ph.D.
Leslie P. Weiner Professor of Neurology and Richard Angus Grant, Sr., Chair in Neurology: Leslie P. Weiner, M.D.
Chair, Graduate Advisory Committee: Stanley M. Tahara, Associate Professor

Professors: S. Chen; G. Coetzee (Urology); L. Comai; S.J. Gao; D.A. Horwitz (Medicine); M. Lieber (Pathology, Biochemistry and Molecular Biology); W.M. Kast; M. McMillan; J.-H. Ou; P. K. Pattengale (Pathology); L.P. Weiner (Neurology)

Associate Professors: Omid Akbari; G. Bogenmann (Pediatrics); P. Cannon; R. Duncan (Pharmacy); P. Feng; H.K.W. Fong (Ophthalmology); C. Hill (Radiation Oncology); A. Jorg (Pediatrics); J.R. Landolph; H. Lee; A. Schomath; S. Tahara; E. Zandi

Assistant Professors: R.W. DePaolo; X.F. Huang; C. Liang; K. Machida; T. Salto (GI Liver-Medicine); W. Yuan

Associate Professor of Research: S.Y. Park
Assistant Professors of Research: H. Lee; Z. Toth
Emeritus Professors: F. Aladjem; M. Lieb; G. Dennert
Clinical Assistant Professor: Jie Li
Distinguished Professor, Emeritus: Michael M.C. Lai

The Department of Molecular Microbiology and Immunology is located on the Health Sciences Campus in the Elaine Stevely Hoffman Medical Research Center, in the USC Norris Comprehensive Cancer Center and at the USC Institute for Genetic Medicine. Faculty guidance and specialized facilities are available for advanced research in animal virology, eucaryotic cell biology and cellular differentiation, molecular and cellular immunology, genetic diseases, microbial and molecular genetics, regulation of gene expression, and chemical and viral carcinogenesis.

Graduate Programs

Admissions

An applicant to the graduate programs in molecular microbiology and immunology must have a bachelor’s degree from an accredited college or university with a major in science — usually biology, chemistry or physics. The applicant must have demonstrated strength in science or mathematics. Undergraduate course work should have included at least one year of biology, chemistry through organic chemistry, mathematics through calculus, physics and physical chemistry. Deficiencies may be made up early in the predoctoral program.

The department encourages applicants to contact its office prior to making formal application. Each applicant must pass satisfactorily the general and advanced (biochemistry, cell and molecular biology or biology, chemistry or physics) portions of the Graduate Record Examinations, and must also arrange for three letters of recommendation to be written. In addition, the applicant must provide a one-page statement of career objectives, including the general area of research interest. This statement is intended to facilitate selection of those students who will most benefit from the department’s graduate program. A personal interview is strongly recommended but not required.

Applicants who have attended graduate school at another university may be admitted to advanced standing upon recommendation of the department.

Training Grants and Fellowships

Incoming domestic students may be supported by a departmental training grant or by a research grant to a specific faculty mentor during their first year; subsequently, students are supported by research grants awarded to individual faculty members. International students are supported by research assistantships.

Master of Science

The primary objective of the Master of Science program is to prepare students for a career in the broad field of biomedical sciences with focus on, but not limited to, microbiology, virology, immunology and cancer research. This program provides extensive theoretical preparation in combination with hands-on research, where students are trained in research laboratories located on the Health Sciences Campus (HSC), comprising the Keck Medical School, the School of Pharmacy and the USC Norris Comprehensive Cancer Center, or located at Children’s Hospital Los Angeles (CHLA).

Goals of the program are to prepare students for employment opportunities in: academic research or teaching at universities, institutes or not-for-profit research centers; research and development in industry (biotech, pharma, petrol, dairies, breweries); health care (hospitals and health care providers, medical technology, diagnostic laboratories); law firms (patents, intellectual property rights, technology transfer, toxic torts); environmental organizations (advisory, management, planning); government (public health, waste management, EPA, FDA, NIH, etc.); publishing (journalism, journal editor).

Admission Requirements Applicants are expected to have a bachelor’s degree in science (usually biology, chemistry or physics) from an accredited college or university. Generally required courses include: at least one year of college-level biology, chemistry through organic chemistry, mathematics through calculus, and one year of college-level physics. Students who do not meet all requirements may still apply, and admission will be decided on a case-by-case basis. In general, a minimum undergraduate GPA of 3.0 is expected. Additionally, a student must take the Graduate Record Examinations (GRE), and a minimum score of 1000 is expected. International applicants are expected to provide results from the International English Language Testing System (IELTS) or the Test of English as a Foreign Language (TOEFL; results from Internet-based, computer-based or paper-based tests are acceptable).

Course Requirements A total of 34 units is required. Students may pursue a thesis option, which requires completion of MCB 548bc (2-2-0) plus 30 units of approved course work, no more than 8 of which may be MCB 580 Directed Research. Students pursuing a non-thesis option must complete 34 units of approved course work. Students must choose one of these options by the end of the first year of study.

Fourteen or more course units must be taken in the Department of Molecular Microbiology and Immunology; 8 units may be pursued outside the department and, upon approval, a maximum of 8 units of directed research in molecular microbiology and immunology may be applied to the degree. No more than 4 units of course work taken outside of USC can be applied toward the M.S. degree requirements. Students considering such an action should submit a petition to the department and document a rigorous academic standard for the course (reading materials, tests and other performance criteria, lecture content, etc.). The graduate advisory committee will review the petition and inform the student of its decision.

Doctor of Philosophy

(No longer accepting applications)

The Department of Molecular Microbiology and Immunology offers a Ph.D. degree program geared toward training students for future independent research careers in an academic or industrial setting. The program introduces students to research early in their first year through rotations in laboratories. Subsequent required course work in basic and advanced topics and an intensive research experience are designed to foster independent and critical thinking.

Students normally select a faculty research adviser for their dissertation by the end of their first year.

Course Requirements A minimum of 60 units of graduate study is required for the Ph.D. degree; at least 30 of these must be taken at USC. Because the background of applicants varies widely, the department’s graduate advisory committee consults with each student to design an individualized schedule of prescribed courses. In the course of their program, all students are expected to become familiar with the principles of
microbiology and general biochemistry and to study advanced biochemistry, microbial physiology and genetics, immunology, virology, molecular biology, and chemical and viral oncology.

**Screening Procedure** Before completing more than six courses (24 units) in regular graduate status, each student is required to pass a written screening examination administered at the end of the first year of graduate study. This examination consists of questions submitted by the faculty and is intended to expose any areas of weakness in the student’s abilities. After passing the screening examination, the student is expected to select an area of research and obtain the consent of a member of the department to serve as research adviser.

**Qualifying Exam Committee** The department’s graduate advisory committee serves as the advisory committee for all first- and second-year graduate students. To replace the graduate committee, a five-member qualifying exam committee is appointed for each student after the departmental screening examination is passed. The qualifying exam committee is responsible for counseling the student, preparing the student for the qualifying examination, administering the examination, and recommending advancement of the student to candidacy for the Ph.D. degree. The student may recommend a chair for this committee, who must be a departmental faculty member but not the student’s Ph.D. advisor. Appointment of the chair is subject to approval of the student’s research adviser, the department chair and the graduate advisory committee. Other committee members must include three faculty members from within the department (other than the student’s Ph.D. advisor) and one faculty member from another Ph.D. granting department. Members of the committee must be approved by the department chair and the full training committee faculty and are officially appointed by the dean of graduate studies.

**Qualifying Examination** Students in the Ph.D. program must pass both the written and oral portions of the qualifying examination administered by their qualifying exam committee during the second year of graduate study. The examination consists of a research proposition that must be presented in written form and defended orally. The written proposition is an independent research proposal, outside of the student’s immediate area of thesis research and supported by documentary references.

The graduate advisory committee and the qualifying exam committee will instruct the student in how to prepare the proposition in appropriate subdisciplines of microbiology. The final draft of the written proposition must be submitted to the department faculty at least two weeks in advance of the oral examination. The oral examination is open, and all members of the department faculty may participate in questioning the student. The examination will include exploration of the student’s written proposition but need not be restricted to it; faculty may also question the student on relevant areas of science covered in course work or in current scientific literature. All portions of the oral examination must be completed at the same time.

Final evaluation of the examination is by vote of the qualifying exam committee alone. If there is more than one dissenting vote from the qualifying exam committee, the student is judged to have failed the examination. At the discretion of the committee, the student may be allowed to repeat the examination once within a period of one year from the date of the original examination but not before six months.

**Annual Research Appraisal (ARA)** Beginning in the second year, each graduate student presents a progress report to his or her research committee. For students not yet appointed to candidacy, their major adviser, one faculty member from within the department and one faculty member from outside the department comprise the committee. Students appointed to candidacy meet with their dissertation committee. Prior to the meeting, the student prepares a short written document describing significant experiments, problems and projected studies. This document is distributed to committee members and is included in the student’s file. The ARA meeting is intended to be a working session between the student and his or her committee; experimental results and problems are discussed within this context. In addition the student presents a research plan for the next year of work.

A satisfactory ARA is required of every student for each year in residence.

A final ARA is required before the student is permitted to write the dissertation. The student collects and organizes all experimental data to be written into the dissertation as the final ARA document. This will be considered a preliminary draft of the dissertation. At the conclusion of the final ARA meeting, the dissertation committee either recommend further experiments or approve the document and give permission for writing the dissertation.

**Advancement to Candidacy** When the student has successfully passed the qualifying examination, the qualifying exam committee recommends the student’s advancement to candidacy for the Ph.D. degree. Admission is by action of the dean of graduate studies. At this time the qualifying exam committee also approves the student’s dissertation topic.

**Dissertation Committee** After advancement to candidacy and approval of the dissertation topic, and with the unanimous recommendation of the committee to the dean of graduate studies, the qualifying exam committee may be reduced to a three-member dissertation committee. Members of the dissertation committee should include the student’s research adviser as chair, another faculty member from the department and one faculty member from outside the department; additional members may be appointed. This committee is responsible for counseling the student during preparation of the dissertation, and conducting the final oral examination during the dissertation defense.

**Dissertation and Oral Defense** The student’s research is reported in a dissertation written under the guidance of the research adviser. The dissertation must demonstrate the student’s capacity for independent research, scholarly achievement and technical mastery of a special field. When the final draft of the dissertation is ready, the student will take the final oral examination, which is open to the university community. This examination is a defense of the major research conclusions of the dissertation.

All doctoral candidates must be registered in 794 Doctoral Dissertation each semester (excluding summer sessions) from the time of their advancement to candidacy until their dissertation is approved for final text preparation. Under exceptional circumstances students may be excused from registration for a semester by petitioning the Graduate School for a leave of absence. The granting of a leave does not alter the student’s responsibility to meet the time schedule for completion of all degree requirements.

**Time Requirements** It is the policy of the department to encourage students to complete the degree program for the Ph.D. as rapidly as possible. Ph.D. degrees are currently taking an average of four-and-a-half to five years. The university requires that the student complete the degree within six or eight years of the date on which USC graduate work commenced, depending upon whether the student was admitted with a prior applicable master’s degree. Extensions may be granted for compelling reasons, but in no case may the time be extended for more than two years.

### Courses of Instruction

**Molecular Microbiology and Immunology (MICB)**

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**MICB 501. Introductory Medical Microbiology (4, Irregular)** A survey of microorganisms which cause human infectious diseases including mechanisms of pathogenesis, principles of antibiotic usage, pertinent microbial genetics; lectures, laboratories and demonstrations. Prerequisite: one year general biology, one semester biochemistry.

**MICB 503. Introduction to Immunology (1, Irregular)** Basic introduction into molecular, cellular, and clinical immunology for second year medical students and graduate students in Microbiology. (Duplicates credit in BISC 450L.)

**MICB 502. Molecular and Cellular Immunology (2, max 8, Fa)** Specific topics to be scheduled on a yearly and rotating basis. Prerequisite: MICB 501.

**MICB 503. Current Topics in Immunology (1, max 8, Irregular)** Discussion forum on the diverse areas of research which constitute modern immunology. Prerequisite: MICB 501.

**MICB 504. Molecular Biology of Cancer (4, 5P)** (Enroll in INTD 504)

**MICB 521. Infection and Host Responses (4, 5P)** (Enroll in INTD 521)

**MICB 524. Animal Virology (2, max 6, Irregular)** Virus structure and chemistry; virus-cell interactions; aspects of virus genetics; molecular biology; pathogenesis, immunology, and evolution of viral infections.

**MICB 549. Student Seminar Series (1, max 8, Fa)P** Microbiology students will present research seminars describing their thesis progress.

**MICB 551. Prokaryotic Molecular Genetics (4, 5P)** Macromolecular processes and their regulation in prokaryotes; DNA replication, transcription, and post-transcriptional events in general and as related to operons, phage biology, and eucaryotic organelles.

**MICB 560. Recent Advances in Microbiology (1, max 6, Irregular)** Intensive examination of selected topics in microbiology. Student presentations and critiques. Required for all graduate students.

**MICB 561. Molecular Biology (4, Fa)** (Enroll in INTD 561)
MIBC 570 Microbiology Research Seminar (1, max 10, FaSpSm) Critical discussion of current research topics. Should attend published and unpublished research results for discussion and critique. Prerequisite: current enrollment in Microbiology Ph.D. program.

MIBC 571 Biochemistry (4, Fa) (Enroll in INTD 571)

MIBC 572 Systems Physiology and Disease I (4, Fa) (Enroll in INTD 572)

MIBC 573 Systems Physiology and Disease II (4, Sp) (Enroll in INTD 573)

MIBC 590 Directed Research (1-12, FaSpSm) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MIBC 594ab Master's Thesis (2-2-0, FaSpSm) Credit on acceptance of thesis. Graded IP/CR/NC.

MIBC 601 Molecular Biology of Gene Regulation (2, max 8, FaSpSm) (Enroll in BIOL 601)

MIBC 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MIBC 794abcd Doctoral Dissertation (2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.

Institute for Neuroimaging and Informatics

2001 N. Soto Street
Suite 102
Los Angeles, CA 90022
(213) 44-BRAIN
FAX: (213) 442-0177
Email: NIIN@ini.usc.edu

NIIN Core Faculty

Provost Professor, Director, INI: Arthur W. Toga, Ph.D.

Professor: Paul M. Thompson, Ph.D.

Associate Professors of Neurology: Hongwei Dong, Ph.D.; John Darrell Van Horn, Ph.D.

Assistant Professors of Neurology: Kristi Clark, Ph.D.; Neda Jahanshad, Ph.D.; Judy Pa, Ph.D.; Yonggang Shi, Ph.D.

Associate Professor of Research: Naveen Ashish, Ph.D.

Assistant Professors of Research: Meredith Braskie, Ph.D.; Dereck Hibar, Ph.D.; Houri Hintiryan, Ph.D.; Xue Hua, Ph.D.; Andrei Irimia, Ph.D.; Junning Li, Ph.D.; Scott Neu, Ph.D.

Introduction

The Master of Science (M.S.) in Neuroimaging and Informatics (NIIN) program provides students with an understanding of the scientific and clinical underpinnings of neuroimaging science and how to leverage that knowledge to make new and important discoveries in biomedicine. Students who successfully complete the program will be ideally positioned to apply to formalized medical training programs, join Ph.D. research training programs, obtain laboratory or administrative employment in the growing field of brain imaging neuroscience, or engage in public policy or regulatory administration of academic, clinical or business efforts in this expanding discipline.

The program comprises 10 courses (eight 3-unit and two 1-unit) to be taken in one academic year. Three didactic lecture courses address the technology of neuroimaging, a detailed examination of brain anatomy and function, and the variety of data-type dependent as well as integrative computational processing approaches. Two laboratory modules (1) provide guided, hands-on experience with neuroimaging data collection approaches for examining anatomy, connectivity, and functional activity; and (2) examine and develop optimized data processing strategies. Finally, studies are enriched by several distinct faculty-guided, discussion-based courses that allow detailed examination of specific aspects of neuroimaging of elemental neurological processes and carefully selected applications in neurological and psychiatric medicine. Graduation requires completion of 26 units.

Admissions Requirements

Applicants must supply a completed application for graduate studies including: transcripts from all institutions previously attended, standardized test scores, a personal statement describing scientific and career interests, and two letters of recommendation. Applications are generally anticipated for fall enrollment, but applications for spring enrollment will also be considered. Applicants to the program must apply to the USC Graduate School and must meet the minimum requirements for admission to the Graduate School. Students are required to have a 3.0 or better overall GPA (or equivalent) and have achieved graduation with a B.S. or B.A. degree (or equivalent) before matriculation. Students are expected to have taken the general portion of the GRE exam before application and to have met or exceeded university score requirements. Applicants not meeting Graduate School requirements for regular standing may, with the approval of the Graduate School, be conditionally admitted. International students from non-English speaking home countries are expected to demonstrate English language proficiency or take remedial English language courses, according to Graduate School policy. Specific prerequisites for this program include completed course work with a B or better grade (or equivalent) in neuroscience, computer science, mathematics, biology or a related field.

Advisement

The program recommends that students meet with the program director each semester prior to registration.

Satisfactory Academic Progress

A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be given written notification that they have been placed on academic probation. Students who do not raise their GPA to 3.0 after two semesters on academic probation will be academically disqualified.

Degree Requirements

Graduation requires completion of 26 units, according to the required course schedule outlined below. None of the NIIN courses may be waived or substituted for other courses in the USC Catalogue. This program is intended to be completed within one academic year, and, while optional, does not include a requirement for independent laboratory research or a thesis. Students may request approval to undertake laboratory research and continuing course work during a second year research option; students must already be matriculated into the program before making this request, and not all students will be granted this opportunity (selection will be based on academic performance and student research interests, and on availability of laboratory space). None of these courses may be substituted or waived.

Courses of Instruction

Neuroimaging and Informatics (NIIN)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

NIIN 500 Neuroimaging and Systems Neuroscience (3, Fa) Overview of elemental neuroanatomy and brain systems with an emphasis on a neuroimaging perspective in the human and mouse. Open only to Neuroimaging and Informatics majors.

NIIN 510 Fundamentals of Human Neuroimaging (3, Fa) Survey of anatomical and functional neuroimaging approaches and their use to explore the healthy as well as diseased human brain. Open only to Neuroimaging and Informatics majors.

NIIN 520 Experimental Design for Neuroimaging (3, Fa) Examine experimental design approaches for experimental and clinical neuroimaging investigation. Topics on how to develop rigorous experiments to test theories of cognitive and clinical neuroscience. Open only to Neuroscience and Informatics majors.

NIIN 530 Neuroimaging Data Acquisition w/Magnetic Resonance Imaging (3, Fa) Introduces the various approaches used to image the living brain using MR-based techniques. Covers neuroimaging scanning technologies, pulse sequence design, and sources of image artifact. Recommended preparation: familiarity with Matlab. Open only to Neuroscience and Informatics majors.

NIIN 540 Neuroimaging Data Processing Methods (3, Sp) Comprehensive investigation of data processing methods, software strategies, and workflow design and execution methodologies. Open only to Neuroimaging and Informatics majors.

NIIN 550 Computational Modeling in Neuroimaging (3, Sp) Addresses the current neuroinformatics approaches to large-scale data
representations, mining, and visualization in brain imaging. Open only to Neuroimaging and Informatics majors.

**NIH 560 Microscopy Techniques and Neuroinformatics in Animal Models (1, FaSp)**
Introduction to methodological approaches to neuroscience: identification of neurochemicals and genetic content in discrete anatomical locations using immunohistochemistry, in situ hybridization, and polymerase chain reaction. Open only to Neuroscience and Informatics majors.

**NIH 570 Neuroimaging Genetics and Phenomics (1, Sp)**
Lectures on the linkage of genomic methods for identifying genes and their allelic variants in the context of demographic, neuropsychological, and clinical variables. Open only to Neuroimaging and Informatics majors.

**NIH 597 Current Topics in Neuroinformatics (1, FaSp)**
Student-led presentations with faculty-guided discussion of recent literature in the subject of neuroimaging and neuroinformatics. Open only to Neuroscience and Informatics majors.

**NIH 598 INI External Speaker Seminar Series (1, FaSp)**
Reading and discussion of recent papers by the INI speaker of the week and attendance at the speaker’s seminar. Open only to Neuroimaging and Informatics.

- Renette and Marshall Ezralow Family Chair in Cancer Therapeutics: Parkash Gill, M.D.
- Harold E. Lee Chair in Cancer Research: Michael F. Press, M.D., Ph.D.
- Kenneth T. Norris Jr. Chair in Medicine and Hastings Professor of Medicine: Edward D. Crandall, M.D., Ph.D.
- Rita and Edward Polusky Chair in Basic Cancer Research: Michael Lieber, Ph.D., M.D.
- Rupert and Gertrude Stieger Vision Research Chair: Nursing Rao, M.D.
- Gavin S. Herbert Professor of Vision Research: David R. Hinton, M.D.

**Professors:** V. Askanas (Neurology); T.C. Chen (Neurological Surgery); C.-M. Chuong; T.D. Coates (Pediatrics); E.D. Crandall (Medicine); L. Dubeau; W.K. Engel (Neurology); A.L. Epstein; P.S. Gil (Medicine, Urology); S. Govindarajan; D. Hinton (Neurological Surgery, Ophthalmology); F.M. Hofman (Ophthalmology, Neurological Surgery); R.W. Jelliffe (Neurology); M.N. Koss; P.R. Levitt (Pediatrics, Cell & Neurobiology); M.R. Lieber (Biochemistry and Molecular Biology, Molecular Microbiology and Immunology); T.M. Mack (Family and Preventive Medicine); C.A. Miller (Neurology); A.

**Ouellette:** P.K. Pattengale (Molecular Microbiology and Immunology); M.F. Press; F.P. Quismorio, Jr. (Medicine); N.A. R. Rao (Ophthalmology); S. Rashheed; M.E. Selsted; D.K. Shibata; I.A. Shulman; M. R. Stallcup (Biochemistry and Molecular Biology); C.R. Taylor; T.J. Triche (Pediatrics); H. Tsukamoto

**Professor (Clinical Scholar):** M.R. O’Gorman (Pediatrics)

**Associate Professors:** S. Belluscio (Surgery); A. Erdreich-Epstein (Pediatrics); B.J. Gross (Psychiatry and Behavioral Sciences, Medicine); A. Kovacs (Pediatrics); B.W. Kovacs (Obstetrics and Gynecology); J.R. Landolph (Molecular Microbiology and Immunology, Molecular Pharmacology and Toxicology); H.A. Liebman (Medicine); S.E. Martin; S.B. Turner (Psychiatry and Behavioral Sciences, Pediatrics)

**Research Assistant Professors:** P. Hu; N.W. Marten; Y. Ouyang

**Resident Research Associate Professor:** S.A. Imam

**Resident Clinical Investigators:** L. Aye; M. Boonyasampat; E. Broxman; T. Chong; K. Duncan; J. Friedman; A. Garcia; T. Hacopian; A. Hagyis; S. Hamidi; T. Jenkins; B. Kay; G. Kim; C. Lee; X. Li; C. Magana; V. Martin; T. Meneses; C. Pang; M. Pessarakli; N. Plaza; G. Press; K. Qidwaii; M. Shafirian; J. Smith; S. Walia; D. Yac; E. Yung; H. Zhang

**Resident Clinical Investigators - Fellows:** K. Grogan; D. Hawes; H. Huynh; M. Iverson; Y. Lu; D. Patel; M. Sy; M. Vergara-Llurri

**Emeritus Professors:** S.B. Chand; P.T. Chandrasoma; B.N. Nathwani; J.W. Parker; A. Richters; N.E. Warner; E.T. Wong

**Emeritus Associate Professor:** A.D. Cramer

**Emeritus Clinical Associate Professor:** M. Greenblatt; G.G. Hadley; W.H. Kern; E.B. Reilly; D.S. Shillam; R.J. Schroeder

**Emeritus Clinical Professor:** W.C. Smith

**Emeritus Clinical Assistant Professors:** R.L. McClure; J.K. Waken

**Emeritus Professors of Clinical:** J.F.P. Dixon; C.B. Inderiedel; T.T. Noguchi (Emergency Medicine, Surgery)

**Emeritus Associate Professor of Clinical:** W.P. Lewis

**Emeritus Assistant Professor of Clinical:** R.B. Hopper

**Emeritus Professor of Research:** T.L. Lincoln

*Recipient of university-wide or school teaching award.*

The Department of Pathology provides training for both medical and graduate students. Medical students are trained in general, systemic and cellular pathology, providing them with an understanding and visualization of the basic processes underlying symptoms and clinical courses, as well as the ability to evaluate laboratory findings. This department also contributes to the training of residents and fellows at the LAC-USC Healthcare Network, Keck Hospital of USC and USC Norris Cancer Hospital, and the VA Greater Los Angeles Healthcare Network, providing these residents and fellows with an intensive residency program in anatomic and clinical pathology and offering subspecialty fellowship training in surgical pathology, cytopathology, hematopathology and neuropathology.

The Department of Pathology has a Master of Science program. The two-year M.S. program provides training in the latest technologies and concepts of biomedical research and provides the graduate with enhanced opportunities for positions in biotechnology companies, teaching colleges and various health department/governmental positions.

With more than 87 full-time faculty and more than 40 residents and fellows in training, the USC Department of Pathology is one of the largest pathology departments in the United States. The department is particularly strong in areas of surgical pathology, cytopathology, hematopathology, immunocytochemistry, immunopathology, neuropathology, and AIDS-related research. The department maintains active research programs in hematopathology, neuropathology and translational cancer research and has begun to expand its base in radioimmunoimaging and immunotherapy. It also has ongoing research projects in the new areas of molecular and genetic pathology. Since October 2003, the VA Greater Los Angeles Healthcare System Pathology Residency Training Program has been incorporated with
the LAC-USC Medical Center Pathology Residency Training Program.

The department provides diagnostic laboratory services for the LAC-USC Medical Center, the USC Norris Cancer Hospital, the Doheny Eye Institute, Keck Hospital of USC and the USC Clinical Laboratories Group. Approximately 40 of the department’s full-time faculty members work in service laboratories throughout the LAC-USC Medical Center, where they are supported by 40 residents and fellows and a technical and clerical staff numbering in excess of 500. The USC Norris Cancer Hospital and Research Institute and Keck Hospital of USC houses seven full-time pathologists, two fellows, two residents and approximately 25 clerical and support staff.

Graduate Programs

General Admissions

Applicants to the graduate program in pathology must have a bachelor’s degree from an accredited college or university with an undergraduate major in one of the natural sciences; a minimum cumulative GPA of 3.0 for undergraduate work is required. Applicants must submit undergraduate transcripts and letters of recommendation from two undergraduate teachers with their application. All applicants must take the general portion of the Graduate Record Examinations (GRE). A combined score of at least 1100 for the verbal and quantitative sections is required. International students whose native language is not English must submit scores from the IELTS (International English Language Testing System) or the TOEFL (Test of English as a Foreign Language) examination. Personal interviews by members of the department’s graduate committee may be requested.

Original application materials, except letters of recommendation, should be sent to the Office of Admission, University of Southern California. To expedite consideration of the application, applicants should also send photocopies of the application, transcripts and GRE scores to the Pathology Department’s graduate committee secretary, Lisa Doumak. Letters of recommendation should be addressed directly to the secretary, graduate committee. Applications are considered for admission to both the fall and spring semesters.

Residency and Fellowship Programs

The Department of Pathology offers seven first-year residency positions and 28 residency positions in its fully approved four-year training program in anatomic and clinical pathology at the LAC-USC Medical Center. Training is offered in autopsy and surgical pathology, neuropathology, cytopathology, cytology, microbiology, hematopathology, immunohematology, clinical chemistry, toxicology, immunopathology, radiopathology, cytogenetics, instrumentation, management, computer techniques, electron microscopy, molecular pathology and other specialty areas. The Department of Pathology also offers the Accreditation Council on Graduate Medical Education (ACGME) fully credited fellowship training in cytopathology (four positions), hematopathology (two positions) and neuropathology (one position). The Surgical Pathology Fellowship Training Program recently received five years full accreditation of their program (seven positions).

Master of Science in Experimental and Molecular Pathology

The Department of Pathology offers a program for the master of science degree with a major in experimental and molecular pathology. The primary objectives of this program are to provide the necessary theoretical and practical training in experimental pathology that culminates with the master of science degree. Goals of the program are to train students in preparation for senior research staff or senior technician positions in academic or industrial institutes, further M.D. or Ph.D. study, consultancyships requiring multidisciplinary backgrounds or advanced teaching positions in community colleges.

Admissions

The prerequisite for applicants to this program in pathology is a bachelor’s degree with an undergraduate major in one of the natural sciences. A minimum GPA of 3.0 in the natural sciences (including mathematics) is usually required. Applicants must achieve a competitive score on the general portion of the Graduate Record Examinations (GRE). In addition, the department requires at least three letters of recommendation from faculty members who can evaluate the applicant’s potential for graduate work. Demonstrated proficiency in the English language is required. International students whose native language is not English must submit scores from the IELTS (International English Language Testing System) or the TOEFL (Test of English as a Foreign Language) examination. Special circumstances may provide consideration for conditional admission.

Course Requirements

At least 34 units of graduate study are required. The required courses include INTD 521 Infection and Host Responses (4), INTD 531 Cell Biology (4), INTD 550 Introduction to Pathology (4), INTD 551 Pathobiology of Disease (4), INTD 571 Biochemistry (4), PATH 553 Methods in Cellular and Clinical Pathology (2), PATH 554 Methods in Molecular Pathology (2) and PATH 570ab Seminar in Pathology (2). Fourteen or more course units must be taken in the Department of Pathology. Eight units may be pursued outside the department, and a maximum of 8 units of directed research in pathology may be applied to the degree. No more than 4 units of course work taken outside of USC should be applied toward the M.S. degree requirements. Students considering such an action should submit a petition to the pathology graduate committee and document a rigorous academic standard for the course (reading materials, texts, and other performance criteria, lecture content, etc.). The pathology graduate committee reviews the petition and informs the student of its decision.

Master’s Examinations/Master’s Thesis

The Master of Science has the option of either an experiment-based thesis or theory-based thesis course of study. Each student’s program will be tailored to suit individual needs and background. Students who require training mainly in the knowledge of pathology may opt for the theory-based thesis course of study. Students in the latter program will have an opportunity to register for directed research (PATH 590). For the experiment-based thesis option, the student must take PATH 594ab Master’s Thesis. For the theory-based thesis option, the student must take GRSC 810 Studies for Master’s Examination during the semester they plan to graduate if not otherwise enrolled.

Courses of Instruction

Pathology (PATH)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

PATH 500ab Basic and Applied Systemic Pathology (4-2, Irregular) Clinical, gross, and microscopic study of basic disease processes.

Pathophysiology of major organ systems; etiology, pathogenesis and histopathology of important diseases; oral manifestations, clinical recognition.

PATH 521 Cell Biology (4) (Enroll in INTD 553)

PATH 550 Introduction to Pathology (4, Fa)

(PATH 551 Pathobiology of Disease (4) (Enroll in INTD 551)

PATH 553 Methods in Cellular and Clinical Pathology (2, Fa)

PATH 570abcd Seminar in Pathology (1-1-1-1, FaSp)

PATH 571 Biochemistry (4, Fa) (Enroll in INTD 561)

PATH 572 Systems Physiology and Disease I (4, Fa) (Enroll in INTD 572)

PATH 573 Systems Physiology and Disease II (4, Sp) (Enroll in INTD 573)

PATH 575 Frontiers of Pathology (2, max 8, FaSp) Weekly research lectures by leading investigators in the field of homeostatic response to injury such as cell death, inflammation, fibrosis and regeneration.

PATH 581 Essentials of Animal Experimentation (1, Fa) A course providing basic information on the issues and responsibilities of investigators using animals in biomedical research. Recommended preparation: graduate standing.

PATH 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

PATH 594ab Master’s Thesis (2-1-0, FaSpSm) Credit on acceptance of thesis. Graded IP/CR/NC.

PATH 599 Special Topics (2-4, max 8, FaSp)

PATH 630 Viral Oncology (2, Sp) Broad aspects of RNA and DNA viral oncology from epidemiology to molecular genetics.

PATH 650 Stem Cell Biology and Medicine (4, Sp) (Enroll in INTD 650)

PATH 700 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

Faculty
Division Head: C.C. Fung

Professors: J.G. Nyquist; B.P. Wood
Associate Professors: C.C. Fung; J. Gates (Family Medicine); R.A. Girard; W. May
Assistant Professors: T. Kevin, D. Souder
Instructor: D. Poole

Clinical Faculty: A.M. Alexander; J. Davis; D.L. Fisher; A. Richards

Emeritus Professors: S. Abrahamsson; M.A. Hitchcock; K. Hoffman

Established in 1963 as one of the first medical education units in the United States, the division conducts educational programs for four different types of students: medical students; graduate students in education; those teaching in medical and other health professional education settings; and physicians in the postgraduate study of medical education.

The division's primary mission is to enhance the quality of medical education by serving as a resource of educational expertise for planning, developing, and conducting medical education programs and conducting educational research. Similar activities and programs are conducted with various government and private organizations outside the university.

Major research and training interests of the faculty include the instruction of lay persons to be used as standardized patients for teaching and evaluation, case-based learning, pre-med programs for minority students and interactive video systems.

Administratively, the division is an independent unit in Educational Affairs in the Keck School of Medicine. The faculty hold appointments in the Department of Pediatrics. The division also employs to staff and research assistants. All activities of the division are conducted at the USC Health Sciences Campus.

Fellowship Programs

Teaching and Learning

A Teaching and Learning Fellowship program is offered to health care professionals who are engaged in teaching. The primary goals of this fellowship are to provide participants with multiple ways to teach and evaluate effectively. Through seminars, fellows will gain increased understanding of basic principles of teaching and learning and achieve the skills necessary to apply principles effectively.

Educational Leadership

An Educational Leadership Fellowship program is available for health care professionals with two primary goals: to prepare participants for understanding and serving in positions of leadership and enhance fellows’ personal and professional effectiveness. Seminars will explore transformational change, team and community formation, group dynamics, organizational culture and resources.

Health Professions Teachers

From time to time, the division offers special workshops or seminars in various subject areas related to the improvement of instruction. Division staff members are available to plan these special programs on request.

Master of Academic Medicine

The program addresses the unique population of medical and health professions faculty who are focused on leading the academic enterprise for health professionals at the undergraduate, graduate and continuing education levels. The six-semester program consists of 32 graduate units and employs a hybrid model, combining on-campus face-to-face sessions, blended with online course work. For more information, see the Master of Academic Medicine page.

Postgraduate Program

Individually tailored programs of study in medical education are available to visiting postdoctoral fellows who wish to gain an understanding of principles, problems and practices in medical education. These visiting fellows may spend from a few weeks to a year in residence, participating in ongoing projects, seminars, readings and independent study.

Faculty

Borislav V. Zlokovic, M.D., Ph.D., Chair of the Department of Physiology and Biophysics and Director of the Center for Neurodegeneration and Regeneration at the USC Zilkha Neurogenic Institute

Director, USC Research Center for Liver Diseases, Chief, Division of Gastrointestinal and Liver Diseases, USC Associates/Thomas H. Brem Chair in Medicine, and Veronica P. Budnick, M.D., Chair in Liver Disease: Neil Kaplowitz, M.D.

Professors: Michael Arbib (Computer Science/Engineering); Thomas Buchanan (Medicine/Obs & Gynecology); Vita M. Campese; Timothy M. Chan (Molecular Pharmacology and Toxicology); Casey Donovan (Exercise Science); Robert A. Farley* (Biochemistry); Caleb Finch (Gerontology and Neurobiology); Michael Goran (Preventive Medicine); Sarah Hamm-Alvarez (Pharmaceutical Sciences); Cage S. Johnson (Medicine/Hematology); Neil Kaplowitz (Medicine/GI Liver/Patient Care); Kwang Jin Kim (Medicine, Biomedical Engineering); Herbert J. Meiselman; Austin K. Mircheff; Janos Peti-Peterdi; Alan G. Watts

Associate Professors: Robert H. Chow; Harvey R. Kaslow; Richard L. Lubman (Medicine/Pulmonary Patient Care); Richard Watanabe; Jang-Hyun Youn; Alan S.L. Yu; Li Zhang

Assistant Professors: Steven Mitelman; Joyce Richey; Abhay Sagare

Adjunct Professor: Dwight W. Warren III

Recipient of university-wide or school teaching award.

The administrative offices of the Department of Physiology and Biophysics are located on the Health Sciences Campus. Faculty of the department are predominantly located at the Health Science Campus and also at the LAC-USC Medical Center and the University Park Campus.

The graduate program in physiology and biophysics is designed to prepare students for a career in research and teaching in physiology, biophysics and related fields. Faculty of the department guide students toward becoming effective members of today’s scientific community by providing an integrated knowledge of physiological systems at several levels of organization. The course of study required of each candidate is planned to meet his or her individual interests and needs.

Faculty guidance and specialized facilities are available for advanced research in the four broad areas of research represented in the department: endocrinology, reproduction and metabolism; neurophysiology; fluid and electrolyte physiology; and cellular and molecular physiology.

Graduate Programs

Admissions

Applicants should have a bachelor’s degree in one of the natural sciences. Undergraduate course work in mathematics (including one and a half years of calculus), physics (one year), organic chemistry (aliphatic and aromatic), and biological sciences (one year) is required. Prospective students should also have completed at least two courses from among the following areas: physical chemistry, advanced physics, electronics, histology, physiology, cell biology, computer science, or biochemistry. Equivalent work will be considered on an individual basis.

Students interested in applying must complete an application for graduate studies and submit official transcripts from all academic institutions previously attended, a personal statement of career objectives, financial statement of support, standardized test scores and three letters of recommendation.

Master of Science

Admission requirements are the same as for the Doctor of Philosophy degree.

Course Requirements

The master’s degree in physiology and biophysics requires completion of 33 graduate level units with a minimum grade point average of 3.0. All students are required to take the following: INTD 500, INTD 571, INTD 573, PHBI 601ab and/or PHBI 550, PM 510L, and two of the following: INTD 531, INTD 571, NSCI 524, NSCI 531. Students enroll in additional graduate level classes with prior approval of their graduate student adviser. The Master of Science candidate has the option of either a thesis or non-thesis course of study; the thesis option is usually required if more than 6 research units make up a 33-unit course plan. The specific program followed by thesis-option students is tailored to suit individual needs and background in consultation with the academic director of the program and the student’s...
qualifying exam committee. There is no foreign language requirement.

Minimum standards for satisfactory performance and continued enrollment in the M.S. program are an average of 3.0 in all non-research courses, an average of 3.0 in all courses and a grade of B or higher in INTD 572, INTD 573 and PHBI 601a.

**Doctor of Philosophy**

**(No longer accepting applications)**

**Course Requirements** A total of 60 units of graduate study is required for the Ph.D. degree. All students are required to take INTD 500, INTD 572, INTD 573, PHBI 601ab and/or PHBI 550, PM 510, and two of the following: INTD 531, INTC 577, NSCI 524, NSCI 531. The balance of the 60-unit requirement will be drawn from advanced physiology courses and seminars, courses from other departments, research and the dissertation. The specific program to be followed by each student is determined in consultation with the student’s advisor, qualifying exam committee and the department faculty. There is no foreign language requirement.

**Screening Procedure** An overall GPA of 3.0 or better and a minimum grade of B (3.0) in all courses given by the department and also in INTD 531 are the minimum requirements for continuation in the Ph.D. program. After completion of the first two semesters of study, the eligibility of each student for continuation in the program will be reviewed by a departmental graduate screening committee. At the discretion of the graduate committee, successful completion of a screening examination may be required for progression to the third semester of graduate study.

**Qualifying Exam Committee** The qualifying exam committee consists of at least five members, three of whom must be from within the department and at least one of whom must be drawn from the faculty of another department. The chair of the committee will be the student’s dissertation advisor.

**Qualifying Examination** The purpose of the qualifying examination is to give the student a formal opportunity to demonstrate to the faculty that he or she is qualified to conduct independent research. Passing this examination is formal recognition that the student has independently developed a research proposal that is significant and can be reasonably accomplished with available resources.

At least 60 days prior to its scheduled date, the student must petition the Graduate School for permission to take the qualifying examination; the examination must be completed by the end of the semester during which application is made. Students must complete this examination no later than the fifth semester of graduate work. If the student fails to take the examination by this time, the qualifying exam committee will report a failure to pass the examination. The student then has one additional chance to take and pass the examination; this may not occur sooner than six months nor later than one year after the first examination. Applications to take the qualifying examination later than the fifth semester may be considered on an individual basis and must be approved by both the qualifying exam committee chair and the department chair.

The qualifying examination consists of a written and an oral portion. For the written portion, the student must prepare a proposal for a research project. The proposal must be submitted to the members of the qualifying exam committee not less than 10 days prior to the oral portion of the examination. For the oral defense, the student should prepare an oral presentation of the proposal of approximately 30 minutes duration and be prepared to answer questions regarding any topic related to the proposal.

**Dissertation and Oral Defense** Upon completion of the research project, and with the consent of the dissertation committee, the candidate prepares the written dissertation. After the dissertation has been read by the committee, the candidate must make an oral defense of the work.

**Courses of Instruction**

**Physiology and Biophysics (PHBI)**

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**PHBI 524 Advanced Overview of Neurosciences (4, Fa)** (Enroll in NSCI 524)

**PHBI 531 Cell Biology (4)** (Enroll in INTD 531)

**PHBI 550 Seminar in Advanced Cellular, Molecular and Systemic Physiology (1, max 12, FaSp)** Lectures and student presentations on advanced topics in molecular, cellular and systemic physiology. Open to integrative biology of disease program, physiology and biophysics, and pathobiology students only. Graded CR/NC.

**PHBI 561 Molecular Biology (4, Fa)** (Enroll in INTD 561)

**PHBI 571 Biochemistry (4, Fa)** (Enroll in INTD 571)

**PHBI 572 Systems Physiology and Disease I (4)** (Enroll in INTD 572)

**PHBI 573 Systems Physiology and Disease II (Enroll in INTD 573)**

**PHBI 590 Directed Research (1-12, FaSpSm)** Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

**PHBI 594abz Master’s Thesis (2-2-0, FaSpSm)** Credit upon acceptance of thesis. Graded IP/CR/NC.

**PHBI 595 Special Topics (2-4, max 8, Sp)**

**PHBI 601ab Advanced Cellular, Molecular and Systemic Physiology (a: 2 or 4, Fa; b: 2 or 4, Sp)** Lectures and student presentations on advanced topics in molecular, cellular and systemic physiology.

**PHBI 650 Mechanisms of Ion and Solute Transport Across Cell Membranes (2, Fa)** Biophysical examination of the mechanisms of ion and solute transport across cell membranes; emphasis on the structures of transport proteins and kinetic models of transport. Recommended preparation: graduate level course in biochemistry, physical biochemistry, or cell biology.

**PHBI 651 Molecular Modeling and Kinetic Simulations in Membrane Transport (2, Fa)** Introduction to the principles of mathematical modeling of biological systems and molecular dynamics simulations, with emphasis on membrane transport. Recommended preparation: graduate level courses in biochemistry or physical biochemistry, and cell biology.

**PHBI 660 Understanding Diseases of Ion Transport (2, Sp)** Examination of the genetics, biochemical mechanisms, and physiological characteristics of diseases caused by inherited mutations in ion channels and ion transport proteins.

**PHBI 730 Research (1-12, FaSpSm)** Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

**PHBI 744abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm)** Credit on acceptance of dissertation. Graded IP/CR/NC.

The Department of Preventive Medicine is responsible for training medical, graduate and undergraduate students in the areas of biostatistics, epidemiology, health behavior research, public health, and preventive medicine. Faculty from the statistical genetics and molecular epidemiology department also perform research in the areas of biostatistics, epidemiology of acute and chronic diseases, and environmental health.

The undergraduate and graduate programs offered by the department are noteworthy for the extensive opportunities offered to the students for involvement in faculty research. It is not uncommon for students to begin working closely with faculty members on research projects as early as their first or second year of study.

Degree Programs

The Department of Preventive Medicine offers the following degree programs:

- B.S. in Global Health
- B.S. in Health Promotion and Disease Prevention Studies
- B.S. in Health Promotion and Disease Prevention/Master of Public Health
- B.S. in Health Promotion and Disease Prevention/M.S. in Biostatistics
- B.S. in Health Promotion and Disease Prevention/M.S. in Molecular Epidemiology
- B.S. in Dental Hygiene/Master of Public Health
- M.S. in Applied Biostatistics/Epidemiology
- M.S. in Clinical and Biomedical Investigations
- M.S. in Molecular Epidemiology
- M.S. in Biostatistics
- Master of Public Health
- Master of Public Health (online)
- Master of Public Health/Doctor of Medicine
- Master of Public Health/Doctor of Public Health (Health Promotion)/Ph.D. in Psychology (Clinical)
- Master of Public Health/Pharm.D.
- Master of Public Health/Master of Planning
- Master of Public Health/Doctor of Physical Therapy
- Master of Public Health/Master of Social Work
- Ph.D. in Biostatistics
- Ph.D. in Epidemiology
- Ph.D. in Molecular Epidemiology
- Ph.D. in Preventive Medicine (Health Behavior Research)

The Department of Preventive Medicine also offers the following undergraduate minor programs:

- Minor in Cinema-Television for the Health Professions
- Minor in Cultural Competence in Medicine
- Minor in Environmental Health
- Minor in Global Health
- Minor in Global Health Communication
- Minor in Public Health
- Minor in Nutrition and Health Promotion
- Minor in Substance Abuse Prevention

Undergraduate Degrees

Bachelor of Science in Health Promotion and Disease Prevention Studies

1375 S. Hoover Street
University Village, Suite E 210
Los Angeles, CA 90089-7798
Director: Elahe Nezami, Ph.D.
(213) 740-1060
FAX: (213) 821-1733
Email: bhealthy@usc.edu

The undergraduate program in Health Promotion and Disease Prevention Studies (HP) provides a well-rounded, professionally focused education leading to the Bachelor of Science degree. The program is concerned with the sociocultural, behavioral, psychological, and biological factors contributing to wellness and disease. It is an ideal major for students interested in medicine, pharmacy, dentistry, public health, epidemiology, health psychology and health behavior research. Areas of study include: global health; cultural diversity in medicine; substance abuse prevention and program planning; nutrition and fitness; health promotion of minority and underserved populations; and general public health issues (e.g., HIV/AIDS, violence, health promotion in the workplace and behavioral medicine).

Program Requirements

The Bachelor of Science degree is awarded after students successfully complete 128 units, consisting of 66 units for the major and fulfillment of USC general education requirements including third semester equivalency in a foreign language.

General Education Requirements

The university’s general education program requires six courses plus writing and diversity requirements, which provide a coherent, integrated introduction to the liberal arts and sciences. See The USC Core and the General Education Program for more information.

Requirements for the Major (66 units)

The program is divided into core and elective components.
The current core component (42 units) is required of all students.

Non-hp courses (20 units)  Units
BISC 120L  General Biology: Organismal Biology and Evolution, or  4
BISC 220L  General Biology: Cell Biology and Physiology, or  4
BISC 221L  Advanced General Biology: Cell Biology and Physiology  4
CHEM 115aL  Advanced General Chemistry  4
MATH 116  Calculus I  4
MATH 125*  Introduction to Psychology  4
* MATH 125 allows students who have placed out of MATH 116 to take a higher-level math class; it also satisfies the math requirement for premedical students.

HP Course (22 units)  Units
HP 200  Introduction to Health Promotion and Disease Prevention  4
HP 300  Theoretical Principles of Health Behavior  4
HP 320  Biological and Behavioral Basis of Disease  4
HP 340L  Health Behavior Statistical Methods  4
HP 350L  Health Behavior Research Methods  4
HP 480  Internship in Health Promotion and Disease Prevention, or  2-4
HP 490X  Directed Research  2-8

Advanced HP and Health Profession Preparatory Courses

A total of 24 units of electives are required of all students (at least 12 of the 24 must be HP courses).

Electives (24 units)  Units
BISC 320L  Molecular Biology  4
BISC 330L  Biochemistry  4
CHEM 115aL  General Chemistry, or  4
CHEM 321aL  Advanced General Chemistry  4
CHEM 321bl  Organic Chemistry  4
EXSC 300L  Physiology of Exercise  4
EXSC 301L  Human Anatomy  4
EXSC 407aL  Advanced Exercise Physiology  4
HP 400  Culture, Lifestyle, and Health  4
HP 401  Cultural Competence in Medicine  4
HP 402  Maternal and Child Health  4
HP 403  Behavioral Medicine  4
HP 404  Religion and Health  4
HP 405  Sexually Transmitted Disease: A Global Public Health Priority  4
HP 406  Environmental Health in the Community  4
HP 410  Issues in Prevention and Cessation of Drug Abuse  4
HP 411  Drug Intervention Program  4
HP 412  Health Promotion and Prevention Policy  4
HP 420  Gender and Minority Health Issues  4
HP 421  Violence as a Public Health Issue  4
HP 422  AIDS in Society  4
HP 423  AIDS in Society  4
HP 424  Behavior and Education Strategies for Nutrition and Fitness  4
HP 425  Clinical Nutrition  4
HP 433  Advanced Topics in Nutrition  4
HP 434  Physical Activity and Health  4
HP 441  Health Promotion in the Workplace  4
HP 442  Chronic Disease Epidemiology  4
HP 450  Traditional Eastern Medicine and Modern Health  4
HP 460  Adolescent Health  4
HP 465  Health Status of Indigenous Peoples of America  4
HP 481  Global Health: Obesity and Nutrition  4
PHYS 135bL  Physics for the Life Sciences, or  4
PHYS 151L  Fundamentals of Physics I: Mechanics and Thermodynamics, and  4
PHYS 152L  Fundamentals of Physics II: Electricity and Magnetism  4
PSY 325  Fundamentals of Health Policy and Management  4
PSY 330  Introduction to Health Care Systems  4
PSYC 336L  Developmental Psychology  4
PSYC 355  Social Psychology  4
PSYC 437  Adolescent Development  4
SOCI 350  Social Exclusion, Social Power, and Deviance  4
SOCI 475  Medical Sociology  4
Bachelor of Science in Global Health Studies

3375 S. Hoover Street
University Village, Suite E 210
Los Angeles, CA 90089-7798
Director: Elahe Nezami, Ph.D.

Email: bheal thy@usc.edu
usc.edu/globalhealthprogram

The Bachelor of Science in Global Health is a multidisciplinary degree of the Keck School of Medicine’s Department of Preventive Medicine. This undergraduate program offers an examination of public health and policy issues in the context of global affairs. Students complete course work from Health Promotion and Disease Prevention Studies and International Relations in addition to requirements from other schools of the university. The program provides students with a strong background in understanding and evaluating global health issues and prepares students to become health professionals with international competencies. This program is an ideal major for students interested in medicine, pharmacy, dentistry, international relations, public health, epidemiology, health psychology and health behavior research.

Program Requirements

The Bachelor of Science degree is awarded after students successfully complete 128 units, consisting of 66 units for the major and fulfillment of USC general education requirements including third semester equivalency in a foreign language.

General Education Requirements

The university’s general education program requires six courses plus writing and diversity requirements, which provide a coherent, integrated introduction to the liberal arts and sciences. See The USC Core and the General Education Program for more information.

Requirements for the Major (66 units)

The program is divided into core and elective components. As part of the core research requirements, students must complete a directed research requirement, HP 490X, with a specific international research focus.

The core component (42-46 units) is required for all students.

CORE COURSES (23 units)  Units
BISC 220L  General Biology: Cell Biology and Physiology, or  4
BISC 221L  Advanced General Biology: Cell Biology and Physiology  4
CHEM 115aL  General Chemistry, or  4
CHEM 115cl  Advanced General Chemistry  4
ECON 203  Principles of Microeconomics  4
HP 270  Introduction to Global Health  4
HP 320  Biological and Behavioral Basis of Disease  4
HP 470  Case Studies in Global Health  4
IR 308  Globalization: Issues and Controversies  4
MATH 125  Calculus I  4

CORE RESEARCH COURSES (10-16 units)  Units
HP 340L  Health Behavior Statistical Methods  4
HP 350L  Health Behavior Research Methods  4
HP 490X  Directed Research  1-8, max 12

Students must choose 24 units of elective course work from the following lists. At least 8 units must be from HP and at least 8 units must be from IR.

HP ELECTIVES (Minimum 8 units)  Units
HP 300  Theoretical Principles of Health Behavior  4
HP 400  Culture, Lifestyle, and Health  4
HP 401  Cultural Competence in Medicine: Promoting Health in Diverse Communities  4
HP 402  Maternal and Child Health  4
HP 403  Behavioral Medicine  4
HP 404  Religion and Health  4
HP 405  Sexually Transmitted Diseases: A Global Public Health Priority  4
HP 410  Gender and Minority Health Issues  4
HP 411  AIDS in Society  4
HP 450  Traditional Eastern Medicine and Modern Health  4
IR ELECTIVES (Minimum 8 units)  Units
IR 305  Managing New Global Challenges  4
IR 306  International Organizations  4
IR 307  Contemporary International Politics  4
IR 308  Globalization: Issues and Controversies  4
IR 315  Ethnicity and Nationalism in World Politics  4
IR 323  Politics of Global Environment  4
IR 371  Global Civil Society: Non-State Actors in World Politics  4
IR 372  Citizenship and Migration in International Politics  4
IR 444  Issues and Theories in Global Society  4

OTHER ELECTIVES (Maximum 8 units)  Units
BISC 120Lx  General Biology: Organismal Biology and Evolution, or  4
BISC 121L  Advanced General Biology: Organismal Biology and Evolution  4
BISC 320L  Molecular Biology  4
**Progressive Degree Programs in Preventive Medicine**

The Master of Public Health, the Master of Science in Biostatistics and the Master of Science in Molecular Epidemiology programs admit a limited number of undergraduate students to a progressive degree program, which allows them to pursue a master’s level degree while completing the bachelor’s degree. Applicants to the program must have completed 64 units of course work and must submit their applications prior to the completion of 66 units of course work. Applicants need not submit GRE scores, but are expected to have a minimum GPA of 3.0 at the time of application. The application for admission to a progressive degree program must be accompanied by an approved course plan proposal and two letters of recommendation. The requirements for both the B.S. and the master’s degrees must be satisfied, including a minimum of 128 undergraduate units. For further details on progressive degree programs, see the Requirements for Graduation page.

**Minor in Cultural Competence in Medicine**

This minor is designed for students who plan to enter careers or professional programs in medicine after graduation and are interested in using cultural knowledge to provide more effective health care. The minor focuses on cultural differences in the understanding of health, disease, health care and risk factors unique to specific populations. The minor provides a foundation for students who want to become effective care providers in an increasingly diverse society. It complements major programs such as biological sciences, chemistry, kinesiology and environmental studies.

**Minor in Health Communication**

This minor is designed to appeal to students with a wide range of interests, including those with a general interest in communication. It provides students with the opportunity to explore health communication as a tool for health promotion and prevention. The curriculum focuses on the use of nonverbal communication, health education, and health promotion. It complements major programs such as biological sciences, chemistry, kinesiology, health promotion and disease prevention studies, and environmental studies.

* Prerequisite required
Minor in Public Health

This minor is designed for students interested in a broad array of health issues. The focus of the minor is on reducing disability and mortality from avoidable injuries and chronic disease, educating the community about healthy lifestyles, assuring access to health care, and measuring changes using various indicators over time. This minor teaches students to meet the challenges of the changing environment of the health care system. It complements a number of majors including psychology, sociology, American studies and ethnicity, biological sciences, economics, environmental studies, kinesiology, gender studies, international relations, philosophy, religion, gerontology and political science.

Minor in Substance Abuse Prevention

This minor offers students an opportunity to gain an overall understanding of substance abuse as a major modifiable risk factor for illness. It allows students to learn theories of behavior change, to understand the issues in prevention and cessation of drug abuse, and to develop, implement, and evaluate intervention strategies. It complements a number of majors including psychology, sociology, American studies and ethnicity, biological sciences and gerontology.

Minor in Nutrition and Health Promotion

This minor is designed to appeal to students interested in nutrition, especially in preparation for graduate study in health-related fields (e.g., medicine, public health) or to enter health-related fields of employment. The focus of the minor is on assessing, planning and evaluating dietary intake of individuals or groups under various conditions of health and disease based upon principles of nutrition and behavioral science. Students in this minor will study factors associated with dietary habits and the development of effective individual and group interventions. It complements majors including psychology, gerontology, biological sciences, chemistry, kinesiology and environmental studies.

Graduate Programs — Admissions

Master of Science in Applied Biostatistics/Epidemiology

The department encourages applicants with undergraduate degrees in allied health, pharmacology, public health, medicine, biological and clinical sciences or other related fields. Undergraduate preparation should have included applied statistics, college algebra, an introductory course in calculus and basic computer programming. Applicants should also meet the minimum requirements for admission to the Graduate School. Demonstrated proficiency in the English language is essential. With approval of the Graduate School, applicants not meeting these requirements may be conditionally admitted contingent upon maintaining a GPA of 3.0 for the first 12 units of graduate study.

Master of Science in Biostatistics

The department encourages applicants with undergraduate degrees in mathematics, statistics or biostatistics, computer science or other related fields. Undergraduate preparation should have included differential and integral calculus, introduction to mathematical statistics and basic computer programming. Applicants should also meet the minimum requirements for admission to the Graduate School. Demonstrated proficiency in the English language is essential. With approval of the Graduate School, applicants not meeting these requirements may be conditionally admitted contingent upon maintaining a GPA of 3.5 for the first 12 units of graduate study.

Doctor of Philosophy in Biostatistics

The department encourages applicants who have undergraduate degrees in allied health, pharmacology, public health, biological sciences or other related fields. Applicants not meeting these requirements may, with approval of the Graduate School, be conditionally admitted contingent upon maintaining a GPA of 3.5 in the first 12 units of study.

Doctor of Philosophy in Epidemiology

The department encourages applicants who have undergraduate degrees in allied health, public health, biological sciences or other related fields. Applicants not meeting these requirements may, with approval of the Graduate School, be conditionally admitted contingent upon maintaining a GPA of 3.5 in the first 12 units of study.

Master of Science, Molecular Epidemiology

Students with a bachelor’s degree in quantitative biological sciences will be eligible for admission. In addition, the B.A. students must have completed at least one year of general biology, one semester of biochemistry and one semester of statistics to be admitted into the Graduate School. Under unusual circumstances, conditional acceptance will be offered to students who do not meet these requirements – allowing them to complete the missing undergraduate courses prior to their full admission into the Graduate School. An introductory biochemistry class is also available in the School of Pharmacy, which may satisfy the biochemistry prerequisite. A joint departmental admission committee will review all applicants.
Master of Science in Applied Biostatistics/Epidemiology

Course Requirements

General requirements include at least 36 units of required courses as follows: 25 units of core courses and at least 7 units of elective courses. Each student must also register for four units of PM 544ab Thesis and write a master’s thesis.

Core Courses (25 units) Units

| PM 510L Principles of Biostatistics | 4 |
| PM 511aL Data Analysis | 4 |
| PM 512 Principles of Epidemiology | 4 |
| PM 513 Experimental Designs | 3 |
| PM 518a Statistical Methods for Epidemiological Studies | 3 |
| PM 522a Introduction to the Theory of Statistics | 3 |

Electives (at least 7 units) Units

| PM 516ab Statistical Problem Solving | 1-1 |
| PM 518b Statistical Methods for Epidemiological Studies | 3 |
| PM 520 Advanced Statistical Computing | 3 |
| PM 522b Introduction to the Theory of Statistics | 3 |

Electives will be determined by the student’s needs and interests and will be approved by the student’s adviser. When appropriate, courses not listed above may be chosen with approval of the student’s adviser. Sufficient familiarity in computer languages to operate major software packages for data management and analysis is required.

The student’s choice of elective courses will be directed by needs and interests and must be approved by the student’s graduate adviser. When appropriate, elective courses not listed above may be substituted with approval of the adviser. Sufficient familiarity in computer languages to operate major software packages for data management and analysis is required.

Thesis Requirement

A master’s thesis is required of all students. This thesis consists of a research project approved by the faculty and chosen from problems encountered within the department, in other departments of the Keck School of Medicine or university or elsewhere in the community.

Master of Science in Molecular Epidemiology

Course Requirements

The M.S. program requires 37 graduate-level units with a minimum grade point average of 3.0 including epidemiology core courses, 14 units; molecular biology core courses, 12 units; at least 3 elective units; laboratory research plus thesis, 8 units. Students must also complete a master’s thesis.

Prerequisite: PM 510 Principles of Biostatistics

| PM 511aL Data Analysis | 4 |
| PM 512 Principles of Epidemiology | 4 |
| PM 518a Statistical Methods for Epidemiological Studies | 3 |
| PM 533 Genetic and Molecular Epidemiology | 3 |

Molecular Biology Core Courses (12 units) Units

| PM 544L Human Molecular Genetics | 4 |
| PM 554 Molecular Biology of Cancer, or | 4 |
| PM 555 Biochemical and Molecular Basis of Disease | 4 |
| PM 571 Biochemistry | 4 |
| PM 581 Molecular Biology | 4 |
| PM 572 Research Methods in Epidemiology | 3 |
| PM 523 Design of Clinical Studies | 3 |
| Laboratory research + thesis (8 units) Units | |
| DPT 590abcd Directed Research | 1-1 |
| DPT 594ab Thesis | 2-2 |

(1) DPT refers to the department offering the laboratory/directed research experience and thesis supervision. DPT is one of the following departments (but not restricted to): PM, BIOL, PATH.

(2) Laboratories should expose students to: statistical and epidemiological methods, molecular techniques, human genetics, population-based studies.

Master of Public Health

Course Requirements

The master’s degree program in public health (MPH) requires a minimum of 47 semester units of required and elective graduate study. The MPH is also available online.

Core Requirements Units

| PM 501 Foundations in Health Education and Promotion | 4 |
| PM 508 Health Service Delivery in the U.S., or | 4 |
| PM 509 Comparative Health Care Systems | 4 |
| PM 510L Principles of Biostatistics | 4 |
| PM 529 Environmental Health: An Epidemiological Approach | 4 |
| PM 564 Public Health Leadership and Management | 3 |

In addition, at least another 20 to 24 units including the practicum and capstone, must be completed in their selected track of study.

Track 1: Health Education and Health Promotion

Required Courses (12 units) Units

| PM 546 Communications in Public Health, or | 4 |
| PM 562 Program Design and Evaluation | 4 |
| PM 563 Organizing and Mobilizing Communities for Public Health | 4 |
At least 4 units from the following**: PM 505, PM 514, PM 525, PM 526*, PM 530, PM 536, PM 542, PM 563*, PM 584, PM 587 (4 unit courses)

At least 4 units from any 500- or 600-level course**

2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

* May not receive credit for both track core and track elective category.

** Distance learning track elective and elective options are limited. Students should consult their adviser for guidance about available options.

Track 2: Biostatistics/Epidemiology

Required Courses (at least 12 units) | Units
--- | ---
PM 511A | Data Analysis (SAS) 4
PM 511B | Data Analysis (STATA) 4
Select one course from the following:
- PM 527* | Epidemiology of Infectious Disease 4
- PM 536* | Program Evaluation and Research 4
- PM 537* | Chronic Disease Epidemiology 4

At least 4 units from the following**: PM 514, PM 517ab, PM 518ab, PM 527*, PM 530, PM 532, PM 536*, PM 542, PM 546, PM 558, PM 587 (4 unit courses); PM 515, PM 533, PM 538, PM 536 (3 unit courses)

At least 4 units from any 500- or 600-level course**

2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

* May not receive credit for both track core and track elective category.

** Distance learning track elective and elective options are limited. Students should consult their adviser for guidance about available options.

Track 3: Health Communication

Required Courses (at least 8 units) | Units
--- | ---
PM 526 | Communications in Public Health 4
PM 536 | Program Evaluation and Research 4

At least 8 units from: CMGT 510, CMGT 511, CMGT 528, CMGT 583, CMGT 587 (4 unit courses); PM 510, PM 522, PM 562, PM 587 (4 unit courses); JOUR 508, JOUR 536 (3 unit courses)

At least 4 units from any 500- or 600-level course

2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

Track 4: Child and Family Health

Required Courses (at least 12 units) | Units
--- | ---
PM 528 | Program Design and Evaluation 4
PM 580 | Foundations of Child Health 4
PM 585 | Child Health Policy 4

At least 4 units from: PM 530, PM 540, PM 581, PM 582, PM 583, PM 584, PM 585, PM 587 (4 unit courses)

At least 4 units from any 500- or 600-level course

2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

Track 5: Global Health Leadership

Required Courses (at least 12 units) | Units
--- | ---
PM 529 | Culture and Health: Global Perspectives 4
PM 565 | Introduction to Global Health 4
PM 566 | Global Health Research and Programs 4

At least 4 units from the following**: PM 520, PM 557, PM 563, PM 567, PM 568, PM 577, PM 578, PM 587 (4 unit courses)

At least 4 units from any 500- or 600-level course**

2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

** Distance learning track elective and elective options are limited. Students should consult their adviser for guidance about available options.

Track 6: Public Health Policy

Required Courses (at least 12 units) | Units
--- | ---
PM 547 | Public Health Policy and Politics 4
PPD | Economics for Policy, Planning and Development 2-2
PPD 560 | Methods for Policy Analysis 4

At least 4 units from: PM 514, PM 528, PM 530, PM 536, PM 542, PM 548, PM 555, PM 577, PM 578, PM 585, PPD 513, PPD 514, PPD 542, or PPD 560

At least 4 units from any 500- or 600-level course

2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

Track 7: Environmental Health

Required Courses (at least 12 units) | Units
--- | ---
PM 553 | Human Exposure Assessment for Public Health 4
PM 554 | Biological Effects of Environmental Toxins 4
PM 555 | Environmental Health, Policy and Practice 4

At least 4 units from: PM 530, PM 556, PM 557, PM 558

At least 4 units from any 500- or 600-level course

2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

Track 8: GeoHealth (Online Option Only)

Required Courses (at least 12 units) | Units
--- | ---
SCC 581 | Concepts for Spatial Thinking 4
SCC 583 | Spatial Analysis 4

At least 8 units from: SCC 584, SCC 588, SCC 589

Track 9: Global Health Leadership (Online Option Only)

Required Courses (at least 12 units) | Units
--- | ---
PM 529 | Culture and Health: Global Perspectives 4
PM 565 | Introduction to Global Health 4
PM 566 | Global Health Research and Programs 4

At least 4 units from the following**: PM 520, PM 557, PM 563, PM 567, PM 568, PM 577, PM 578, PM 587 (4 unit courses)

At least 4 units from any 500- or 600-level course**

2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

** Distance learning track elective and elective options are limited. Students should consult their adviser for guidance about available options.

Track 10: Environmental Health (Online Option Only)

Required Courses (at least 12 units) | Units
--- | ---
PM 553 | Human Exposure Assessment for Public Health 4
PM 554 | Biological Effects of Environmental Toxins 4
PM 555 | Environmental Health, Policy and Practice 4

At least 4 units from: PM 530, PM 556, PM 557, PM 558

At least 4 units from any 500- or 600-level course

2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

The elective courses will be directed by the student’s needs and interests and must be approved by the student’s graduate adviser.

PRACTICUM REQUIREMENT

A practicum (PM 596) is required of all students. The practicum is provided by an internship rotation through an area of public health practice in a county, state, federal or community-based agency. The practicum offers students the opportunity to observe as well as participate in applying their newly acquired skills and tools. All students are expected to participate in at least one internship and attend a corresponding seminar. An electronic portfolio describing the project and evaluating the outcomes completes the course requirement.

CAPSTONE REQUIREMENT

Completion of the capstone course (PM 597) is required of all MPH students during their last semester prior to graduation and is the culminating experience for the master’s program. The course draws on students’ prior training in the five core areas of public health; their additional required course work in their selected track of study; and their “real world” experience gained in the field prior to their graduation. The capstone class is closely linked to the MPH practicum and is designed to challenge students to reflect and integrate their training and experience with the goal of developing their own individual point of view regarding the role of public health in contributing to the improvement of the health and well-being of populations in the United States, as well as abroad.

CRITERIA

Students enrolled in one of the MPH professional dual degree programs (e.g., M.D./MPH, Pharm.D./MPH, DPT/MPH, and Ph.D. (Clinical Psychology)/MPH, MPH/MPH) may waive 4 units of the elective requirement and thus are required a minimum of 43 units to graduate. All other students must complete a minimum of 47 units to graduate.

DOCTOR OF PHILOSOPHY IN PSYCHOLOGY (Clinical)/MASTER OF PUBLIC HEALTH (Health Promotion)

The Ph.D./MPH dual degree combines knowledge of clinical psychology research and practice with an understanding of health from a population perspective. The student enrolls primarily in the clinical psychology doctoral program and may apply to the MPH program during the first year. During the second and subsequent years, course work is taken in both programs. The dissertation is undertaken through the Department of Psychology.

PHARM.D./MASTER OF PUBLIC HEALTH

The School of Pharmacy and the Master of Public Health program, in recognition of the rapidly changing health care environment and in response to the growing demand for pharmacists who are knowledgeable in both pharmacy and population-based health care issues, have developed a dual degree program. The joint Pharm.D./MPH degree will enable graduates to be more responsive to today’s health care needs and will provide training for pharmacists who seek to be agents of change within the profession and to assume leadership roles in the pharmacy field and in public health at the local, state and national levels.

The Pharm.D./MPH program spans five years (four years of pharmacy school courses and one year of public health courses). Students begin the core MPH courses following the successful completion of the first year of
pharmacy school. The last three years of the program are devoted to the clinical rotations of the School of Pharmacy and to the completion of the elective courses and practicum (field experience) of the MPH program.

All students in the Pharm.D./MPH program must meet course requirements, grade point average requirements and program residency requirements of both programs. Students must have a cumulative GPA of 3.0 in the Pharm.D. curriculum and a 3.0 in the MPH curriculum to meet graduation requirements.

The Pharm.D. and the MPH degrees are awarded simultaneously upon completion of the School of Pharmacy and the Master of Public Health requirements.

Application and Admissions Requirements

Students may apply to the dual Pharm.D./MPH degree program in two ways. First, they may apply at the time they submit their Pharm.D. application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students admitted to both programs will be offered admission to the Pharm.D. and will be offered admission to the dual degree program contingent on passing all courses in their first year of the Pharm.D. with a minimum 3.0 G.P.A. Students who are accepted only by one program may choose to attend that program but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the MPH program during their first year of enrollment in the Pharm.D. prior to the MPH published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the MPH program using this approach will be offered admission to the dual degree contingent on passing all courses in their first year of the Pharm.D. with a minimum 3.0 G.P.A. Students accepted to the dual degree program must maintain a minimum 3.0 G.P.A. in Public Health and Pharm.D. courses.

Master of Planning/Master of Public Health

The Master of Planning/Master of Public Health (MP/M/MPH) dual degree is designed for individuals who envision a career that combines urban planning and public health disciplines. This dual degree combines the knowledge of urban planning with an understanding of health from a population perspective. It will provide this knowledge creatively to statistical problems in the field, while permitting concentration in particular areas of specialization. The program prepares graduates for work in a variety of interdisciplinary settings; and for some, it will provide the basis for doctoral study.

Students must complete a minimum of 84 units: 45 units in social work and 39 units in preventive medicine; 16 of these units fulfill requirements for both degrees. Depending on specific social work concentration and public health track requirements, there may be additional courses and an increase in the total number of units. Most students complete both program requirements over three years for full-time students; however, the program can be completed in two years if the student takes a full course load during the two summer sessions. Dual degree students in this program complete the standard foundation year courses during the first year in the School of Social Work with the exception of SOWK 562 Social Work Research. Students may select only the health concentration in social work and either of two public health tracks: health education and promotion; or child and family health.

M.D./Master of Public Health

The joint M.D./MPH program at the Keck School of Medicine is designed for individuals who envision a medical career that combines public health and medical disciplines. For further information about the joint program, refer to the program page.

Doctor of Physical Therapy/Master of Public Health

The Post Professional Doctor of Physical Therapy (DPT) and the Master of Public Health (MPH) dual degree program offers the opportunity for physical therapy clinicians to pursue a doctoral-level education in combination with an integrated approach to health care. The program spans four years. Students begin the first one to two years completing MPH core and elective course work in the Department of Preventive Medicine. The remaining two years are devoted to program requirements in physical therapy.

Doctor of Philosophy in Biostatistics

The program offers a degree program leading to the Ph.D. in biostatistics. The program is designed to produce biostatisticians who will have in-depth knowledge of statistical theory and methodology and the ability to apply this knowledge creatively to statistical problems in the biological and health sciences. All students will enroll in a set of core courses that cover both biostatistical theory and applications. Students will then choose from one of four tracks that will allow them to develop expertise in a specific area. The available tracks are: (1) biostatistics theory; (2) statistical genetics; (3) environmental statistics; (4) clinical trials.

Course Requirements

A minimum of 60 units of graduate study is required for the Ph.D. degree; a maximum of 19 of these units may be from research and dissertation. In preparation for the qualifying examination, students are required to take all remaining core and track-specific courses.

Screening Procedure

In preparation for the screening examination, all students must take four core courses: PM 51ab and PM 52ab. A student failing the screening examination will either terminate or will terminate with the M.D. degree upon completion of an acceptable thesis.

Qualifying Exam Committee

A formal qualifying exam committee will consist of at least five faculty members. The committee chair and at least two additional members must be affiliated with the student’s program. At least three members of the committee must be tenured or tenure track.

Qualifying Examination

The written portion of the qualifying examination will comprise testing on track-specific course content and focus on the student’s dissertation topic. An oral examination will ascertain the student’s competence in orally communicating this knowledge. Students must pass the written portions and the oral portions in order to pass the qualifying examination.

Annual Research Appraisal (ARA)

Beginning in the second year, each student must register for PM 610 (1 unit) and present an annual progress report to the program oversight committee. Once a dissertation topic has been selected, the annual progress report is presented to the student’s qualifying exam committee. Once the student has passed the qualifying examination and is appointed to candidacy, the annual progress report is presented to the student’s dissertation committee. The student will meet annually with the dissertation committee, until he or she graduates from the program. The oral portion of the screening examination as well as the qualifying examination and the defense examination will count as ARAs.

Dissertation and Oral Defense

Upon passing the qualifying examination the Ph.D. candidate and his or her chair will recommend a three-member dissertation committee. The dissertation should be completed within two years and should be oriented toward a theoretical-methodological application to a problem area in the biological or health sciences. The oral defense is based on a rough draft or final version of the dissertation. The defense is administered by the dissertation committee, with other faculty invited to attend.

Doctor of Philosophy in Preventive Medicine

The department offers a degree leading to the Ph.D. in epidemiology. This program may be an extension of the applied biostatistics and epidemiology M.S. program and is especially aimed at persons with a strong background in medicine: in particular, students enrolled in the M.D. program of the Keck School of Medicine who wish to interrupt their M.D. studies after two years to complete a Ph.D. degree. This program is designed to produce an epidemiologist with in-depth statistical skills. The program requires a solid core of courses in methodological aspects of statistics and in statistical thinking as applied to medicine, as well as a solid grounding in epidemiological methods and in certain medical disciplines.

Course Requirements

A minimum of 60 course units with a maximum of 20 units of research and dissertation; passing of screening and qualifying examinations; and completion of dissertation and final oral are required. In preparation for the screening examination the student must take the required core course and elective 37 units of master’s level applied biostatistics and epidemiology courses. A student failing the screening examination will either terminate or terminate with the M.S. degree upon satisfactory completion of a master’s thesis. In preparation for the qualifying examination, the student is required to join a research project under the direction of the chair of the qualifying exam committee and directly participate in the conduct of that project. Credit will be given as PM 790 (4 units, two semesters). In addition, it is recommended that the student take PM 610 (at least two semesters). Electives may be selected with the approval of the chair of the qualifying exam committee from courses in the biological sciences or from the medical school. For students in the M.D./Ph.D. program in epidemiology, satisfactory completion of the first two years of the M.D. program will be considered to provide 20 units toward the Ph.D. degree.

Qualifying Exam Committee

A formal qualifying exam committee will consist of at least five faculty members. The committee chair and at least two additional members must be affiliated with the student’s program. At least three members of the committee must be tenured or tenure track.

Qualifying Examination

The written portion of the qualifying examination will test the student’s integration of knowledge in biostatistics and medicine. In general, the qualifying examination will present plans for implementation and completion of three components: an independent and complete data analysis arising from ongoing epidemiological study, a “review” paper on an area of epidemiological research, and a grant application for a new epidemiological study.

Dissertation

Upon passing the qualifying examination, the Ph.D. candidate and his or her chair will recommend a three-member dissertation committee. The dissertation should be completed within two years and should be oriented toward a methodological application to a problem area in the biological or health sciences.

The Oral Defense

This examination is based on a draft or final version of the dissertation and will be administered by the dissertation committee with other faculty invited to attend.

Language and Other Requirements

Proficiency in the English language is essential.

Course Requirements

Students must complete a minimum of 60 units, with a maximum of 20 units of research and dissertation; passing of screening and qualifying examinations; complete the dissertation and the dissertation defense examination. In addition the student is required to join a research project under the direction of one or both of the chairs of the qualifying exam committee and directly participate in the conduct of that project. Credit will be given by the department (DPT) conducting the research project DPT 790 Research (4 units, 2 semesters). In addition, at least two semesters of PM 610 is recommended.

Prerequisites: PM 510 Principles of Biostatistics or the equivalent. INTD 571 Biostatistics or the equivalent.

Biostatistics and Molecular Biology Core Courses (16 units): BIOC 542, INTD 555, INTD 561, INTD 554 or INTD 555.

Preventive Medicine Core Courses (17 units): PM 524L, PM 527, PM 517A, PM 518A, PM 533.

Suggested Electives (at least 7 units) from: MCB 515, PM 518L, PM 517B, PM 527, PM 529 and PM 534.

Preparation for Screening Examination

The screening examination will be taken after two years in the program. Prior to the screening examination a mentor who will serve on the qualifying exam committee must be identified. The screening examination will consist of a written document and an oral component. The written component will be drawn from the core courses. A student failing the screening examination may be given a second opportunity to retake either one or both portions. Students failing the examination for the second time will terminate with the M.S. degree upon satisfactory completion of 37 units and an acceptable master’s thesis.

Annual Research Appraisal (ARA)

Beginning in the second year, each student must register for PM 610 (1 unit) and present an annual progress report to the program oversight committee. Once a dissertation topic has been selected, the annual progress report is presented to the student’s qualifying exam committee. Once the student has passed the qualifying examination and is appointed to candidacy, the annual progress report is presented to the student’s dissertation committee. The student will meet annually with the dissertation committee, until he or she graduates from the program. The oral portion of the screening examination as well as the qualifying examination and the defense examination will count as ARAs.

Doctor of Philosophy in Preventive Medicine (Health Behavior Research)

The Department of Preventive Medicine, Division of Health Behavior Research, offers a degree program in preventive medicine (health behavior), leading to attainment of the Ph.D. The program is designed to train exceptional researchers and scholars in the multidisciplinary field of health behavior research. Students receive a thorough grounding in academic and research experience, encompassing theoretical and methodological training in such allied fields as communication, psychology, preventive medicine, biostatistics, public health and epidemiology. Students receive research experience by participating in projects conducted through the USC Institute for Health Promotion and Disease Prevention Research (IPR). The doctoral program is full-time; students are expected to enroll for fall, spring and summer semesters.

Assistantships

Financial and educational support is provided to qualified doctoral students in health behavior research. Graduate (research and/or teaching) assistantships are half-time (20 hours per week) and provide tuition remission as well as a monthly stipend.

Computer Language Requirement

Sufficient familiarity in computer languages to operate major software packages for data management and analysis is required.

Course Requirements

The doctoral program in health behavior research is structured as a four to five year course of study for students entering with a bachelor’s degree. Time requirements are subject to review and approval by the division’s Graduate Program Committee and the Graduate School.

A total of 60 units of graduate study is required for the Ph.D. in health behavior research. Students are required to complete nine core courses: PM 500, PM 510, PM 515, PM 521, PM 525, PM 530, PM 539, PM 601, PM 602, PM 604 and PM 756 (total of 37 units). Other requirements include: two elective PM courses, one not offered by health behavior faculty (minimum of 7 units); and a minimum of 4 units each in PM 590, PM 690abcdz, PM 790 and PM 794abcdz.

For students entering with a bachelor’s degree, one of the directed research projects will be equivalent in scope to a master’s thesis. All research experiences/projects must be completed before registering for 794abcdz Doctoral Dissertation.

Screening Procedure

The progress of each student is reviewed at the end of every academic year. At the end of the second year of study, students who have not made satisfactory progress...
are advised that they will be dropped from the program unless their progress improves during their second year.

Qualifying Exam Committee

Each student’s qualifying exam committee consists of five members, including: no more than three health behavior faculty members; one other member from the Department of Preventive Medicine; and one member from a doctorate-granting program outside the Department of Preventive Medicine, representing the student’s minor field.

Qualifying Examination

Following course work and prior to beginning the dissertation, students must demonstrate written and oral mastery of the general field of health behavior research as well as of their chosen area of specialization. The qualifying process includes a written examination on theory and literature relevant to a selected content area. The examination is administered by the student’s qualifying exam committee.

In addition to the qualifying examination, each student is expected to produce the following as evidence of qualification to conduct dissertation research: an academic dossier consisting of a summary of the student’s academic record, teaching and research experience, and professional presentations and publications; at least one original empirical research paper of publishable quality, produced in connection with one of the student’s courses or research experiences or developed independently; a dissertation proposal; and an oral defense of all the preceding materials.

Courses of Instruction

Health Promotion and Disease Prevention Studies (HP)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

HP 101 Current Issues in Medical Education and Healthcare (4, Sp) Current critical issues in healthcare delivery; strategies to succeed in medical school and as physicians.

HP 200 Introduction to Health Promotion and Disease Prevention (4, Fa) Introduction to strategies for promoting health and wellness. Includes self-monitoring of health risk behavior, goal setting, and behavior changes.

HP 230 Nutrition and Health (4, FaSp) Nutrition as it relates to health promotion across the lifespan and disease prevention. Discussion of nutrients, factors affecting food choices, food safety and global nutrition issues.

HP 270 Introduction to Global Health (4, Fa) Introduction to concepts of global health and disease control. Issues of globalization, global governance, emerging diseases, infectious disease treatment, and outbreak challenges.

HP 290 Introduction to Research Apprenticeship (2, max 8, FaSp) Individual research apprenticeship in health related fields under supervision of a departmental faculty member. Graded CR/NC.

HP 300 Theoretical Principles of Health Behavior (4, FaSp) Overview and analysis of predictors and consequences of health-related behaviors; theoretical viewpoints and strategies for behavior change. Recommended preparation: HP 200; prerequisite: PSYC 100.

HP 320 Biological and Behavioral Basis of Disease (4, FaSp) Examination of the major systems of the human body; disease processes and behavioral risk factors. Prerequisite: BISC 220L or BISC 221L.

HP 340L Health Behavior Statistical Methods (4, FaSp) Intermediate statistics for health behavior studies; topics include descriptive statistics, hypothesis testing, correlation and regression, and use of computer software in data analysis.

HP 345 Health Issues in Entertainment Media (4, FaSpSm) Study of major chronic illnesses and their risk factors as a foundation for discussions about the portrayal of health and illness in entertainment media. (Duplicates credit in the former CVNT 345.)

HP 350L Health Behavior Research Methods (4, FaSp) Introduction to the design, conduct and evaluation of health behavior research studies; quantitative and qualitative approaches to research and analysis. Recommended preparation: HP 340L.

HP 370 Introduction to Epidemiology: Methods and Applications (4) Examines the primary goals and methods of epidemiology, the study of factors that influence health and disease in individuals and populations.

HP 400M Culture, Lifestyle, and Health (4, Sp) Comparison of national and international differences in health status as influenced by cultural practices and lifestyles within geographic, economic and political environments.

HP 401 Cultural Competence in Medicine (4, Fa) Systematic development of specific professional skills for providing effective, culturally sensitive health services to diverse populations. Recommended preparation: ANTH 101.

HP 402 Maternal and Child Health (4, Sp) Health issues of women of childbearing age from pre-pregnancy through the postpartum period, and of children from their developmental stages in utero through early adolescence. Recommended preparation: PSYC 100.

HP 403 Behavioral Medicine (4, Sp) Examines behavioral risk factors for illness, illness-enhancing and health-compromising behaviors, stress/coping in promoting health and preventing illness, and behavioral management of chronic illness. Prerequisite: PSYC 100.

HP 404 Religion and Health (4, Fa) Differential relationships of religiosity and spirituality with health and risk behaviors, physical and mental health outcomes, coping skills and well-being across cultures and religions.

HP 405 Sexually Transmitted Diseases: A Global Public Health Priority (4) An overview of the magnitude and impact of STDs including prevention, diagnosis, and treatment of common STDs, STD/HIV inter-relationship, global burden, trends, public health challenges, and STD/HIV prevention and control strategies and programs worldwide.

HP 408 Environmental Health in the Community (4) Survey of occupational and environmental health. Introduction to epidemiology, exposure assessment, toxicology, policy development, risk assessment, and effects of urban development on health.

HP 412 Health Promotion and Prevention Policy (4, Sp) Overview of health promotion and drug prevention policy at local, state, and federal levels; methods for evaluating policy effectiveness and cost effectiveness.

HP 420M Gender and Minority Health Issues (4, Fa) Examines the nature and roots of health disparities among women, men, and different ethnic and age groups; methods for reducing such disparities; strategies for prevention services.

HP 421 Violence as a Public Health Issue (4, Fa) Patterns and prevalence of violence; psychosocial, environmental, and biological influences on violent behavior; youth gangs; drugs and violence; family violence; and prevention and intervention strategies.

HP 422 AIDS in Society (4, Sp) Provides a broad examination of issues in HIV/AIDS, including behavioral, social, biological, clinical and ethical dimensions of the pandemic in the U.S. and elsewhere.

HP 430 Obesity and Health (4, Fa) Examination of causes and consequences of obesity, with emphasis on health risks of type II diabetes and cardiovascular disease. Recommended preparation: HP 230.

HP 431 Behavior and Education Strategies for Nutrition and Fitness (4, Sp) Examination of dietary intake and exercise behaviors as they relate to health and illness; methods for measuring diet and exercise. Recommended preparation: HP 430.

HP 432 Clinical Nutrition (4, Irregular) Metabolism of carbohydrates, fats and protein; introduction to vitamins, minerals and dietary modifications in various pathological conditions. Prerequisite: CHEM 105a; recommended preparation: HP 230.

HP 433 Advanced Topics in Nutrition (4, Sp) In-depth discussion of vitamins and minerals and their role in human nutrition; introduction to the role of vitamins and minerals in selected pathological conditions. Prerequisite: HP 432.

HP 434 Physical Activity and Health (4, FaSpSm) Examination of the health impacts of physical inactivity; participation rates across subgroups; physical activity determinants; and interventions, programs, and policies to promote physical activity. Recommended preparation: HP 200.

HP 440 Happiness, Well-Being, and Health (4, Sp) Explores human strengths that promote happiness/well-being and whether they influence physical health; mind-body relationships; and strategies for promoting hope, resilience, and quality of life. Recommended preparation: HP 200, PSYC 100.

HP 441 Health Promotion in the Workplace (4, Fa) Covers phases of worksite health promotion; research, design, implementation and evaluation; concerns regarding escalating medical costs and the role of health promotion in offering solutions.
HP 442 Chronic Disease Epidemiology (4, Sp) Overview of causative factors and demographic distributions of the major chronic diseases in the western world; epidemiological concepts, and research designs. Recommended preparation: HP 320.

HP 443 Communicating Health Messages and Medical Issues (4) [Enroll in COMM 443]

HP 446 Poisons, People, and Politics (4, Fa) Case studies of toxic exposures and investigation of the role of government, scientists, labor and industry in protecting against health threats caused by toxic exposures.

HP 448 Global Environmental Changes and Health (4, FaSpSm) Discussion of global environmental changes, including climate change, air pollution, water pollution, radiation, and their impacts on human health.

HP 450 Traditional Eastern Medicine and Modern Health (4, Fa) Overview of traditional Eastern approaches toward health and disease; relevance to modern health issues, emphasizing a comparison between traditional Chinese and modern Western medicine. Recommended preparation: fundamentals of medicine.

HP 451 Adolescent Health (4, Fa) Survey of the development of healthy and the prevention of health-risk behaviors during adolescence. Prevention and promotion techniques will be explored emphasizing cultural differences.

HP 455 Health Status of Indigenous Peoples of America (4, FaSpSm) Survey of Indigenous people's health, including health conditions, special cultural and ethical considerations, the Indian health system, and the politics of indigenous health.

HP 470 Case Studies in Global Health (4, Sp) Case study examination of programs and organizational structure underlying current international efforts addressing problems related to infection disease, chronic disease, global environmental change, emergencies and emerging disease epidemics. Prerequisite: HP 270.

HP 480 Internship in Health Promotion and Disease Prevention (2-4, max 4, FaSpSm) Field placement in a community agency such as a county health services agency, a not for profit voluntary agency or a health care setting. Open to majors only. Graded CR/NC. Prerequisite: completion or concurrent registration in required core courses.

HP 483 Global Health and Aging (4, Fa) [Enroll in GERO 483]

HP 485 Global Health: Obesity and Nutrition (4, FaSpSm) Overview of the epidemiology of obesity and related diseases and the etiology of obesity, including genetic, biological, behavioral, environmental and socio-cultural correlations.

HP 490 Directed Research (1-8, max 12, FaSpSm) Individual research and readings. Not available for graduate credit. Open to HP majors only. Corequisite: HP 350L; recommended preparation: HP 350L.

HP 499 Special Topics (2-4, max 8) Lecture and discussion focused on specific topics within health promotion and disease prevention. Course topic will vary from semester to semester.

Preventive Medicine (PM)

PM 500 Foundations of Health Behavior (4, Fa) Overview of behavioral theory and research in disease prevention and health promotion and in adaptation of chronic disease, including an introduction to measures of outcomes. Prerequisite: admission to Ph.D. in Preventive Medicine.

PM 501 Foundations in Health Education and Promotion (4, FaSpSm) Overview and application of behavioral theories to the field of health education and promotion. Examines the determinants of health behavior and strategies for change at the individual, group and community level.

PM 505 Training and Curriculum Design in Public Health (4, 5m) Curriculum writing and training skills applied to public health needs and settings. Covers adult learning theories, assessment of learning needs, curriculum design, training design, conduct and evaluation. Recommended preparation: PM 500.

PM 508 Health Service Delivery in the U.S. (4, FaSpSm) Historical development of the American health care system; determinants of health care utilization; role of health care providers; health policy; public health services; and health care finance.

PM 509 Comparative Health Care Systems (4, Sp) Macro-level analysis of the structure and delivery of health care services around the world, including an examination and comparison of health system performance.

PM 510L Principles of Biostatistics (4, FaSpSm) Concepts of biostatistics; appropriate uses and common misuses of health statistics; practice in the application of statistical procedures; introduction to statistical software including EXCEL, SPSS, nQuery. Laboratory.

PM 511abL Data Analysis (4-4-4, a: FaSpSm, b: SpSm) a: Major parametric and nonparametric statistical tools used in biomedical research, computer packages including SAS. Includes laboratory. Lecture, 3 hours; laboratory, 1 hour. Prerequisite: PM 510L. b: Explanatory data analysis, detection of outliers, robust methods, fitting data with linear and nonlinear regression models, computer packages including BMIDP, includes laboratory. Lecture, 3 hours; laboratory, 1 hour. c: Methods and applications for modeling longitudinal, time-to-event and multi-level data. Includes laboratory using R package. Lecture, 2 hours; laboratory, 2 hours.

PM 512 Principles of Epidemiology (4, FaSpSm) Terminology/uses of epidemiology and demography; sources/uses of population data: types of epidemiologic studies; risk assessment; common sources of bias in population studies; principles of screening. Recommended preparation: algebra.

PM 520 Advanced Statistical Computing (3, FaSpSm) Techniques for the solution of statistical problems through intensive computing; iterative techniques, randomization tests, the bootstrap, Monte Carlo methods.

PM 531 Seminar in Nutrition (2-2, FaSpSm) (Duplicates credit in former PHP220.)

PM 532b Introduction to the Theory of Statistics (3-3, FaSpSm) a: Density distribution and hazard functions; normal, chi-square, student’s t and F distributions; and sampling procedures for single factor and multiple factor designs, distributions. Recommended preparation: working knowledge of multivariable calculus and familiarity with linear algebra. b: Theory of estimation and testing, inference, analysis of variance, theory of regression. Recommended preparation: college-level calculus and linear algebra.

PM 533 Design of Clinical Studies (3, Sp) Design, conduct, and interpretation of results of clinical trials; emphasis on principles affecting study size, duration of a trial, and the impact of ethical and practical considerations. Prerequisite: PM 512bL, PM 513.

PM 542ac Practicum in Health Behavior (2-2, FaSpSm) Practical experience in a variety of field settings to gain a certain type of skill such as curriculum development, media production, and patient education. a: Practicum in prevention; b: practicum in compliance; c: practicum in health behavior topics. Recommended preparation: PM 500.

PM 553 Culture and Health: Global Perspectives (4, FaSpSm) International variations in health status with a focus on the impact of socioeconomic status, politics, environment, education and gender in etiology of illness, access to health care, progression of disease, and recovery.

PM 562 Communications in Public Health (4, Sp) Application of communication theories and methods to community health problems. Includes background assessment, program design, evaluation, social marketing, media advocacy, review of major health campaigns. Recommended preparation: PM 500.

PM 571 Epidemiology of Infectious Disease (4, FaSpSm) Survey of natural history of infectious disease, methods of disease control and outbreak investigation.
and an overview of the epidemiology of injury. Recommended preparation: PM 512.

PM 528 Program Design and Evaluation (4, Sp) Core concepts, methods and values of public health program planning and evaluation, including community needs assessment, writing objectives, designing health promotion programs, process and outcome evaluation. Recommended preparation: PM 500.

PM 530 Biological Basis of Disease (4, 2 years, Sp) With a physiological overview, differentiates genetic and environmental disease; emphasis on the relationships between lifestyle, behavior, and health. Prerequisite: admission to Ph.D. in Preventive Medicine, Health Behavior Research or basic biology.

PM 531 Research Methods in Nutrition (4, Fa) In-depth discussion of nutrition research including nutrition assessment, measurement of dietary intake, study design, statistical issues, critical appraisal, and translation into practice. Open to M.P.H. nutrition track students only. Recommended preparation: PM 510, PM 512.

PM 532 Genetics in Public Health and Preventive Medicine (4, Sm) History and philosophy of public health genetics and mechanisms of genetic diseases. Epidemiologic methods used to identify genetic diseases in individuals, families, and populations. Emphasis on prevention and relevant ethical issues. Recommended preparation: PM 512.

PM 533 Genetic and Molecular Epidemiology (3, 2 year, Fa) Genetic principles; design and analysis of family studies; introduction to likelihood estimation; segregation and linkage analysis; biomarkers of exposure, susceptibility, and disease; laboratory methods; susceptibility genes; association and linkage disequilibrium. Prerequisite: PM 510, PM 512, PM 511, PM 518a.

PM 534 Statistical Genetics (4, Sp) Familial aggregation, segregation analysis, linkage analysis, association, regressive models, gene-environment interactions, genetic heterogeneity and linkage disequilibrium. Prerequisite: PM 518a, PM 522a.

PM 535 Nutrition in Public Health (4, Fa) Principles related to developing effective programs and services to improve the health and nutrition within a community. Attaining and maintaining nutritional health related to biology, lifestyle choices, environments, and health care delivery systems. (Duplicates credit in former PHNU 532.) Recommended preparation: PM 530.

PM 536 Program Evaluation and Research (4, Fa) Overview of concepts, tools, data collection, analysis methods and designs used to evaluate health promotion programs. Examples from substance abuse prevention, family planning and reproductive health programs.

PM 537 Chronic Disease Epidemiology (4, FaSpSm) Overview of causative factors and demographic distribution of major chronic diseases in the western world. Epidemiologic concepts, methods and research design as applied to chronic disease prevention will be emphasized. Prerequisite: PM 512.

PM 538 Introduction to Biomedical Informatics (3, Sm) Overview of current topics, enabling technologies, research initiatives, and practical considerations in biomedical informatics. PM 539 Nutrient-Drug Interactions (2, Sm) Examines the various ways foods, and the nutrients contained in them, interact with medications used to treat chronic health conditions.

PM 541 Obesity, Metabolism and Health (4, Fa) Overview of the epidemiology of obesity, related health conditions and mechanisms related to energy balance, food intake, genetics. Discussion of prevention and treatment strategies. Recommended preparation: PM 530.

PM 542 Social Network Analysis (4, Sp) Theory, methods and procedures of network analysis with emphasis on applications to public health programs.

PM 543 Nonparametric Statistics (3) (Enroll in MATH 5431) PM 544 Multivariate Analysis (3, 2 years, SpSm) Exploratory and inferential techniques for multivariate data, Hotelling’s T2, multivariate analysis of variance, classification analysis, principle components, cluster analysis, factor analysis. Involves computer use. Prerequisite: PM 5102, PM 522a.

PM 545 Introduction to Time Series (3) (Enroll in MATH 5451) PM 546 Biological Threats and Terrorism (4, Fa) History of biowarfare and bioterrorism; proper surveillance techniques, capacity building for public health and medical communities, and the importance of effective communication. Methods of preparedness, prevention and response are examined. Recommended preparation: PM 512.

PM 547 Public Health Policy and Politics (4, FaSp) Examination of major policy issues in the U.S. health care delivery system to understand policy options in reforming health care and reducing health care disparities. Prerequisite: PM 508.

PM 548 Prevention and Public Policy (4, FaSp) Introduction to prevention policy framework; examination of how the application of epidemiologic and behavioral aspects of diseases shapes the development of public health policy. Prerequisite: PM 508, PM 512.

PM 549 Human Molecular Genetics (4, FaSpSm) (Enroll in BIOL 549) A broad overview of the genetic basis of disease. Includes genetic models for human disease, linkage analysis, association studies, gene structure, regulation, and expression. Prerequisite: PM 512.

PM 550 Sample Surveys (3) (Enroll in MATH 550) PM 551 Statistical Models in Clinical Trials (3, 2 years, Sp) Stochastic failure process; parametric models for survival data; sample size estimation procedures for clinical trials; multivariate regression models for binary outcome and censored survival data; computer programs; multiple failure modes and competing risks. Prerequisite: PM 518a, MATH 408.

PM 553 Human Exposure Assessment for Public Health (4, FaSpSm) Examination of important routes of exposure to toxic materials; how to measure exposure; strengths and weaknesses of different measurement techniques; design of exposure assessment studies. Recommended preparation: PM 510 or one semester of statistics and background in science or engineering for graduate students not in MPH.

PM 554 Biological Effects of Environmental Toxins (4, FaSp) Overview of how environmental exposures affect various biological systems and lead to observed health outcomes in populations. Recommended preparation: PM 539.

PM 555 Environmental Health, Policy and Practice (4, FaSpSm) Examination of environmental public health policies/regulations, the role of science in assessment and policy initiatives, barriers to change, and competing interests that influence policy adoption. Recommended preparation: PM 539.

PM 556 Environment and the Brain (4, FaSpSm) An examination of the effects of environmental exposures on the brain, addressing both human health and neurobiologic correlates throughout the lifespan.

PM 557 Global Environmental Health (4, Sp) Examination of the health effects of global environmental changes, including climate change, globalization, food safety, air pollution, water pollution, and radiation.

PM 561 Promoting Dietary Change (3, Sp) Development, implementation, and evaluation of dietary interventions at community and individual levels. Discussion of lifespan, culture, socioeconomic, and environmental factors. Open to M.P.H. nutrition track students only. Prerequisite: PM 501.

PM 562 Intervention Approaches for Health Promotion and Disease Prevention (4, Sp) Approaches for modifying health behavior in various settings and within diverse populations. Emphasis on practical considerations necessary to design and implement interventions with demonstrated effectiveness.

PM 563 Organizing and Mobilizing Communities for Public Health (4, Fa) Survey of effective community organizing and mobilization efforts in the U.S. and abroad, using participatory, organizational, community empowerment and public-private partnership models.

PM 564 Public Health Leadership and Management (3, FaSpSm) Introduction to business and management concepts, tools, and practices in the context of domestic and global healthcare delivery, public health, and allied health industries.

PM 565 Introduction to Global Health (4, Sp) Current public health issues and research topics relating to 21st century challenges and threats. Lessons learned and best practices to strengthen public health systems and enhance public health readiness and preparedness.

PM 568 Ethical Issues in Global Health (4, Fa) Ethical principles in the distribution of health resources, conduct of global public health research, and
implementation of public health initiatives across different nations, cultures, religions. Recommended preparation: PM 501.

PM 570 Statistical Methods in Human Genetics (4, Sp) An introductory course in the statistical methods used in the analysis of human genetic data. Prerequisite: PM 515.

PM 571 Applied Logistic Regression (3, Sm) An introduction to the logistic regression model, emphasizing practical data analysis techniques. Prerequisite: PM 5102; and PM 5112 or PM 518A.

PM 572 Systems Physiology and Disease I (4, Fa) (Enroll in INTD 572)

PM 573 Systems Physiology and Disease II (4, Sp) (Enroll in INTD 573)

PM 574 Programming in Modern Statistical Software (4, FaSpSm) Programming using SAS Software, including branching, sub-setting, PDF, looping, by-group processing, array, combining data functions, ODS, and macros.

PM 575 Statistical Methods in Environmental Epidemiology (3, FaSpSm) Study designs, exposure-time response, longitudinal, spatial, ecologic correlation and mechanistic models, measurement error interactions, measurement error, public policy implications. Prerequisites: PM 511B and PM 51A.

PM 576 Global Health Research and Programs (4, FaSpSm) Introduction to the core concepts and methods of planning and implementing health-related programs and research in resource-constrained settings.

PM 578 Global Health Governance and Diplomacy (4, FaSp) Investigates the way health is organized and administered at the global level, emphasizing the role of international diplomacy and law in governing health.

PM 579 Statistical Analysis of High-Dimensional Data (4, FaSpSm) Overview of statistical issues and solutions to high dimensional data analysis. Use of Bioconductor and R, with applications in molecular biology. Recommended preparation: PM 51A.

PM 580 Foundations of Child Health (4, Sp) Overview of issues related to infant, child and adolescent health, including special health considerations at different points in the developmental cycle, health care systems and policies and health disparities.

PM 581 Quality and Inequality in Health Care: Examination of Health Services (4, Fa) Social inequalities, including racial/ethnic disparities and income related inequalities are examined in the context of access and delivery of health care in the U.S.

PM 582 Epidemiology and Prevention of Pediatric Injuries (4, Fa) Examines the incidence and causes of injuries to children from birth to adolescence, risk factor distributions and approaches to prevention.

PM 583 Foundations of Early Childhood Mental Health (4, Fa) Overview of major infant and early childhood mental health issues, relating to the status of child mental health and the importance of comprehensive systems of care for children that support resilience and respond to biological and psychosocial mental health risks.

PM 584 Systems of Care for Children with Special Needs (4, Sm) Examines and evaluates principles, policies, programs and practices (systems) that have evolved to identify, assess and meet the special needs of children and families. Includes both historical and current perspectives.

PM 585 Child Health Policy (4, Sp) History of child health and social welfare programs during the past century. Issues examining health status and health service delivery, the role of health care financing and health policy.

PM 586 Reproductive and Perinatal Epidemiology (3, FaSpSm) Introduction to reproductive health, from preconception to the neonatal and early period of human development. Heavy emphasis on the methods and public health implications. Prerequisite: PM 5102 and PM 512.

PM 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

PM 593 Public Health Practice I (4, FaSpSm) Field placement in a community agency, such as a county health department or community-based organization. Open to MPH candidates only. Graded CR/NC. Recommended preparation: completion of all course work.

PM 594ab Master’s Thesis (2-12, FaSpSm) Credit on acceptance of thesis. Graded IP/CR/NC.

PM 596 Practicum in Public Health (2, FaSpSm) Field placement in a public health agency, such as a county hospital department or community-based organization. Open to MPH candidates only. Graded CR/NC. Recommended preparation: completion of all MPH course work.

PM 597 Capstone in Public Health (3, FaSpSm) Provides the culminating, integrative curricular experience for students enrolled in the Master of Public Health program. Recommended preparation: completion of all MPH course work.

PM 599 Special Topics (1-4, max 8, Irregular) Special topics relevant to the study of selected issues and areas of health behavior research or other aspects of preventive medicine.

PM 601 Basic Theory and Strategies in Prevention (4, 2 years, Fa) Psychosocial basis of health-hazardous lifestyle behaviors and preventive strategies. Recommended preparation: PM 500, PM 515.

PM 602 Basic Theory and Strategies for Compliance/Adaptation (4, 2 years, Fa) Behavioral and psychosocial demands of acute and chronic diseases. Comparison of theoretical models of compliance and adaptation with intervention methods to improve compliance and adaptation. Recommended preparation: PM 500, PM 515.

PM 603 Structural Equation Modeling (4, 2 years, Fa) Factor analytic and structural equation modeling approaches to health behavior research – conceptual, practical and mathematical. Prerequisite: PM 511B.

PM 604 Health Behavior Research Methods (4, Sp) Health research/evaluation philosophies, approaches, and development of skills for development and critique of health behavior research projects/studies. Recommended preparation: PM 511.

PM 610 Seminar in Biostatistics and Epidemiology (1, max 4, FaSpSm) Special topics of current interest to provide background for research in biostatistics and epidemiology. Based largely on student dissertation research. Graded CR/NC. Prerequisite: Ph.D. level.

PM 611 Advanced Topics in Epidemiology (3, Irregular) Review of current epidemiologic research contained in recent medical literature; emphasis on critique of studies and interpretation of findings.

PM 612abc Clinical Translational Research (CTR) (4-4-4, FaSpSm) a: First of three courses in CTR, a discipline that fosters multidirectional integration of basic, patient-oriented and population-based research with the long-term goal of improving public health. Recommended preparation: PM 510. b: Analysis and interpretation of data to test clinical translational hypotheses. c: Multidisciplinary approach to clinical and translational research.

PM 694abcd Doctoral Directed Research in Health Behavior (1-3-3-3, FaSpSm) Independent research at an advanced level on a problem in the field of Health Behavior. Graded CR/NC. Recommended preparation: PM 604.

PM 700 Research Seminar in Health Behavior (1, max 6, FaSp) Short seminar presentations and discussions on issues accompanying the development of the field of health behavior and implementation of research in this field. Graded CR/NC.

PM 703 Research (1-12, FaSpSm) Research applicable to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

Master of Science in Stem Cell Biology and Regenerative Medicine

Eli and Edythe Broad CIHR Center for Regenerative Medicine and Stem Cell Research at USC

1445 San Pablo St.
Los Angeles, CA 90033
(323) 442-8080
FAX: (323) 442-6040
Email: scrm@usc.edu
scrm.usc.edu

Program Director: Henry Sucov, PhD

Stem cell biology is one of the newest and most powerful approaches in biomedical science; it offers the opportunity to experimentally approach previously intractable biological questions, create models of human disease and develop cell-based therapeutics.

This intensive one-year program (with an optional second year) will give students a deep understanding of the scientific and clinical underpinnings of stem cell biology and regenerative medicine. The program includes three didactic lecture courses that address developmental cell biology and human embryology, stem cell biology and regenerative medicine, and translational and therapeutic aspects of stem cell technology; the program also includes two laboratory modules that provide guided hands-on experience with stem cells and stem cell laboratory approaches, and several different faculty-led discussion-based courses that allow detailed investigation.
of specific aspects of stem cell biology and regenerative medicine.

Students completing this program will be well-positioned to proceed to medical or Ph.D. programs, find laboratory or administrative employment in the growing stem cell pharmaceutical domain, or engage in public policy or regulatory administration of academic, clinical or business efforts in this expanding discipline.

California is globally recognized as the worldwide center of stem cell science, and USC has invested significantly in building the new Department of Stem Cell Biology and Regenerative Medicine at the Keck School of Medicine of USC, within which this M.S. program is based and administered.

Admissions Requirements

Applicants must supply a completed application for graduate studies including: transcripts from all institutions previously attended, standardized test scores, a personal statement describing scientific and career interests, and two letters of recommendation. Applications are generally anticipated for fall enrollment, but applications for spring enrollment will also be considered. Applicants to the program must apply to the USC Graduate School and must meet the minimum requirements for admission to the Graduate School. Students are required to have a 3.0 or better overall GPA (or equivalent) and have achieved graduation with a B.S. or B.A. degree (or equivalent) before matriculation. Students are expected to have taken the general portion of the GRE exam before application and to have met or exceeded university score requirements. (MCAT scores that are less than five years old may be submitted in lieu of GRE scores by physicians and MD students with a 3.0 LCME-accredited medical school GPA or higher, or by medical school-bound students with a 3.0 undergraduate GPA or higher. DAT scores that are no more than three years old and that reflect a minimum score of 15 in each area may also be submitted in lieu of GRE scores.) Applicants not meeting Graduate School requirements for regular standing may, with the approval of the Graduate School, be conditionally admitted. International students from non-English speaking home countries are expected to demonstrate English language proficiency or take remedial English language courses, according to Graduate School policy. Specific prerequisites for this program include completed course work with a B or better grade (or equivalent) in Cell Biology and in Molecular Biology.

Advisement

The program recommends that students meet with the program director each semester prior to registration.

Satisfactory Academic Progress

A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be given written notification that they have been placed on academic probation. Students who do not raise their GPA to 3.0 after two semesters on academic probation will be academically disqualified.

Degree Requirements

Graduation requires completion of 25 units, according to the required Year 1 course schedule outlined below. None of these courses may be substituted or waived. This program is intended to be completed within one academic year, and does not include a requirement for independent laboratory research or a thesis. Students may request approval to undertake laboratory research and continuing course work during a second year research option; students must already be matriculated into the program before making this request, and not all students will be granted this opportunity (selection will be based on academic performance and student research interests, and on availability of laboratory space). During this optional second year, students must enroll in the required Year 2 courses listed below; none of these courses may be substituted or waived.

Department of Stem Cell Biology and Regenerative Medicine

Courses of Instruction

Stem Cell Biology and Regenerative Medicine (SCRM)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

SCRM 511 Developmental Biology and Human Embryology (4, Fa) Survey of anatomical, cellular and molecular processes that underlie human development and congenital malformations, with discussion of other species for comparison. Open only to Stem Cell Biology and Regenerative Medicine majors.

SCRM 513 Stem Cells and Regenerative Medicine (4, Fa) A comprehensive investigation of embryonic, fetal and adult stem cells and the application of stem cell biology to treat disease. Open only to Stem Cell Biology and Regenerative Medicine majors.

SCRM 515 Bringing Stem Cells to the Clinic (4, Sp) Lectures addressing the business, legal, ethical, manufacturing and regulatory aspects involved in moving stem cells or related product into clinical practice. Prerequisite: SCRM 513. Open only to Stem Cell Biology and Regenerative Medicine.

SCRM 524L Biological Imaging in Stem Cell Research (2, Sp) Theory and practice of using microscopy and flow cytometry in stem cell biology, including sample preparation, digital processing and data analysis. Concurrent enrollment: SCRM 524L. Open only to Stem Cell Biology and Regenerative Medicine.

SCRM 525L Culture and Differentiation of Human Pluripotent Stem Cells (2, Sp) Classroom and laboratory experience in the techniques for deriving, culturing and differentiating human pluripotent stem cells (hPSCs) and related cell types. Concurrent enrollment: SCRM 524L. Open only to Stem Cell Biology and Regenerative Medicine majors.

SCRM 555 Writing About Stem Cell Biology and Regenerative Medicine (1, Sp) Instruction in writing for various audiences on topics related to stem cell biology and regenerative medicine. Open only to Stem Cell Biology and Regenerative Medicine majors.

SCRM 580 SCRM External Speaker Seminar Series (2, max 8, FaSp) Reading and discussion of recent papers by the SCRM speaker of the week, and attendance at the speaker’s seminar. Open only to Stem Cell Biology and Regenerative Medicine majors.

SCRM 580 Independent Research (1-4, max 16) Independent research conducted under the guidance of faculty in the Department of Stem Cell Biology and Regenerative Medicine. Prerequisite: SCRM 511, SCRM 513, SCRM 515, SCRM 521L, SCRM 524L, SCRM 555, SCRM 580. Open only to Stem Cell Biology and Regenerative Medicine majors. Graded CR/NC.

USC Thornton School of Music

As the longest-standing cultural institution in Los Angeles, the USC Thornton School of Music educates students in a real-world context through collaborations with the Los Angeles Philharmonic, Los Angeles Opera, Grammy Foundation and others.

Since its founding in 1884, the USC Thornton School of Music has become the center of higher education in music in the western United States and ranks among the top schools of music in the nation. Situated in the heart of the vital musical life of Los Angeles, USC Thornton brings together a distinguished faculty and gifted students from around the world. It is in this wonderfully diverse cultural milieu that students are offered instruction in virtually all professional and scholarly branches of music, including instrumental and vocal performance, jazz, popular music performance, early music, conducting, composition, film
scoring, music industry, musicology, music education, arts leadership, pedagogy, choral and sacred music, conducting and opera. In addition to its major programs, USC Thornton also offers a wide array of music minors and general interest courses for students majoring in other disciplines.

The USC Thornton Symphony, Chamber Choir, Concert Opera, Wind Ensemble, Popular Music Ensembles, Songwriter Showcases, Jazz Orchestra, Contemporary Music Ensemble, Early Music Ensemble and a wide variety of large and small choral and instrumental ensembles assure students the broadest performing experience. More than 500 formal and informal concerts and recitals are presented on campus each year and the school regularly presents eminent visiting artists and scholars in master classes, workshops, lectures, seminars and in performance.

Los Angeles is the home of numerous musical organizations whose performances contribute immeasurably to the cultural life of the region, and also the home of the nation’s major recording, radio, film and television industries. All offer abundant opportunities to the serious young musician.

Administration
Robert A. Cutietta, D.Ed., Dean
Lucinda Carver, DMA, Vice Dean, Division of Classical Performance Studies
Christopher Sampson, M.M., Vice Dean, Division of Contemporary Music
Peter Webster, Ph.D., Vice Dean, Division of Academic and Professional Services
Jeffrey de Caen, MBA, Associate Dean for Operations
Susan Milnner Lopez, MBA, Associate Dean for Administration and Finance
Donald Crockett, Ph.D., Assistant Dean for Faculty Affairs
A. Phoenix Delgado, M.M., Assistant Dean for Advancement
Brian Head, M.M., Assistant Dean for Academic Programs
Phillip Placenti, Ed.D., Assistant Dean for Admission and Student Affairs

Faculty
Jascha Heifetz Chair in Music and Distinguished Professor of Strings: Midori Goto, M.A.*
Robert Mann Endowed Chair in Strings and Chamber Music: Glenn Dicterow, B.A.
Bowen H. "Buzz" McCoy and Barbara M. McCoy Endowed Chair in Jazz at the Flora L. Thornton School of Music, Honoring President Steven B. Sample, 10th President of the University of Southern California: Bob Mintzer, B.A.*
Gregor Piatigorsky Chair in Violoncello: Ralph Kirshbaum, B.A.
H. Robert Reynolds Chair in Wind Conducting: H. Robert Reynolds, M.M.
Alice and Eleonore Schoenfeld Endowed Chair in String Instruction: Alice Schoenfeld, Dipl.*
Stephen Crocker Professor of Music: Rod Gilfry, M.M.
Judge Widney Professor of Poetry and Public Culture: Dana Gioia, M.A., MBA
Distinguished Professor of Composition: Morten Lauridsen, DMA*
Distinguished Professor of Composition: Stephen Hartke, Ph.D.*

Associate Professors: Ken Cazan, BFA*; Joanna Demers, Ph.D.; Yehuda Gilad, Dipl.*; Adam Gilbert, Ph.D.;
Rod Gilfry, M.M.; Elizabeth Hynes, B.M.;; Robert Moore, Ph.D.; Cynthia Munzer, B.M.

Assistant Professors: Cristian Grases, DMA; Ted Hearne, M.M.; Beatriz Ilari, Ph.D.; David Moore, B.M.;
Andrew Norman, Art. Dipl.

Professors of Practice: Daniel Carlin, M.M.; Lucinda Carver, DMA*; Peter Erskine; Boyde Hood, M.M.; Joel Timm, DMA; James Walker, B.M.E.

Associate Professors of Practice: Bernadene Blaha, M.M.; Kenneth Foster, M.A.; Mark Goldstein, J.D.; Brian Head, M.M.*; Veronika Krausas, DMA; Ken Lopez, B.A.;
Brent McMunn, M.M.; Richard Schmunk, DMA; Nick Strimple, DMA; Scott Tennant, M.M.

Assistant Professors of Practice: Steven Cunningham, B.S.; Andrew Garver, B.S. *; Rotem Gilbert, DMA*; Susan Helffer, DMA*; William Kanengiser, M.M. *; Sharon Laverty, M.M.; Kristy Morrell, DMA*; Antoinette Perry, M.M.;
Stephen Pierce, DMA; Patrice Rushen; Christopher Sampson, M.M.; Nick Stoubis, M.M.; Lisa Sylvester, DMA

Lecturers and Senior Lecturers (Full-time): William Biersach; Jason Goldman; Patrick Kelley; Christopher Roze; Aaron Serfaty; Stephen Trovato; Paul Young

Adjunct Professors: Bruce Broughton; Martin Chalifour; Szu Dibgy; Donald Green; Melissa Manchester; Norman Pearson; H. Robert Reynolds; Cherry Rhodes; Pepe Romero; Carl St. Clair; James Self; Jack Smalley; Jo Ann Turosny; Allan Vogel; William Watrous; Peter Webster;
Suli Xue; Michele Zukovsky

Adjunct Associate Professors: Che-Yen Chen; Karen Dreyfus; Judith Farmer; David Howard; Andrew Shulman;
Tram Sparks; Bing Wang; David Weiss

Adjunct Assistant Professors: Jeffrey Allen; David Arny; James Babor; Christopher Bartz; Margaret Batjer; Jon Burlingame; Leon Nudgu Chanler; Neal Desby; Susan Feldman; Russell Ferrante; Bruce Forman; Sean Friar;
Farmer Fuller; Adam Koffer; Shigemi Matsumoto; Janice McVeigh; Vincent Mendoza; Leah Morrison; Derek Oleszkiewicz; Joseph Pereira; Robert Sheppard; Andrea Stolpe;
Mark Weiser; Gary Woodward; Robert Young

Adjunct Instructors: Andy Alab; Abrose Akinnusire; Ted Ancona; Robert Anderson; Adriana Balic; Steve Becknelli; Amy Bowers; Stacy Brightman; Richard Brown; Gilbert Castellanos; Paul Chaklin; Joel Clift; Sean Doughall; Barbara Dyer; Rachelle Fox; Cheryl Ann Fulton; John Fumo; Sara Gazeek; Kathleen Grace; Karin Carson; William Hollis; Sean Holt; Ben Hong; Alphonso Johnson; Aron Kallay; Dax Kimbrough; Patrick Kirsch; Tim Kobza; Edwin Livingston; Andrew Martin; Mary Mattei; Roy McCurdy; Shawn Mouser; Sung-Hwa Park; David Poe; Michael Powers; Otmaro Ruiz; Isaac Schankler; John Schmidt; Garry Schyma; Paul Sherman; William Skenne; Douglas Tornquist; Carl Verheyen; David Wilkinson; Tien-Hsin Wu; Shanon Zusman

Emeritus Professors: Nancy Bricard, M.M. *; William Dehnig, DMA*; James Hopkins, Ph.D. *; Arend Koole, D.Litt. et Phil.; Frederick Lesemann, DMA*; Donald McInnes, M.M.; William A. Schaefer, M.A.; Margaret Schaper, M.M. *; Alice Schoenfeld; William Thomson, Ph.D.; James Vail, DMA*

*Recipient of university-wide or school teaching award.

Degree Programs

The Thornton School of Music offers professional and academic degrees at the bachelor's and doctoral levels. These degrees are summarized below.

Bachelor of Music: Students working toward this professional degree have a wide choice of specializations: composition, music industry, instrumental performance, jazz studies, popular music performance and vocal arts. Students can take either a single major program or double majors in several combinations such as piano and composition, string, or percussion instrument. The two majors must be offered by different departments but lead to the same degree (for example, Bachelor of Music). Double majors consisting of two majors in the same department are not permitted. The degree is granted by the Thornton School of Music.

Bachelor of Arts: These degrees are for students with a strong music background who wish to combine professional music training with substantial study in other disciplines.

Bachelor of Science: Offered by the Thornton School of Music in the specialized area of music industry.

Minors in Music: Seven different minors in music are offered, each approaching the discipline from a unique perspective and with a distinct curriculum: Jazz Studies, Musical Studies (Performance), Musical Theatre, Music Industry, Music Recording, Popular Music Studies and Songwriting.

Master of Music: This is a professional degree that represents proficiency in one area of musical practice and relevant knowledge in musical literature, performance and technique. It requires a minimum of 30 graduate units, of which 15 must be at the 500 level or higher. Students complete either a thesis or recital(s) as part of the degree requirements. The degree can be earned in choral music, composition, conducting, jazz studies, music education, keyboard collaborative arts, guitar, organ, piano, voice or instrumental performance, or sacred music. The degree is granted by the Thornton School of Music.

Master of Arts: This degree, offered through the Graduate School in conjunction with the Thornton School of Music, stresses music history or early music performance, with emphasis on scholarly research.

Doctor of Music Arts: This is a professional degree that represents the highest level of expertise in a major field of musical practice and competence in several additional areas. Students may specialize in choral music, composition, jazz studies, music education, vocal or instrumental performance, or sacred music.

Doctor of Philosophy: Offered through the Graduate School, this is an academic degree in the field of historical musicology. A substantial background in music, research and languages is required.

Degree Programs

The Thornton School of Music offers professional and academic degrees at the bachelor's and doctoral levels. These degrees are summarized below.

These degrees are summarized below.

Graduate Record Examinations

Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the Master of Music, Doctor of Musical Arts and Doctor of Philosophy degrees. (The Music Subject Test is not required.) Test scores on the GRE that are more than five years old at the time of application are not accepted.

Placement Tests

Undergraduate transfer students who have had formal study in any of the following areas must take the appropriate placement examination prior to their first registration: aural skills, theory, music history, conducting, analysis, orchestration and performance. The results of these examinations determine placement in appropriate sequential courses.

Admission to Graduate Standing

Achievement tests in basic musical skills and areas of study (Music Graduate Entrance Examinations) are required of all entering graduate students during the first semester or summer session in residence. If all examinations are not passed by the end of two semesters of course work, then further registration must include remedial courses in all areas where deficiencies exist. In degree programs in which one recital is required, all entrance examinations must be passed or corresponding remedial course work completed with a minimum grade of B- before permission to present a graduate recital is given. In programs with two or more recitals, only the first may be given prior to passing all entrance examinations or completing corresponding remedial courses.

Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS)

All applicants whose native language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Test scores that are more than two years old at the time of application are not accepted.

Advanced Standing Credit for Music Taken in Accredited Schools of Music

Music courses completed with satisfactory grades in a member institution of the National Association of Schools of Music are acceptable for transfer. The university reserves the right, however, to require a student to take a placement test (at no cost) to determine the level of achievement in any given aspect of music, and to review the student's credentials at the end of one semester at USC to determine what credit will in fact be transferred.

Advanced Standing Credit for Music Not Taken in Accredited Schools of Music

Students who wish credit for music taken in institutions not accredited by the National Association of Schools of Music must provide the Office of Admission with information on their prior work. The university reserves the right to determine what credit will in fact be transferred.

General Requirements

All curricula leading to the Bachelor of Music, Master of Music and Doctor of Musical Arts degrees require proficiency in performance. This is accomplished by individual instruction in the areas best suited to the student's ability and interests.
Proficiency in piano is required in all curricula and may be achieved through class and/or individual instruction. Some curricula require competency in one additional performance medium.

Attendance at recitals in the field of the student's major is a regular part of the work in applied music for all music majors. Attendance at recitals is recommended for non-music majors who take individual instruction as an elective.

Curriculum Requirements

The curriculum requirements for each major are listed under each degree. The USC course classification and numbering system is explained on the Registration page. In addition, music courses sometimes carry the following abbreviations: CD – Conducting; CG – Classical Guitar; HC&B=Harpsichord; OR = Organ; P = Piano; SG = Studio Guitar; VA = Viola; VC = Voice Coaching; VO = Voice.

Change of Curriculum

To change from one curriculum to another, a student must obtain written approval of all of the following: the department chair in the curriculum which the student is leaving, the department chair for the new curriculum and the dean of the Thornton School of Music.

Non-Degree Programs

Students who have highly specialized interests which may not be met through degree programs may apply for admission to one of the following non-degree programs.

Artist Diploma Program

This program is designed for young artists of exceptional ability and musical sensitivity who plan careers as solo performers. The Artist Diploma Program provides young artists the opportunity to devote their full time to concentrated study and practice for the duration of their assigned programs. This program typically requires two to three consecutive years of study for completion.

Graduate Certificate in Arts Leadership

The graduate program in arts leadership is a two-semester certificate program for artists, arts administrators and cultural workers of all types to develop the skills necessary to become successful leaders in the arts and arts organizations in a rapidly changing and radically altered contemporary world.

Graduate Certificate Program in Performance

This two-year graduate-level program is designed for students who have completed their undergraduate education in music, or its equivalent, and intend to concentrate their energies on the full-time development of their discipline.

Graduate Certificate Program in Scoring for Motion Pictures and Television

This one-year program is designed for students who hold the Bachelor of Music in Composition or its equivalent. Students in this program must maintain a 3.0 grade point average, with no course grade lower than a C (2.0). Work graded C- or below is not acceptable for credit toward the certificate.

Honor Society

Pi Kappa Lambda

Pi Kappa Lambda is a national honor society established in 1918 for the promotion and recognition of scholarship and performance in music. Students of the School of Music are eligible for election to Eta chapter at the University of Southern California, established in 1923.

Undergraduate Degrees

Bachelor of Music

The Bachelor of Music (B.M.) is a professional degree granted by the Thornton School of Music. The various majors for the degree are listed subsequently along with special requirements for each.

Individual Instruction in Residence

Candidates for the B.M. degree in performance must complete a minimum of three semesters of individual instruction in their major field while in residence.

Senior Recital

All performance majors must present a senior recital consisting of a memorized program one hour long (except in the case of certain wind instruments) in partial fulfillment of the degree requirements. Composition majors present a full-length recital of their original compositions. A candidate's program must be ready for presentation before a faculty committee at least one month before the required public recital. Complete details are available from the Music Operations Office, Thornton School of Music.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing and diversity requirements.

The provost has allowed an exception to the rules governing the new general education requirements for certain groups of students pursuing performance degrees in music. Students pursuing the Bachelor of Music in Jazz Studies or the Bachelor of Music in Performance (in all tracks except organ) may satisfy their social issues and first writing requirement separately by taking WRIT 130 (instead of WRIT 150) in the spring of their freshman year. In addition those pursuing the Bachelor of Music in Performance (vocal arts) may satisfy Category I of the new program with MUCO 331 and MUCO 332.

In all other respects, students in the Thornton School of Music must satisfy the general education requirements as described on The USC Core page and the General Education Program page.

Individual Instruction Limitations

Music majors may accumulate a maximum of 16 units of individual instruction at the 300 level toward an undergraduate degree program.

Bachelor of Music in Composition

Entrance Requirements

Applicants must submit the Thornton School of Music Supplementary Application, a statement of objectives, resume and repertoire list. A performance audition is required for admission to this program. Specific audition requirements, along with other entrance requirements, are reviewed on an annual basis and published in the Application Requirements section online at usc.edu/music. Most applicants will also be asked to sit for a written examination consisting of listening to excerpts, basic jazz theory and jazz history. Though applicants are strongly encouraged to perform a live audition, a recent video recording may be submitted in lieu of a live audition if necessary.

Bachelor of Music in Performance (Piano)

Entrance Requirements for Piano Major
Applicants in piano must submit the Thornton School of Music Supplementary Application, a statement of objectives, resume and repertoire list. A performance audition is also required. Current requirements for the audition may be found at usc.edu/music. Follow the links to the Keyboard Studies Department and choose "Application Requirements." Although live auditions are strongly encouraged, a recent, high-fidelity audio or CD recording may be submitted in lieu of a live audition if necessary by applicants living a distance greater than 200 miles from the USC campus.

Bachelor of Science in the Music Industry

The Bachelor of Science in the Music Industry is a professional degree that prepares students to enter a variety of careers in the music industry of today. Students must fulfill a series of core requirements for the degree.

Entrance Requirements
Applicants must submit the Thornton School of Music Supplementary Application, a statement of objectives, resume and full academic transcripts. A full academic review will be the primary consideration for admission to this program. In some cases, a phone or in-person interview will be requested by the Thornton admission office.

General Education Requirements
The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing and diversity requirements, which comprise the USC Core. See The USC Core and the General Education Program for more information.

Business-related Requirements
In addition to the above general education requirements, the following courses offered through the USC Marshall School of Business, the USC Leventhal...
School of Accounting and the USC Dornsife College of Letters, Arts and Sciences are required.

Curriculum Areas of Study
Within the curriculum for the B.A., students may wish to focus in a particular area of music that suits their interest and the faculty's expertise. Students may specialize in one area or may design individual programs of study by choosing various combinations of electives that best meet their needs and career objectives. Relevant courses for each area are posted at usc.edu/music. One such option is listed below.

Vocal Jazz Option: This option is designed for students with a strong interest in the performance of solo and ensemble vocal jazz music. Students should take two semesters of Vocal Jazz Techniques, as well as individual instruction in jazz voice. Students may also perform in vocal ensembles and with instrumental combos.

Bachelor of Arts in Choral Music
Applicants must submit the Thornton School of Music Supplementary Application, a statement of objectives, resume and repertoire list. An audition performance according to the requirements of the Choral Music department is also required.

General Education Requirements
The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing, foreign language and diversity requirements, which together comprise the USC Core. See The USC Core and the General Education Program for more information.

Units

Universities

Acceptance into the program might require a personal interview by the Thornton School of Music to assure that the student has sufficient musical background and skill.

Students admitted to this minor will be expected to have a minimum GPA of 2.0 and to maintain that average with no grade lower than a “C” for all courses taken in the minor.

Minor in Music Industry
A minor in the music industry is offered for undergraduate students to provide them with the background necessary to enter varied fields in the music industry and to familiarize them with standard practices and procedures. A minimum of 20 units is required for completion of this minor. The minor is not available to music industry majors.

Prerequisite
Acceptance into the program might require a personal interview by the Thornton School of Music.

Students admitted to this minor will be expected to have a minimum GPA of 2.0 and to maintain that average with no grade lower than a “C” for all courses taken in the minor.
Minor in Jazz Studies

This 21-unit minor program in jazz studies incorporates coursework in individual instruction, the history of jazz masters, techniques of jazz improvisation and jazz theory for improvisers. The minor is not available to B.M. jazz studies majors.

Requirements for admission are: GPA per university regulations and an audition.

Minor in Musical Theatre

The minor in musical theatre, interdisciplinary in nature, is a 27-unit program incorporating the study of acting, dance or movement, vocal arts and related musical subjects. Admission to the minor requires an audition for music but not for theatre.

For students majoring in theatre or another non-music discipline:

Minor in Popular Music Studies

This minor consists of four upper division courses, to be chosen from courses that examine different aspects of popular music. The minor focuses on the study of the repertoires and their cultural and social context. Students must be in good academic standing to be admitted. No previous musical experience is required.

Minor in Performing Arts Studies

The minor in performing arts provides an interdisciplinary inquiry into the nature and aesthetics of the performing arts. It combines the disciplines of cinematic arts, dance, music and theatre. The minor is a unique course of study that looks at how the performing arts contribute to a culturally literate society. See the USC School of Dramatic Arts section of this catalogue.

Graduate Degrees

Admission-Audition Requirements

Applicants to graduate programs in the Thornton School of Music must submit the music supplementary application in addition to fulfilling all USC graduate admission requirements. Applicants to all doctoral programs, the M.A. in Music History and Literature and the M.A. in Early Music must also submit scores from the general test of the Graduate Record Examinations (GRE). Any applicant whose native language is not English must also submit scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). GRE test scores that are more than five years old, and TOEFL or IELTS scores that are more than two years old, at the time of application, will not be accepted.

Additional requirements for specific graduate programs are detailed below.

Choral Music

Applicants must submit the following: a brief resume detailing conducting experience; a statement of objectives; a repertoire list divided into categories of works sung, works studied and works conducted; three letters of recommendation; a videotape of both a choral ensemble performance and rehearsal conducted by the applicant, including choral works from several periods and styles, with at least one being a 20th century work. Master of Music applicants should have a minimum of two years’ experience as the regular conductor of a choral ensemble. Doctor of Musical Arts applicants should have a minimum of four years’ experience.

Composition

Applicants must submit the following: three carefully prepared scores and audio recordings of recent works; a complete list of all compositions, including dates and media; a statement of objectives; a resume; transcripts from all universities attended. An on-campus interview with the composition faculty is encouraged but not required. Admission to graduate programs in composition is highly competitive and is limited to approximately six new students per year.

Conducting

Applicants must submit the following: a repertoire list, clearly indicating both works conducted in rehearsal and those conducted in performance; an unedited videotape from the orchestra’s side of the podium, no less than 30 minutes in length, of which half should be of the applicant in rehearsal; a statement of objectives; three letters of recommendation; a resume. Selected applicants will be invited to present a live audition with the university. Such applicants will be contacted to determine repertoire.

Jazz Studies

Applicants must submit a statement of objectives, resume and repertoire list. A performance audition is required for admission to this program. Specific audition requirements, along with other entrance requirements, are reviewed on an annual basis and published in the Application Requirements section online at usc.edu/music. Most applicants will also be asked to sit for a written examination consisting of listening to excerpts, basic jazz theory and jazz history.

Music Education

Applicants must submit the following: a resume listing group teaching experience (one year experience or more for M.M. applicants, three years’ experience or more for DMA applicants); brief statement of objectives and professional goals; academic transcripts from all universities attended; writing sample (essay or research abstract on a music education topic for M.M. applicants, a copy of the master’s thesis or written project on a music education topic for DMA applicants); an audition tape, approximately 15 minutes in length, of the applicant’s solo performance field; three letters of recommendation.

Music History and Literature

Applicants must submit the following: a statement of objectives and professional goals; academic transcripts from all universities attended; three letters of recommendation; a writing sample (one or two historical or analytical term papers or a copy of the master’s thesis).

Performance

A performance audition is required for all applicants for admission to a performance major. In the case of some programs, additional materials are also required. Specific audition requirements, along with other entrance requirements, are reviewed on an annual basis and published in the Application Requirements section online at usc.edu/music.

Sacred Music

Applicants must submit the following: a brief resume detailing conducting and/or sacred music experience; a statement of objectives; a repertoire list divided into categories of works sung or performed, works studied and works conducted; three letters of recommendation; a videotape of both a choral ensemble performance and rehearsal conducted by the applicant, including choral works from several periods and styles, with at least one being a 20-21st century work. Master of Music applicants are preferred to have had a minimum of two years’ experience as the regular conductor of a choral ensemble or worship leader. Doctor of Musical Arts applicants should have a minimum of four years’ experience.

Graduate Degrees

Master of Music

Unit and Grade Requirements

Thirty units of graduate work are required; a minimum of 15 units (excluding thesis) must be at the 500 level or higher. All students must satisfy the special requirements of their major department (see departmental adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Transfer work must have been completed within seven years from the date of admission to a master’s degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate faculty chair and the chair’s decision made no later than the end of the first year in either the master’s or doctoral program.

Time Limit

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Thesis Requirements and Qualifying Exam Committees

A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music education department, the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594A Thesis, a student must choose a qualifying exam committee composed of three regular faculty, approved by the department chair, of which at least two come from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

Master’s Recital

At least one public recital is required of all candidates for the Master of Music degree with a major in choral music, composition, organ, strings, vocal arts or wind and percussion instruments. Two public recitals are required for majors in conducting, guitar, jazz studies, keyboard collaborative arts and piano. Candidates should apply at the Music Operations Office for recital dates. Some departments require that a candidate be prepared to play or conduct the program for the approval of a faculty committee in advance of the recital.

Students majoring in conducting may complete the recital requirements with a formal public recital or with special projects assigned, approved and attended by faculty from the conducting department, who also judge the acceptability of all such performances.

Students majoring in sacred music must complete a recital or project, as approved by the department.

Comprehensive Review

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study. This review, which is administered by the faculty of the major department, consists of an oral or written examination or a specially designated course; it will cover relevant aspects of musical performance, literature and technique.

Master of Music in Choral Music

Prerequisite

Applicants must hold a Bachelor of Music degree or its equivalent. Completed course work must include at least the following: Conducting MUCD 340, MUCD 343 and MUCD 441; Music History and Literature MUHL 331 and MUHL 432; Theory and Composition MUCO 232b, MUCO 232d and MUCO 338x. One year of German or French is strongly recommended. Applicants must have attained senior standing in a principal performance medium.
Keyboard Proficiency

A keyboard proficiency test will be given by the choral faculty during the student's first semester in residence to determine if additional study in keyboard is required.

Comprehensive Review

A final oral examination in choral literature, conducting and rehearsal techniques will be administered by the choral music faculty.

Comprehensive Review

A final oral examination in vocal pedagogy, art song and oratorio literature and diction will be administered by the vocal arts faculty. Students are required to write extensive program notes for the degree recital.

USC Opera

USC Opera is an integral part of the Vocal Arts Department, providing career development opportunities for singers, coach/pianists, conductors and directors. The program includes instruction in opera history and literature, coaching techniques, stage direction, body movement for singers, stage training, role study and pedagogy, acting for singers, song literature and in Italian, French or German languages.

Prerequisite

The applicant must hold a Bachelor of Music degree with a major in a wind instrument or percussion or equivalent.

Master of Music in Sacred Music

Prerequisite

Applicants must hold a Bachelor of Music degree or its equivalent. Completed course work must include at least the following or their equivalent: Conducting MUCD 340, MUCD 343 and MUCD 443; Music History and Literature MUHL 331 and MUHL 332; Theory and Composition MUCD 232B, MUCO 233B and MUCO 338X. One year of German or French is strongly recommended. Applicants must have attained senior standing in a principal performance medium.

Keyboard and Voice Proficiency

Proficiency tests in keyboard and voice will be given by the choral and sacred music faculty during the student’s first semester in residence to determine if additional study in either medium is required.

Comprehensive Review

A final oral examination in sacred music and related areas will be administered by the sacred and choral music faculty.

*Maudic music majors must participate in a choral ensemble chosen from MUEN 508, MUEN 510, MUEN 511 or MUEN 512 each semester if enrolled for 4 or more units. In some cases, large instrumental ensemble courses may be substituted.

**In some cases, MUHL 500-level courses and/or private instruction in organ, piano, voice or guitar may be substituted for MUIC 440, MUIC 541, MUIC 542 and MUIC 541. In some cases, instruction in guitar or another instrument may be substituted for MPKS 501 or MPVA 501.

Graduate Degrees

Master of Arts

This degree is under the jurisdiction of the Graduate School. Students should also refer to the Graduate School section of this catalogue for general regulations.

Departmental Requirements

Applicants will be evaluated on the basis of scores on the Graduate Record Examinations, transcripts of previous college courses, a research paper and letters of reference.

Regular (classified) standing is achieved when the general test of the Graduate Record Examinations has been taken, and when the Music Graduate Entrance Examinations have been completed satisfactorily. Remedial course work, if recommended, may be substituted for repetition of examinations.

Language Requirement

Students are required to demonstrate a reading knowledge by passing an examination in one foreign language chosen by the student from among French, German, Italian or Latin. This requirement must be passed prior to the comprehensive examination.

Prerequisites

Applicants should have an undergraduate degree with a major in music or equivalent, and a substantial background in languages, arts and letters.

The thesis will include the planning, research, preparation and leadership of a full-length program in early music. This practical work will be supported by a written essay that deals, as appropriate, with historical data sources, authentic performance practices and a stylistic assessment of the repertoire that is performed. In lieu of a comprehensive examination, candidates for the Early Music Performance Emphasis will be required to pass periodic reviews to demonstrate progress.

Graduate Certificate in Arts Leadership

Certificate in Arts Leadership (ARTL)

The graduate program in arts leadership is a two-semester certificate program for artists, arts administrators and cultural workers of all types to develop the skills necessary to become successful leaders in the arts and arts organizations in a rapidly changing and radically altered contemporary world. The program is based in the Thornton School of Music, but it is designed to be applicable for artists/students engaged in any of the arts disciplines who want to develop their leadership skills in the hybrid and holistic environment of the contemporary arts. The program is highly individualized and deeply student centered in its approach, with

Degree Programs

Non-Degree Programs

Artist Diploma Program

This program is designed for young artists of exceptional ability and musical sensitivity who plan careers as solo performers. The Artist Diploma Program provides young artists with the opportunity to devote their full time to concentrated study and practice for the duration of their assigned programs.

Entrance Requirements

Following the recommendation of the student’s major department, a performance audition, consisting of a full-length recital, is required.

Curriculum Requirements

A minimum of 16 units at the 754 level (from MPGU, MPGU, MPKS, MPST, MPVA or MPWP) and four full-length recitals are required. This program typically requires two to three consecutive years of study for completion.

Graduate Certificate in Arts Leadership

Certificate in Arts Leadership (ARTL)

The graduate program in arts leadership is a two-semester certificate program for artists, arts administrators and cultural workers of all types to develop the skills necessary to become successful leaders in the arts and arts organizations in a rapidly changing and radically altered contemporary world. The program is based in the Thornton School of Music, but it is designed to be applicable for artists/students engaged in any of the arts disciplines who want to develop their leadership skills in the hybrid and holistic environment of the contemporary arts. The program is highly individualized and deeply student centered in its approach, with
simultaneous emphases on research, discovery, theory and current practice. With strong faculty mentorship and guidance from the director of the program and other working professionals in the field, students explore the dimensions of the most current issues and ideas while developing specific real-world applications of these ideas to their own practice as artists and leaders.

The program consists of a minimum of 18 units, which can be completed in two semesters. The program begins with a 2-unit gateway course (ARTL 500), which introduces the students to the varied, complex and contentious issues in the arts and arts leadership that currently exist in the contemporary arts world. From this experience, students will develop a life plan that examines their own career and life trajectory for the next several years, providing a guidepost for their own personal development in arts leadership. Students will take four core courses including ARTL 501, which focuses on a deep understanding and application of the challenges of executive leadership in the arts and ARTL 502, which looks at major environmental trends affecting the arts and how that impacts the student’s leadership role in the arts.

Essential to all of these courses is developing the ability to think, speak and write critically about the arts in the contemporary world, key components of strong arts leadership. There is also a two semester practicum, ARTL 510, in which the student creates, develops and completes an actual arts leadership project of his or her own choosing, supported by faculty mentorship and the cohort of other practicum students.

Admission to the program is by application, reviewed and approved by the director of the program. Admission to the practicum requires a project proposal to be created by the student and approved by the director of the program.

**Graduate Certificate Program in Scoring for Motion Pictures and Television**

This one-year program is designed for students who hold the Bachelor of Music in Composition or its equivalent. Students in the SMPTE program must maintain a 3.0 GPA (A = 4.0), with no course grade lower than a C (2.0). Work graded C- or below is not acceptable for credit toward the certificate.

### Entrance Requirements

Specific entrance requirements are reviewed on an annual basis and published in the Application Requirements section online at asu.edu/music.

### Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

### Admission

Refer to School of Music Graduate Degrees, Admission Requirements.

### Graduate Record Examinations

Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the Doctor of Musical Arts degree. Test scores on the GRE that are more than five years old at the time of application are not accepted.

### Graduate Committee Interview

Before the completion of 16 units beyond the bachelor’s degree, the student must attend an interview with the Graduate Committee of the School of Music summarizing their background and objectives. The student will be evaluated on musicianship and general academic qualifications, teaching experience and the validity and quality of creative, literary or performance projects submitted. The committee determines the student’s continuation in the program, proposed areas of concentration and the qualifying exam committee members.

### Course Requirements

Each student is required to prepare four areas of concentration: the major field, an academic field (chosen from among musicology, theory and analysis, music education, choral music or sacred music), and elective areas selected in consultation with an adviser from two of the following: theory or compositional skills (composition, counterpoint, orchestration, band arranging or choral arranging); performance, early music or jazz studies; music education; sacred or choral music; conducting; performance pedagogy; electroacoustic media; a field outside of music. The academic field may not duplicate a major or an elective field. Admission to elective and academic fields must be approved by the department concerned, prior to the Graduate Committee interview.

The elective and academic fields are supported by courses that are determined by the department in which these fields are administered. Six to 8 units are taken in elective fields; 8 to 10 units in the academic field. No more than two of the four fields may be under the guidance of the same department within the School of Music, and at least one of the elective fields must result in a written dissertation as part of the qualifying examinations.

### Required courses for each major curriculum are listed subsequently in this catalog. Special requirements in any of the four areas of concentration (if any) are determined by the qualifying exam committee member responsible for that area.

A minimum of 65 graduate units beyond the bachelor’s degree are required to complete the degree. Fifty-five or more units must be in music, 13 of these beyond the master’s level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

### Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master’s degree (8 units or more per semester) must be in residence at USC.

### Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major.

### Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the chair of the department in the School of Music in which the subject is taught, pending approval by the dean of the Thornton School of Music. Transfer credit petitions must be filed with the appropriate faculty chair and the chair’s decision made no later than the end of the first year in either the master’s or doctoral program. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

### Foreign Language

...
A reading knowledge of French, German, Italian or Spanish is required of all students. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before the qualifying examination at the latest.

Qualifying Exam Committee

The qualifying exam committee is composed of at least five members: two faculty from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be drawn from tenured and tenure-track faculty.

The committee administers the written and oral parts of the qualifying examination. The committee continues to serve until the qualifying examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy. For students in curricula, which require recitals, the qualifying exam committee serves as the recital committee and is responsible for the format, content, scheduling, and approval of the required performances.

Qualifying Examination

The qualifying examination for the DMA is administered by the student’s qualifying exam committee. It is comprehensive, partly written and partly oral, and designed in part to test the student’s fitness for independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the qualifying exam committee to take the qualifying examination and schedule it at least two months in advance to ensure the committee’s availability. The examination may be taken either during the final semester of course work (except dissertation or individual instruction) or within two semesters immediately after, provided that all members of the qualifying exam committee are available to administer it. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the qualifying examination. Qualifying examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of all qualifying exam committee members. All portions of the examination must be completed within one month.

Written examinations are prepared and read by the qualifying exam committee. All of the student’s areas of concentration, except performance, conducting and composition, will be covered in a written examination or comparable project. The examination in performance, conducting or composition normally is a public recital, evaluated by appropriate members of the qualifying exam committee. If the written examinations, comparable project(s), or recital(s) are judged to be satisfactory, an oral examination is then given. This examination covers in depth topics discussed in the written examinations and/or new material.

The two representatives of the department and the academic minor representative must be present at the oral examination and render a judgment on the acceptability of the qualifying examinations as a whole. The representatives of the two elective fields, at their discretion, may take part in the oral examination, especially if they feel that the project, recital or written examination passed by the candidate for their field should be explored further. Their presence is not required if they feel that the candidate has demonstrated knowledge and accomplishments appropriate for an elective field in their disciplines. The examinations will be reported as passing if there is no more than one dissenting vote on the qualifying exam committee. A student must pass both the written and oral examinations to pass the qualifying examination.

A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the qualifying examination, the qualifying exam committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first examination. A student may not take the qualifying examination more than twice.

Admission to Candidacy

Admission to candidacy occurs after the student has passed the qualifying examination, upon formal action of the dean of the Thornton School. The dissertation or final recital must be completed after admission to candidacy.

Doctoral Dissertation

A dissertation based on original investigation is required of candidates in composition, music education and choral music. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee

After the qualifying exam committee recommends admission to candidacy and approves the dissertation, it is reduced to three members. This smaller committee guides the student through the completion of the final project. Additional members may be added at the discretion of the chair of the committee if the subject of the topic requires special expertise.

Registration

The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements are completed. Registration for the dissertation in no less than two regular term semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register.

A candidate who must withdraw temporarily from registration in 794 for a semester must formally report this before the beginning of that semester to the office of Doctoral Programs, Thornton School of Music, requesting by petition a leave of absence. During a leave of absence the candidate will not be entitled to assistance from the qualifying exam committee or to the use of university facilities. Leave will be granted only under exceptional circumstances.

Format for Theses and Dissertations

All theses and dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See Theses and Dissertations.

Defense of the Dissertation

After meeting all requirements including the qualifying examination, the candidate must defend the dissertation. This defense occurs to determine for the committee that the candidate has attained the stage of scholarly advancement and power of investigation demanded for recommendation to the doctorate. While this defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or denial. The recommendation must be unanimous.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate’s dissertation committee must be filed with the dean of the Thornton School of Music. The typed copy for the abstract of the dissertation is due at this time.

A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee will sign the Approval to Submit Defended and Final Copy of the Doctoral Work form. If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Thesis Editor, the Graduate School, GFS 315, by the Graduate School’s submission date and times. Approval of format and acceptance by the Graduate School must be presented to the dean of the Thornton School of Music at least one week before the end of the semester.

Abstract of Dissertation

Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

Time Schedule

The DMA is established on the assumption that a well-qualified student can complete it in three years of full-time work. If the student pursues part-time graduate study, or if the field of graduate work is not that of undergraduate study, more time may be required.

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master’s degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Choose 4 units from the following:

- MSCR 473, MSCR 475 or MUHL 588
- Electives to fulfill the academic field and two elective fields**
- Lecture/Recital
- Total required for degree: 65

*Sacred music majors must participate in a choral ensemble chosen from MUES 508, MUES 510, MUES 511, or MUES 512 each semester if enrolled for 4 or more units.

**Requires one elective field in a performance area.

***If these courses have already been taken toward a Master of Music degree at USC, then 500-level MUHL courses or 500-level MUED analysis courses should be substituted, on consultation with the Sacred Music faculty.

****MPVA 439 has a prerequisite of MPVA 438. Waiver of MPVA 438 will be determined by the department, pending students’ knowledge and background in vocal pedagogy.

Graduate Degrees

Doctor of Philosophy

The Doctor of Philosophy degree with a major in music is granted by the Graduate School. Candidates for the Ph.D. in music should also refer to the Graduate School section of this catalogue for general regulations.

A substantial background in music and liberal arts is required. Graduate course requirements for the Ph.D. are adapted to the needs and research interests of the individual student. A minimum of 60 post-baccalaureate units is required.

Foreign Language Requirements

Students are required to demonstrate a reading knowledge by passing an examination in German and one other foreign language chosen by the student from among French, Italian or Latin. With the permission of the chair of the qualifying exam committee, a foreign language relevant to the dissertation may be chosen in place of the language requirement. Other foreign language chosen by the student from a list provided by the department.

Screening Procedure

Before the completion of 24 units of graduate work at USC and with the approval of the department chair, students must be interviewed by the screening committee of the School of Music. Continuance in course work will be contingent upon approval of the committee. Ph.D. candidates in musicology who did not receive an
M.A. degree from USC must take the M.A. comprehensive examination in historical musicology prior to the interview. Continuance in course work will be contingent upon passing these examinations.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

• Arts Leadership (ARTL)
• Choral Music (MUCM)
• Composition (MUCO)
• Conducting (MUCD)
• Jazz Studies (MUJZ)
• Music Education (MUED)
• Music Ensemble (MUEN)
• Music History and Literature (MUHL)
• Music Industry (MUIN)
• Music Technology (MTEC)
• Performance (Early Music) (MPEM)
• Performance (Guitar) (MPGU)
• Performance (Keyboard Studies) (MPKS)
• Performance (Popular Music) (MPPM)
• Performance (Strings) (MPST)
• Performance (Vocal Arts) (MPVA)
• Performance (Wind and Percussion) (MPWP)
• Sacred Music (MSCR)
• School of Music (MUSC)

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Arts Leadership (ARTL)

ARTL 499x Directed Research (1-8, max 12) Individual research and readings. Not available for graduate credit. Open only to juniors and seniors.

ARTL 499 Special Topics (2-4, max 8) Selected topics of current interest.

ARTL 500 Arts Leadership and Arts Entrepreneurship (2, FaSp) Introduction to key issues involved in both managing an arts organization and creating sustainable enterprise. For students in music, arts, public policy, and related fields.

ARTL 501 Executive Leadership in the Arts (2, FaSp) Investigation into a variety of leadership approaches within an arts organization, with a focus on the development of the student’s own leadership capacity.

ARTL 502 Issues in the Arts and the Contemporary World (2, FaSp) Examination of major environmental trends including changing demographics, new business models, rapidly developing technology and globalization, and understanding their implications for the arts.

ARTL 503 Arts Organizations: Innovation and New Models (2, FaSp) Designed for current and future arts leaders interested in looking critically at organizational practice and bringing innovative solutions to old problems in a contemporary context.

ARTL 504 Arts and the Community: Current Practice and New Visions (2, FaSp) Exploration of a range of ideas, ideologies and strategies that have historically been used to connect arts organizations to their communities.

ARTL 510 Arts Leadership Practicum (2, max 4, FaSp) Year-long practicum which puts ideas and concepts into practice. Each student will conceptualize, develop, and complete an arts project of his/her own choosing.

ARTL 590 Directed Research (1-12) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

ARTL 599 Special Topics (2-4, max 8) Selected topics of current interest.

ARTL 730 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

ARTL 790 Directed Research (1-12) Directed research in preparation for the Master’s recital. Graded CR/NC.

ARTL 799 Special Topics (2-4, max 8) Selected topics of current interest.

ARTL 841 Choral Literature III (2) Detailed study of selected major choral works; historical context, score analysis, performance practices. Prerequisite: MUCM 541, MUCM 542.

ARTL 843 Seminar in Choral Music II (2, max 4, Sp) Continuation of MUCM 543, with concentration on the conducting problems in major choral-orchestral works.

ARTL 790 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Composition (MUCO)

MUCO 101x Fundamentals of Music Theory (2, FaSp) An introductory course in music theory required for those majors in need of remedial training, and available to the general student who wishes to develop music writing skills. Not available for credit to B.M. and B.A. music majors. Recommended preparation: ability to read music.

MUCO 150abx Basics of Music Theory (a: 3, Fa; b: 3, Sp) Introduction to music theory: scales, intervals, principles of common practice and popular music harmony; melodic, harmonic, and structural analysis; 20th century developments. Not available for credit to B.M. majors.

MUCO 151ab Harmony in Popular Music (2-2, FaSp) Study of harmony used in the popular music idiom, as well as diminished chord patterns, modulation techniques, basic modal theory, and principles of melodic construction. Prerequisite: a: MUCO 153b; b: MUCO 151a.

MUCO 152ab Aural Skills I (a: 2, Fa; b: 2, Sp) Sight-singing, dictation, related keyboard application.

MUCO 153ab Theory I (a: 3, Fa; b: 3, Sp) Notation, scales, intervals; introduction to counterpoint;
harmonic principles of the common practice period; analysis, written work. b: Continuation of MUCO 133a.
elements of form; application of analysis to performance. Concurrent registration in Aural Skills required.

MUCO 135 Counterpoint I (2, FaSpSm) The study of the techniques of modal counterpoint; exercises in two-, three- and four-part writing in 16th century style. Corequisite: MUCO 137a; recommended preparation: MUCO 130bx, MUCO 132a.

MUCO 157ab Introduction to Composition (2-2, FaSp) Beginning exercises in composition, study and class discussion of assigned scores and recordings.

MUCO 140 Music for Dancers (2) Practical understanding and perception of music coupled with the ability to follow a score and understand the work in relation to dance.

MUCO 221abx Composition for Non-Majors (2-2, FaSp) Introduction to the composition of concert music. Includes set exercises, free composition, study of selected compositions. Intended for interested, qualified students not majoring in composition. Not available for degree credit to composition majors. Prerequisite: MUCO 221ab; recommended preparation: MUCO 130bx, MUCO 132a.

MUCO 232ab Aural Skills II (a: 2, Fa; b: 2, Sp) Continuation of MUCO 232ab.

MUCO 222ab Theory II (a: 2, Fa; b: 2, Sp): Analysis of representative pieces from the classic and romantic periods; exercises in composition; study of 20th century developments; composition utilizing 20th century techniques. Prerequisite: MUCO 132b.

MUCO 235 Counterpoint II (a, Sp) Studies in tonal counterpoint; two-, three- and four-part counterpoint in 18th century style; polyphonic variations; inventions. Prerequisite: MUCO 137b.

MUCO 226 Orchestration I (2, Fa) Introduction to the principles of instrumentation; ranges, techniques, timbres; transpositions of orchestral instruments; beginning exercises in orchestration. Prerequisite: MUCO 137b.

MUCO 237ab Composition I (4-4, FaSp) Composition in shorter forms, continuation of score analysis and listening assignments. Prerequisite: MUCO 137b.

MUCO 300 Theory Review (1, FaSpSm) Review of materials covered in Theory I and II. For students whose entrance examination in music theory indicates the need for further study.

MUCO 311x Composition for Non-Majors II (1-2, max 8, FaSpSm) Individual instruction in composition for non-composition majors. Continuation of MUCO 221abx. Not open to B.M. in composition majors. Prerequisite: MUCO 221bx.

MUCO 323 Aural Skills Review (1, Sp) Review of the materials covered in Aural Skills I, II, and III. For students whose entrance examination in aural skills indicates the need for further study.

MUCO 336ab Orchestration II (a: 2, Fa; b: 2, Sp) Intermediate exercises in orchestration, including scoring for chamber ensembles and orchestra; study of the history of orchestration. Prerequisite: MUCO 236.

MUCO 337ab Composition II (4, Fa; 4, Sp) Continuation of MUCO 237; composition in larger forms. Prerequisite: MUCO 237b.

MUCO 348x Elementary Orchestration (2, Fa) Range, techniques, timbre, transposition of orchestral instruments; exercises in orchestration. Not available for credit to Composition majors. Recommended preparation: MUCO 232b.

MUCO 333 Orchestration Review (1, FaSm) Review of materials covered in elementary orchestration; for students whose entrance examination in orchestration indicates a need for further study.

MUCO 341 Counterpoint Review (1, SpSm) Review of materials covered in tonal counterpoint. For students whose entrance examination in counterpoint indicates the need for further study. For graduate students only.

MUCO 360 Music Notation and Copying (1) Development of skills in music calligraphy.

MUCO 370ab Arranging for the Recording Media (2-2) Arranging and composing for studio recording ensembles.

MUCO 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

MUCO 406ab Contemporary Notation (2-2) Notating new music; study and comparison of representative scores.

MUCO 432ab Advanced Theory (1 or 2; 1 or 2) Special problems in music theory.

MUCO 434 Analytical Techniques (2) Selected analytical topics. Prerequisite: MUCO 232a, MUCO 232b.

MUCO 435 Counterpoint III (2, Fa) Canon and fugue; 19th and 20th century developments. Prerequisite: MUCO 235.

MUCO 436 Orchestration III (2, Sp) Continuation of Orchestration II. Prerequisite: MUCO 336ab.

MUCO 437ab Composition III (2-2, FaSp) Individual instruction in composition; preparation for senior recital. Not intended for SMPVT students. Prerequisite: MUCO 337b.

MUCO 438 Arranging for Marching Band (2) Fundamental concepts; instrumental capabilities; notation; color and scoring; modulation; percussion writing. Prerequisite: MUCO 236 or MUCO 338x.

MUCO 439 Band Arranging (2, max 4) Characteristics and use of instrumental instruments; writing for separate choirs; chamber and solo writing; scoring piano, organ, and orchestral music for band. Prerequisite: MUCO 237b; MUCO 336b or MUCO 338x.

MUCO 440ab Composition for Films and Television (2-2) Planning, timing, composing, and orchestrating music for dramatic and documentary films and television programs. Prerequisite: MUCO 336b or MUCO 338x, MUCO 337b.

MUCO 441 Choral Arranging (1-2, max 4, FaSpSm) Arranging and composing for chorus. Prerequisite: MUCO 237b.

MUCO 442ab History of Film Music Scoring (2; FaSpSm) A comprehensive survey of the craft of composing music for motion pictures and television, combining film music history and score analysis, geared specifically to composers. Open only to students in the Advanced Studies Certificate Program in Scoring for Motion Pictures and Television and the B.M. in Composition (Film Scoring).

MUCO 443ab Film Score Analysis and Preparation (2-2, FaSp) Applied techniques in film music analysis and preparation for scoring.

MUCO 490x Directed Research (1-8, max 12) Individual research and readings. Not available for graduate credit.

MUCO 499 Special Topics (2-4, max 8) Selected topics of current interest.

MUCO 501 Introduction to the Analysis of Tonal Music (2, FaSp) Survey of common practice period (1650-1900) approaches to phrase design, tonal organization and type-forms (binary, ternary, rondo, sonata).

MUCO 502 Introduction to the Analysis of Post-Tonal Music (2, FaSp) Introductory survey of 20th/21st century approaches to the organization of pitch (serial, modal, extended tonal, etc.), rhythm, texture and form.

MUCO 520 Composition Forum (1, max 2, FaSp) Graded CR/NC.

MUCO 521x Composition for Non-Majors III (1-2, max 8, FaSpSm) Individual instruction in composition. Not open to graduate students in composition. Prerequisite: submission of portfolio of musical compositions.

MUCO 522ab Sketching and Scoring for Film and TV (2-2, FaSp) Applying techniques of music composition, orchestration and conducting towards creating original dramatic scores for film and TV.

MUCO 523ab Advanced Application of Film Music Technology (2-2, FaSp) Applying advanced state of the art technologies to the art of film music, including synthesizers, samplers, digital audio workstations and hard disk recording.

MUCO 523ab Analytical Approaches to Tonal Music (2-2, FaSp) a: Introducing to essential structural and prolongational aspects of Schenkerian theory. b: Application of the Schenkerian methods to individual movements and short pieces. Prerequisite: MUCO 501.

MUCO 536 Advanced Orchestration I (1-4, max 4, FaSp) Continuation of Orchestration III with emphasis on contemporary techniques.

MUCO 537 Advanced Composition I (1, or 2, max 8) For graduates with evidence of preparation for advanced work.

MUCO 539ab Analytical Approaches to Post-Tonal Music from 1908-1950 (2-2, FaSp) a: The breakdown of tonality, rise of atonal/pontonal pitch organization, new and extended approaches to tonality, modality. b: Continuation of 539a; twelve-tone methods, just tuning systems, new approaches to rhythm, texture, timbre. Prerequisite: MUCO 502.

MUCO 539ab Theoretical and Aesthetic Issues in Music from 1950 to the Present (2-2, FaSp): a: Anti-rationality and indeterminacy, ultra-rationality and integral serialism, new performance procedures,

MUCO 540ab Composing Music for Games (a: 2, Fa; b: 2, Sp) Applied techniques of music composition to video games. Includes conceptual and technical details which differentiate scoring for games.

MUCO 545 Individual Instruction in Advanced Film Music Composition (a, max 4, FaSp) Private instruction in composition and conducting for film and television.

MUCO 548 Writer and Composer (a, Sp) Structured collaboration among composers and poets. Activities include fundamentals of poetry, comparative analysis, creative projects. Open to Literature and Creative Writing and Composition majors only; students with other majors require departmental approval.

MUCO 550 Teaching Music Theory (a) Comparative study of curricula, text materials, and teaching strategies in music theory.

MUCO 560ab Music Editing for Film (a, FaSp) Develop and implement state of the art techniques in joining music and film.

MUCO 571 Comparative Analytical Studies: Traditional Forms (a, max 6, FaSpSm) Analytical survey of the development of a specific form or genre. Specific emphasis to be determined by the department. Recommended preparation: MUCO 501.

MUCO 572 Comparative Analytical Studies: 20th/21st Century and Non-Traditional Forms (a, max 6, FaSpSm) In-depth analysis of characteristic forms and genres of 20th century music or of other forms and genres that do not figure largely in the "common practice" tradition. Specific emphasis to be determined by the department. Recommended preparation: MUCO 501.

MUCO 573 Special Studies in Contrapuntal Music (a, max 6, FaSpSm) Analytical study of major composers and/or problems in tonal music. Emphasis to be determined by the department. Recommended preparation: MUCO 501.

MUCO 574 Special Studies in Tonal Analysis (a, max 6, FaSpSm) Analytical study of major composers and/or problems in tonal music. Emphasis to be determined by the department. Recommended preparation: MUCO 501.

MUCO 575 Special Studies in Post-Tonal Analysis (a, max 6, FaSpSm) Analytical study of major composers and/or problems in post-tonal music. Emphasis to be determined by the department. Recommended preparation: MUCO 501.

MUCO 576 Special Studies in Musical Aesthetics (a, max 6, FaSpSm) An investigation of aesthetics in general and the application of aesthetic theories to music; readings will be selected from pre-modern, modern, and post-modern texts. Recommended preparation: MUCO 501 and MUCO 502.

MUCO 590 Directed Research (1-12) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded Cr/NC.

MUCO 592 Selected Topics in Graduate Composition (a, max 8, Irregular) Seminar for graduate students in composition that addresses aesthetic, technical and analytical issues from a composer's perspective. Open only to Composition majors.

MUCO 599 Special Topics (2-4, max 8) Seminars in selected areas of study.

MUCO 632ab Advanced Analysis of Tonal Music (a, b) Application of Schenkerian techniques to large works. b: Criticisms and extensions of Schenker, semiotic approaches, theories of rhythmic structure. Prerequisite: MUCO 531b.

MUCO 636 Advanced Orchestration II (1 or 2, max 4, FaSp) Continuation of Advanced Orchestration I with emphasis on historical survey of orchestral compositions and advanced orchestration projects. Prerequisite: MUCO 536.

MUCO 657 Advanced Composition II (1-2, max 4) Continuation of MUCO 537. For students holding the M.M. degree in composition.

MUCO 700 Research (1-15) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MUCO 748abz Doctoral Dissertation (2-2-2-0) Credit on acceptance of dissertation. Graded IP/CR/NC.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Conducting (MUCD)

MUCD 340 Choral Conducting I (a, FaSpSm) Basic conducting techniques; score analysis; conducting patterns; problems of tempo, dynamics, articulation and text.

MUCD 343 Instrumental Conducting I (a, FaSpSm) Communicating musical ideas to instrumental ensembles; reading and conducting from full score of orchestral compositions. Laboratory, 3 hours. Prerequisite: ability to read a music score.

MUCD 350 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

MUCD 441 Choral Conducting II (2) Refinement of techniques developed in MUCD 340; study of styles and interpretations of choral music from the Renaissance to the present. Laboratory, 3 hours. Prerequisite: MUCD 340, MUCD 343.

MUCD 443 Instrumental Conducting II (a, FaSpSm) Principal composers and representative instrumental works since the 18th century; studies of styles and interpretations based on scores and the performance of works in class.

MUCD 490x Directed Research (1-8, max 12) Individual research and readings. Not available for graduate credit.

MUCD 499 Special Topics (2-4, max 8) Selected topics of current interest.

MUCD 501 Individual Instruction (1 or 2, max 8, FaSpSm) Secondary instruction for graduate music majors or instruction for graduate non-music majors.

MUCD 54a Choral Conducting III (a, max 6) Problems of preparing and conducting contemporary choral music and major choral-orchestral works from full score; special projects according to student's development and interests. Laboratory, 3 hours. Prerequisite: MUCD 441.

MUCD 543 Instrumental Conducting III (a, max 4, FaSpSm) Problems in advanced conducting. Prerequisite: MUCD 443.

MUCD 550 Orchestral Conducting Seminar (a, max 8, FaSp) Advanced instrumental conducting techniques. Literature drawn from music of all periods. Prerequisite: MUCD 441, MUCD 443, and admission as candidate for M.M. degree in conducting.

MUCD 552 Individual Instruction (1 or 2, max 8, FaSpSm) Individual or master class instruction for DMA Performance majors. (Duplicates credit in former MUPF 653.)

MUCD 590 Directed Research (1-12) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MUCD 599 Special Topics (2-4, max 8) Selected topics of current interest.

MUCD 641 Choral Conducting IV (a, max 8) Continuation of MUCD 541, including choral conducting pedagogy. Prerequisite: MUCD 541.

MUCD 653 Performance (1 or 2, max 12, FaSpSm) Individual or master class instruction for DMA Performance majors. (Duplicates credit in former MUPF 653.)

MUCD 750 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Jazz Studies (MUJZ)

MUJZ 100abx Jazz: America's Music (4) Music of the jazz greats. Experience through live performances, field trips, readings, recordings, videos and guest lectures. Not available for credit to jazz studies majors.

MUJZ 101x Non-Major Beginning Individual Instruction (1-2, max 2, FaSpSm) Individual instruction at the beginning level designed for non-music majors with no previous experience. Not available for credit to music majors.

MUJZ 105ab Jazz Theory (2-2, FaSp) Study of basic and advanced concepts of jazz melody, harmony and form. Includes functional chord idioms and relationships, compositional and improvisational devices, and song forms.
MUJZ 141ab Basic Keyboard Skills for the Improviser (2-2, FaSp) Reading skills related to jazz accompanying, including the ability to identify and play chords on the piano utilizing different voicings.

MUJZ 142ab Jazz Ear Training (2-2, FaSp) Sight-singing and melodic/rhythmic reading and dictation applied to jazz repertoire. Includes vocalization of scales and chord patterns and study of rhythmic reading and jazz articulation.

MUJZ 150 Beginning Jazz Improvisation (2, max 4, FaSp) Development of beginning improvisational skills including underlying principles of theory, harmony, jazz ear training, and jazz style.

MUJZ 155 Individual Instruction (1-2, FaSp) Weekly individual instruction and performance forum. Open only to jazz studies majors.

MUJZ 180 Techniques of Jazz Improvisation (2, max 4) Development of improvisational skills through instrumental performance.

MUJZ 195L Jazz Elements I (1, max 8, FaSp) Study of compositional, improvisational, performance, and arranging elements found in jazz. Students will model influential groups and jazz artists.

MUJZ 196 Jazz Combo I (2, max 8, FaSp) Rehearsal and performance of literature for jazz chamber groups. Graded CR/NC. (Duplicates credit in MUEN 332.)

MUJZ 200ab Jazz Styles Analysis (2-2) Theoretical skills and analytical techniques related to jazz styles from Dixieland to the present. a: Styles through Progressive Swing; b: Bebop to the present. (Duplicates credit in former MUCO 200ab.)

MUJZ 211ab Afro-Latin Percussion Instruments (2-2) Instruction in the performance of percussion instruments associated with African, South American, and Caribbean music traditions, with special emphasis on adaptation to jazz music.

MUJZ 254 Individual Instrument Performance Class I (1, max 4, FaSp) Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all first and second year wind and percussion majors each semester in residence.

MUJZ 255 Individual Instruction (1-2, max 8, FaSp) Weekly individual instruction and performance forum. Open only to jazz studies majors.

MUJZ 268ab The History of Jazz (2-3, FaSp) A study of the evolution of American jazz music from its roots in Africa to the present day. Includes an introduction to world music elements. Prerequisite: MUJZ 132b and MUJZ 133b.

MUJZ 300x Non-Major Individual Instruction (1-2, max 16, FaSp) Intermediate and advanced instruction designed for non-major students. Not available for credit to music majors. (Duplicates credit in former MUJZ 201 and MUJZ 401.)

MUJZ 301 Individual Instruction (1-2, max 16, FaSp) Intermediate and advanced instruction; secondary emphasis for music majors, principal emphasis for music minors and B.A. music majors. Open only to music majors and minors. (Duplicates credit in former MUJZ 201 and MUJZ 401.)

MUJZ 305ab Advanced Jazz Theory (2-2, FaSp) Analysis and transcription of jazz performances and scores, encompassing questions of style, form, harmonic and melodic language, and considerations of rhythm. Prerequisite: MUJZ 133b.

MUJZ 311 Vocal Jazz Techniques (2, max 4) Development of skills needed for the professional vocal jazz musician. Study of the standard jazz repertoire, vocal improvisation, lead sheet writing, and working with rhythm sections. Prerequisite: MUJZ 180.

MUJZ 341 Keyboard Skills for Improvisers (1, FaSp) Reading skills related to jazz accompanying; “fake” books, chord progressions commonly used in jazz. Prerequisite: MPKS 250ab.

MUJZ 342ab Aural Skills for Improvisers (1-1, FaSp) Sight-singing and dictation applied to jazz repertoire. Vocalization of modal and synthetic jazz scales and chordal qualities. (Duplicates credit in former MUCO 342ab.) Prerequisite: MUJZ 195.

MUJZ 347 Jazz Composition (2, max 4) Composing in the jazz medium. (Duplicates credit in former MUCO 347.)

MUJZ 355 Individual Instruction (1-2, max 8, FaSp) Weekly individual instruction and performance forum. Open only to jazz studies majors.

MUJZ 390 Special Problems (1-4, Irregular) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

MUJZ 395 Jazz Elements II (2, max 8, FaSp) Advanced study of compositional, improvisational, performance, conducting, and arranging elements found in the jazz repertory. Students will be encouraged to forge individual musical expressions. Open to juniors and seniors only. Prerequisite: MUJZ 195.

MUJZ 396 Jazz Combo II (2, max 8, FaSp) Preparation and performance of literature for jazz combos. Open to juniors and seniors only. Graded CR/NC. Prerequisite: MUJZ 195.

MUJZ 400 Arranging for Jazz Ensemble (2) Scoring for jazz ensemble with emphasis on writing for sections of like and mixed instruments as well as full ensemble. (Duplicates credit in former MUCO 400.)

MUJZ 403 Studio Singing Techniques (2, FaSp) Study of technique, theory and aural skills as applied to studio singing; critical listening; study of various styles; ear training and singing as these apply to working in a studio. Recommended preparation: jazz background; can read music and sing well.

MUJZ 419m The Jazz Experience: Myths and Culture (4, FaSp) An examination of the music, culture, and mythology of jazz revealed through the study of jazz fiction, film, poetry, and recorded examples. Prerequisite: MUJZ 195.

MUJZ 451 Advanced Jazz Improvisation (2, max 4, FaSp) Development of advanced improvisational skills, including underlying principles of theory, harmony, jazz ear training, and jazz style. Recommended preparation: MUJZ 450.

MUJZ 453 Individual Instruction (1, max 4, FaSp) Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all third and fourth year wind and percussion majors each semester in residence.

MUJZ 455 Graduate Jazz Improvisation (2, max 4, FaSp) Weekly individual instruction and performance forum. Open only to jazz studies majors.

MUJZ 486 Jazz Masters from World War II to the Present (2) Examination of major jazz artists from World War II to the present with emphasis on the innovators of each period. Detailed analysis of selected repertoire. (Duplicates credit in former MUHL 486.) Recommended preparation: MUJZ 419.

MUJZ 490x Directed Research (1-8, max 12, FaSp) Individual research and readings. Not available for graduate credit.

MUJZ 499 Special Topics (1-4, max 8) Selected topics of current interest.

MUJZ 501 Individual Instruction (1 or 2, max 8, FaSp) Secondary instruction for graduate music majors or instruction for graduate non-music majors.

MUJZ 545 Jazz Ensemble Development (2, 2 years, Sp) Techniques, approaches, teaching materials, and music useful in developing jazz ensembles in educational settings, from junior high school through college. (Duplicates credit in former MUED 547.)

MUJZ 547 Jazz Composition (2, max 4, Fa) Application of theoretical and compositional techniques used in jazz to written music. Analysis and performance of historical and contemporary examples will be included. (Duplicates credit in former MUED 547.)

MUJZ 551 Graduate Jazz Improvisation (2, Sp) Development of proficiency in improvising to advanced jazz concepts, including transposition, substitute harmony, superimposed harmony, atypical harmonic schemes and contemporary chord and scale types. Open to jazz studies and studio guitar majors only. Prerequisite: MUJZ 451.

MUJZ 553 Individual Instruction (1 or 2, max 8, FaSp)

MUJZ 588 Special Studies in Jazz Performance (2, max 6) Performance problems, composers and/or stylistic analysis of music from the jazz idiom. Specific emphasis to be determined by the Jazz Studies department.

MUJZ 590 Directed Research (1-12, FaSp) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MUJZ 599 Special Topics (1-4, max 8) Selected topics of current interest.

MUJZ 653 Performance (1 or 2, max 12, FaSp) Individual or master class instruction for DMA Performance majors.

MUJZ 688 Special Topics in Jazz Performance (2, max 4, Fa) Examination and analysis of solo and compositional repertory of the jazz idiom through transcription and comparative research. Specific emphasis to be determined by the Jazz Studies department.

MUJZ 790 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the
Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Music Education (MUED)

**MUED 310X Fundamentals of Music (4, FaSp)** Introduction to the content of music through an investigation of its melodic, rhythmic, and harmonic structure. Not available for credit to music majors.

**MUED 320 Special Problems (1-4, FaSp)** Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

**MUED 402 Teaching Choral Music (2, Sp)** Problems of school choral organizations; the changing and adolescent voice; appropriate repertoire and materials. Corequisite: MUED 340 or MUED 343.

**MUED 403 Teaching Instrumental Music (2, Sp)** Problems of school instrumental organizations; teaching wind, string, and percussion instruments; appropriate repertoire and materials.

**MUED 420 Teaching Beginning improvisation (2, Irregular)** Strategies for teaching beginning improvisation in K-12 music classes; includes playing/singing and teaching in many styles. No improvisation experience necessary.

**MUED 440A Music and Movement: The Orff Approach (2-5)** Orff Schulwerk techniques in rhythmic and melodic training through speech, singing, body percussion, playing Orff instruments, improvisation, and elemental movement. Certification available.

**MUED 443 Teaching Vocal Jazz (3)** Strategies for teaching the principles of vocal jazz; historical perspective, repertoire, recordings, improvisation, scat, accompaniment, amplification, rehearsing, teaching sequences. No prior jazz experience necessary. (Duplicates credit in former MUED 530.)

**MUED 444 Teaching Marching Band (2, Fa)** Modern school marching band techniques; precision drill; administration; rehearsal techniques.

**MUED 451 Introduction to Technology in Music Education (3, Fa)** Applications of computers and electronic music to music education; survey of current approaches and materials.

**MUED 472 Foundation for the Elementary Classroom Teacher (2, FaSp)** The nature and structure of music, its processes, and its notational symbols. Not available for credit to music majors. Recommended preparation: MUED 310.

**MUED 490X Directed Research (1-8, max 12, FaSpSm)** Individual research and readings. Not available for graduate credit.

**MUED 499 Special Topics (2-4, max 8, Irregular)** Selected topics of current interest reflective of changing trends in music education.

**MUED 500 Research Foundations in Music Education (3, Fa)** Introductory exploration of types of research linked to research literature in music education; interpreting and organizing research proposals and reports.

**MUED 501 Historical Foundations of Music Education (3)** A contextual exploration of the historical development of American music education.

**MUED 502 Sociological Foundations of Music (3)** Studies of interdependent relationship between society, music and music education.

**MUED 503 Philosophical Foundations of Music Education (3)** Exploration of philosophical thinking in the field of music with emphasis on philosophical foundations for teaching and learning.

**MUED 504 Psychological Foundations of Music (3)** Exploration of theories, research and practice in psychological foundations of music teaching and learning.

**MUED 505 Teaching and Learning Music (2, Irregular)** Studies of the latest resources concerning the teaching and learning of music so that musicians can function more effectively as both teachers and performers.

**MUED 510A Leading a Music Program in a Public School Setting (3, Sp)** The philosophy and purposes of music programs combined with early field experiences, varied teaching strategies, and music learning assessment.

**MUED 515 Using Technology in the Classroom (2, Sm)** Study of the tools and knowledge necessary to the music educator to facilitate the application of computers and electronic music in music education.

**MUED 520 Early Childhood Music (2, Irregular)** An overview of significant developmental issues, current research, and appropriate practices for children from birth to age eight. Professor-guided practicum teaching.

**MUED 522 Teaching Public School Instrumental Music (4, FaSp)** Methods and materials appropriate for teaching and modeling instrumental lessons and instruction in the public and private schools.

**MUED 524 Teaching and Conducting Public School Instrumental Ensembles (4, Sp)** Study of the methods and materials needed to rehearse an instrumental ensemble in K-12 settings. Includes conducting and rehearsal techniques, literature selection, score analysis.

**MUED 527 Teaching General Music K-8 (4, Fa)** Methods and materials for cognitive learning and development of music skills in K-8 music classes, featuring Orff, Kodaly, and Dalcroze approaches.

**MUED 528 Teaching General Music K-8 (4, Fa)** Methods and materials for cognitive learning and development of music skills in K-8 music classes, featuring Orff, Kodaly, and Dalcroze approaches.

**MUED 529 Teaching General Music K-8 (4, Fa)** Methods and materials for cognitive learning and development of music skills in K-8 music classes, featuring Orff, Kodaly, and Dalcroze approaches.

**MUED 534 Teaching and Conducting Public School Choral Ensembles (4, Sp)** Comprehensive consideration of the choral music program in grades K-12. Topics include: development and care of the voice, audition and rehearsal techniques, conducting, lesson planning.

**MUED 535 Teaching Instrumental Music for Vocalists (2, Sp)** An introduction to the pedagogical and acoustic aspects for woodwind, brass, string and percussion instruments. Includes hands-on performance, class discussion and practical application.

**MUED 540 Motivation and Discipline in the Music Classroom (2, Sp)** An examination of the current research into learning theories and motivation with emphasis on the application of these theories to the music classroom.

**MUED 542 Orchestra Development (2, Irregular)** Repertoire and rehearsal techniques appropriate for school and community orchestras useful in solving specific problems of technical and tonal growth. Prerequisite: MUED 343.

**MUED 545 String Class Pedagogy (2, Irregular)** Approaches to beginning through intermediate string class instruction in school and other group setting derived from principles of Suzuki, Bornoff, Rolland, and other leading teachers. Prerequisite: MUED 345abL.

**MUED 546 Wind Band Pedagogy (2, 3 years, Fa)** Methods and materials relevant to current trends in wind band pedagogy; development of comprehensive pedagogical and performance practices; appropriate wind band music survey. Prerequisite: MUED 343.

**MUED 547 Vocal Pedagogy in the Public School Classroom (2, Sp)** Development of technical knowledge, tone production, and performance skills for voice appropriate for public school music teaching.

**MUED 548 Orchestral Bowing (2, Irregular)** Introduction to bowing function and style with application to typical repertoire; practical experience for teachers and conductors in educational and community settings.

**MUED 549 Directed Teaching: Public School Music (2-3)** Observation and teaching under the guidance of a university supervisor and a directing teacher. Open only to MAT, Single Subject (Music Education) majors.

**MUED 550 Teaching Music Fundamentals and Appreciation Courses (2, 3 years, Fa or Sp)** Purpose and objectives of music in general education. Survey of current approaches and materials.

**MUED 552 Music Education Courseware Development (2, Sp)** Development of music education courseware using current technology. Two lecture hours per week. Prerequisite: MUED 452.

**MUED 555 Entering the Music Professoriate (3, Fa)** Preparation for academic careers in music. Methodologies and approaches to teaching, learning, and assessment; statements of teaching philosophies; creation of academic portfolio. Open only to doctoral students (DMA and Ph.D.) in the Thornton School of Music.

**MUED 590 Directed Research (1-12, FaSpSm)** Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

**MUED 593 Final Project (2-4, max 6)** Required for the Master of Music Education degree. Credit upon acceptance. Graded CR/NC. Prerequisite: MUED 500.

**MUED 594ab Master’s Thesis (2-2, 6, FaSpSm)** Credit on acceptance of thesis. Graded IP/CR/NC.

**MUED 599 Special Topics (2-4, max 8, Irregular)** Selected topics of current interest reflective of changing trends in music education.

**MUED 601 Field Seminar in Elementary School Music Education (2, 3 years, Fa or Sp)** Observation in schools. Identification and analysis of problems; strategies for improvement; alternative approaches including those of Orff and Kodaly. Readings, examination of teaching materials.
MUED 602 Field Seminar in Choral Music Education (2, 2 years, Fa or Sp) Observation in schools. Current practices; identification and analysis of problems; strategies for improvement; readings, examination of music and teaching materials.

MUED 603 Field Seminar in Instrumental Music Education (2, 2 years, Fa or Sp) Observation in schools. Identification and analysis of problems; strategies for improvement. Readings, examination of music and teaching materials.

MUED 604 Preparing School Music Teachers (2, 3 years, Fa or Sp) Analysis of best practices in teacher training; faculty, curriculum, schedule, materials, methods, and supervision of directed teaching. Prerequisite: three years of teaching music in public schools or two years of college teaching.

MUED 605 College Teaching in Music Education (3) Exploration of music education faculty duties at the collegiate level, including teacher training, working with local school systems, leading professional organizations, and conducting research.

MUED 606 Internship in Collegiate Music Education (3) Students intern with USC professors in training music teachers in traditional and alternative music education practices.

MUED 607 Alternative Models in Music Education (3) Examination of diverse, evolving settings for music teaching and learning in contemporary society. Emphasis on programming and administrative structures of community-based music providers.

MUED 610 Pedagogy for Collegiate Teaching (2, FaSpSm) A preparation for teaching in the modern university environment, examining the role of the professor, and focusing on the development of innovative collegiate teaching skills.

MUED 640 Research and Practice in Orff Schulwerk (2, Sp) Exploring research on the philosophical and historical bases of the Orff Schulwerk approach and acquiring skills in pedagogical applications in early childhood through collegiate settings.

MUED 650 Pedagogy for Collegiate Music Appreciation and Fundamentals (2, Sp) Design and teaching strategies for collegiate music appreciation and fundamentals classes developed for the adult, non-music major student.

MUED 730 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MUED 731 Pedagogical Writing and Media in Music Education (3) Development of skills in pedagogical writing for professional journals, text books, and multimedia publications, and knowledge of publishing procedures for compositions and arrangements.

MUED 732 Quantitative Research in Music Education (3) Survey of theories, concepts and procedures for designing and evaluating quantitative research studies. Prerequisite: MUED 500.

MUED 733 Qualitative Research in Music Education (3) Survey of theories, concepts and procedures for designing and evaluating qualitative research studies. Prerequisite: MUED 500.

MUED 744abcd Doctoral Dissertation (2-2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Music Ensemble (MUEN)

Large ensemble requirements in undergraduate curricula must be fulfilled by the following ensembles:

- University Chorus (MUEN 307)
- Men’s Chorus (MUEN 308)
- Oriana Choir (MUEN 311)
- University Concert Choir (MUEN 310)
- Chamber Choir (MUEN 312)
- USC Symphony (MUEN 320)
- USC Concert Orchestra (MUEN 323)
- University Wind Ensemble (MUEN 323)
- University Band (MUEN 324)

Exceptions to the above policies include:
- Contemporary Music Ensemble and Early Music Ensemble may fulfill the large ensemble requirement for instrumental majors, with the approval of the conductor of University Symphony or Wind Ensemble and the chair of the student’s major department.
- Music Education majors with an instrumental emphasis must take one semester of a choral ensemble.

Composition majors must register for at least 2 units in a choral ensemble.

Students majoring in Strings, Vocal Arts, or Wind and Percussion may not count USC Concert Orchestra toward their large ensemble requirement.

Vocal Arts majors must register for University Concert Choir, USC Chamber Choir, or USC Oriana Choir to fulfill their large ensemble requirement.

Further exceptions may be made subject to departmental approval and approval of the conductor of the appropriate large ensemble.

MUEN 222 Trojan Marching Band (1, max 4) Rehearsal and participation in performances for athletic and other university functions. Graded CR/NC. Open to all students by audition.

MUEN 305 Vocal Jazz Ensemble (1, max 8, 2 years) Study and performance of vocal ensemble literature from the Jazz idiom, with emphasis on improvisational techniques. Open to all students by audition. Graded CR/NC.

MUEN 307 University Chorus (1, max 8, FaSpSm) Performance of a wide range of literature from all periods of music history. Open to all students. Graded CR/NC.

MUEN 308 USC Men’s Chorus (1, max 8, FaSpSm) Performance of choral repertoire from all periods written for male voices. Open to all students. Graded CR/NC.

MUEN 310 University Choral Concert (1, max 8, FaSpSm) Performance of choral works of all styles and periods. Open to all students by audition. Graded CR/NC.

MUEN 311 USC Oriana Choir (1, max 8, FaSpSm) Performance of advanced chamber music written for women’s voices. Open to all students by audition. Graded CR/NC.

MUEN 312 USC Chamber Choir (1, max 8, FaSpSm) Performance of vocal music and choral masterworks from the 16th century to the present. Open to all students by audition. (Duplicates credit in former MUEN &#160; 212 and MUEN 412.) Graded CR/NC.

MUEN 314 Opera Chorus (1, max 8, FaSpSm) Study and performance of operatic choral works and extended ensembles of all styles and periods. Open to all students by audition. (Duplicates credit in former MUEN 214 and MUEN 414.) Graded CR/NC.

MUEN 820 USC Symphony (1, max 8, FaSpSm) Rehearsal and performance of orchestra repertoire. Open to all students by audition. (Duplicates credit in former MUEN &#160; 220 and MUEN 420.) Graded CR/NC.

MUEN 821 USC Concert Orchestra (1, max 8, FaSpSm) Rehearsal and performance of orchestra repertoire. Open to all students, faculty, staff, and members of the community. Audition not required. Graded CR/NC.

MUEN 322 Trojan Marching Band (1, max 4) Continuation of MUEN 222. Graded CR/NC.

MUEN 323 University Wind Ensemble (1, max 8, FaSpSm) Rehearsal and participation in concert programs. Open to all students by audition. (Duplicates credit in former MUEN 233 and MUEN 433.) Graded CR/NC.

MUEN 324 University Band (1, max 8, FaSpSm) Rehearsal and performance of standard repertoire. Open to all students by audition. Graded CR/NC.

MUEN 325 Wind and Percussion Chamber Music (1, max 8, FaSpSm) Performance of chamber music for wind and percussion instruments. Open to all students by audition. (Duplicates credit in former MUEN 235 and MUEN 425.) Graded CR/NC.

MUEN 326 Guitar Ensemble (1, max 8, FaSpSm) Rehearsal and performance of literature composed, transcribed and arranged for small ensembles, including literature for small ensembles of guitar and other instruments, as well as voice. (Duplicates credit in former MUEN 266 and MUEN 466.) Graded CR/NC.

MUEN 327 String Chamber Music (1, max 8, FaSpSm) Preparation and performance of small ensemble literature for strings. (Duplicates credit in former MUEN 237 and MUEN 427.) Graded CR/NC.

MUEN 328 Keyboard Collaboration (1, max 4, FaSpSm) Preparation and performance of literature for piano with voice and string, woodwind, brass and percussion instruments. (Duplicates credit in former MUEN 428.) Graded CR/NC.

MUEN 329 Jazz Ensemble (1, max 8, FaSpSm) Rehearsal and performance of literature written for large jazz ensemble. Open to all students by audition. (Duplicates credit in former MUEN 239 and MUEN 429.) Graded CR/NC.

MUEN 330 Contemporary Music Ensemble (1, max 8, FaSpSm) Performance of 20th-century music; readings of student and faculty compositions; experimental music; guest conductors, composers, performers; annual concert series. (Duplicates credit in former MUEN 330 and MUEN 430.) Graded CR/NC.

MUEN 331 Guitar Big Band (1, max 8, FaSpSm) Rehearsal and preparation of big band literature adapted for large guitar ensemble. Guitarists perform in place of traditional trumpet, trombone and sax sections. Graded CR/NC.

MUEN 332 Jazz Chamber Music (1, max 8, FaSpSm) Preparation and performance of literature for jazz chamber groups. Open to all students by audition. (Duplicates credit in former MUEN 232 and MUEN 432.) Graded CR/NC.

MUEN 345 University Brass Band (1, max 8, FaSpSm) The study, rehearsal and performance of standard
brass choir and brass band literature. (Duplicates credit in former MUEN 235 and MUEN 435.) Graded CR/NC.

MUEN 444 Vocal Chamber Music (1, max 8, FaSp) Study of solo ensemble vocal literature such as duets, trios, quartets, madrigals, etc. Open to all students by audition. (Duplicates credit in former MUEN 244 and MUEN 444.) Graded CR/NC.

MUEN 520 Early Music Ensemble (1, max 8, FaSp) Rehearsal and performance of vocal and instrumental ensemble music of the Renaissance and Baroque, with emphasis on chamber music for solo voices and bowed and plucked strings. Instrumentalists are required to perform on either their own or the school’s historical instruments. Open to all students by audition. (Duplicates credit in former MUEN 520 and MUEN 540.) Graded CR/NC.

MUEN 505 Vocal Ensemble (1, max 4, FaSp) Study and performance of vocal ensemble literature from the Jazz idiom, with emphasis on improvisational techniques. Open to graduate students by audition.

MUEN 507 University Chorus (1, max 8, FaSp) Rehearsal and performance of choral literature from all periods of music history. Open to all graduate students.

MUEN 508 USC Men’s Chorus (1, max 4, FaSp) Rehearsal and performance of choral repertoire from all periods written for male voices.

MUEN 510 University Concert Choir (1, max 4, FaSp) Performance of choral works of all styles and periods. Open to all graduate students by audition.

MUEN 511 USC Oriana Choir (1, max 4, FaSp) Rehearsal and performance of advanced choral music written for women’s voices. Open to all graduate students by audition.

MUEN 512 USC Chamber Choir (1, max 4, FaSp) Performance of vocal choral music and choral masterworks from the 16th century to the present. Open to all graduate students by audition. (Duplicates credit in former MUEN 412.)

MUEN 514 Opera Chorus (1, max 4, FaSp) Study and performance of operatic choruses and extended ensembles of all styles and periods. Open to all graduate students by audition. (Duplicates credit in former MUEN 414.)

MUEN 520 USC Symphony (1, max 4, FaSp) Rehearsal and performance of orchestra repertoire. Open to all graduate students by audition. (Duplicates credit in former MUEN 420.)

MUEN 521 USC Concert Orchestra (1, max 4, FaSp) Rehearsal and performance of orchestra repertoire. Open to all graduate students. Audition not required.

MUEN 533 University Wind Ensemble (1, max 4, FaSp) Rehearsal and participation in concert programs. Open to all graduate students by audition. (Duplicates credit in former MUEN 433.)

MUEN 535 Wind and Percussion Chamber Music (1, max 4, FaSp) Performance of chamber music for wind and percussion instruments. Open to all students by audition. (Duplicates credit in former MUEN 435.)

MUEN 536 Guitar Ensemble (1, max 4, FaSp) Rehearsal and performance of literature composed, transcribed and arranged for small ensembles, including literature for small ensembles of guitar and other instruments, as well as voice. (Duplicates credit in former MUEN 436.)

MUEN 537 String Chamber Music (1, max 4, FaSp) Preparation and performance of small ensemble literature for strings. (Duplicates credit in former MUEN 437.)

MUEN 528 Keyboard Collaboration (1, max 4, FaSp) Continuation of MUEN 528.

MUEN 532 Jazz Ensemble (1, max 4, FaSp) Rehearsal and performance of written literature for large jazz ensemble. Open to all graduate students by audition. (Duplicates credit in former MUEN 439.)

MUEN 530 Contemporary Music Ensemble (1, max 4, FaSp) Performance of 20th-century music; readings of student and faculty compositions; experimental music; guest conductors, composers, performers; annual concert series. (Duplicates credit in former MUEN 540.)

MUEN 531 Guitar Big Band (1, max 4, FaSp) Rehearsal and preparation of big band literature adapted for large guitar ensemble. Guitarists perform in place of the traditional trumpet, trombone and sax sections.

MUEN 533 Jazz Chamber Music (1, max 4, FaSp) Preparation and performance of advanced literature for jazz chamber groups. Open to graduate students by audition.

MUEN 535 University Brass Band (1, max 4) The study, rehearsal and performance of standard brass choir and brass band literature. (Duplicates credit in former MUEN 435.)

MUEN 544 Vocal Chamber Music (1, max 4, FaSp) Study of solo ensemble vocal literature such as duets, trios, quartets, madrigals, etc. Open to all graduate students by audition. (Duplicates credit in former MUEN 444.)

MUEN 550 Early Music Ensemble (1, max 4, FaSp) Rehearsal and performance of vocal and instrumental ensemble music of the Renaissance and Baroque, with emphasis on chamber music for solo voices and bowed or plucked strings. Instrumentalists are required to perform on either their own or the school’s historical instruments. Open to all graduate students by audition. (Duplicates credit in former MUEN 450.) Graded CR/NC.

MUEN 561 Opera Workshop (1, max 8, FaSp) Rehearsal and public performance of vocal and instrumental music of the Renaissance and Baroque era; emphasis is on large- and small-scale chamber works. Instrumentalists are required to perform on historical instruments.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Music History and Literature (MUHL)

MUHL 231 Music History 1 (3, Fa) A study of the musical styles and genres from antiquity to c. 1680 within their historical context. Detailed analysis of selected works. (Duplicates credit in MUHL 385a.) Prerequisite: MUHL 132a, MUHL 132b.

MUHL 232 Music History II (3, Sp) A study of the musical styles and genres from c. 1680 to c. 1850 within their historical context. Detailed analysis of selected works. (Duplicates credit in MUHL 385b.) Prerequisite: MUHL 132b, MUHL 132d.

MUHL 521 USC Concert Orchestra (1, max 4, FaSp) Gateway to the B.A. degree in music. Western and non-Western music in its sociocultural context. Not available for credit to B.M. majors. Ability to read music highly recommended.

MUHL 533 Music History Review (1-2, FaSpSm) Supervised review of the materials covered in undergraduate music history courses for students whose music history examinations indicate the need for further study.

MUHL 539 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

MUHL 403 Armenian Musical Culture (3) Study of the four branches of Armenian music within the context of past and present Armenian culture.

MUHL 476 Music Criticism (2) Procedure and practice in forming critical judgments of music and in writing music criticism; practical journalism; professional and community ethics. Prerequisite: for music majors, MUHL 331, MUHL 332; for nonmusic majors, MUHL 331.

MUHL 490 Directed Research (1-8, max 12, FaSpSm) Individual research and readings. Not available for graduate credit.

MUHL 494 Special Topics (2-4, max 8, FaSpSm) Selected topics of current interest.

MUHL 520 Studies in World Music I (3, Fa) The indigenous and syncretic musics of Africa, India, Indonesia, and the Balkan countries. Prerequisite: MUHL 570.

MUHL 581 Studies in World Music II (3, Sp) The indigenous and syncretic musics of the post-Soviet political landscape, the Far East, the Middle East, and Latin America. Prerequisite: MUHL 570.

MUHL 570 Research Materials and Techniques (2, FaSpSm) Introduction to music research, information science and technical writing. Required of all graduate students majoring in music.
MUHL 572 Seminar in Historical Musical Notation (2, Fa) Performing, reading, and editing historical notation from original sources. Prerequisite: MUHL 570.

MUHL 573 Music of the Middle Ages (2, Sp; 2 years, Sm) Chief musical developments in Western Europe from the beginning of the Christian era to the middle of the 14th century. Prerequisite: MUHL 570.

MUHL 574 Music of the Renaissance (2, Sp; 2 years, Sm) Chief musical developments in Western Europe from the middle of the 14th century to the end of the 16th. Prerequisite: MUHL 570.

MUHL 575 Music of the Baroque Era (2, Fa; 2 years, Sm) Styles, forms, composers, and compositions of the Baroque era. Prerequisite: MUHL 570.

MUHL 576 Music of the Classical Period (2, Sp; 2 years, Sm) Development of classical style in symphonic music, opera, and chamber music. Prerequisite: MUHL 570.

MUHL 577 Music of the 19th Century (2, Fa; 2 years, Sm) Vocal and instrumental music of the Romantic era from late Beethoven through Brahms. Prerequisite: MUHL 570.

MUHL 578 Music since 1900 (2, FaSpSm) Musical developments in Europe and the Americas from 1900 to the present. Prerequisite: MUHL 570.

MUHL 579 Studies in Music History (4, max 16, FaSp) Intensive study of major problems, issues, and interpretations in the history of music. Prerequisite: MUHL 570.

MUHL 580 Historical Perspectives in Jazz (2) Chief musical developments in the principal styles of jazz from their inception to the present. Prerequisite: graduate standing or departmental approval.

MUHL 581 Special Studies in Medieval Music (2, max 4, Irregular) Music problems and composers of the period. Specific emphasis to be determined by the department. Prerequisite: MUHL 570.

MUHL 584 Special Studies in Renaissance Music (2, max 4, Irregular) Music problems and composers of the period. Specific emphasis to be determined by the department. Prerequisite: MUHL 570.

MUHL 585 Special Studies in Baroque Music (2, max 6, Irregular) Music problems and composers of the period. Specific emphasis to be determined by the department. Prerequisite: MUHL 570.

MUHL 586 Special Studies in the Music of the Classical Period, 1730-1800 (2, max 6, Irregular) Music problems and composers of the period. Specific emphasis to be determined by the department. Prerequisite: MUHL 570.

MUHL 587 Special Studies in the Music of the 19th Century (2, max 6, Irregular) Music problems and composers of the period. Specific emphasis to be determined by the department. Prerequisite: MUHL 570.

MUHL 588 Special Studies in Music since 1900 (2, max 6) Music problems and composers of the period. Specific emphasis to be determined by the department. Prerequisite: MUHL 570.

MUHL 590 Directed Research (1-12, FaSpSm) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC. Prerequisite: MUHL 570.

MUHL 594ab Master's Thesis (2-2-0) Credit on acceptance of thesis. Graded IP/CR/NC.

MUHL 595 Seminar in Performance Practices (2, max 4) Scholarly preparation and authentic performance of music written before c. 1700. Ornamentation and improvisation, tunings and temperaments, early language pronunciation, historical instruments, etc. Prerequisite: MUHL 570.

MUHL 596 Special Topics (2-4, max 8, Irregular) Selected topics of current interest.

MUHL 681 Studies in Musicology (4, max 16, FaSp) Close study of musical repertories and issues (particularly ones transcending period divisions), with emphasis on recent scholarship and methodologies. Prerequisite: MUHL 570.

MUHL 683 Seminar in Medieval Music (2-3, max 6, Irregular) Problems and composers of the period; specific emphasis determined by the department. Prerequisite: MUHL 570.

MUHL 684 Seminar in Renaissance Music (2-3, max 6, Irregular) Problems and composers of the period; specific emphasis determined by the department. Prerequisite: MUHL 570.

MUHL 685 Seminar in Baroque Music (2-3, max 6, Irregular) Problems and composers of the period; specific emphasis determined by the department. Prerequisite: MUHL 570.

MUHL 686 Seminar in Classical Music (2-3, max 6, Irregular) Problems and composers of the period; specific emphasis determined by the department. Prerequisite: MUHL 570.

MUHL 688 Seminar in Romantic Music (2-3, max 6, Irregular) Problems and composers of the period; specific emphasis determined by the department. Prerequisite: MUHL 570.

MUHL 689 Seminar in Music since 1900 (2-3, max 6, Irregular) Problems and composers of the period; specific emphasis determined by the department. Prerequisite: MUHL 570.

MUHL 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC. Prerequisite: MUHL 570.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Music Industry (MUIN)

MUIN 270 Introduction to the Music Industry (4, FaSp) A survey of the music business with emphasis on distribution of recorded music, music publishing, performance rights societies, record companies, agents, personal managers and contracts. Open to music majors (B.M. and B.S. degrees) only.

MUIN 272x Basics of the Music Industry (4, FaSp) Introductory survey of the music business. Topics include: copyright, record companies, contracts, music publishing, performance rights societies, managers, agents, and other artist team/income considerations. Not available for major credit for music industry majors. (Duplicates credit in former MUIN 272ax.)

MUIN 280 Communications in the Music Industry (4) A survey of the music industry communications including radio, television, film, satellite communications, records, compact disc, cassette, cable and any future forms of transmission and delivery systems.

MUIN 286 Record Production Management (2, FaSp) Function of the record producer, studio procedures, music business law, union relations, artist management, copyright and publishing agreements, record company structure.

MUIN 287 The Business and Economics of the Recording Industry (2, Fa) Economic considerations of home, studio and location recording, equipment, labor, facilities, media, legal and tax considerations will be explored.

MUIN 320 Critical Listening, Acoustics and Audio Perception (4) Development of perceptual skills for detailed analysis and awareness of the timbral, dynamic, temporal and spatial attributes of sound as they relate to audio production.

MUIN 340 Introduction to Sound Reinforcement (4, FaSpSm) An introduction to the practical application of large scale sound reinforcement for concerts, sporting events, church services and convention situations.

MUIN 380 Introduction to Music Law (4, FaSp) A study of entertainment law with a focus on the music industry. Areas of study include contracts, domestic practices, international practices, copyright protection, trademarks. Prerequisite: MUIN 270.

MUIN 370 Music Publishing and Licensing (3, Sp) An advanced survey of the methods used to monetize music through licensing/media placement, covering music publishing, songwriter agreements, performance rights and licenses for traditional/new media. Prerequisite: MUIN 270 or MUIN 250.

MUIN 372x Business and Legal Aspects of the Music Industry (4, FaSp) An intermediate-level survey of music law, artist contract analysis, case studies, modern/emerging business models and the business of music licensing. Prerequisite: MUIN 270x. Not available for major credit for music industry majors. (Duplicates credit in former MUIN 372ax.)

MUIN 285 Radio in the Music Industry (4, Fa) A survey of radio, its operation and effect on the music industry. Topics include advertising, playlists, program direction, FCC, networks, news, promotion, payola and format development.
**MUIN 410 Marketing, Branding and Strategic Alliances in Music (4, FaSp)** An in-depth study of music marketing, non-traditional revenue streams for artists, musicians, and labels including artist endorsements, artist tour sponsorships, digital music programs, music licensing, merchandise, and a primary focus on brand partnership deals in the music space. Prerequisite: MUIN 270 or MUIN 272x.

**MUIN 420 DIY Music Marketing (2, FaSp)** An exploration of the most current and effective marketing strategies and online branding tools for promoting, monetizing, and sustaining the career of the independent creative artist. Prerequisite: MUIN 270 or MUIN 272x.

**MUIN 425 Live Music Production and Promotion (4)** A survey of the presentation of the live musical experience. Both classical and popular concert presentation will be examined including venue selection, promotion and security.

**MUIN 430 Artist Management and Development (4)** A study of issues relating to the personal management of music artists including negotiating contracts, image, career development, agents, touring, merchandising, fees and duties.

**MUIN 440 Arts Management (4, Fa)** A survey of the management of non-profit and for-profit arts organizations with emphasis on funding, donor development tax status and promotion.

**MUIN 445 The Business of Music for Visual Media (4, FaSpSm)** Introduction to music designed for synchronization to picture including history of music in cinema, music editing, supervision, performance rights licensing, production, and music scoring procedures. Prerequisite: MUIN 360 or MUIN 372x.

**MUIN 446 International Music Industry (4, Sp)** A survey of international operations of music distribution, publishing, touring, law, promotion, customs and practices. Prerequisite: MUIN 360.

**MUIN 450 Practicum in Music Industry Issues (Internship) (2-4, max 8, FaSpSm)** Field application of music industry theories and practices; part-time employment. Project jointly defined by student, employer and professor. Prerequisite: MUIN 360 or MUIN 372x. Junior or senior standing. Graded CR/NC.

**MUIN 455 Advanced Concert Management (4, Sp)** Application of theories, technologies, and practices of the live music industry. Focus on the business, management, marketing, promotion, and production of professional concert events. Prerequisite: MUIN 425.

**MUIN 476ab Advanced Sound Reinforcement (2-2, FaSp)** Special problems of multimedia mixing with simultaneous audio re-processing for live performance situations including rigging, house mix, monitor mix, venues and power distribution.

**MUIN 490 Directed Research (1-18, max 15)** Individual research and readings. Not available for graduate credit.

**MUIN 495 Web Design for the Music Industry (4, FaSp)** Hands-on experience in which students work in teams to create web sites specifically designed to promote, market, and sell musical artists’ products online.

**MUIN 496 Music Media Solutions (4, FaSp)** Group study of one current music media issue, focusing on possible solutions with practical applications. Stress on leadership, critical thinking, and professional practices. By application only. Open only to junior level and above.

**MUIN 497 Current Topics, Case Studies, and Analysis (2, max 6, FaSp)** Exploration of emerging topics and trends in business and technology in the music and entertainment industries. Prerequisite: MUIN 270 or MUIN 272x.

**MUIN 498ab Final Capstone Project (1-1, FaSp)** Culmination of the four-year course of study. Affords students the opportunity to experience guided work to meet the professional demands of the industry. Prerequisite: MUIN 270 or MUIN 272x. Graded IP/CR/NC.

**MUIN 499 Special Topics (2-4, max 8)** Selected topics of current interest.

**MUIN 570 The Music Industry (4, FaSpSm)** A graduate level survey of the music business with emphasis on distribution of recorded music, music publishing, performance rights societies, musical products and live music.

**MUIN 580 Directed Research (1-12)** Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

**MUIN 589 Special Topics (2-4, max 8)** Selected topics of current interest.

**MUIN 750 Research (1-12)** Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**Music Technology (MTEC)**

**MTEC 105 Electronic Studio Techniques (2)** Electronic music procedures in a multi-track studio. Computer applications. (Duplicates credit in former MUIN 105.)

**MTEC 174 Fundamentals of Music Technology (2)** Introductory microphone technique, signal processing, and computer literacy for musical performers. (Duplicates credit in former MUEA 174.)

**MTEC 200ab Music with Computers (4)** Computers in music composition, realization and performance. Representative hardware, software and languages. (Duplicates credit in former MUEA 200ab.) Recommended preparation: MTEC 105.

**MTEC 245 Introduction to MIDI Sequencing (1, FaSp)** Introductory course where students will learn to use professional MIDI sequencing software to sequence, edit, and realize music compositions.

**MTEC 246 Introduction to Audio Recording and Editing (1, FaSp)** Introduction to the techniques and applications of recording, editing and mixing sound on personal computers.

**MTEC 248 Introduction to Music Notation (1, FaSp)** Introduction to the skills and techniques required to prepare musical scores and parts using industry standard music notation software.

**MTEC 249 Introduction to Web Design for Musicians (1, FaSp)** Introductory course where students will learn to use professional web languages, tools, and techniques to create musical artist and band websites.

**MTEC 275ab Recording Arts Workshop (4-4, FaSpSm)** Principles, techniques, and aesthetic possibilities of the recording studio chain and its application to various media. Open to recording arts, music industry, and arts, technology, and the business of innovation majors only. (Duplicates credit in former MUIN 275ab.)

**MTEC 377ab Introduction to Music Technology (4-4, FaSpSm)** A survey of the technology used to create, prepare, perform, and distribute music, with an emphasis on recording, MIDI, music production, mastering and Internet technologies. Not available for major credit to B.M. and B.S., Music Industry majors. (Duplicates credit in former MUIN 277.)

**MTEC 391 The Mixing Console (2)** Professional mixing console design, layout operation, mic preamps, switching, VCA’s, automation, computerized recall. Prerequisite: MTEC 275b. (Duplicates credit in former MUIN 291.)

**MTEC 399 Individual Instruction (1-3, max 8, FaSp)** Intermediate and advanced instruction in the applications of technology to the creation and performance of music. Recommended preparation: experience with audio recording and synthesizers.

**MTEC 505ab Electroacoustic Media I (4-4)** Composition, arranging, performance and/or fixed medium realization of electroacoustic music. Critical/analytic listening. History of the medium. (Duplicates credit in former MUEA 305ab.) Prerequisite: MTEC 205b.

**MTEC 310 Computer Recording for the Performing Musician (2, FaSpSm)** Fundamentals of computer music production for music students. Recording and editing multitrack digital audio using computer software. Open to music majors only, with the exception of majors in music industry. (Duplicates credit in former MUSC 310.)

**MTEC 311 MIDI Music Production for the Performing Musician (2, FaSpSm)** Techniques of sequencing and recording musical compositions via MIDI on personal computers. Includes study of hardware, software, processes, functions, editing and orchestration techniques. Not open to music industry majors. (Duplicates credit in former MUSC 311.)

**MTEC 379ab Recording Studio Theory (2-2)** Basic electronic concepts needed to understand operational parameters of a state-of-the-art recording studio; schematics, interface, capacitance, resistance and problem solving. Prerequisite: MTEC 275b. (Duplicates credit in former MUIN 379ab.)

**MTEC 289 Digital Equipment and Recording (2)** Digital equipment including computers, sequencers, digital signal synthesis, MIDI, and rotary and stationary digital recording. Prerequisite: MTEC 275b. (Duplicates credit in former MUIN 289.)

**MTEC 390 Special Problems (1-4, FaSpSm)** Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. (Duplicates credit in former MUEA 390.)
MTEC 392ab Acoustics and Speaker Design (2, FaSpSm) Principles of acoustics relating to studio construction, wall treatment, and furnishings; natural reverberation, speaker materials, passive and active crosstalk and alignment. Prerequisite: MTEC 275b. (Duplicates credit in former MUIN 392ab.)

MTEC 405ab Electroacoustic Media II (4-a) Continuation of MTEC 305ab. (Duplicates credit in former MUEA 405ab.) Prerequisite: MTEC 305b.

MTEC 442 Operation of the Radio Studio (2, FaSpSm) An in-depth study of radio studio technical operations. Topics include consoles, microphones, transmission considerations, networks, satellites, and digital and analog production situations. Prerequisite: MTEC 275b. (Duplicates credit in former MUIN 442.)

MTEC 444 Non-Linear MIDI Sequencing (2, FaSpSm) An in-depth course focusing on the principles and techniques of sequencing and performing musical compositions using a non-linear sequencer. Recommended preparation: MTEC 245.

MTEC 446ab Computer Assisted Recording and Editing (2-2, FaSpSm) Techniques and applications of recording and editing sound on personal computers. Hardware, software, editing for song, sound effects and Dolby digital film. (Duplicates credit in former MUIN 446ab.)

MTEC 448 Computer Music Notation and Preparation (4) Techniques and principles of computer music notation including conventions of music notation, idiomatic practices, preparation of significant score types, and MIDI basics. (Duplicates credit in former MUIN 448.)

MTEC 474ab Electronic Synthesizer Techniques (2-4: 2-4, FaSpSm) a and b: Electronic music procedures in a multi-track studio. b: Computer applications. (Duplicates credit in former MUEA 474ab.)

MTEC 476ab Advanced Electronic Studio Techniques (2-4: 2-4) a: Digital devices and specialized audio processing modules applied to electronic music. (Duplicates credit in former MUEA 476a.) Prerequisite: MTEC 476b. b: Continuation of MTEC 476a. Emphasis on individual projects. (Duplicates credit in former MUEA 476b.)

MTEC 477 Remote Recording Techniques (2, FaSpSm) Special problems of location recording; specialized equipment; microphone design and operation. Prerequisite: MTEC 275b. (Duplicates credit in former MUIN 477.)

MTEC 478 Advanced Multichannel Remix (2) Special problems of multi-channel re-mixing with simultaneous audio re-processing. Album, film, television and multimedia formats will be covered. Prerequisite: MTEC 446a. (Duplicates credit in former MUIN 478.)

MTEC 479 Audio Mastering (2, FaSpSm) A survey of the final creative steps of an audio CD. Concepts of acoustics, mastering suite design, critical listening, frequency, dynamics and sequencing. Prerequisite: MTEC 275b: recommended preparation: MTEC 446a. (Duplicates credit in former MUIN 479.)

MTEC 481 Programming the MIDI Interface (2, FaSpSm) Programming MIDI Interface Software using the C Programming Language. Developing original applications software for sequencing and real-time event processing. (Duplicates credit in former MUEA 481.) Recommended preparation: prior experience in electronic music or computers.

MTEC 486 Computer-Assisted Music Editing for Picture (2, FaSpSm) Techniques and applications of recording, editing and synchronizing music and sounds to film, video or games, using time code and personal computers. Prerequisite: MTEC 446b. (Duplicates credit in former MUIN 486.)

MTEC 488ab Recording Studio Maintenance (2-2) Fundamentals needed to perform maintenance on professional audio equipment including trouble-shooting, interface, and alignment procedures. Prerequisite: MTEC 275b. (Duplicates credit in former MUIN 488ab.)

MTEC 490x Directed Research (1-8, max 12, FaSpSm) Individual research and readings. Not available for graduate credit. (Duplicates credit in former MUEA 490x.)

MTEC 493 Audio Signal Processing Equipment (2) Principles and design characteristics of digital and analog signal processing equipment including plate reverbs, digital reverbs, synchronizers, digital editing systems and mastering systems. Prerequisite: MTEC 275b. (Duplicates credit in former MUIN 493.)

MTEC 499 Special Topics (2-4, max 8, FaSpSm) Selected topics of current interest. (Duplicates credit in former MUIN 499.)

MTEC 501 Individual Instruction (1-2, max 8, FaSpSm) Intermediate and advanced instruction in the applications of technology to the creation and performance of music. Recommended preparation: experience with audio recording and synthesizers.

MTEC 550 Technology and the Collegiate Music Curriculum (4) Prepares the college-level music instructor for assuming a technological leadership role within a music department. Examines traditional, experimental, and pedagogical aspects of technology. Recommended preparation: computer, internet, and basic music software literacy.

MTEC 575 Music Technology and Production (4, FaSpSm) Fundamentals of audio recording. Focuses on the principles and applications of sound and hearing, recording systems and their components, and production techniques. (Duplicates credit in former MUIN 575.)

MTEC 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MTEC 599 Special Topics (2-4, max 8) Selected topics of current interest.

MPEM 201 Individual Instruction (1 or 2, max 8, FaSpSm) Secondary instruction for lower division students.

MPEM 390 Special Problems (1-4, Irregular) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

MPEM 450 Collegium Workshop (1, max 8, FaSpSm) Study and rehearsal of music of the Middle Ages, Renaissance, and Baroque; technique, interpretation, improvisation, and ornamentation. Open to all students.

MPEM 490x Directed Research (1-8, max 12, FaSpSm) Individual research and readings. Not available for graduate credit.

MPEM 499 Special Topics (2-4, max 8) Selected topics of current interest.

MPEM 501 Individual Instruction (1 or 2, max 8, FaSpSm) Secondary instruction for graduate music majors or instruction for graduate non-music majors.

MPEM 553 Individual Instruction (1 or 2, max 8, FaSpSm)

MPEM 554 Graduate Certificate Performance (4, max 16, FaSpSm) Individual instruction and related lab participation for Graduate Certificate students.

MPEM 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MPEM 599 Special Topics (2-4, max 8) Selected topics of current interest.

MPEM 650 Collegium Directing (2, max 4) Practical training in the direction of a Collegium Musicum or other early music ensemble; program planning, repertory search and preparation, historical instrumentation and arranging, rehearsal procedure, improvisational techniques, and maintenance of instruments.

MPEM 653 Performance (1 or 2, max 12, FaSpSm) Individual or master class instruction for DMA Performance majors.

MPEM 754 Artist Diploma Performance (4, max 16, FaSpSm) Individual instruction and related lab participation for Artist Diploma students.

MPEM 790 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Performance (Guitar) (MPGU)

MPGU 101x Non-Major Beginning Individual Instruction (1-2, max 2, FaSpSm) Individual instruction at the beginning level designed for non-music majors with no previous experience. Not available for credit to music majors.

MPGU 120abcd Beginning Pop/Rock Guitar (2-2-2-2, FaSpSm) Introduction to the performance technique of pop/rock guitar as well as music theory
fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews.

**MPGU 121 Intensive Beginning Pop/Rock Guitar**
(4, FaSp) Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews.

**MPGU 125 Beginning Fingerstyle/Chord Guitar**
(2, FaSp) Basic fingerstyle guitar; learned through the study of such pieces as “Greensleeves,” “Malaguena,” and “Minuet” (Bach); song accompaniment patterns and music notation for the beginner.

**MPGU 126 Easy Fingerstyle Beatles**
(2, FaSp)
Techniques of classical guitar applied to the study of five to eight Beatles songs, from “Hey Jude” to “Blackbird.” No guitar or music background required.

**MPGU 153 Individual instruction**
(1 or 2, max 8, FaSpSm)

**MPGU 158 Guitarists in the U.S.**
(2) Study of the lives and music of influential guitarists; analysis of musical and technical details. Open to all university students.

**MPGU 159 Functional Skills for Studio Guitarists**
(2) Study of technique, theory and aural skills as applied to guitar; fingerboard organization of melodic and chordal topics; sight reading.

**MPGU 253 Individual instruction**
(1 or 2, max 8, FaSpSm)

**MPGU 257 Classical Guitar Performance Class**
(2, max 8, FaSp) Technical problems; solo and ensemble literature; interpretation; professional preparation. Required of first and second year Classical Guitar majors each semester in residence.

**MPGU 258 Functional Skills for Studio Guitarists**
(2, max 4, FaSp) Melodic and chordal topics applied to the total fingerboard; successful completion required for junior standing. **Prerequisite:** MPGU 159.

**MPGU 259 Functional Skills for Classical Guitarists**
(2, Fa) Fundamentals of music theory experienced through the medium of the classical guitar. Topics include analysis of important guitar works, basso continuo realization, arranging, and improvisation. **Recommended preparation:** MUCO 232.

**MPGU 300X Non-Major Individual Instruction**
(1-2, max 16, FaSpSm) Intermediate and advanced instruction designed for non-music majors. Not available for credit to music majors. (Duplicates credit in former MPGU 201 and MPGU 401.) **Recommended preparation:** MPGU 101.

**MPGU 301 Individual Instruction**
(1-2, max 16, FaSpSm) Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and B.A. music majors. Open only to music majors and minors. (Duplicates credit in former MPGU 201 and MPGU 401.)

**MPGU 350 Jazz Guitar Master Class**
(1, FaSp)
Explore the music of Joe Diiorio, Wes Montgomery and John Coltrane in a master class setting.

**MPGU 351 Individual instruction**
(1 or 2, max 8, FaSpSm)

**MPGU 357 Advanced Classical Guitar Techniques**
(2, Sp) An in-depth exploration of the most advanced facets of classical guitar technique. **Recommended preparation:** MPGU 257.

**MPGU 358 Performance Practices for Studio Guitarists**
(2, max 4) Rehearsal procedures; stage deportment; interpretation of solo and ensemble literature; preparation for recital and professional performance. **Prerequisite:** MPGU 258.

**MPGU 390 Special Problems**
(1-4, Irregular) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

**MPGU 415 Studio Guitar Pedagogy**
(2) Teaching techniques and literature; function of the hands; acoustical properties of instruments.

**MPGU 416 Evolution of the Guitar in the United States**
(3) Historical survey of styles, literature and performance practice; emphasis on playing technique and interpretation. A time-line study relating guitar to popular music and historical events. (Duplicates credit in former MUHL 416.)

**MPGU 417 Classical Guitar Pedagogy**
(2) Teaching techniques and literature; function of the hands; acoustical properties of instruments.

**MPGU 426 Classical Guitar History and Literature**
(2, Fa) A survey of music for the guitar, lute and vihuela from 1500 to the present. (Duplicates credit in former MPGU 426 and former MUHL 426.) **Recommended preparation:** MUHL 332.

**MPGU 427 Advanced Topics in Classical Guitar History and Literature**
(3, Sp) An in-depth study of major works for lute, vihuela and classical guitar, with emphasis on early music and the music of the 20th century. (Duplicates credit in former MPGU 426 and former MUHL 426.) **Recommended preparation:** MPGU 426.

**MPGU 428ab Improvisation and Arranging for Guitarists**
(2-3) Principles of improvisation and impromptu arranging; comparison and application of techniques and musical styles of the various kinds of guitars and related fretted instruments.

**MPGU 453 Individual instruction**
(1 or 2, max 8, FaSpSm)

**MPGU 457 Classical Guitar Performance Class**
(2, max 8, FaSp) Technical problems; solo and ensemble literature. Required of all third and fourth year classical guitar majors each semester in residence.

**MPGU 458 Current Electric Guitar Styles**
(3) Analysis and performance of music and techniques currently in use in the recording, TV and motion picture studios; includes study of recordings, videos and guitar equipment.

**MPGU 459 Functional Skills for Classical Guitarists**
(2-3) Advanced theory and composition on the guitar. Weekly analysis exercises, arranging projects and studies in improvisation and ornamentation are directed toward creating an original solo or chamber work for guitar. **Recommended preparation:** MUOC 232, MUOC 233.

**MPGU 490x Directed Research**
(1-8, max 12, FaSpSm) Individual research and readings. Not available for graduate credit.

**MPGU 499 Special Topics**
(2-4, max 8) Selected topics of current interest.

**MPGU 501 Individual instruction**
(1 or 2, max 8, FaSpSm) Secondary instruction for graduate music majors or instruction for graduate non-music majors.

**MPGU 554 Graduate Certificate Performance**
(3, max 16, FaSpSm) Individual instruction and related lab participation for Graduate Certificate students.

**MPGU 557 Advanced Classical Guitar**
Performance Class (1, max 4) Study of advanced classical guitar solo and ensemble literature; interpretation; professional preparation and other topics appropriate for group study. **Prerequisite:** bachelor’s degree with music major; principal instrument, classical guitar.

**MPGU 558 Advanced Studio Guitar**
Performance Class (1, max 4) Study of advanced studio guitar and ensemble literature; interpretation; professional preparation and other topics appropriate for group study. **Prerequisite:** bachelor’s degree with music major; principal instrument, studio guitar.

**MPGU 590 Directed Research**
(1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

**MPGU 599 Special Topics**
(2-4, max 8) Selected topics of current interest.

**MPGU 653 Performance**
(1 or 2, max 12, FaSpSm) Individual or master class instruction for DMA Performance majors.

**MPGU 754 Artist Diploma Performance**
(4, max 16, FaSpSm) Individual instruction and related lab participation for Artist Diploma students.

**MPGU 790 Research**
(1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

**Courses of Instruction**

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**Performance (Keyboard Studies) (MPKS)**

**MPKS 150abcd Beginning Piano**
(3-3-2-2, FaSpSm) Techniques of performance, note reading, and basic musicianship. Not open to music majors.

**MPKS 153 Individual instruction**
(1 or 2, max 8, FaSpSm)

**MPKS 160ab Functional Skills for Keyboard Majors**
(a: 2, Fa; b: 2, Sp) Sight-reading and principles of style as related to intermediate literature; clef and open score reading; improvisation and functional harmony. Introduction to standard reference works, periodicals. Required of all keyboard majors.

**MPKS 170ab Introduction to Piano Repertoire and Performance**
(a: 1, Fa; b: 1, Sp) Survey of basic piano repertoire and styles through lecture, discussion, and performance. a: Late Baroque through Beethoven; b: Schubert to the present. **Prerequisite:** piano performance major status.

**MPKS 228 Four-Hand Keyboard Repertoire**
(1, max 4, FaSp) Preparation and performance of literature for piano duets and duo-piano. (Duplicates credit in former MUEN 228.)

**MPKS 250ab Keyboard instruction**
(2-2, FaSp) Beginning and elementary instruction; emphasis on reading skills, harmonization, transposition, score
Courses of Instruction

reading, improvisation; group instruction in a keyboard laboratory facility.

MPKS 253 Individual Instruction (1 or 2, max 8, FaSpSm)

MPKS 260ab Functional Skills for Keyboard Majors II (2, FaSp) Sight-reading and principles of style as related to lower advanced literature; extended score reading; improvisation and functional harmony. Mini-survey; basic keyboard literature. Prerequisite: MPKS 160b.

MPKS 300x Non-Major Individual Instruction (1-2, max 16, FaSpSm) Intermediate and advanced instruction designed for non-music majors. Not available for credit to music majors. (Duplicates credit in former MPKS 201 and MPKS 401.)

MPKS 301 Individual Instruction (1-2, max 16, FaSpSm) Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and B.A. music majors. Open only to music majors and minors. (Duplicates credit in former MPKS 201 and MPKS 401.)

MPKS 350ab Keyboard Instruction II (2-4, FaSp) Intermediate and advanced instruction; development of reading, performance and improvisation skills necessary for proficiency examinations. Group and individualized instruction in a keyboard laboratory facility. Prerequisite: MPKS 250b.

MPKS 352 Individual Instruction (1 or 2, max 8, FaSpSm)

MPKS 360ab Accompanying (a: 2, Fa; b: 2, Sp) Techniques of vocal and instrumental accompanying.

MPKS 390 Special Problems (1-4, Irregular) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

MPKS 435 Technology of the Pianoforte and Harpsichord (1, Irregular) Analysis of technical innovations and maintenance of the pianoforte and harpsichord as related to musical performance.

MPKS 453 Individual Instruction (1 or 2, max 8, FaSpSm)

MPKS 472ab Piano History and Literature (a: 2, FaSp; b: 2, Sp) Solo piano literature; emphasis on composers’ influences, performance practices and the development of the pianoforte. a: Late Baroque through Beethoven; b: Schubert to the present. Prerequisite: a: MUHL 331 and MUHL 332; b: MPKS 472a.

MPKS 481 Interpretation of Baroque Music (3, max 6, FaSp) Repertoire and performance practice in music of the period: style, phrasing, embellishments, dynamics, improvisation, tempi. Performance in class of solo and ensemble works, instrumental and vocal.

MPKS 490x Directed Research (1-8, max 12, FaSpSm) Individual research and readings. Not available for graduate credit.

MPKS 499 Special Topics (2-4, max 8) Selected topics of current interest.

MPKS 501 Individual Instruction (1 or 2, max 8, FaSpSm) Secondary instruction for graduate music majors or instruction for graduate non-music majors.

MPKS 520 Special Studies in Solo Repertoire for Piano (2, max 12, FaSp) Historical, stylistic and pedagogical aspects of solo repertoire. Special emphasis to be determined by the department.

MPKS 551 Individual Instruction (1 or 2, max 8, FaSpSm)

MPKS 554 Graduate Certificate Performance (4, max 16, FaSpSm) Individual instruction and related lab participation for Graduate Certificate students.

MPKS 580 Song Interpretation Master Class (2, max 12, FaSp) For advanced singers and pianists.

MPKS 581 Chamber Music Interpretation Master Class (2, max 15, FaSp) For advanced pianists and instrumentalists.

MPKS 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MPKS 599 Special Topics (2-4, max 8) Selected topics of current interest.

MPKS 620 Performance (1 or 2, max 12, FaSpSm) Individual or master class instruction for DMA Performance majors.

MPKS 754b Artist Diploma Performance (4, max 16, FaSpSm) Individual instruction and related lab participation for Artist Diploma students.

MPKS 790 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

performance (popular music) (mppm)

MPPM 100 Popular Music Forum (1, max 4, FaSp) A weekly lecture series addressing a wide range of special topics and issues confronting the popular musician. Graded CR/NC.

MPPM 120 Popular Music Performance I (2, max 16, FaSp) Study of musical elements appropriate to the performance of popular music in a collaborative, interactive environment.

MPPM 152 Individual Instruction (1, 2, max 8, FaSp) Weekly individual instruction.

MPPM 240 Drumming Proficiency for the Popular Musician (2, FaSp) Beginning and elementary instruction in drum set techniques.

MPPM 250 Keyboard Proficiency for the Popular Musician (2, FaSp) Development of practical keyboard skills, including reading and realizing chord symbols, basics of voice leading, study of various harmonic and rhythmic styles.

MPPM 253 Individual Instruction (1, 2, max 8, FaSp) Weekly individual instruction.

MPPM 301 Individual Instruction (1-2, max 16, FaSpSm) Intermediate and advanced instruction on secondary instrument for all majors and minors except MPPM. Not open to B.M. in Popular Music Performance students.

MPPM 320 Popular Music Performance II (2, max 8, FaSp) Development of ensemble and communication skills through the performance and interpretation of American popular music in concert and studio settings. Development of original compositions. Open only to juniors and seniors. Prerequisite: MPPM 120.

MPPM 333ab Arranging in Popular Music (2, FaSp; b: 2, Sp) a: Principles and techniques of arranging for voice and rhythm section in the popular music idiom. Prerequisite: MTEC 310, MTEC 311 and MTEC 446b; b: writing and arranging for small groups of brass, wind, and/or string instruments with rhythm section in the popular music idiom.

MPPM 450ab Final Project (1, Fa; 1, Sp) Major collaborative performance project in popular music. Graded CR/NC.

MPPM 450x Directed Research (1-8, max 12) Individual research and readings. Open only to juniors and seniors. Not available for graduate credit.

MPPM 499 Special Topics (2-4, max 8) Selected topics of current interest.

MPPM 500 Directed Research (1-12, max 12) Research leading to the Master’s Degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MPPM 599 Special Topics (2-4, max 8) Selected topics of current interest.

MPPM 790 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Performance (Strings) (MPST)
MPST 101X Non-Major Beginning Individual Instruction (1-2, max 2, FaSpSm) Individual instruction at the beginning level designed for non-music majors with no previous experience. Not available for credit to music majors.

MPST 153 Individual Instruction (1 or 2, max 8, FaSpSm)

MPST 165 Beginning Harp (2, max 8, FaSp) Basic instruction in the fundamentals of solo harp playing, note reading, and basic musicmanship. Open to music and non-music majors.

MPST 253 Individual Instruction (1 or 2, max 8, FaSpSm)

MPST 262 Double Bass Performance Class (1, max 4, FaSp) Study of solo and orchestra repertoire, professional preparation, and teaching techniques. Required of all first and second year double bass majors each semester in residence. Prerequisite: music major.

MPST 263 Harp Performance Class (1, max 4, FaSp) Study of solo and orchestra repertoire, professional preparation, and teaching technique. Required of all first and second year harp majors each semester in residence. Prerequisite: music major.

MPST 300X Non-Major Individual Instruction (1-2, max 16, FaSpSm) Intermediate and advanced instruction designed for non-music majors. Not available for credit to music majors. (Duplicates credit in former MPST 201 and MPST 401.) Recommended preparation: MPST 101X.

MPST 301 Individual Instruction (1-2, max 16, FaSpSm) Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and B.A. music majors. Open only to music majors and minors. (Duplicates credit in former MPST 201 and MPST 401.)

MPST 353 Individual Instruction (1 or 2, max 8, FaSpSm)

MPST 390 Special Problems (1-4, Irregular) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

MPST 400X Non-Major Individual Instruction (1-2, max 16, FaSpSm) Intermediate and advanced instruction designed for non-music majors. Not available for credit to music majors. (Duplicates credit in former MPST 201 and MPST 401.) Recommended preparation: MPST 101X.

MPST 501 Individual Instruction (1 or 2, max 8, FaSpSm) Secondary instruction for graduate music majors or instruction for graduate non-music majors.

MPST 553 Individual Instruction (1 or 2, max 8, FaSpSm)

MPST 554 Graduate Certificate Performance (4, max 16, FaSpSm) Individual instruction and related lab participation for Graduate Certificate students.

MPST 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MPST 599 Special Topics (2-4, max 8) Selected topics of current interest.

MPST 653 Performance (1 or 2, max 12, FaSpSm) Individual or master class instruction for DMA Performance majors.

MPST 754 Artist Diploma Performance (4, max 16, FaSpSm) Individual instruction and related lab participation for Artist Diploma students.

MPST 790 Research (1-15) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Performance (Vocal Arts) (MPVA)

MPVA 101X Non-Major Beginning Individual Instruction (1-2, max 2, FaSpSm) Individual instruction at the beginning level designed for non-music majors with no previous experience. Not available for credit to music majors.

MPVA 141 Class Voice (3, max 4, FaSp) Introduction to the fundamental principles of singing: breath control, tone production, diction, and the use of appropriate song material.

MPVA 153 Individual Instruction (1 or 2, max 8, FaSpSm) Weekly individual instruction and vocal performance forum.

MPVA 203a/b Acting for Singers I (2-3, FaSp) Use of dramatic techniques in the interpretation and performance of music; basic acting techniques for the operatic and recital stages; sensory exercises, movement, improvisation, relaxation and make-up. (Duplicates credit in former MPVA 303.) Recommended preparation: MPVA 153.

MPVA 203ab Acting for Singers II (3, max 8, FaSp) Advanced study for thesis candidates; role analysis; transcription techniques for one or two pianos of an orchestral score. Recommended preparation: MPVA 203a/b.

MPVA 204 Word and Music in Opera (2, max 8, Irregular) Stylistic and technical features of dramatic and musical elements involved in performance of American musical and standard operetta repertory; staging of scenes.

MPVA 403 Acting for Singers I (2, max 8, FaSp) Continuation of MPVA 203a. Acting of operatic roles in different periods and styles; specific recital and audition techniques. Recommended preparation: MPVA 203ab.

MPVA 404 Opera Coaching Techniques (2, max 8, Irregular) Performance class for coaches and conductors; role analysis; transcription techniques for one or two pianos of an orchestral score.

MPVA 407 Directing for the Operatic Stage (2, max 8, FaSp) Various approaches to operatic style; basic blocking; stage management. Student direction of scenes produced in USC Opera.

MPVA 458 Vocal Pedagogy (2, Fa) Voice physiology and function.

MPVA 470 Vocal Pedagogy Practicum (3, Sp) Pedagogical approaches and methodology; practice teaching. Prerequisite: MPVA 438.

MPVA 475 Vocal Pedagogy (2, Fa) Principles of pronunciation and enunciation; use of international phonetic alphabet. (Duplicates credit in former MPVA 424a.)

MPVA 476 Italian and French Diction (2) Principles of pronunciation and enunciation; basic application of the International Phonetic Alphabet and its symbols and sounds to English, German, Italian, French and Latin.

MPVA 443 Cantata and Oratorio (2, 2 years, Fa) Historical survey of literature, style and performance practice; emphasis on performing solo and small ensemble sections of larger works.
MPVA 453 Individual Instruction (1 or 2, max 8, FaSpSm) Weekly individual instruction and vocal performance forum.

MPVA 479 Song Literature (2, max 4, FaSp) Song literature of Italy, France, Germany, Russia, Norway, Sweden, England, America; comparative analysis of various composers and their influence on song literature. (Duplicates credit in former MUHl 479.) Recommended preparation: for music majors, MUHl 311; for non-music majors, MUHl 312.

MPVA 490 Directed Research (1-8, max 12, FaSpSm) Individual research and readings. Not available for graduate credit.

MPVA 499 Special Topics (2-4, max 8) Selected topics of current interest.

MPVA 501 Individual Instruction (1 or 2, max 8, FaSpSm) Secondary instruction for graduate music majors or instruction for graduate non-music majors.

MPVA 540 Special Studies in Vocal Literature (2, max 6, Sp) Art song, concert and operatic repertoire. Emphasis to be determined by the department.

MPVA 561 Comparative Vocal Pedagogy (2, 3 years, 5p) Survey of pedagogical sources from early 19th century to present; major historic figures, terminologies and methods; relevance to modern-day singing and teaching practice.

MPVA 583 Individual Instruction (1 or 2, max 8, FaSpSm) Weekly individual instruction and vocal performance forum.

MPVA 584 Graduate Certificate Performance (4, max 16, FaSpSm) Individual instruction and related lab participation for Graduate Certificate students.

MPVA 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MPVA 599 Special Topics (2-4, max 8) Selected topics of current interest.

MPVA 653 Individual Instruction (1 or 2, max 12, FaSpSm) Weekly individual instruction and vocal performance forum.

MPVA 754 Artist Diploma Performance (4, max 16, FaSpSm) Individual instruction and related lab participation for Artist Diploma students.

MPVA 790 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

SACRED Music (MSCR)

MSCR 390 Special Problems (4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. (Duplicates credit in former MUCH 390.)

MSCR 473 Hymnology (3) Study of hymns and hymn tunes, and their functions, from the formation of the Christian Church to the present; historical survey of the literature. (Duplicates credit in former MUCH 473.)

MSCR 474 The Organ in Worship and Congregational Life (3) Accompanying; hymn playing, improvisation, vocal score reading; conducting from the console; service repertoire. Basic knowledge of the organ as an instrument and planning for and purchase of an organ. (Duplicates credit in former MUCH 474.)

MSCR 475 Introduction to Jewish Music (3) Development of Jewish music from biblical times to the present, with emphasis on liturgical practices, traditions of itinerant musicians and the adaptability of community song.

MSCR 490 Directed Research (1-8, max 12) Individual research and readings. Not available for graduate credit. Open only to juniors and seniors. (Duplicates credit in former MUCH 490.)

MSCR 499 Special Topics (2-4, max 8) Selected topics of current interest.

MSCR 570 Foundations of Sacred Music (3) An introduction to the history of sacred music, liturgical practices and worship traditions from antiquity to present day. (Duplicates credit in former MUCH 570.)

MSCR 571 Music of the Great Liturgies (3) Comparison of the Jewish, Eastern Orthodox, Roman Catholic, Lutheran, and Anglican liturgies and their music;
relation to music in the nonsurgical service; the church year. (Duplicates credit in former MUCH 571.)

MUSC 572 Sacred Music Administration (2, FaSpSm) Developing, maintaining and administering the music program of the church or other religious institutions. Programming, staffing, developing budgets, techniques and repertoire for the graded choir program, handbell choir and other ensembles. (Duplicates credit in former MUCH 572.)

MUSC 590 Directed Research (1-12) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC. (Duplicates credit in former MUCH 590.)

MUSC 599 Special Topics (2-4, max 8) Selected topics of current interest.

MUSC 790 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC. (Duplicates credit in former MUCH 790.)

MUSC 794ab Doctoral Dissertation (2-2-2, 2-0) Credit on acceptance of dissertation. Graded IP/CR/NC. (Duplicates credit in former MUCH 794abcd.)

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

School of Music (MUSC)

MUSC 110 Freshman Forum (1, FaSp) Introduction to issues and skills relevant to the professional musical world of today. Open only to music majors. Graded CR/NC.

MUSC 255 Songwriting I (2, FaSp) Development of musical and lyrical skills, composing, listening, analysis, and critiques of popular original music.

MUSC 355 Songwriting II (2, FaSp) Continuation of Songwriting I; particular emphasis on the analysis of the techniques of important popular songwriters and the application of these techniques to original songs. (Duplicates credit in former MUCO 255.) Prerequisite: MUSC 255.

MUSC 400m The Broadway Musical: Reflection of American Diversity, Issues, and Experiences (4, FaSpSm) Selected Broadway musicals serve as a catalyst for inquiry into human diversity, cross-culturalism, and significant social and political issues.

MUSC 410 Electronic Dance Music (4, FaSp) The study of EDM's origins and development, focusing on the cultural and technological contexts that have influenced the genre.

MUSC 430 Hip-Hop Music and Culture (4) A history of hip-hop music from its inception to the present: its musical processes and styles, as well as attendant social, political, and cultural issues.

MUSC 432 The Beatles: Their Music and Their Times (4) Music, lyrics, recordings, production techniques, career strategy, social ramifications, and especially the technological impact of the musical group known as The Beatles.

MUSC 433 Classic Rock: Popular Music of the Sixties and Seventies (2) Critical examination of the lyrics, structure, associated mythology, technology, and evolving styles of popular music reflecting the turbulent societal changes during the Sixties and Seventies.

MUSC 444 American Roots Music: History and Culture (4, Irregular) The history, genre, styles, songs, lyrics, and influences of American vernacular music in the 20th century, including the background that spawned these musical genres.

MUSC 450m The Music of Black Americans (4, FaSp) The musical contribution of Africans and African Americans to American society. Musical genres and the relationship between music and society will be topics for examination.

MUSC 455 Songwriting III: The Performing Songwriter (2) Continuation of Songwriting I and II with emphasis on the development of performance skills of original popular music in preparation for songwriting showcases. (Duplicates credit in former MUCO 254.) Prerequisite: MUSC 255.

MUSC 460 Film Music: History and Function from 1920 to the Present (4, Fa) A survey of the art and craft of film music as practiced by outstanding composers in motion pictures.

MUSC 465 Music, Television and American Culture (4, Sp) An exploration of the social and cultural impact of music written for, popularized by, or exploited by American television from the 1950s through today.

MUSC 470 Contemporary Popular Music: A Global Perspective (2, Sm) Contemporary popular music in global culture; includes performance and collaboration opportunities with local musicians.

MUSC 496 Careers in Music (2) A study of the practical aspects of the music business, including the history, procedures, standard practices, economics and technologies employed by the music industry. Open to juniors and seniors only.

MUSC 499x Internship in Music (1-4, max 8, FaSpSm) Practical work experience in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Open only to Bachelor of Music and Bachelor of Arts, Music majors only. Not available for graduate credit. Graded CR/NC.

MUSC 499 Special Topics (2-4, max 8, FaSpSm) Selected topics of current interest.

MUSC 525m The Sixties and Seventies (2) Critical examination of the lyrics, structure, associated mythology, technology, and evolving styles of popular music reflecting the turbulent societal changes during the Sixties and Seventies.

MUSC 528 Internship in Music (1-4, max 4, FaSpSm) Practical work experience in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Open only to music majors. Graded CR/NC.

MUSC 593 Special Topics (2-4, max 8) Selected topics of current interest.

MUSC 594m Sixties and Seventies (2) Critical examination of the lyrics, structure, associated mythology, technology, and evolving styles of popular music reflecting the turbulent societal changes during the Sixties and Seventies.

MUSC 598 Internship in Music (1-4, max 4, FaSpSm) Practical work experience in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Open only to doctoral students in music. Graded CR/NC.

MUSC 800 Studies for the Qualifying Examination in Music (0, FaSpSm) Studies for the qualifying examination. Duplicates credit in GRSC 800. Graded Credit/No Credit. Open only to Doctor of Musical Arts students.

USC School of Pharmacy

Ranked in the top 10 by U.S. News and World Report for its Pharm.D. program, the USC School of Pharmacy uniquely covers the full spectrum of pharmaceutical care — from drug discovery and development to translation and regulation to patient care and outcomes — giving students the opportunity to learn and experience in a multidisciplinary, “bench-to-bedside” environment.

Founded in 1906, the USC School of Pharmacy is the oldest and foremost pharmacy school in Southern California. The school is a national leader known for its progressive curriculum and research excellence. Approximately 50 percent of the practicing pharmacists in Southern California are graduates of USC. The school has an average student body of 750 full-time students in the Pharm.D. program and 220 students pursuing M.S., Ph.D., and DrSc degrees in pharmacology and toxicology, pharmaceutical sciences, health economics, regulatory science and healthcare decision analysis. There are 67 full-time faculty and more than 100 part-time and volunteer faculty at the school.

The school operates state-of-the-art facilities on the USC Health Sciences Campus in metropolitan Los Angeles, adjacent to the Los Angeles County-USC Medical Center (one of the largest teaching hospitals in the country), the USC Norris Cancer Hospital and the Keck Hospital of USC. USC pharmacy students receive clinical training at these facilities and many other affiliated hospitals, health care clinics, skilled nursing facilities, home health care agencies and pharmacies in the Southern California region.

Recognized as one of the most innovative schools of pharmacy, the USC School of Pharmacy serves as a model for other progressive schools. In 1930, USC was the first to establish a Doctor of Pharmacy program. Additional national “firsts” that distinguish the school include: first clinical pharmacy program and first M.S. in radiopharmacy (both in 1968); first Pharm.D./MBA dual degree program (1988); first M.S. and Ph.D. programs in pharmaceutical economics and policy (1994) and first professional doctorate in regulatory science (2008).

Consistently the top private pharmacy school nationwide, the school is a member of the American Association of Colleges of Pharmacy, and the Pharm.D. program is accredited by the Accreditation Council for Pharmacy Education.

Health Sciences Campus

Administration
R. Pete Vanderveen, Ph.D.; R.R., Dean
Sarah F. Hamm-Alvarez, Ph.D., Executive Vice Dean and Vice Dean for Research and Graduate Affairs
Scott Evans, Pharm.D., Associate Dean, Academic Health Center Programs
Fred G. Weissman, Pharm.D., J.D., Associate Dean, Student/Faculty Affairs and Admission
Michael Z. Wincor, Pharm.D., Associate Dean, Global Initiatives and Technology and Interim Chair, Titus Family Department of Clinical Pharmacy and Pharmaceutical Economics & Policy
Kathleen H. Besinque, Pharm.D., M.S.Ed., Assistant Dean, Curriculum and Assessment
Curtis Okamoto, Ph.D., Interim Chair, Department of Pharmacology and Pharmaceutical Sciences
Faculty
John Stauffer Dean’s Chair in Pharmaceutical Sciences: R. Pete Vanderveen, Ph.D., R.R.
University Professor and Boyd P. and Elsie D. Weilin Professor in Pharmaceutical Sciences: Jean Chen Shih, Ph.D.
Distinguished Professor: Walter Wolf, Ph.D.
Hygeia Centennial Chair in Clinical Pharmacy: Stephen Chen, Pharm.D.
Quintiles Chair in Pharmaceutical Development and Regulatory Innovation: Darius Lakdawalla, Ph.D.
R. Pete Vanderveen Endowed Chair in Therapeutic Discovery and Development: Roberta Diaz Brinton, Ph.D.
John A. Biles Professor in Pharmaceutical Sciences: Wei-Chiang Shen, Ph.D.
Gavin S. Herbert Professor in Pharmaceutical Sciences: Sarah F. Hamm-Alvarez, Ph.D.
Charles Krown/Pharmacy Alumni Professor in Pharmaceutical Sciences: Enrique Cadenas, M.D., Ph.D.
Provost Professor of Cell and Neurobiology, Pharmacology and Pharmaceutical Sciences, and Psychology: Pat Levit, Ph.D.
Provost Professor of Medicine and Pharmacy: Michael Kahn, Ph.D.
Professors of Pharmacy: Frances Richmond, Ph.D.; Glen L. Stimmel, Pharm.D.; Bradley R. Williams, Pharm.D.; Annie Wong-Beringer, Pharm.D.
Distinguished Emeritus Professor and Dean: John A. Biles, Ph.D.
Emeritus Professor and Dean: Timothy M. Chan, Ph.D.
Emeritus Professor: Eric J. Lien, Ph.D.
Programs
The School of Pharmacy offers curricula leading to the Doctor of Pharmacy (Pharm.D.) and Doctor of Regulatory Science (D.R.Sc.) degrees and graduate degrees through the Grad School including: Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) in pharmaceutical sciences, Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) in molecular pharmacology and toxicology, Master of Science (M.S.) in pharmaceutical economics and policy, Doctor of Philosophy (Ph.D.) in health economics, Master of Science (M.S.) in Health Care Decision Analysis, Doctor of Philosophy (Ph.D.) in clinical and experimental therapeutics, Master of Science (M.S.) in regulatory science, and Master of Science (M.S.) in management of drug development. Seven dual degree programs, one joint program and numerous certificate programs are also offered, including: Pharm.D./J.D., Pharm.D./MBA, Pharm.D./MPH, Pharm.D./M.S. in regulatory science, Pharm.D./M.S. in gerontology, Pharm.D./M.S. in global medicine, Pharm.D./Ph.D., Pharm.D./graduate certificate in gerontology, Pharm.D./M.S. in health care decision analysis, and graduate certificates in clinical research design and management, food safety, preclinical drug development, and patient and product safety.
Tuition and Fees (Estimated)
Tuition for School of Pharmacy Doctor of Pharmacy program is accredited by Accreditation Council for Pharmacy Education, 135 S. LaSalle Street, Suite 4100, Chicago, IL 60603-4810, phone: (312) 664-3575, Fax (312) 664-4652 or (312) 664-7008. Students may also live in student housing on the University Park Campus, located about eight miles from the Health Sciences Campus.

Professional Degrees
Doctor of Pharmacy
The USC School of Pharmacy offers a full-time, four-year course of study leading to the Doctor of Pharmacy (Pharm.D.). An undergraduate B.A. or B.S. degree is required for admission to the program. A description of the curriculum is listed in the following pages. The degree will be conferred upon successful completion of all Doctor of Pharmacy degree requirements. The USC School of Pharmacy Doctor of Pharmacy program is accredited by the Accreditation Council for Pharmacy Education, which is the national agency that accredits professional degree programs in pharmacy and providers of continuing pharmacy education.

Application Procedure
The School of Pharmacy requires applicants to complete both the Pharmacy College Application Service (PharmCAS) and a supplemental application for admission. The supplemental application is available at pharmcaschool.usc.edu.

Phi Lambda Sigma

The Phi Lambda Sigma chapter was established at USC in 1988. This national pharmacy leadership society is devoted to identifying, supporting and recognizing the contribution of pharmacy students to their colleges, their classmates, their campuses, and to their chosen profession.

Student Housing and Service Facility, Health Sciences Campus
There are limited university-managed accommodations on the Health Sciences Campus. The Blanche and Frank R. Seaver Student Residence, adjacent to the John Stauffer Pharmaceutical Sciences Center, provides dining facilities and a bookstore. For residence information, call (323) 442-1576; for bookstore information, call (323) 442-2674.

Student Health Services, Health Sciences Campus
Services of the Student Health Center, covered by the mandatory student health fee, include the ambulatory care health services provided by the Student Health Center nursing staff. The Student Health Center is located in the USC Health Care Consultation Center, 1500 San Pablo Street, Suite 104, adjacent to the USC University Hospital, one block northeast of the School of Pharmacy. The telephone number is (323) 442-5980. In addition to the student health fee, all Pharm.D. students must have major medical insurance coverage from the USC Student Health Plan. A student may request a waiver of the USC Student Health Plan if covered by a personal medical plan that meets criteria established by the Health Insurance Office.
Both the PharmCAS and the supplemental applications deadlines are November 1. Follow the instructions carefully for both the PharmCAS and supplemental applications. Applications will not be reviewed until both applications have been received by the Office of Admission and Student Affairs. An on-campus interview is required for admission. Only applicants with complete application files and are evaluated for an on-campus interview and only highly qualified applicants will be granted interviews. Not all applicants will be invited for an interview. Applicants are encouraged to apply well before the November 1 deadline to allow time for file review.

All documents mailed directly to the School of Pharmacy and received from PharmCAS by the Office of Admission become the property of the university and cannot be returned or duplicated for other than USC’s purposes.

Admission Guidelines

The Admission Committee considers several factors in making admissions decisions: strong academic performance; the on-site interview including the writing component; letters of recommendation; and other components of the completed application. The committee also considers a candidate’s motivation to pursue pharmacy, interpersonal skills, oral and written communication skills, and leadership abilities. While the School of Pharmacy gives equal consideration to every qualified applicant, the school cannot accommodate all qualified candidates who apply for admission.

Admission of International Students

Applicants for the School of Pharmacy’s Doctor of Pharmacy (Pharm.D.) program holding international visas should contact the USC School of Pharmacy for information.

Entrance Requirements

Admission to the School of Pharmacy requires completion of a baccalaureate degree, completion of the specified prerequisite college courses, with a grade of C or better and a minimum 3.0 (A - 4.0) grade point average and a minimum cumulative 3.0 grade point average.

Pre-pharmacy Requirements

To be eligible for admission to the School of Pharmacy, students must take required prerequisite college courses, including general chemistry, organic chemistry, general biology, physics, biochemistry, upper-division molecular biology or cell biology, microbiology, human physiology, calculus, statistics, a social sciences course related to human behavior, and a course in microeconomics. The science requirements should be completed at an accredited four-year university. All other requirements may be completed at a two-year college.

Grades of pass/no pass or credit/no credit will not be accepted (unless a course is only offered on a pass/no pass basis). Online courses are not accepted for science courses with a laboratory requirement. Prerequisite courses are subject to change, and applicants are encouraged to check with the school prior to submitting an application.

Mathematics and Physical Sciences

Courses must include calculus, statistics, general chemistry, organic chemistry and physics. Only courses for science majors are acceptable. It is highly recommended that math and science courses be completed during the regular academic year and not during a summer term.

Calculus: one semester or two quarters of calculus are required. The course should include differential and integral calculus for science majors. The recommended course at USC is MATH 125.

Statistics: One course in statistics (not business statistics) is required.

General chemistry: a one-year course for science majors, including laboratory, is required. The course should include inorganic chemistry and qualitative analysis. The recommended courses at USC are CHEM 105AB/L.

Organic chemistry: a one-year course for science majors, including laboratory, is required. If the school offers less than a one-year course, the student must complete the second semester at another institution. The recommended courses at USC are CHEM 322AB/L.

Physics: a one-semester (two quarters) course in physics for science majors with laboratory is required (inclusion of thermodynamics and electromagnetism is recommended). The recommended courses at USC are PHYS 153AB/L or PHYS 151L and PHYS 152L. Online courses may not be used for prerequisite courses requiring a laboratory.

Biological Sciences

General biology: a one-year course (two semesters, three quarters) for science majors is required in general biology with laboratory (excluding courses in human anatomy, human physiology, botany and microbiology). If the school offers less than a one-year course, the student must complete the second semester at another institution. The recommended courses at USC are BISC 120LX and BISC 220L.

Microbiology: one course in fundamental microbiology for science majors is required. The recommended course at USC is BISC 300L. Lab is recommended but not required.

Molecular or cell biology: one upper division course in molecular or cell biology for science majors is required. The recommended course at USC is BISC 320L or BISC 411.

Biochemistry: one upper division course in biochemistry for science majors is required. The recommended course at USC is BISC 320L. Upper-division courses must be taken at a four-year institution and may not be taken at a community college.

Human physiology: one course in human physiology for science majors is required (courses in plant anatomy and cell physiology cannot be used to meet this requirement). A combined anatomy and physiology course is acceptable if a full academic year (two semesters or three quarters) is completed.

Social and Behavioral Sciences

One course in human behavior (psychology, sociology, cultural anthropology or related courses is required).

Economics: one course in microeconomics is required. If a one-year course is offered, both semesters must be taken and excess units may be applied to either the remainder of the unit requirements for the subject area or as elective units. The equivalent course at USC is ECON 203.

Advanced Placement and International Baccalaureate Examinations

Applicants may use AP and IB courses to meet certain USC School of Pharmacy prerequisites with the following provisos. AP results are acceptable only with scores of 4 or 5. IB results are acceptable with a score of 6. AP or IB may be applied to a maximum of one semester/one quarter of general chemistry or general biology; they may not be used to satisfy the laboratory requirement. Applicants are advised that a maximum of 2 AP course credits will be accepted and applied to the prerequisites. Note: AP/IB courses used to meet prerequisites will be for course credit only (i.e., they will not count toward the GPA). The Admission Committee recommends that applicants enroll in all of the required pre-pharmacy courses. Please contact the School of Pharmacy Office of Admission for specific information.

Entrance Examination

An in-person interview is required for admission. The PCAT is not required at this time.

Special Admission Program for Entering Freshmen

The Trojan Admission Pre-pharmacy (TAP) program provides priority consideration for admission to the USC School of Pharmacy’s four-year Doctor of Pharmacy (Pharm.D.) program for USC undergraduates who are accepted to the program. Students accepted into the TAP program must apply to the Doctor of Pharmacy program during their senior year and meet all regular admission criteria including a B.A./B.S. degree at USC, meeting academic performance standards and an on-site interview. Students in the TAP program are required to complete all prerequisite courses at USC and meet regularly with a TAP program adviser. The TAP program is designed to attract highly qualified, mature high school seniors applying to USC. A specific listing of USC courses and a recommended program for TAP participants can be obtained from the School of Pharmacy Office of Admission or online at pharmcas.usc.edu/programs/pre/tap.

General Education Requirements (TAP Students Only)

TAP students must meet the university’s general education requirements; see The USC Core and the General Education Program for details.

Pharm.D. Curriculum Requirements

The completion of a four-year professional curriculum is required for the Doctor of Pharmacy (Pharm.D.) degree. The Pharm.D. curriculum is a “block” program. TAP students must enroll in the specified block of courses each semester. Students do not have a choice in the course sequence. Year III and IV students have a limited number of elective course choices. Student progress is permitted only when the prior semester has been successfully completed. Students should view the curriculum outlined here as advisory only and subject to modification. A minimum of 144 units is required for graduation.

Students enrolled in the Doctor of Pharmacy program are required to be licensed by the California Board of Pharmacy as an intern pharmacist for the entire length of the program. Completion of the program requires placement in health care settings for experiential learning. The School of Pharmacy has developed technical standards to inform students of the non-academic requirements of the program. Placement in health care settings may require the applicants pass criminal background screening and/or drug screening tests.

The pharmacist of tomorrow will provide preventive and therapeutic pharmaceutical care, provides drugs to patients, communicate in health care matters, meet the ethical and legal requirements of the practice of pharmacy and maintain professional expertise.

The curriculum committee of the School of Pharmacy has developed guidelines and patient care competencies consistent with interpretations of this new role. An appropriate and dynamic educational program is needed to develop these competencies. Therefore curriculum changes may be necessary in order to meet scientific advances, population profile changes, increasing health
Core Curriculum

Foundation courses in the biomedical, pharmaceutical, social-administrative and clinical sciences comprise the first three years of the program. Students complete Introductory Pharmacy Practice Experiences (IPPE) along with classroom-based courses. The final (fourth) year of the program includes the Advanced Pharmacy Practice Experiences (APPE), which are set in health care settings throughout the greater Los Angeles area, and a capstone course leading to a final paper/project.

### Elective APPE Course (choose one course from list):

- PHRD 714 Nuclear Pharmacy APPE
- PHRD 725 International Pharmacy Practice Experience
- PHRD 726 Directed Clinical Project I APPE
- PHRD 727 Directed Clinical Project II APPE
- PHRD 731 Advanced Geriatrics APPE
- PHRD 735 Clinical Pharmacy Research APPE
- PHRD 737 Pharmaceutical Industry APPE
- PHRD 796ab Doctor of Pharmacy Capstone (a in the fall, and b in the spring)

**Total for Pharm.D. degree:** 144 semester units

### Degree Requirements

All students in the Doctor of Pharmacy degree program must meet course requirements, grade point average requirements and program residency requirements. All course requirements must be completed with a grade of C or better for letter graded courses and a grade of A or B quality in non-letter graded courses. The degree will not be conferred until the student has successfully completed all Doctor of Pharmacy degree requirements. Students are subject to the degree requirements in the USC Catalogue current for the semester of their admission into the Doctor of Pharmacy program. Students must have a cumulative grade point average of 3.0 in the Pharm.D. curriculum to meet graduation requirements.

### Registration

Details of the School of Pharmacy registration procedure will be included in the orientation program prior to the first week of classes.

### Cancellation of Registration

During the first three years of the Doctor of Pharmacy program (Years I, II and III), a student will only be permitted to withdraw from the entire block of courses enrolled in a semester and may not selectively withdraw from a single course or group of courses. During the fourth year, students must contact the School of Pharmacy Office of Admission and Student Affairs for withdrawal guidelines. Procedures for readmission into the program or make-up of incomplete courses are included in the school’s brochure on academic policies and procedures.

### Graduate Degrees

The School of Pharmacy, through the Graduate School, offers curricula leading to the M.S. and Ph.D. degrees in pharmaceutical sciences, in molecular pharmacology and toxicology, and in health economics, as well as a Ph.D. in clinical and experimental therapeutics. The school also offers interdisciplinary M.S. degrees in regulatory science and in the management of drug development. The M.S. degree in pharmaceutical economics and policy is offered jointly with the USC Price School of Public Policy and the Department of Economics. In addition, the school offers dual degrees with the schools of law, business, gerontology and medicine as well as other programs. In addition, the School of Pharmacy offers M.S. degrees in clinical and experimental therapeutics.

### Admission Requirements for the Master of Science and Doctor of Philosophy in Pharmaceutical Sciences

Applicants should possess a bachelor’s degree or equivalent from an accredited college or university. A minimum grade point average of 3.0 and qualifying scores on the GRE in the verbal and quantitative tests are required. In addition to excellent communication skills, applicants should possess knowledge and competence equivalent to one year of acceptable course work in at least three of the following disciplines: mathematics, organic chemistry, physical chemistry, biochemistry, physiology and pharmacology. In addition to the application for admission, three letters of recommendation from faculty members who can evaluate the promise of the applicant for graduate study and a personal statement summarizing career objectives and research interests must be submitted.

Applicants who do not meet all the specific requirements indicated above, but who show unique potential, may be considered for admission with conditions, which may be fulfilled during the first semester of enrollment. See the Graduate School section of this catalogue.

### Admission Requirements for the Master of Science and Doctor of Philosophy in Molecular Pharmacology and Toxicology

Applicants should possess a bachelor’s degree or equivalent from an accredited college or university. A minimum grade point average of 3.0 and qualifying scores on the GRE in verbal and quantitative tests are required. In addition to excellent communication skills, applicants should possess knowledge and competence equivalent to one year of work in at least three of the following disciplines: mathematics, organic chemistry, physical chemistry, biochemistry, molecular biology, cell biology, physiology, pharmacology, economics, statistics and computer sciences. In addition to the application for admission, the candidate must submit three letters of recommendation from faculty members who can evaluate the promise of the applicant for graduate study and a personal statement summarizing the candidate’s career objectives and research interests. Students will be selected for admission on the basis of their academic and scientific record, and, whenever possible, interviews (in person or by phone) with one or more members of the faculty.

### Admission Requirements for the Master of Science in Pharmaceutical Economics and Policy

Applicants for admission must have achieved a minimum 3.0 GPA in undergraduate or professional school and adequate scores on the GRE. In addition, applicants will be required to have completed upper division courses in statistical methods, calculus and microeconomics.

### Admission Requirements for the Doctor of Philosophy in Clinical and Experimental Therapeutics

Applicants should possess a bachelor’s degree in quantitative/biological sciences (or health profession) or an advanced health professional degree (i.e., Pharm.D., M.D., D.O.) from an accredited college or university. A minimum grade point average of 3.0 and qualifying scores on the GRE in the verbal and quantitative tests are required. A student currently enrolled in the Pharm.D. program may pursue a Pharm.D./Ph.D. dual degree following the admission procedure in the Catalogue.

In addition to the application for admission, three letters of recommendation from faculty members who can evaluate the promise of the applicant for graduate study.
and a personal statement summarizing career objectives and research interests must be submitted.

Applicants who do not meet all the specific requirements indicated above, but who show unique potential, may be considered for admission with conditions, which may be fulfilled during the first semester of enrollment. See the Graduate School section of this catalogue for further information.

Admission Requirements for the Doctor of Philosophy in Health Economics

Candidates with a bachelor’s, master’s or Pharm.D. degree are invited to apply. Applicants must have demonstrated proficiency in verbal and written English and aptitude in economics, mathematics, statistics and computer science. Deficiencies in economics and statistical background can be addressed through preliminary course work after admission to the program.

A minimum grade point average of at least 3.0 (A = 4.0) is required. Special attention is given to the grades achieved in economics, statistics and mathematics courses relevant to the program. A qualifying score on the GRE in verbal and quantitative areas is required. Students with GRE scores of 1000 or better will be given priority for financial aid support.

Admission Requirements for the Master of Science in Health Care Decision Analysis

Applicants should possess a bachelor’s degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 and qualifying scores on the GRE examination are required. The program encourages the participation of part-time students with work experience. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential. Additional requirements for international students are outlined by university regulations under Admission of International Students.

Admission Requirements for the Master of Science in Regulatory Science

Applicants should possess a bachelor’s degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 or qualifying scores on the GRE examination are required. The program encourages the participation of part-time students with work experience. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential. Students will be selected for admission, assessed on a case basis. Additional requirements for international students will be assessed on a case-by-case basis. English proficiency is essential. Additional requirements for international students are outlined by university regulations under Admission of International Students.

Admission Requirements for the Master of Science in Management of Drug Development

Applicants should possess a bachelor’s degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 or equivalent and qualifying scores on the GRE or equivalent examination are required. The program encourages the participation of part-time students with work experience. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential.

Admission of International Students to Graduate Degree Programs

All requirements described in this section are also applicable to the admission of international students. In addition, special application and admission procedures are required of international students. Refer to the section on Admission of International Students in this catalogue.

Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Students should also refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Master of Science in Pharmaceutical Sciences

A Master of Science in the pharmaceutical sciences will be granted on the basis of completion of at least 24 units of formal course work and presentation of an acceptable thesis (PSCI 544, 4 units) based on the results of an original investigation.

The 24 units of course work must be at the 500-level or above, exclusive of directed research. At least 16 of the 24 required units must be taken from courses offered within the Department of Pharmacology and Pharmaceutical Sciences (courses within the department have designations of either PSCI or MPTX). The remaining units can be taken from courses offered within the Department of Pharmacology and Pharmaceutical Sciences or in various related disciplines outside the department if approved by the Department of Pharmacology and Pharmaceutical Sciences Graduate Affairs Committee.

Master of Science in Molecular Pharmacology and Toxicology

A Master of Science in molecular pharmacology and toxicology will be granted on the basis of completion of at least 24 units of formal course work and presentation of an acceptable thesis (MPTX 544, 4 units) based on the results of an original investigation.

The 24 units of course work must be at the 500-level or above, exclusive of directed research. At least 16 of the 24 required units must be taken from courses offered within the Department of Pharmacology and Pharmaceutical Sciences (courses within the department have designations of either PSCI or MPTX). The remaining units can be taken from courses offered within the Department of Pharmacology and Pharmaceutical Sciences or in various related disciplines outside the department if approved by the Department of Pharmacology and Pharmaceutical Sciences Graduate Affairs Committee.

Master of Science in Pharmaceutical Economics and Policy

The Department of Pharmaceutical Economics and Policy (School of Pharmacy) offers a program of study leading to the M.S. degree. Applicants must apply to the Graduate School and meet the admissions requirements of the program. This program requires students to demonstrate skills in the analysis of pharmaceutical and health technology innovations, as well as an understanding of contemporary health policy issues.

A minimum of 36 units of graduate level courses is required.

Grade Point Average

A grade point average of at least 3.0 (A = 4.0) must be achieved on graduate course work at USC.

Recommended Courses

It is recommended that the student complete the following 36 units of graduate level course work: ECON 611 (4 units), ECON 500 (4 units) or PPD 501ab (4 units), PM 511al (4 units), PM 512 (4 units) or approved elective, PMEP 509 (4 units), PMEP 519 (4 units), PMEP 529 (4 units), PMEP 538 (4 units) and PMEP 539 (4 units).

Students must complete all recommended courses for the degree within five years of entry into the program.

Additional Degree Requirements

The program requires, in addition to the above requirements, a minimum of four courses at the 600-level or above, with an overall GPA of at least 3.0.

Master of Science in Health Care Decision Analysis Curriculum Requirements

A Master of Science degree in health care decision analysis will be granted upon completion of at least 33 units of formal course work. Students with experience in industry or government can substitute an equivalent amount of formal course work with a research project, subject to the approval of program administrators.

Course requirements normally include a minimum of eight courses (24 units) with emphasis on applied health care policy, business intelligence and technical analysis. Recommended course work and electives include some courses available in other departments of the university and will be selected in consultation with the program advisers according to the areas of intended specialization of the participant in order to meet the credit requirements of the program. Students should develop a specific plan of study in consultation with the graduate advisers before beginning the program.

Grade Point Average

A grade point average of at least 3.0 (A = 4.0) must be achieved on graduate course work at USC.

Master of Science in Regulatory Science

Regulatory science relates the regulatory and legal requirements of biomedical product development to the scientific study needed to establish product safety and efficacy. A Master of Science degree in regulatory science will be granted upon completion of at least 36 units of formal course work, which can include an optional research project in an internship setting. Students with experience in industry or government can substitute an equivalent amount of formal course work for the research project with the permission of the program director. Course requirements normally include a minimum of three courses concerned with regulatory aspects of medical product development and a minimum of one course each in quality assurance, clinical research, business, statistics and law. Recommended course work includes some courses available in other departments of the university. Students should develop a specific plan of study in consultation with the graduate advisers before beginning the program.

Master of Science in Management of Drug Development

A Master of Science degree in the management of drug development will be granted upon completion of at least 32 units of course and research project work. The program is offered on both a full-time and part-time basis, and courses are also available in distance formats. Most students will take six units of directed research as part of this program. Students with appropriate industry or laboratory experience can substitute an equivalent
The Doctor of Regulatory Science program cultivates research, leadership, and intellectual skills for advanced students in the emerging profession of global regulatory science. It is designed to produce graduates with expertise in strategic management, policy development and assessment who can play leadership roles in the public sector, academia and the medical products industry. Participants in this program will take a set of interdependent courses that extend from a strong core of basic regulatory science course work and additionally focus on three major areas: global product strategy, product lifecycle strategy, and project and personnel management. After students have completed foundational course work, they will participate as a cohort that typically has a two-year cycle of classes and an additional year of dissertation research. The program has been designed to meet the needs of individuals who are already working full-time outside of the university. The doctoral degree will be administered by the School of Pharmacy.

Admission

The program is designed for individuals with strong professional experience and demonstrated intellectual and leadership capabilities. Applicants are expected to have a GPA of 3.0 on university-level course work and five or more years of professional experience. Admission requirements include university transcripts, a resume, at least three letters of reference, and a one-page personal statement that outlines the background and goals of the applicant. Students are encouraged even at this early stage to identify areas in which they are interested in conducting research. Additional requirements for international students are outlined by university regulations under Admission of International Students. Students are not required to provide GRE scores unless indicated by the program director.

Students with an appropriate graduate or professional degree may use some previous graduate courses as transfer units toward the overall credit requirements of the Doctor of Regulatory Science program with the approval of the program director and under the normal rules of the university. Students who have graduated from the M.S. program in Regulatory Science can apply all of the previously taken course work toward the doctoral degree. Students with graduate degrees from outside of the regulatory science program are required to take a minimum of 32 units of course work and four units of dissertation research to complete the requirements for graduation. The course work requirements will be determined on an individual basis in consultation with the program director and participant’s advisers.

Curriculum Requirements

The Doctor of Regulatory Science is administered by the School of Pharmacy. It requires participants to complete 64 units that include the following elements:

<table>
<thead>
<tr>
<th>REQUIREMENTS</th>
<th>UNITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Foundation courses</td>
<td>15</td>
</tr>
<tr>
<td>Product lifecycle strategy</td>
<td>8</td>
</tr>
<tr>
<td>Global strategy</td>
<td>8</td>
</tr>
<tr>
<td>Project/personnel management</td>
<td>4</td>
</tr>
<tr>
<td>Research methods</td>
<td>4</td>
</tr>
<tr>
<td>Dissertation</td>
<td></td>
</tr>
</tbody>
</table>

Additional elective course work will be selected in consultation with the program advisers according to the areas of intended specialization of the participant in order to meet the credit requirements of the program. Typically foundational courses and some electives will be taken in the first two years of the program. Advanced courses in product lifecycle strategy, global strategy and project/personnel management will normally be taken by the doctoral cohort of students during the third and fourth years of the program. Dissertation planning and research will typically commence in the third year of the program, and extend until the successful completion of the dissertation.

Foundation Courses

Fifteen or more units of foundation courses may be taken as part of the master’s program in regulatory science, or with prior approval, from another graduate program with similar objectives. Required foundational courses normally include: MPTX 511 Introduction to Medical Product Regulation; two from MPTX 512 Regulation of Pharmaceutical and Biological Products, MPTX 513 Regulation of Medical Devices and Diagnostics, MPTX 514 Regulation of Food and Dietary Supplements; MPTX 515 Quality Systems and Standards; MPTX 516 Medical Products and the Law; MPTX 517 Structure and Management of Clinical Trials. Other courses may be substituted after the participant’s background preparation has been considered.

Product Lifecycle Strategy

Eight or more units of course work related to product lifecycle management, from discovery to commercialization, will be drawn from a broad list of courses offered in regulatory science or through the Title USP Department of Clinical Pharmacy and Pharmaceutical Economics and Policy. Included in this list are: PMEP 526 Pharmaceutical Economics; PMEP 539 Economic Assessment of Medical Care; RSCI 601 Biomedical Commerce. Other courses may also be considered in consultation with the supervisors and program director. Students are also encouraged to take course outside the School of Pharmacy when more specialized courses fit their professional research or development plans.

Global Regulatory Strategy and Policy

Eight or more units of course work related to global regulatory strategy could include some of the following courses: MPTX 519 Global Regulation of Medical Products; PPD 571 International Public Policy and Management Seminar; RSCI 604 Regulatory Strategy in Asia; RSCI 608 Regulatory Strategy in Europe and the Americas.

Project and Personnel Management

Eight or more units of relevant course work should typically include: MPTX 602 Science, Research and Ethics; RSCI 603 Managing Complex Projects; RSCI 605 Managing Organizations and Human Resources. Graduate courses in other university departments or schools can be substituted with the approval of the program director.

Research Methods

Participants will typically take PMEP 509 Research Design or MPTX 522 Introduction to Clinical Design and Statistics.

Student Progress and Assessments

In the third year, students are expected to identify a pair of advisors including one USC faculty member and one advisor from industry or the private sector. Students are typically placed in study groups of three or four whose dissertation interests are most similar and whose collective supervisors will oversee their academic and research progress. This committee will form the dissertation committee.

At the completion of the foundational course work, students will undergo a competency review that will include considerations of academic progress. Students are expected to maintain a GPA of 3.0 and will be required to pass a written examination designed to assure the professional competence of the student prior to advancing further in the program. Students who do not pass this preliminary review, administered prior to entering the dissertation and advanced course work phase of the program, will be notified of dismissal from the program in writing by the associate dean for graduate studies in the School of Pharmacy.

Doctoral Dissertation

Students must enroll in RSCI 794 Doctoral Dissertation for at least two terms, during which time they will develop a dissertation proposal and conduct the necessary research and analysis in collaboration with the supervisory team. The dissertation committee will approve the thesis plan and monitor its progress. Each student will be required to produce and defend an independent dissertation as a requirement for graduation. A maximum of 6 dissertation units can be applied to satisfy the degree requirement, but students should register for the dissertation units in each term subsequent to the completion of their course work requirements. Institutional Review Board approval is required for all human studies.

Doctor of Philosophy in Clinical and Experimental Therapeutics

The goal of the Ph.D. program in Clinical and Experimental Therapeutics is to develop a scientist who is engaged in team science through interdisciplinary education; competent in conducting research across clinical and basic science disciplines; and integrates basic investigations and clinical observations in applied research to better understand disease process, advance drug development and evaluate efficacy and toxicity of therapeutic regimens with the goal of improving the safe, effective and economical use of therapeutic modalities by patients.

The program applies an interdisciplinary approach that focuses the graduate studies directly toward translational, rather than basic science, aiming to educate students with the perspective and skill set to identify important connections between fundamental biomedical research and human disease. This program emphasizes cross-training between clinical and basic sciences focusing on the investigation of disease processes, drug development and the efficacy and toxicity of therapeutic regimens.

Course requirements and research opportunities for graduate students enrolled in the program provide both experimental (basic) and disease-focused experiences that complement the graduate’s research focus.

Course Requirements
A minimum of 60 units is required. At least 26 of the 60 units are to be formal graduate course work at the 500-level or above, exclusive of seminars and directed research. Students must complete 14 units of course work before they are eligible for the screening procedure. Additional course work relevant to the research interests of the student may be required by the student’s advisors or the student’s qualifying exam committee, with an emphasis on cross-training and taking into account the amount and level of previous scientific preparation and the nature of the research dissertation that will be the major endpoint of the program. Specifically, recommended course work differs between students who have an advanced professional degree (Track I) and those who do not (Track II). A maximum of 12 units may be transferred from graduate studies elsewhere.

In the first year, all students (Tracks I and II) are recommended to take 14 units of course work in translational medicine (RSCI 530, 2 units), research design (EXPT 609, 4 units), biostatistics (PM 510L, 4 units), and clinical trial design (MPTX 557, 4 units). In the second year, Track I students will take the remaining 12 units of course work as electives based on the background of the student and the proposed research focus of the student. Track II students who do not have an advanced professional degree are recommended to select from the following courses as part of their electives: systems physiology and disease (INTD 572 and INTD 573, 4 units each) or pathology (INTD 550 and INTD 551, 4 units each). Other electives that can be chosen are INTD 531, INTD 561, PM 523, PM 528, PM 570, PSCI 661L and PSCI 665.

The remaining 34 of the 60 units required for the Ph.D. degree may be fulfilled with other courses including ethics, interdisciplinary seminar, directed research and dissertation. Note that to become eligible to take the qualifying exam, Track II students must fulfill the prescribed clinical experiences that match the disease-related topic of the student’s thesis work as approved by the student’s advisors and advisory committee. Students with a bachelor’s degree in a health care subject area (e.g., nursing, pharmacy, medicine) will be evaluated on a case basis and may be required to meet the therapeutic course work or clinical experience component described above, as determined by their background and previous experiences.

Foreign Language Requirement

There is no formal language requirement. However, an individual qualifying exam committee may require competency in a foreign language or a computer language if it is relevant for the student’s area of research.

Qualifying Exam Committee

Upon admission, the student will be assigned to a member of the graduate faculty who will serve as his or her temporary advisor until a permanent advisor has been identified. The student’s program of study will be under the direction of the qualifying exam committee composed of at least five members, one of whom must be from outside the department. Because of the centrality of research in the Ph.D. program, the student is encouraged to get acquainted with the participating faculty mentors from the day they enter the program, and have selected a research direction, paired graduate advisors (clinical and basic scientists), and qualifying exam committee no later than the third semester of study. The graduate affairs committee will serve as the qualifying exam committee until one is selected.

Screening Procedure

The performance of each student will be evaluated no later than the end of the second semester of enrollment in the graduate program. This screening procedure is conducted by the student’s qualifying exam committee or, if a student has not yet selected a qualifying exam committee, by the graduate affairs committee. The committee reviews the student’s progress to date in various areas including course work, research interests, and laboratory performance on his or her research project or laboratory rotations. If a performance deficiency is determined, specific goals will be established that the student must fulfill to continue in the program. Passing this screening procedure is prerequisite to continuation in the Ph.D. program.

Qualifying Examination

Students will be required to pass a comprehensive written and oral examination on the chosen disease-focused area of research emphasis. The examination will encompass basic scientific concepts relevant to the disease under study and the laboratory techniques in that discipline, fundamental principles of clinical research and design, biostatistics, and therapeutics in the chosen disease-focused area of research. The examination is administered by the qualifying exam committee and consists of two parts: a written examination administered to all students at the end of their second year of study and a detailed written proposal and its oral presentation and defense by the student to the qualifying exam committee. The examination process is conducted by the student’s advisory committee with oversight by the graduate affairs committee. All course and qualifying examination requirements for the Doctor of Philosophy must be completed within two-and-a-half years after admission. After passing these examinations, the student is admitted to candidacy for the Ph.D. degree.

Dissertation

A dissertation based on original investigation in a relevant scientific area is required for the Ph.D. The dissertation research must represent a significant contribution to science and should demonstrate the candidate’s scholarly advancement and competence to undertake independent research. An oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee. (See Theses and Dissertations in the Graduate School section.)

Student Teaching

Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the Ph.D. degree, each student is required to participate in the teaching program of the School of Pharmacy.

Doctor of Philosophy in Health Economics

The Titus Family Department of Clinical Pharmacy and Pharmaceutical Economics and Policy (School of Pharmacy) offers a program of study leading to the Ph.D. degree in Health Economics. The program focuses on microeconomics; econometrics; health economics and policy; public finance; pharmacuetical economics and policy. The program offers one track in microeconomics and a second track in pharmaceutical economics and policy.

Microeconomics Track

Students in the microeconomics track will complete the microeconomic theory and econometric sequence and course work in health economics. They will receive focused training and mentoring in health economics through collaboration on research projects.

There is no formal foreign language requirement. However, competence in the use of one computer programming language is required for the graduate degree. Such competence may be demonstrated either by course work or examination.

Grade Point Average

A grade point average (GPA) of at least 3.0 and typically considerably higher (on a scale of 4.0) must have been achieved on all graduate work at USC for the passing of the screening procedure. The Graduate School requires a minimum GPA of 3.0 on all course work taken as a graduate student at USC.

Unit Requirements and Recommended Courses

The Ph.D. in Health Economics requires a minimum of 64 units of graduate-level courses numbered 500 or higher (excluding 794) and a minimum of 4 units of 794. A maximum of two full courses (eight units) or their equivalent may be PMEP 790 (research) since directed research will generally be incorporated into most 500- and 600-level courses. Exceptions will be considered on an individual basis. Normally, a full-time graduate student course load is three full courses or their equivalent per semester, with a four-course maximum.

</tbody>
</table>

Three electives at the 500 level or higher from the School of Pharmacy’s Health Economics Program and from the departments of economics, mathematical statistics, biometry, epidemiology, public administration, computer science or other relevant fields are required.

Qualifying Exam

The student will be assigned to a member of the graduate faculty who will serve as his or her temporary advisor until the formation of a qualifying exam committee. The student should consult the health economics director of graduate studies on the appointment of a Ph.D. qualifying exam committee after taking the written screening examinations. The chairman of the student’s Ph.D. qualifying exam committee advises the student on matters of curriculum and graduate opportunities. The qualifying exam committee comprises three to five members, at least one of whom can be from outside the department; at least two members must...
specialize in the student’s area of emphasis; and at least three of the members must be suitable for service on the student’s dissertation committee. The composition of all Ph.D. qualifying exam committees must be approved by the health economics director of graduate studies. The student must form his or her qualifying exam committee soon after passing the departmental screening procedure.

**Screening Procedure**

The student’s progress will be reviewed after each semester and before registration for any additional course work to determine if progress has been satisfactory. The screening procedure will include satisfactory performance on written screening exams covering the major topics covered in the recommended course work for each track.

**Seminar Requirements**

Every student is recommended to take and satisfactorily complete 4 units of research seminars chosen from ECON 693, PMEP 698 or the equivalent. At least one of these seminars must be related to the student’s major field, and the same seminar may be taken more than once. Before completing the dissertation, it is recommended that the student present at least one original research paper in a seminar of his or her choice. This paper should typically consist of original results contained in the student’s dissertation.

**Dissertation Proposal Preparation**

The student is required to register for two units of PMEP 790 and write a research paper on a topic suitable for a dissertation. Typically, the chair of the student’s guidance committee directs this work. The resulting essay becomes part of the student’s written dissertation proposal, which is presented and critiqued during the oral portion of the qualifying examination.

**Qualifying Examination**

Upon successful completion of the first two years of course and grade requirements, and following passing of required screening procedures, the student takes a general written and oral examination on the chosen area of research emphasis after presenting a detailed written dissertation proposal. After passing these examinations, the student is admitted to candidacy for the Ph.D. degree.

**Dissertation**

After admission to candidacy, the student forms a dissertation committee comprising three faculty members, one of whom can be from an outside department. The chair of this committee is the dissertation supervisor. The student must register for PMEP 794 each semester, excluding summer sessions, until the dissertation and all other degree requirements are completed.

The student is expected to complete a dissertation based on an original investigation. The dissertation must represent a significant contribution to knowledge and must be defended in an oral examination administered by the dissertation committee (see the section on Theses and Dissertations).

**Student Teaching**

Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the Ph.D., all students are required to undergo training as an educator. This will include participating in seminars on educational techniques and hands-on teaching experiences through participation in didactic and small group teaching in the School of Pharmacy or the USC Price School of Public Policy.

**Pharmaceutical Economics and Policy Track**

Students in the pharmaceutical economics and policy track will specialize in areas such as cost-effectiveness, comparative effectiveness, drug therapy outcomes and organization of pharmaceutical markets. They will receive focused training and mentoring in pharmaceutical economics and policy through collaboration on research projects.

**Foreign Language Requirement**

There is no formal foreign language requirement. However, competence in the use of one computer language required for the graduate degrees. Such competence can be demonstrated either by course work or examination.

**Grade Point Average**

A grade point average of at least 3.0 (A = 4.0) must have been achieved on graduate course work at USC, ECON 615 or a higher-level course in econometrics must be completed with a grade of B or higher.

**Unit Requirements and Recommended Courses**

Students are required to complete a minimum of 64 units of graduate level course work. The following courses are recommended towards fulfilling the 64 unit requirement: ECON 401, ECON 500, ECON 513, ECON 514, ECON 609, ECON 615, PM 511A, PMEP 509, PMEP 519, PMEP 529, PMEP 538, PMEP 539, PMEP 549 and PMEP 698. Students may transfer and substitute up to 24 units of graduate course work from other universities to fulfill the required 64 units of graduate credit subject to the approval of the department.

**Pharmaceutical Economics and Policy Track**

<table>
<thead>
<tr>

**Qualifying Exam Committee**

The student will be assigned to a member of the graduate faculty who will serve as his or her temporary adviser until the formation of a qualifying exam committee. The student should consult the pharmaceutical economics and policy program and from the departments of economics, mathematical statistics, biometry, epidemiology, public administration, computer science or other relevant fields are required.

**Qualifying Exam Committee**

The student will be assigned to a member of the graduate faculty who will serve as his or her temporary adviser until the formation of a qualifying exam committee. The student should consult the pharmaceutical economics and policy program and from the departments of economics, mathematical statistics, biometry, epidemiology, public administration, computer science or other relevant fields are required.
the dissertation committee (see the section on Theses and Dissertations).

**Student Teaching**

Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the Ph.D., all students are required to undergo training as an educator. This will include participating in seminars on educational techniques and hands-on teaching experiences through participation in didactic and small group teaching in the School of Pharmacy.

**Doctor of Philosophy in Pharmaceutical Sciences**

This program emphasizes basic as well as applied research in drug delivery and targeting, utilizing medicinal chemistry, computational chemistry, pharmacuetics, pharmacology, molecular pharmacology, immunology and cell biology.

A minimum of 60 units is required for the Doctor of Philosophy degree. At least 24 units of course work are required at the 500-level or above, exclusive of seminar and directed research. The Doctor of Philosophy candidate must select a minimum of 12 units from courses offered in the Department of Pharmacology and Pharmaceutical Sciences (PPSI), eight of which must be selected from the core 4-unit courses. The remainder of the 24 units may be taken from PPSI courses or from courses offered in other departments that are approved by the PPSI graduate affairs committee. The qualifying exam committee may require more than 24 units of course work. A maximum of 12 units can be transferred from graduate studies elsewhere.

**Foreign Language Requirement**

There is no formal foreign language requirement. However, an individual qualifying exam committee can require competency in a foreign language or some other research tool such as computer language, if this is relevant for the student’s area of research.

**Qualifying Exam Committee**

Upon admission, the student will be assigned to a member of the graduate faculty who will serve as his or her temporary adviser until a permanent adviser has been identified. The student’s program of study will be under the direction of a qualifying exam committee composed of at least five members, one of whom must be from outside the department granting the degree. The student should select a graduate adviser and qualifying exam committee no later than the third semester in residence.

**Screening Procedure**

The performance of each student will be evaluated no later than the end of the second semester of enrollment in the graduate program. This screening procedure is conducted by the student’s qualifying exam committee and, if a student has not yet selected a qualifying exam committee, by the graduate affairs committee. The committee reviews the student’s progress to date in various areas including course work, research interests and laboratory performance on his or her research project or laboratory rotations. If a performance deficiency is determined, specific goals will be established that the student must fulfill to continue in the program. Passing this screening procedure is prerequisite to continuation in the Ph.D. program.

**Qualifying Examination**

A dissertation based on original investigation is required. The research should make a contribution to science and should demonstrate the candidate’s scholarly advancement and competence to undertake independent research. An oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee (see Theses and Dissertations).

**Student Teaching**

Teaching experience is considered an integral part of the training of graduate students. Thus, as part of the general requirements for the Ph.D., each student is required to participate in the teaching program of the School of Pharmacy.

**Doctor of Philosophy in Molecular Pharmacology and Toxicology**

This program emphasizes basic as well as applied research in various aspects of drug discovery and molecular and behavioral mechanisms of action. Research opportunities span investigations of fundamental molecular and cellular physiological mechanisms, including receptor activity, intracellular signaling and the regulation of gene expression, to the molecular bases of disease and aging, including avenues of pharmacological intervention.

A minimum of 60 units is required for the Doctor of Philosophy degree. At least 24 units of course work are required at the 500-level or above, exclusive of seminar and directed research. The Doctor of Philosophy candidate must select a minimum of 12 units from courses offered in the Department of Pharmacology and Pharmaceutical Sciences (PPSI), eight of which must be selected from the core 4-unit courses. The remainder of the 24 units may be taken from PPSI courses or from courses offered in other departments that are approved by the PPSI graduate affairs committee. The qualifying exam committee may require more than 24 units of course work. A maximum of 12 units can be transferred from graduate studies elsewhere.

**Foreign Language Requirement**

There is no formal language requirement. However, an individual qualifying exam committee can require competency in a foreign language or some other research tool such as computer language, if this is relevant for the student’s area of research.

**Qualifying Exam Committee**

Upon admission, the student will be assigned to a member of the graduate faculty who will serve as his or her temporary adviser until a permanent adviser has been identified. The student’s program of study will be under the direction of a qualifying exam committee composed of at least five members, one of whom must be from outside the department granting the degree. The student should select a graduate adviser and qualifying exam committee no later than the third semester in residence.

**Screening Procedure**

The performance of each student will be evaluated no later than the end of the second semester of enrollment in the graduate program. This screening procedure is conducted by the student’s qualifying exam committee and, if a student has not yet selected a qualifying exam committee, by the graduate affairs committee. The committee reviews the student’s progress to date in various areas including course work, research interests and laboratory performance on his or her research project or laboratory rotations. If a performance deficiency is determined, specific goals will be established that the student must fulfill to continue in the program. Passing this screening procedure is prerequisite to continuation in the Ph.D. program.

**Qualifying Examination**

A dissertation based on original investigation is required. The research should make a contribution to science and should demonstrate the candidate’s scholarly advancement and competence to undertake independent research. An oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee (see Theses and Dissertations).

**Student Teaching**

Teaching experience is considered an integral part of the training of graduate students. Thus, as part of the general requirements for the Ph.D., each student is required to participate in the teaching program of the School of Pharmacy.

**Pharm.D./Juris Doctor**

**Admission Requirements**
Admission to the dual Pharm.D./J.D. program is competitive, and involves meeting admission requirements and gaining acceptance to both the School of Pharmacy and the USC Gould School of Law. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students who have a baccalaureate degree may apply to the dual Pharm.D./J.D. degree program in two ways. First, they may apply at the time they submit their Pharm.D. application by concurrently submitting applications to both schools. Students who elect this approach must identify themselves on their Pharm.D. applications as potential dual Pharm.D./J.D. degree students. Students who are admitted to both schools will be offered admission to the dual degree contingent on passing all courses in their first year of the Pharm.D. with a minimum 3.0 GPA. Students pursuing the dual Pharm.D./J.D. degree must notify the law school in a timely fashion that they will be enrolling in the dual Pharm.D./J.D. degree program and will not matriculate at the law school until the following year. Students who are accepted by only one school may choose to attend that school but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the Gould School of Law during their first year of enrollment in the Pharm.D. program prior to the law school’s published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students who are admitted to the law school using this approach would be offered admission to the dual degree contingent on passing all courses in their first year of the Pharm.D. with a minimum 3.0 GPA. See the admissions section of the School of Pharmacy and the Gould School of Law for specific requirements.

Pharm.D. Requirements

Dual degree students must successfully complete 144 units of Pharm.D. and acceptable J.D. units to receive the Pharm.D. degree. The 144 units must include 132 units of required and elective pharmacy course work plus 12 units of J.D. course work deemed acceptable to meet Pharm.D. elective requirements. Dual degree students should graduate with their Pharm.D. degrees at the completion of the first semester of the sixth academic year of the dual degree program. Students will be eligible to sit for the Pharmacy Board Exams after completion of the Pharm.D. degree requirements. However, dual degree students will not actually be awarded their Pharm.D. degrees until they complete requirements for both degrees.

Juris Doctor Requirements

Dual degree students must successfully complete 88 units of J.D. and acceptable Pharm.D. course work during the second to sixth years of the dual degree program to receive the J.D. degree. The 88 units must be composed of 76 units of J.D. course work, including satisfaction of the upper-division writing requirement and any other substantive requirements, plus 12 units of Pharm.D. course work deemed acceptable to meet J.D. elective requirements. No J.D. credit will be awarded for Pharm.D. course work completed prior to matriculation in the law school. Students cannot receive the J.D. degree under requirements for the dual degree program without prior or simultaneous completion of the Pharm.D. degree. Both professions require passing a state board or bar exam to practice the respective professions. Neither of these professional doctoral degrees requires a thesis or comprehensive final exam.

Pharm.D./MBA Dual Degree Program

Responding to the growing demand on pharmacists to be knowledgeable in both science and business administration, the USC School of Pharmacy in 1988 helped pioneer an innovation in pharmaceutical education by offering this unique five-year dual degree program.

The Pharm.D./MBA dual degree program is offered cooperatively by the School of Pharmacy and the USC Marshall School of Business. Students must complete concurrently all requirements established by both schools for their respective degrees.

The program involves completion of the first year in the School of Pharmacy, the second in the Marshall School of Business, and then completion of the balance of both degrees during the third through fifth years. A total of 48 units must be completed in the Marshall School of Business.

First Year: Required Pharmacy School courses.

Second Year: Required MBA courses and graduate business electives.

Third to Fifth Years: 108 units of Pharmacy courses and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units.

The Pharm.D. and the MBA are awarded simultaneously upon completion of the School of Pharmacy and the Marshall School of Business requirements.

Admission Requirements

Applicants to this program must have a baccalaureate degree from an accredited college or university and should apply during their first year of pharmacy studies. Only students who have successfully completed one year in the School of Pharmacy will be considered for admission to the Marshall School of Business. See the Marshall School of Business for admission requirements.

Pharm.D./M.S., Gerontology

The emerging impact of the elderly on the health care system has created a need for health care providers who understand the unique needs of the elderly. As drug therapy remains the primary therapeutic option for chronic disease, the demand for prescription drugs will continue to rise. There is a demand for pharmacists who are equipped to meet the pharmaceutical care needs of this population. Geriatric pharmacy is recognized as a specialty, with board certification through the Commission for Certification in Geriatric Pharmacy. The Pharm.D./M.S. Gerontology program will provide extensive education and training in the unique health care needs of older adults. It will allow student pharmacists with a career interest in geriatrics or gerontology to work with health care planning or delivery organizations to develop and implement progressive pharmaceutical care programs for the elderly.

Application and Admission Requirements

Students who intend to pursue the dual Pharm.D./M.S. degree must be accepted by both programs. This includes having completed a baccalaureate degree from an accredited college or university with a minimum GPA of 3.0 and a minimum equivalent GRE score of 1000. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual Pharm.D./M.S. degree program in two ways. First, they may apply at the time they submit their Pharm.D. application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the Pharm.D. and will be offered admission to the dual degree program. Second, students can apply to the dual degree by submitting an application to the M.S. program during their first year of enrollment in the Pharm.D. program prior to the M.S. published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the M.S. program using this approach will be offered admission to the dual degree contingent on passing all courses in their first year of the Pharm.D. with a minimum 3.0 GPA. Students accepted to the dual degree program must maintain a minimum 3.0 GPA in their Gerontology and Pharm.D. courses.

Recommended Program

First year: Required Year I Pharm.D. course work

Second year: Required Gerontology course work

Third year: Required Year II Pharm.D. course work

Fourth year: Required Year III Pharm.D. course work

Fifth year: Required Year IV Pharm.D. course work

Graduation Requirements

Students must complete all requirements for the Pharm.D. (see the Professional Degrees page) and M.S., Gerontology degrees as listed in the current catalogue with a minimum cumulative 3.0 GPA. The specific M.S. course requirements for the dual Pharm.D./M.S. degree are listed on the School of Gerontology Dual Degree Programs page.

Pharm.D./Master of Science, Global Medicine

The dual degree in Pharmacy and Global Medicine is designed for students who are interested in providing pharmaceutical care to underserved populations around the world. Students enrolled in this dual degree program will benefit from an advanced understanding of the role of, and issues surrounding, modern medicine in developing countries.

Requirements

Students must gain admission to and fulfill the degree requirements for both programs, which include 138 units for the Doctor of Pharmacy and 24 units for the M.S. in Global Medicine. Six units of elective units can be used towards the Pharm.D. elective requirement, and PHRD 503 and PHRD 504 substitute for MEDS 503 and MEDS 504.

Program Adaptation

Because MEDS 503 and MEDS 504, core requirements for the M.S. in Global Medicine program, cover the same material as PHRD 503 and PHRD 504, the Pharm.D./Global Medicine dual degree program substitutes PHRD 503 and PHRD 504 for MEDS 503 and MEDS 504 as core requirements for the dual degree.

Pharm.D./Master of Science, Health Care Decision Analysis

The Health Care Decision Analysis (HCDA) program gives students the tools and knowledge to succeed in the complex world of health care data analytics, international access and reimbursement, product pricing and value assessment, insurance innovations and design, along with competitive business intelligence. A dual degree of Doctor of Pharmacy and Master of Science in Health Care Decision Analysis will be granted upon the completion of the course work required for the Pharm.D. degree, and the HCDA core and elective units. Dual degree students will be credited up to 9 units of appropriate Pharm.D. course work toward the M.S., HCDA. Dual degree students will select from a series of HCDA core courses and required electives to meet the M.S., HCDA degree requirements. Electives will be considered from the disciplines: applied
health care policy, business intelligence, regulatory science, and health care economics, along with all required coursework and rotations offered through the USC School of Pharmacy. Students should develop a specific plan of study in consultation with program administrators before beginning the program.

Pharm.D./Master of Public Health

The School of Pharmacy and the Master of Public Health program, in recognition of the rapidly changing health care environment, and in response to the growing demand for pharmacists who are knowledgeable in both pharmacy and population-based health care issues, have developed a dual degree program. The joint Pharm.D./M.P.H. degree will enable graduates to be more responsive to today's health care needs and will provide training for pharmacists who seek to be agents of change within the profession and to assume leadership roles in the pharmacy field and in public health at the local, state and national levels.

Students who are enrolled in the School of Pharmacy must apply to the Master of Public Health program no later than January of their first year. All requirements for admission to the regular MPH program must also be fulfilled by dual degree applicants.

The Pharm.D./M.P.H. program spans five years (four years of pharmacy school courses and one year of public health courses). Students begin the core MPH courses following the successful completion of the first year of pharmacy school. The last three years of the program are devoted to course work and the clinical rotations of the School of Pharmacy and to the completion of the elective courses and practicum (field experience) of the MPH program.

All students in the Pharm.D./M.P.H. program must meet course requirements, grade point average requirements and program residency requirements of both programs. Students must have a cumulative GPA of 3.0 in the Pharm.D. curriculum and a 3.0 in the MPH curriculum to meet graduation requirements.

The Pharm.D. and the MPH degrees are awarded simultaneously upon completion of the School of Pharmacy and the Master of Public Health requirements.

Admission Requirements and Procedures

Students applying for the dual degree program must meet the respective admission requirements for each program and must have a baccalaureate degree. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual Pharm.D./M.P.H., Regulatory Science degree program in two ways. First, they may apply at the time they submit their Pharm.D. application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the Pharm.D. and will be offered admission to the dual degree program contingent on passing all courses in their first year of the Pharm.D. with a minimum 3.0 GPA. Students who are accepted by only one program may choose to attend that program but will not be eligible for the dual degree.

Second, students can apply to the dual degree by submitting an application to one of the Ph.D. programs in the School of Pharmacy during their first two years of enrollment in the Pharm.D. prior to the respective published application deadlines for the Ph.D. programs. Students who elect this approach must apply through the Pharm.D. program. Students admitted to the Ph.D. program using this approach will be offered admission to the dual degree contingent on their having maintained a minimum 3.0 GPA in the Pharm.D. program.

Pharm.D./Graduate Certificate in Gerontology

This integrated program in pharmacy and gerontology prepares students with an interest in geriatric pharmacy to assume leadership roles at academic, administrative or policy levels within the profession. The program involves the completion of 16 units of core area courses in physiology, psychology, sociology and social policy aspects of aging offered by the USC Davis School of Gerontology. In addition, students are required to complete 8 units of approved elective courses in gerontology or geriatric pharmacy to be credited toward the requirements for the Pharm.D. and the Graduate Certificate in Gerontology. It is expected that the program can be successfully completed by candidates taking electives in geriatric pharmacy or gerontology during the regular semester and completing one core course in gerontology during each summer in the four year Pharm.D. program.

See the Davis School of Gerontology for complete requirements.

Admission Requirements

Students who have a baccalaureate degree from an accredited college or university must submit separate applications to the School of Pharmacy and the Davis School of Gerontology. All requirements for admission to the regular Pharm.D. program must be fulfilled by the candidate. GRE scores are not required for admission to the certificate program.

Certificate in Clinical Research Design and Management

The graduate certificate in clinical research design and management is designed to strengthen the statistical, research and project management skills of clinical researchers and their associated clinical team members. Students must complete at least 12 units of course work including at least two courses in clinical design and trial management, one course in ethics and one course in a
specialized aspect of design, management or statistics, subject to the approval of the program director. The program will include course work delivered in nontraditional formats such as intensive weekend sessions and will use distance learning tools, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have bachelor’s degrees from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Certificate in Patient and Product Safety

The graduate certificate in patient and product safety is a 12-unit program that educates students in the emerging field of safety and risk management in the health care environment. It is designed to produce graduates who have a particular expertise in the evaluation and mitigation of medical errors and health-care product problems. Course work is typically delivered in nontraditional formats such as intensive weekend sessions and will use distance learning tools, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have bachelor's degrees from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Certificate in Preclinical Drug Development

The graduate certificate in preclinical drug development provides advanced foundational training in preclinical aspects of drug development, translational research and regulatory control. Students must complete at least 12 units of course work including at least three courses in preclinical design and development (typically, RSCI 530 Translational Medicine: An Overview, RSCI 531 Drug Discovery, RSCI 532 Early Stage Drug Development) and one course in a related aspect of research design, regulation or ethics, subject to the approval of the program director. The program will include course work delivered in nontraditional formats such as intensive weekend sessions and will use distance capabilities.

Continuing Education
The School of Pharmacy, Office of Continuing Professional Development, is a recognized provider of continuing pharmacy education accredited by the Accreditation Council for Pharmacy Education (ACPE) and recognized by the California State Board of Pharmacy and throughout the United States.

The school serves as a primary educational resource for pharmacists in California and as a supplementary resource for other health professionals and pharmacists, nationally and internationally.

Programs are designed to educate pharmacists about current issues in pharmaceutical care, practice management, therapies and other topics of professional interest. Continuing education programs are held at the School of Pharmacy and other locations.

For information concerning continuing education programs contact: Office of Continuing Professional Development.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

- Clinical And Experimental Therapeutics (CXPT)
- Health Care Decision Analysis (HCDA)
- Molecular Pharmacology and Toxicology (MPTX)
- Pharmacy (PHRD)
- Pharmaceutical Economics and Policy (PMEP)
- Pharmaceutical Sciences (PSCI)
- Regulatory Science (RSC)

Clinical And Experimental Therapeutics (CXPT)

**CXPT 609 Preclinical Experimental Therapeutic Development (4, FaSpSm)** Evolution of a chemical entity as it is transformed into a drug candidate. Open only to students in clinical and experimental therapeutics and management of drug development.

**CXPT 664 Clinical Problem Solving (3, Sp)** (Enroll in PHRD 664)

Health Care Decision Analysis (HCDA)

**HCDA 501 Fundamentals of Health Care Insurance Design (3, Fa)** Introduction to insurance payer types, functions, actuarial pricing methods, network design and business operations impacting the provision of health benefits and reimbursement for medical products and services. Recommended preparation: undergraduate degree in pharmacy, medicine, other health care, economics and administrative sciences or related disciplines; enrollment in a related M.S. or Ph.D. program.

**HCDA 502 Comparative International Health Care Systems (3)** Health coverage and funding across seven industrial countries, with examination of variances and similarities in stated policy and outcomes by region and population mix. Recommended preparation: HCDA 501 and undergraduate degree in pharmacy, medicine, other health care, economics and administrative sciences or related disciplines; enrollment in a related M.S. or Ph.D. program.

**HCDA 503 Comparative Health Care Intelligence and Pricing (3)** Analysis and techniques to evaluate marketplace opportunities and value and pricing determinations for medical products; considers product launch and positioning strategies, intelligence gathering, and decision-making. Recommended preparation: HCDA 501 and undergraduate degree in pharmacy, medicine, other health care, economics and administrative sciences or related disciplines; enrollment in a related M.S. or Ph.D. program.

**HCDA 509 Competitive Health Care Reform (3)** Coverage, access and reimbursement changes from health care reform; individual and mandated benefits, medical loss ratio, health care exchanges and impact of comparative effectiveness review.

**HCDA 520 Health Economic and Outcomes Methodology (3)** Comprehensive review of economic assessment methods, data validation and outcomes research, clinical trials.

**HCDA 523 Healthcare Literature Analysis and Applications (3)** Review and critique of health care literature. Core analytical methods used to deconstruct and evaluate published research through case studies. Recommended preparation: HCDA 520.

**HCDA 525 Healthcare Literature Analysis and Applications (3)** Healthcare literature analysis and applications. Core analytical methods used to deconstruct and evaluate published research through case studies. Recommended preparation: HCDA 520.

**HCDA 550 Healthcare Innovation: Creativity to Value (3)** Systematically review creativity and innovation techniques across healthcare industry, examine breakthrough genomic and biopharmaceutical processes and thinking, evaluate novel therapeutic approaches, and economic measures transforming outcomes.

**HCDA 553 Advanced Pricing Strategies (3)** Positioning products in global markets; market share targets, payer value, life cycle and launch techniques, tools for formulary positioning and reimbursement.

**HCDA 560 Managing Effective Partnerships and Mergers (3)** M&A and partnering in the health care industry; law, due diligence, contracts, research alliances, structured agreements, global partners, and tactical business strategies.

**HCDA 569 Directed Research (1-12, max 12, FaSpSm)** Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

**HCDA 599 Special Topics (2-4, max 8, FaSpSm)** Special topics in Healthcare Decision Analysis.

Molecular Pharmacology and Toxicology (MPTX)

**MPTX 500 Molecular Pharmacology and Toxicology I (4, Fa)** This is the first part of a two-semester introductory and survey course for the molecular pharmacology and toxicology degree program. Prerequisite: knowledge of biochemistry.

**MPTX 501 Molecular Pharmacology and Toxicology II (4, Sp)** The second part of the two-semester course covers the general aspects of molecular pharmacology and toxicology on the basis of biochemical, molecular, biological and environmental approaches. Prerequisite: MPTX 500.

**MPTX 502 Pharmacology (4, Fa)** Fundamentals of pharmacology in the context of the rapidly developing knowledge of related disciplines.

**MPTX 510 Introduction to Medical Product Regulation (3, Sm)** Introduction to regulatory requirements surrounding medical product development, manufacturing and marketing; operation of federal, state and international regulatory bodies. Recommended preparation: undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**MPTX 511 Regulation of Pharmaceutical and Biological Products (3, Sm)** Ensuring safety and effectiveness of new drugs and biologics; marketing and monitoring approved pharmaceutical/biological products; management of genetically engineered products. Recommended preparation: undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**MPTX 513 Regulation of Medical Devices and Diagnostics (3, Sm)** Development and testing of new medical products in accordance with U.S. and international regulatory requirements. Recommended preparation: undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**MPTX 514 Regulation of Food and Dietary Supplements (3, Sm)** Regulation and testing of foods, food additives and dietary supplements in the U.S. and abroad. Recommended preparation: undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**MPTX 515 Quality Systems and Standards (3, Sm)** Principles of quality assurance and quality control for medical-product development and manufacture. Recommended preparation: undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**MPTX 516 Medical Products and the Law (3, Fa)** Legal issues affecting intellectual property, medical product development, marketing and safety, taught through case studies and lectures. Recommended preparation: undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**MPTX 517 Structure and Management of Clinical Trials (4, FaSpSm)** Development and execution of clinical trials: biostatistical principles, good clinical practices, project management and documentation.
PHRD 519 Global Regulation of Medical Products (3, Fa) Regulatory requirements governing medical products in European Union, Asia and other global markets.

PHRD 520 Risk Management for Health Care Products (3, Sp) Risk assessment and management techniques, including FMEA, HACCP, HAZAP, human factors analysis; policies, regulations, requirements and standards; loss control and liability prevention.

PHRD 521 Working with Patients (3) A discussion of the unique technological and philosophical issues that challenge modern scientists and a discernment of ethical responses to those challenges.

PHRD 522 Technologies and Applications (3, Fa) Principles and applications of controlled, targeted, and self-regulating drug delivery. Methods to deliver therapeutic peptides, proteins and genetic materials. Open to Doctor of Pharmacy students only.

PHRD 523 Management within Health Care Organizations (3, Fa) Management of the professional practice of pharmacy in organized health care systems. Introduction to formulary development and outcome analysis. Open to Doctor of Pharmacy students only.

PHRD 524 Public Health and Epidemiology (3, Sp) Introduction to epidemiology, environmental health, health education, health care organizations and financing. Orientation to social and governmental controls on the health care system. Open to Doctor of Pharmacy students only.

PHRD 525 Biochemical and Molecular Sites of Drug Action (4, Fa) Basic principles of drug action and receptor actions. Includes their application to the understanding and treatment of disease. Provides the scientific basis of pharmaceutical action.

PHRD 526 Management of Pharmaceutical Practice (3, Fa) Management of the practice of pharmacy in organized health care systems. Introduction to formulary development and outcome analysis. Open to Doctor of Pharmacy students only.

PHRD 527 Therapeutics I (4, Fa) Introduction to the principles of pharmacology, biomedical chemistry, pharmacogenomics and clinical therapeutics. Open to Doctor of Pharmacy students only.

PHRD 528 Therapeutics II (3, Sp) Integrated teaching of the principles of pharmacology, biomedical chemistry, pharmacogenomics, and clinical therapeutics. Open to Doctor of Pharmacy students only.

PHRD 529 Therapeutics III (3, Sp) Integrated teaching of basic and clinical pharmacokinetic/pharmacodynamic concepts. Open to Doctor of Pharmacy students only.

PHRD 530 Therapeutics IV (4, Sp) Integrated teaching of biomedicinal chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs, with emphasis on pharmaceuticals treating diseases associated with the central nervous system. Open to Doctor of Pharmacy students only.

PHRD 531 Biochemical and Molecular Sites of Drug Action (3, Sp) Introduction to biomedicinal chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs with an emphasis on treating diseases of the renal, GI and pulmonary systems. Open to Doctor of Pharmacy students only.

PHRD 532 Therapeutics V (4, Fa) Integrated teaching of biomedicinal chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs with emphasis on pharmaceuticals affecting cardiovascular and circulatory diseases. CPR certification. Open to Doctor of Pharmacy students only.

PHRD 533 Therapeutics VI (3, Fa) Integrated teaching of biomedicinal chemistry, pharmacology, clinical pharmacokinetics and therapeutics of drugs with emphasis on pharmaceuticals affecting cardiovascular and circulatory diseases.
Recognizing resources available for drug information, care policy and financing, patients' chart organization, institutions, managed care, disease management, health principles, and OTC agents. Open to Doctor of Pharmacy including a review of pharmacy laws, compounding encompassing contract principles and forms of ownership, students only.

Pharmacy management principles, and introduction to community pharmacy practice involving location analysis, Development of specialized knowledge and skills in provide students with an understanding of ethical issues and health care outcomes applying pharmacoeconomic profession; economic assessment of drug therapy costs and promotion of its disorders. Open only to Doctor of Pharmacy students only.

PHRD 664 Community Pharmacy I (3, Fa) Development of specialized knowledge and skills in community pharmacy practice involving location analysis, pharmacy management principles, and introduction to business law concepts. Open to Doctor of Pharmacy students only.

PHRD 662 Community Pharmacy II (3, Sp) A continuation of pharmacy business law concepts encompassing contract principles and forms of ownership, including a review of pharmacy laws, compounding principles, and OTC agents. Open to Doctor of Pharmacy students only. Prerequisite: PHRD 651.

PHRD 663 Health Systems Pharmacy I (3, Fa) Understanding formal and informal organizations in institutions, managed care, disease management, health care policy and financing, patients' chart organization, and clinical monitoring parameters. Open to Doctor of Pharmacy students only.

PHRD 664 Health Systems Pharmacy II (3, Sp) Recognizing resources available for drug information, familiarity with institutional formularies, medication counseling, writing chart notes, and clinical activities at an off-campus health care institution. Open to Doctor of Pharmacy students only. Prerequisite: PHRD 557.

PHRD 665 Geriatric Pharmacy I (3, Fa) Specialized knowledge and skills in geriatric pharmacy, pharmacology of aging, and unique functions of health care team providing care to the elderly patient. Open to Doctor of Pharmacy students only.

PHRD 666 Geriatric Pharmacy II (3, Sp) Specialized knowledge and skills in gerontology and geriatric pharmacy including the pathophysiology of selected cardiovascular, endocrine, genitourinary gastrointestinal disorders, osteoarthritis, and osteoporosis. Open to Doctor of Pharmacy students only. Prerequisite: PHRD 559.

PHRD 657L Basic Research Design (3, max 6, FaSp) Research experience to integrate research into Doctor of Pharmacy program. Research focuses on industrial, academic, or governmental issues. Open to Doctor of Pharmacy students only.

PHRD 658 Sleep and the Pharmacologic Management of Its Disorders (3, FaSp) Overview of normal sleep manifestations, and treatment of common sleep disorders, and the pharmacist’s role in assessment, treatment, and referral. Open to Level III Doctor of Pharmacy students only.

PHRD 659 Molecular Therapeutics: Signal Transduction (3, FaSp) Principles of molecular therapeutics against signaling pathways; emphasis on biological mechanisms underlying hormone, growth factor, and neurotransmitter-mediated gene regulation, proliferation, and cell death. Open to Level III Pharm.D. students only.

PHRD 660 Disease State Management I (3, FaSp) The processes required to develop disease state management protocols based on data drawn from the medical research literature. Open to Level III Doctor of Pharmacy students only.

PHRD 661 Pharmacy Practice in Women's Health (3, FaSp) The pharmaceutical care of women patients is emphasized. Therapeutic, psychosocial factors and current research in women’s health. Open to Level III Pharm.D. students only.

PHRD 662 Psychiatric Pharmacy Practice (3, Sp) Specialized knowledge and skills in psychiatric pharmacy practice including child, adult, and geriatric psychopharmacology applied to inpatient and outpatient treatment. Open to Level III Pharm.D. students only.

PHRD 663 Pharmacological Development (3, FaSp) Examination of pharmaceutical product development process including discovery, preclinical/case studies, regulatory-legal issues, and marketing. Open to Doctor of Pharmacy students only.

PHRD 664 Clinical Problem Solving (3, Sp) Integration of physical assessment, laboratory tests, history-taking, and diagnosis to formulate decisions for optimal treatment plans in specific disease states. Open to graduate pharmacy students only.

PHRD 665 Complementary/Alternative Therapeutics (3, FaSp) Examines the therapeutic use of complementary/alternative medicines, such as herbal medicines, homeopathic drugs, vitamins and other nutritional supplements. Open to Level III Pharm.D. students only.

PHRD 666 Therapeutic Drug Monitoring (3, FaSp) Application of pharmacokinetic and pharmacodynamic principles to individualize patient drug regimens. Open to Level III Pharm.D. students only.

PHRD 667 Drugs of Abuse (3, FaSp) Specialized knowledge and skills in specific substance abuse-related areas. Each area will include addiction, wellness, and prevention components. Open to Doctor of Pharmacy students only.

PHRD 668 Computing Application (3, FaSp) Specialized knowledge and skills using computers in professional practice: telecommunication protocols, typical patient databases in hospital and community pharmacies, drug interactions, insurance billing, inventory control. Open to Doctor of Pharmacy students only.

PHRD 669 Health Care Needs of Special Populations (3, FaSp) Health care needs of the poor will be examined through participation in a multidisciplinary community clinic setting focusing on medication counseling and compliance. Open to Level III Pharm.D. students only.

PHRD 670 Marketing and Development in the Pharmaceutical Industry (3, FaSp) Basic and advanced strategies for marketing and development of new compounds or indication in the pharmaceutical industry. Recommended preparation: PHRD 663.

PHRD 671 Pharmacy Education Seminar (3, FaSp) A seminar course with a focus on educational methods and teaching skills providing career development for students interested in academia. Open to Doctor of Pharmacy students only.

PHRD 675 Travel Medicine (3, FaSp) An elective course for emphasizing the role of the pharmacist in preventing and treating travel related medical conditions. Open only to pharmacy majors.

PHRD 677 Risk Assessment and Management in Pharmacy Practice (3, FaSp) Specific risk management issues, legal and professional expectations of pharmacists, and assessing and avoiding risk. Open only to Doctor of Pharmacy students.

PHRD 701 Acute Care Clinical APPE (6, FaSpSm) Application of pharmaceutical care principles to the adult patient population in an acute care environment. Pharmacology, pharmacokinetics, and disease state management will be emphasized. Open to Doctor of Pharmacy students only. Graded CR/NC.

PHRD 703 Long Term Care Clerkship (6, FaSpSm) Application of pharmaceutical care to patients in long term care environments. Understanding of the therapeutic, legal and special needs of this patient population. Open to Level IV Doctor of Pharmacy students only.

PHRD 704 Primary Care APPE (6) Disease state management and a primary care setting. Modification and design of drug therapy regimens and primary care patient using a team based approach. Open to Doctor of Pharmacy students only. Graded CR/NC.

PHRD 705 Community Pharmacy APPE (6, FaSpSm) Pharmaceutical care principles applied to the community pharmacy environment. Participating in the development, implementation and outcome evaluation of patient care services in the community. Open to Doctor of Pharmacy students only. Graded CR/NC.

PHRD 706 Geriatrics Clerkship (6, FaSpSm) Drug therapy and management of geriatric patients with a focus on unique medical, economic, and psycho-social problems of this population. Open to Level IV Doctor of Pharmacy students only.

PHRD 714 Nuclear Pharmacy APPE (6, FaSpSm) Provides practical and theoretical aspects of
radiopharmacy services delivery. Open only to Pharm.D. students.

PHRD 718 Hospital Pharmacy Practice APPE (6, FaSpSm) Practical experience in the practice of hospital pharmacy. Administrative, practice-based and therapeutic competencies emphasized. Open to Doctor of Pharmacy students only.

PHRD 725 International Pharmacy Practice Experience (5, 6, FaSpSm) Practical experience in the practice of pharmacy in the international setting. Students will visit an international pharmacy practice setting and complete a project. Open to Doctor of Pharmacy students only.

PHRD 726 Directed Clinical Project I APPE (6, max 12, FaSpSm) Directed educational opportunities not presently offered as electives, e.g., research project or new and evolving practice models.

PHRD 727 Directed Clinical Clerkship Project II (6, FaSpSm) Directed educational opportunities not presently offered as electives, e.g., research projects or new and evolving clerkships. Open to Doctor of Pharmacy students only.

PHRD 730 Acute Care Geriatric Clerkship (6, FaSpSm) Pharmaceutical care principles applied to the acutely ill geriatric patient population. Emphasis on drug therapy problem solving, physiology, pharmacokinetics and compliance problems. Open to Doctor of Pharmacy students only.

PHRD 731 Advanced Geriatrics APPE (6, FaSpSm) Directed projects/practical experience in geriatric drug therapy. Open to Doctor of Pharmacy students only.

PHRD 735 Clinical Pharmacy Research APPE (6, FaSpSm) Practical experience within a pharmaceutical company may include: clinical affairs, drug development, research, and/or marketing process. Open to Doctor of Pharmacy students only.

PHRD 738 Pharmaceutical Industry APPE (6, FaSpSm) Practical experience within a pharmaceutical company may include: clinical affairs, drug development, research, and/or marketing process. Open to Doctor of Pharmacy students only.

PHRD 750 Advanced Pharmacy Practice Elective (APPE) (6, max 10, FaSpSm) Pharmacy practice experience (internship) course in a health care setting. Open only to pharmacy students.

PHRD 752 Non-traditional Advanced Pharmacy Practice Elective (APPE) (6, FaSpSm) Pharmacy practice experience (internship) course in a non-traditional or emerging setting. Open only to pharmacy students.

PHRD 754 Directed Research (1A&8211;12, max 15) Research leading to doctorate in Clinical and Experimental Therapeutics. Graded CR/NC.

PHRD 757 Doctor of Pharmacy Capstone (0-0, FaSpSm) Capstone course required for completion of Doctor of Pharmacy degree. Graded CR/NC. Open only to pharmacy students.

PHRD 758 Doctor of Pharmacy Capstone (0, SpSm) Capstone course required for completion of Doctor of Pharmacy degree. Graded CR/NC. Open only to pharmacy students.
targeting. Recommended preparation: college level chemistry and biology.

**RSCI 667 Intracellular Drug Delivery and Targeting (2, a 3-year, Sp)** Mechanisms of membrane trafficking and intracellular transport and the utilization of these mechanisms in drug delivery and targeting. Recommended preparation: college level chemistry and biology, INTO 531.

**RSCI 756ab Seminar in Pharmaceutical Sciences (1-1, FaSpSm)** Review of current pharmaceutical and related research topics.

**RSCI 790 Research (1-8, 1, FaSpSm)** Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

**RSCI 791L Research (2-12, no max)** Directed research for the M.S. thesis or Ph.D. dissertation.

**RSCI 794abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm)** Credit on acceptance of dissertation. Graded IP/CR/NC.

### Regulatory Science (RSCI)

**RSCI 520 Introduction to Risk Management for Health Care Products** Historical development, formal language and theoretical approaches to risk management in health care and medical product environments; policies, regulations, standards; liability prevention and loss control. (Duplicates credit in MPTX 520.) Recommended preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**RSCI 521 Seminars in Regulatory Science (1, max 6, FaSpSm)** Current problems in regulatory affairs, legal management, preclinical and clinical testing, scientific evaluation and quality assurance. (Duplicates credit in former MPTX 521.) Graded CR/NC. Recommended preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in M.S., Regulatory Science program.

**RSCI 522 Advanced Concepts in Risk Management for Medical Products** Managing risk in demanding health-care and medical-product situations: clinical trials, emerging technologies, counterfeit prevention, hard-to-reach populations. Recommended preparation: undergraduate or professional degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in M.S., Regulatory Science, Certificate in Patient and Product Safety, or permission of instructor.

**RSCI 523 Introduction to Drug and Food Toxicology** Factors affecting toxic responses to foods and drugs; dose-response relationships, absorption, distribution, biotransformation, elimination of toxicants; target organ toxicity, teratogenesis, mutagenesis, carcinogenesis, food allergies, risk assessment. Recommended preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**RSCI 527 Medical Product Safety** Management of medical product safety by manufacturers/suppliers including: safe manufacturing, labeling, packaging; pharmacovigilance, field observations, complaint handling; record-keeping, safety issues documentation; crisis management/recalls. Recommended preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**RSCI 528 Safety in the Health Care Environment** Regulatory expectations for health care facilities and services: JCAHO certification, environmental risk management, management of medical and medication errors; identification of hazards. Recommended preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**RSCI 529 Application of Risk Management Tools and Techniques** Use of risk management tools in the medical products arena: functional analysis, fault-tree analysis, failure modes and effects analysis, HACCP and six sigma methods. Recommended preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**RSCI 530 Translational Medicine: An Overview (2, FaSpSm)** An overview of principles and concepts underlying drug discovery and development, including terminology of translational science. Recommended preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in M.S., Regulatory Science, Certificate in Preclinical Drug Development and M.S., Management of Drug Development.

**RSCI 531 Industrial Approaches to Drug Discovery (4, FaSpSm)** Examines the process of drug discovery from selection of disease and therapeutic target to characterization and validation of lead drug candidates. Recommended preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in M.S., Regulatory Science, Certificate in Preclinical Drug Development and M.S., Management of Drug Development.

**RSCI 532 Early Stage Drug Development (3, FaSpSm)** Explores the activities involved in transforming an early drug or biological candidate to a drug approved for marketing by regulatory bodies. Recommended preparation: undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in M.S., Regulatory Science, Certificate in Preclinical Drug Development and M.S., Management of Drug Development.

**RSCI 533 Safety Evaluation during Drug Development (3)** Safety pharmacology/toxicology requirements mandated by FDA and other regulatory agencies to move a new chemical entity from discovery stage to market approval.

**RSCI 534 Drug Development in CNS Disorders (4)** Successes and challenges related to central nervous system therapeutics. Major brain disorders, current and future therapeutic targets and clinical trial designs.

**RSCI 540 Analysis of Food and Dietary Supplement Regulations (3)** Changes and interpretation of regulations affecting food supply and dietary supplements impacting global markets. Product development, health-claim positioning, advertising, media messaging, consumer choices, personal health outcomes.

**RSCI 590 Directed Research (1-12, max 12, FaSpSm)** Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

**RSCI 596 Internship for Curricular Practical Training in Regulatory Science (1, max 4, FaSpSm)** Part-time or full-time practical work experience in Regulatory Science. The internship must be located at an off-campus facility. Students are individually supervised by faculty. Graded CR/NC. Recommended preparation: undergraduate or professional degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in M.S., Regulatory Science.

**RSCI 601 Biomedical Commerce (4)** Introduction to business principles appropriate to medical products, including: supply and demand, product entry-exit strategies, financing, reimbursement, marketing and pricing in global marketplace. Recommended preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in M.S., Regulatory Science.

**RSCI 603 Managing Complex Projects (3)** Theory and methods to manage complex projects in medical products sectors; timelines, intellectual property, security, contracts, budgets, review activities, reports, electronic tools, cross-cultural communications. Recommended preparation: undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**RSCI 604 Regulatory Strategy in Asia (4, FaSpSm)** Regulatory policy, standards and practices in different Asian markets; product licensing, import/export management, materials sourcing, quality systems compliance, reimbursement, prescribing practices. Travel may be required. Recommended preparation: undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**RSCI 605 Managing Organizations and Human Resources (3)** Theory and practice of personnel management, organizational structure and industrial relations in small, growing enterprises and large global companies typical of pharmaceutical and medical device sectors. Recommended preparation: undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**RSCI 606 Regulation of Emerging Technologies and Biological Products (3)** Policies, testing and regulatory requirements affecting commercialization of biologies and novel medical technologies. Focus on biologics, blood and tissue products, radiopharmaceuticals and nanotechnology.

**RSCI 608 Regulatory Strategy in Europe and the Americas (4)** Regulatory strategy in EU, Canada, Mexico and South America; culture, health-care practices, reimbursement, product registration, quality systems, trade restrictions, import/export requirements. Travel may be required. Recommended preparation: undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.

**RSCI 790 Directed Research (1-12, max 12, FaSpSm)** Research leading to the doctorate. Maximum units which may be applied towards the degree to be determined by the department. Graded CR/NC.
USC Price School of Public Policy

The USC Sol Price School of Public Policy is home to more than 200 faculty members from diverse disciplines and backgrounds who contribute to an environment that fosters innovation, entrepreneurship, experimentation and collaboration.

The USC Price School of Public Policy provides a dynamic learning environment where interdisciplinary education abounds. At USC Price, students choose a program of study from the independent yet related fields of public administration and leadership, public policy, nonprofits and philanthropy, health management and policy, urban planning, real estate development and executive leadership. Students are supported by a committed faculty who contribute to the strong sense of community present in the school.

The school’s mission is to improve the quality of life for people and their communities. Faculty engage in solving some of society’s most pressing issues — and challenge students to do the same. USC Price is renowned for its expertise in areas such as: sustainability and the environment, health care policy, nonprofit management, housing and real estate, transportation, infrastructure, urban development and land use, social policy, governance, civic engagement, community development, immigration and risk analysis, among others.

Defining characteristics of USC Price are the depth of its academic classroom experience and connecting classroom theory to professional practice through dynamic learning environments where interdisciplinary and collaboration fosters innovation, backgrounds who contribute to an environment that.

Faculty

C. Erwin and inne L. Piper Dean's Chair: Jack H. Knott, Ph.D.

University Professor: Kevin Starr, Ph.D. (History)

Wallis Annenberg Chair in Communication and Journalism: Manuel Castells, Ph.D. (Communication)

Judith & John Bedrosian Chair in Governance & Public Enterprise: Raphael Bostic, Ph.D.

Blue Cross of California Chair in Health Care Finance: Glenn A. Melnick, Ph.D.

C.C. Crawford Chair in Management and Performance: Anthony Bertelli, Ph.D.

Margaret and John Ferraro Chair in Effective Local Government: Genevieve Giuliano, Ph.D.*

Lusk Chair in Real Estate: Richard K. Green, Ph.D. (Business)

Jeffrey J. Miller Chair in Government, Business and the Economy: Elizabeth Graddy, Ph.D.*

Emery Evans Olson Chair in Nonprofit Entrepreneurship & Public Policy: James M. Ferris, Ph.D.

Quintiles Chair in Pharmaceutical and Regulatory Innovation: Darius Lakdawalla, Ph.D. (Pharmacy)

Leonard D. Schaeffer Director's Chair of the USC Leonard D. Schaeffer Center for Health Policy and Economics: Dana Goldman, Ph.D.*

Norman Topping Chair in Medicine and Public Policy: Paul B. Ginsburg, Ph.D.

Maria B. Crutcher Professor of Citizenship and Democratic Values: Terry L. Cooper, Ph.D.

Governor Downey Professor of State and Global Policy: Arnold Schwarzenegger

Frances R. and John J. Duggan Distinguished Professor of Public Administration: Shui Yan Tang, Ph.D.*

Houston Flournoy Professor of State Government: Juliet Musso, Ph.D.*

William M. Keck Professor of Energy Resources: Donald Paul, Ph.D. (Engineering and Earth Sciences)

Dr. Chester A. Newland Professor of Public Administration: Janet Vinzant Denhardt, DPA

Presidential Professor of Health Economics: Daniel McFadden, Ph.D.

Judge Widney Professor: Leonard D. Schaeffer

Judge Widney Professor of Poetry and Public Culture: Dana Gioia, M.A., MBA

Professors: Marlon Boarnet, Ph.D.; Ann Crigler, Ph.D. (Political Science); Elizabeth Garrett, J.D. (Law); Howard Greenwald, Ph.D.; Eric Heikkila, Ph.D.; Alan Kricoff, MCP, AICP; Dan Mazmanian, Ph.D.; Martin Krieger, Ph.D.; Jacquelyn McCroskey, Ph.D. (Social Work); James Moore II, Ph.D. (Engineering); Dowell Myers, Ph.D.; Michael Nicoll, Ph.D. (Pharmacy); Gary Painter, Ph.D.; Manuel Pastor, Ph.D. (Geography and American Studies and Ethnicity); Jane Pisano, Ph.D.; Jon Pyneos, Ph.D. (Gerontology); Alison D. Renteln, Ph.D.* (Political Science); David Sloane, Ph.D.; Robert Suro (Journalism); Detlof von Winterfeld, Ph.D. (Engineering)

Associate Professors: Elizabeth Currid-Halkett, Ph.D.; Annette Kim, Ph.D.; Christian Redfern, Ph.D.; Peter Robertson, Ph.D.*; Lisa Schweitzer, Ph.D.; Jeffrey Sellers, Ph.D., (Political Science); Kathleen Wilber, Ph.D. (Gerontology)

Professors (Teaching): Robert Denhardt, Ph.D.; LaVonna B. Lewis, Ph.D.; Dora Vertenten, DPA

Associate Professors (Teaching): Elizabeth Falletta, MREd; Deborah J. Natoli, Ph.D.

Assistant Professors (Teaching): Tara Blanch, Ph.D. (nonresident); William Leach, Ph.D. (nonresident); T.J. McCarthy, Ph.D.; Jennifer Miller, Ph.D.; Kelly Rawlings, Ph.D. (nonresident); Minzi Su, Ph.D. (nonresident); Michael Thom, Ph.D.

Research Professors: Hilda Blanco, Ph.D.; Stephen Hora, D.B.A.; Donald L. Paul, Ph.D. (Engineering and Earth Sciences); Adam Rose, Ph.D.

Research Associate Professors: Michael Cousseineau, Ph.D. (Medicine); Christopher Weare, Ph.D.

Research Assistant Professors: John Romley, Ph.D.; Heather Rososf, Ph.D.; Dan Wei, Ph.D.

Distinguished Fellow: Stan Ross, Honorary J.D.

Professors of Practice: William B. Fulton (Urban Planning); Michael E. Harris (Health Services Administration and Policy); Sherry Bebitch Jeffe (Public Policy Communication); Geraldine Knatz, Ph.D. (Public Policy & Engineering); Mark Pisano (Public Administration); Antonia R. Villaragossa (Policy); Frank Zerunyan (Governance)

Adjunct Professors: Janis Breidenbach, M.A.; Jonathan Brown, DPA; Robert Champion, MREd; Thomas Collins, Ed.D.; Dick Culley, Ph.D.; Tim Gage, MPP; Patrick G. Hays, MHA; Lori Howard, Ph.D.; Stanley lezam, J.D.; Jon S. Jun, Ph.D.; Patrick Kapsner, MPA, FACMPE; Michael Keston, MBA; Allan Kotin, M.A.; Ehud Mouchly, M.A.; Tomson Ong, J.D.; Ph.D., LLM; James Otstirling, MBA; Robert Smythe, B.S.; Errol Southers, MPA; Donna Staal, DPA; Deborah Torres, MArch.; Henry Zaretsky, Ph.D.

Adjunct Associate Professors: Aggie Afarnesh, MPA; P.K. Agarwal, M.S.; Austin Anderson, MDEa; Deepak Bahl, MBA, MPl; William Barlona, MHA, J.D.; brian Baltin; Vinayak Bhaae, MArch.; Sandipan Bhattacharjee, MPA; David Brown, J.D.; Grace cheng, MSHP; Glenn Dalsey, MPhil.; MAA; Terri Dickerhoff, MREd; Grace Dyrness, DPDs; Ali Farahani, Ph.D.; James Fawcett, Ph.D.; Veronica Flores, M.A.; Melissa Gaake, Ph.D.; Matt Gainer, MFA; Richard Garcia, DPA; Guillermo Gil, MPA; Todd Gish, Ph.D.; Shawn Godkin, MArch; Ray Gonzales, Ph.D.; David Grunwald, J.D.; MPP; Richard A. Hagg, Ph.D.; Mark Hanson, Ph.D.; Daniel Haverty, DPA; Con Howe, MCP; Donald Hufford, M.D.; Robert Ingenito, M.A.; Bryan Jackson, J.D.; Gion Jackson, MBA, MREd; Daniel Jordan, Ph.D.; Rym Kahl, Ph.D.; Steven Kellenberg, M.A.U.D.; William R. Kelly, MPA, MBA; Michael Kodama, M.A.; Kathy Kolinick, Ph.D.; Alon Kraf, MPA; Jeffrey Kreshek, MBA, MREd; V-Nhuan Le, Ph.D.; Richard Littie, M.S.; Kenneth Long; John Loper, MREd; Melissa

RSCI 794abcdz Doctoral Dissertation (2-2-1-2-0)

Dissertation research required for completion of doctoral degree in regulatory science. Graded IP/CR/NC.
Degrees Offered

The Price School of Public Policy offers the following degrees:

- Bachelor of Science in Policy, Planning, and Development
- Master of Health Administration
- Master of Science in Health Systems Management Engineering (with Industrial and Systems Engineering)
- Doctoral degrees

Pi Alpha Alpha

Pi Alpha Alpha is the national honor society for public affairs and administration. Students must enroll in the Price School of Public Policy who have completed at least 18 semester units and have earned a 3.7 grade point average are eligible for membership.

Pi Sigma Alpha

Pi Sigma Alpha is the national honor society for students in public administration, political science, and international relations. Students who have completed at least three courses from among these fields and have earned at least a 3.5 grade point average are eligible to apply.

Undergraduate Degrees

The Price School of Public Policy offers a suite of degrees that allow undergraduate students to gain the skills and knowledge necessary to understand complex health, environmental and urban issues, as well as to potentially enter the professional fields of health and nonprofit management, public policy, real estate development, and urban planning. Students may enroll in the Bachelor of Science in Policy, Planning, and Development, or a challenging set of minors, or possibly the very competitive progressive degrees associated with the Master of Health Administration, Master of Planning and Master of Public Administration.

Admission

Freshman and transfer students may indicate their desire to declare policy, planning, and development as a major on their university application. Students enrolled at USC wishing to declare the major or to be admitted into the minors must be in good academic standing. Interested current USC students should contact the Admissions and Recruitment Office in RGL 111 for more information.

Advisement

Students must discuss courses of study with the appropriate undergraduate advisers throughout their college enrollment and need to develop their own individual programs with faculty and staff advisers at the time of first enrollment and throughout their college careers.

Bachelor of Science in Policy, Planning, and Development

The Bachelor of Science in Policy, Planning, and Development is an interdisciplinary major that prepares students for graduate study and/or professional careers by engaging them in the analysis of society’s political, social and economic issues in such areas as environment, health care and urban life. The major introduces students to theoretical foundations and practical applications through a set of cross-cutting introductory courses and specialized courses in one of five tracks: health policy and management, public policy and law, nonprofits and social innovation, real estate development, or sustainable planning. Students will be introduced to analytical and research tools, including economics, Geographic Information Systems, statistics, urban design, and applied field research. Throughout, the students’ education will be connected to professional practice, as exemplified by the mandatory internship. Finally, the major is structured to provide students with sufficient elective credits to explore minors or other programs at USC so they can broaden their education to better prepare themselves for the next stage of their lives.

General Education Requirements

The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing and diversity requirements, which together comprise the USC Core. See The USC Core and the Requirements for Graduation page for more information.

Major Requirements

A minimum grade of C- (1.7) must be earned in each PPD course specifically listed as a degree requirement. In addition, a minimum grade point average of C (2.0) or higher must be achieved to earn all Price degrees. The GPA for all upper division PPD courses applied toward the major must also be a C (2.0) or higher. No more than 16 units of PPD course work may be taken prior to the successful completion of pre-major requirements.

Pre-major Requirements

A minimum grade of C, 2.0 (A-4.0), must be earned in each of the pre-major courses.

All pre-major requirements must be taken for a letter grade.

| (Study abroad if applicable to track) | |

The faculty director of the undergraduate program may approve students’ petitions to substitute or mix track classes if based on an appropriate academic/career rationale.

**Capstone**

All students will take four units of a capstone experience during their senior year. This may be fulfilled by taking PPD 431L Undergraduate Policy, Planning, and Development Studies (4) or PPD 437ab Senior Thesis (2-4). Students wishing to enroll in PPD 437ab must have a 3.7 GPA in PPD courses and an overall 3.5 GPA.

**Internships**

Policy, Planning and Development majors are required to complete 140 hours of internship by enrolling in PPD 301 PPD Practices: Internship Seminar or the Washington, D.C. Semester internship. Internships are matched as closely as possible to the student’s interests and skills.

PPD 301 and the internship in a position provide numerous opportunities to develop and formulate future career goals, as well as to gain personal and professional experience while completing the undergraduate degree.

**Honors**

Price School honors are available at graduation to qualified PPD majors and result in a special designation of departmental honors on a student’s transcript. Achievement of PPD honors requires a 3.7 GPA in PPD major courses and a 3.5 overall GPA as well as nomination by the professor in the capstone experience. In addition, students must earn an A in their capstone course (PPD 497ab or PPD 431).

**Washington, D.C., Semester**

The Washington, D.C., Semester program provides an intensive semester of confrontation with the political center of the nation and its complex components. The program offers opportunities for behind-the-scenes work in national government agencies and related organizations, combined with an academic environment and the chance to explore, share and learn with a group of fellow students.
Progressive Degrees in the Price School of Public Policy

The Price School of Public Policy offers students who have demonstrated exceptional academic success the opportunity to earn both bachelor’s and master’s degrees in a progressive degree program. This program allows students to earn both the Bachelor of Science and a master’s degree in five years. Further details about progressive degrees can be found on the Requirements for Graduation page.

Admission

Admission is available after the completion of 64 units of course work toward the undergraduate degree. Students must apply for admission to the progressive degree program after completing 64 units of applicable course work to their undergraduate programs, but prior to the completion of 96 units of course work (not including AP, IB or courses taken prior to high school graduation). The application for admission to the progressive degree plan must be accompanied by a course proposal plan and two letters of recommendation with one at least from a Price School faculty member.

Awarding of Degrees

The Bachelor of Science and master’s degree may be awarded separately upon completion of all degree requirements, but the master’s degree will not be awarded before the bachelor’s degree. Students who elect not to complete the master’s, must complete 128 units to earn the bachelor’s degree, including 32 units of upper division Price course work (including any graduate Price classes).

Time Limits

All requirements for the progressive degree must be completed within 12 semesters. If not completed within that time, students will no longer be eligible for the master’s degree but may still earn the bachelor’s.

Transfer of Credits

Graduate courses will not be accepted for transfer credit. Undergraduate classes may be transferred in accordance with university guidelines.

Minor Programs

Minor in Construction Planning and Management

This program covers the most current theories and practice of construction planning and management. The program provides a valuable adjunct credential to professional school students pursuing careers in business administration, public administration, environmental studies, and other areas; and a unique opportunity for professional focus to students in the USC Dornsife College of Letters, Arts and Sciences.

Construction activities are complex. In contemporary society, effective planning and management of these activities requires specialized knowledge of the technical, economic and political environment. This program couples the knowledge of how construction activities are organized with a broader understanding of the urban system in which construction projects are embedded. With the exception of statistics, all of the required courses are within the Department of Civil Engineering and the Price School of Public Policy.

Any USC undergraduate who has completed the equivalent of two full-time semesters in good standing is eligible to pursue the minor program. This minor program is rigorous enough to serve as an introductory credential for students subsequently electing to pursue advanced studies in development, urban planning, construction management or allied fields.

See the Department of Civil Engineering for course requirements.

Minor in Health Administration

This 20-unit minor in health administration provides students with a background in administration and management issues in the field of health care and the skills necessary to pursue health-related management opportunities in the for-profit, nonprofit and governmental sectors.

Minor in Health Policy

This 16-unit minor in health policy provides students with a background in the policy issues and challenges globally, nationally and locally related to quality, cost and access to health care. Students in this minor will acquire an understanding of these issues and the skills required to influence health policy.

Minor in International Policy and Management

The minor in international policy and management brings together courses from the School of International Relations, dealing with the new global challenges, specific regions of the world, and international organizations and policies, and the Price School of Public Policy, dealing with core management skills and public policy processes. Students will examine the changes and challenges, which are transforming the world, and the policy and management skills used to deal with them. To increase their understanding of the context and application of these concepts, students must complete a semester-long internship either in Washington, D.C. (through participation in the Washington, D.C. semester program) or in Los Angeles with an organization that has an international focus.

Students minoring in international policy and management take three courses in international relations, including the gateway course, IR 305 Managing New Global Challenges; three courses in public policy and management; and an approved internship through the School of International Relations (IR 491 Field Study). For additional course information, see International Relations.

Minor in Law and Public Policy

The minor in law and public policy draws upon four fields of study: public policy and management, law, economics and political science. It provides students with an understanding of the political and economic contexts in which laws are made as well as how legal institutions shape policy formulation. Students learn to analyze the consequences of policy and alternatives; the roles played by government, business and nonprofit organizations in public decision making; and the legal bases for various areas of public policy.

Students minoring in law and public policy take six required courses, including the gateway class, PPD 225 Public Policy and Management, and one elective. The latter enables the student to focus on a specific area of law.

*Prerequisite required

Minor in Nonprofits, Philanthropy and Volunteerism

This four-course minor enables students to learn about the nonprofit sector — its organizations, philanthropy and voluntary action. The three course core provides: (1) an overview of the nonprofit sector and philanthropy and its role in the United States, including its historical and theoretical foundations, its various components and its relation to public policy; (2) a focus on voluntary action and service as one means for social change and problem-solving; and (3) insights into the management of nonprofit organizations. Students select an elective that extends their understanding to the role of nongovernmental organizations in international affairs or to the role of public relations for nonprofits.

This minor is intended for students who plan (1) to work in a nonprofit or charitable organization, whether it is a large organization such as United Way, a small social service agency, an environmental advocacy group, a museum or a religious organization, (2) to participate with nonprofits as a volunteer throughout their lives or (3)
pursue further graduate work in a service-related profession. 

Required Courses | Units
---|---
PPD 471 The Nonprofit Sector and the Public Interest | 4
PPD 420 Management of Public and Nonprofit Organizations | 4
PPD 478 Social Innovations | 4

Electives (select one):

BUCO 485 Business Communication Management for Nonprofits | 4
JOUR 455* Public Relations for Non-Profit Organizations | 4
IR 371 Global Civil Society: Non-State Actors in World Politics | 4
PPD 351 Financial Accounting in Public and Nonprofit Organizations | 4
PPD 427L Introduction to Philanthropy and Grant Writing | 4
PPD 272 Public Service in an Urban Setting | 4

*Prerequisite: JOUR 250

Minor in Real Estate Development

This minor provides students with an overview of the field of real estate development — its principles, market analysis, finance and history, as well as the opportunity to pursue more specialized interests and skills through a set of electives (including courses in architecture, civil engineering and business). It is a 23-24 unit minor, requiring four core courses and two electives. The minor is intended for any students with interests in careers in real estate development or other areas that might be related to real estate development, such as local government, non-profit housing and land use enterprises, urban economics, public-private partnerships or related entrepreneurial ventures.

Required Courses | Units
---|---
FBE 400H Introduction to Real Estate Finance and Development | 4
PPD 362 Real Estate Fundamentals for Planning and Development | 4
PPD 417 History of Planning and Development | 4
PPD 437L Advanced Finance and Investment for Planning and Development | 4

Electives (select two):

CE 460** Construction Engineering | 3
FBE 427 Real Estate Law | 4
PPD 425 Designing Livable Communities | 4
PPD 435 Analyzing Real Estate Markets for Planning and Development | 4
PPD 439 Housing and Community Development | 4
PPD 461 Sustainable Communities, Policy and Planning | 4

*Prerequisite: MATH 117 and PPD 362 ** units if CE 460 is selected

Minor in Urban and Sustainable Planning

The 24-unit minor in urban policy and planning focuses on the application of public policy, urban planning and public management to the analysis and solution of urban problems. It draws upon the interdisciplinary faculty and programs of the Price School of Public Policy and includes foundational courses that introduce students to the nature of urban phenomena and the analysis and solution of urban problems. The minor also introduces students to the professional and academic fields of either urban planning and development or public policy and public management. In addition, based on their specific interests, students have the opportunity to explore in greater depth three areas and approaches of urban problem-solving. This minor is appropriate for students interested in expanding their understanding of the fields of urban planning and public policy and management as potential professional careers as well as increasing their comprehension of the analysis and solution of urban problems.

Required Courses (16 units) | Units
---|---
PPD 277 Urban Planning and Development | 4
PPD 245 The Urban Context for Policy and Planning | 4
PPD 427L Geographic Information Systems and Planning Applications | 4
PPD 461 Sustainable Communities, Policy and Planning | 4

Elective Courses (8 units) | Units
---|---
Students select two courses from this list. They are encouraged through advisement to consider course clusters that reflect special interests. 
PPD 358 Urban and Regional Economics | 4
PPD 360 Urban Transportation Planning and Policy | 4
PPD 414 Community Health Policy and Planning | 4
PPD 417 History of Planning and Development | 4
PPD 425 Designing Livable Communities | 4
PPD 439 Local Economic Development | 4
PPD 439 Housing and Community Development | 4

Aerospace Studies

Physical Education Building 112  
(213) 740-4370

Administration

Sean C. Marler, M.Ed., (Lieutenant Colonel, USAF)

Faculty

Professor: Sean C. Marler, M.Ed., (Lieutenant Colonel, USAF)

Assistant Professors: Casey Whitson, B.S., (Captain, USAF); Matthew Stewart, B.S., (Captain, USAF)

The Department of Aerospace Studies offers a three to four-year program of instruction leading directly to commissioning as an officer in the United States Air Force. To obtain a commission, qualified students must pass an aptitude test, physical fitness examination, and a medical examination; complete the aerospace studies program of instruction and concurrently receive an undergraduate or graduate degree. Credits earned in aerospace studies courses may be counted as electives in some degree programs. Those students who qualify for and are selected to enter Air Force pilot training will be given flight instruction upon graduation. Qualified applicants may compete for a variety of Air Force scholarships, some of which pay full tuition, books and associated fees. USC also offers a matching $4,000 scholarship per year for all AFROTC scholarship recipients. See the Tuition and Fees page for additional scholarship information.

Program Requirements

Academic Year Program

This program consists of up to eight semesters of aerospace studies courses (AEST 100a through AEST 400a) plus a four-week summer field training course. Students enroll in the first four semesters of aerospace studies (AEST 100a and AEST 200a) in the same manner as in any other course of instruction at USC. Students will be considered on a competitive basis to attend the summer field training course and enroll in the final four semesters (AEST 300a and AEST 400a). The program can be tailored for students who join after the beginning of their freshman year.

Summer Training Courses

Field training is offered during the summer at Maxwell Air Force Base in Montgomery, Alabama. Students participate in four weeks of intensive training, normally between their sophomore and junior years.

The major areas of study in the field training course include junior officer leadership training, career orientation, survival training, weapons training, physical training, base functions and the Air Force environment.

Military Science

Physical Education Building 110  
(213) 740-4026

Administration

Justin M. Chezem  (Lieutenant Colonel, U.S. Army)

Faculty

Professor/Commander: Justin M. Chezem  (Lieutenant Colonel, U.S. Army)

The Department of Military Science provides professional training for students leading to a commission, upon graduation, in the Active Army, Army Reserve or the Army National Guard. Through the Army Reserve Officers’ Training Corps Program (AROTC), scholarship benefits include full tuition, fees and book stipends. Scholarships are also available for Guaranteed Reserve Forces Duty. Military science instruction is focused on hands-on leadership development and the practical application of military skills needed to produce America’s future leaders. Additionally, military science courses count as electives in many degree programs. MS 101 and MS 102 are open to students who are not enrolled in the program, but have an interest in leadership, management, military history or military training. Enrollment in the Army ROTC program is open to qualified full-time students.

Scholarship Program
The majority of Army ROTC cadets attend USC on Army scholarships. All Army scholarships are merit-based and are not dependent on individual financial need.

Scholarships are available for both Active Duty and Guaranteed Reserve Forces Duty. Scholarships are awarded on a competitive basis to qualified applicants for two-, three- or four-year periods depending on the applicant's academic level and program of study. Scholarship cadets receive benefits that cover full tuition, fees and a book stipend, and are available to all majors. See the Tuition and Fees page for additional scholarship information.

Enrolled Cadets
Contracted scholarship and non-scholarship cadets can receive a monthly stipend subsistence allowance, based on academic class. Contracted scholarship cadets receive an annual book allowance. All enrolled scholarship and non-scholarship cadets receive uniforms and military science textbooks from the department.

Four-Year Program
The four-year military science curriculum is designed to be part of the student's undergraduate degree program. During the freshman and sophomore years, students receive introductory instruction in the theory of warfare, military history, military leadership and basic military skills. Cadets participate during their junior and senior years in a professional development program with instruction in leadership, management, military justice and advanced military skills.

Three-Year Program
The three-year program is available to qualified sophomore undergraduate students. Students may compress the first two years of the ROTC program by attending two ROTC classes per semester during their sophomore year. Scholarships are available, on a competitive basis, for students with three years remaining toward the completion of their undergraduate degree. Transfer students who meet the same criteria are also eligible for scholarships. Upon acceptance, students then follow the military science program described for the four-year program.

Two-Year Program
The two-year program is available to qualified junior and senior undergraduate students and graduate students who have two years of academic work remaining. Veterans who have achieved junior academic status and meet enrollment criteria are also eligible for this program. Students may receive credit for the first two years of the ROTC program by attending the ROTC Leaders Training Course or by previous junior ROTC participation. Transfer students who meet the same criteria are also eligible for scholarships. Upon acceptance, students then follow the military science program described for junior and senior cadets in the four-year program.

Field Training
Several military training programs are available to qualified cadets. A five-week paid Leaders Training Course at Fort Knox, Kentucky, qualifies students for the two-year program. All cadets attend a 32-day paid ROTC Leadership Development and Assessment Course at Fort Lewis, Washington, after their junior year. This course provides practical application of advanced military and leadership skills required for commissioning.

Adventure Training
Qualified candidates may also receive training in Airborne school, Air Assault school (rappelling from helicopters), Cadet Troop Leadership Training (training in Army units around the world), Northern Warfare school (Arctic survival) and Mountain Warfare school.

Naval Science
Physical Education Building (PED) 101
213-740-2685
Administration
Jonathan Hitesman, B.S., J.D., LLM (Colonel, U.S. Marine Corps), Commanding Officer
Faculty
Professor: Jonathan Hitesman, B.S., J.D., LLM (Colonel, U.S. Marine Corps)
Associate Professor: Julio Antolin, B.S., M.A. (Commander, U.S. Navy)
Assistant Professors: Mark E. Burrell, B.S. (Major, U.S. Marine Corps); Raymond A. Hill IV, M.S. (Lieutenant, U.S. Navy); Phillip Foster, B.S. (Lieutenant, U.S. Navy); Lou Alvarez, B.S. (Lieutenant, U.S. Navy)
The Department of Naval Science provides professional training for undergraduate students (midshipmen) leading to a commission, upon graduation, in the United States Navy or the United States Marine Corps. Through the Naval Reserve Officers Training Corps Program (NROTC), scholarship students receive full tuition, fees, book stipend and $250–$400 per month subsistence allowance. The university also provides an additional automatic scholarship of $4,000 per year for each NROTC scholarship recipient. Non-scholarship students may apply to participate as members of the midshipman battalion with limited financial assistance, earning a commission upon completion of the baccalaureate degree. Because of the rapid development of highly technical ship systems, aviation and other military equipment, the majority of Navy scholarships are awarded to science and engineering majors; however, limited Navy scholarships and all Marine Corps scholarships are currently available to students pursuing any major offered by the university, as long as they complete basic technical requirements. In addition to university requirements, midshipmen must complete 15–22 units of naval science courses, a physical fitness test and three active duty summer training sessions, each about three to six weeks long.

All naval science courses are open to students who are not in the program but have an interest in the Navy and Marine Corps related fields, such as engineering, navigation, amphibious warfare, naval operations, history and leadership/management.

Program Requirements
Scholarship Program
The majority of naval science students attend the university on Navy or Marine Corps scholarships. Scholarships are awarded primarily on a four-year basis to high school seniors selected in nationwide competition. Two- and three-year scholarship programs are also available with a similar selection process. In addition to tuition and fees, books and uniforms, students receive subsistence allowance of $250–$400 per month. Navy Option midshipmen later will be required upon graduation to serve a minimum of five years of active military service. Additional requirements may be required for specific job assignments. The NROTC program only commissions Naval officers into the following communities: Avon (pilot or naval flight officer), Submarine Warfare, Surface Warfare, Special Operations (Explosive Ordinance Disposal), Special Warfare (SEALS) or Medical/Dental Corps.

College Program
Students may join NROTC as non-scholarship "College Program" students. These students receive uniforms and participate as regular midshipmen in the program but do not receive scholarship or stipend funds or attend summer training. College Program students must complete and be selected for a two- or three-year scholarship or be placed in an "Advanced Standing" status in order to continue in the program and receive an active duty commission.

Marine Corps Option
The Marine Corps option prepares midshipmen for service as second lieutenants in the United States Marine Corps. Marine Option Midshipmen must successfully complete Officer Candidate School (OCS) in order to earn their commission. This intensive 6-week course is completed during their final summer training session. Marine Corps Option students also participate, on a limited basis, in local field training exercises during the academic year. Marine Corps Option midshipmen will be required upon graduation to serve at least four years on active duty.

Requirements for Commissioning
Students must meet USC degree requirements in their chosen fields and complete the prescribed naval science courses and Professional Laboratory (PROLAB). In addition, Navy scholarship students must include in their programs MATH 125 Calculus 1 and MATH 126 Calculus 2 and PHYS 121L Fundamentals of Physics I: Mechanics and Thermodynamics and PHYS 122L Fundamentals of Physics II: Electricity and Magnetism; two courses of English, one course in American history/national security policy and one course in language or culture.

More detailed program information and the online application process is available at:

College of Science
The Department of Marine Science prepares midshipmen for Marine Corps-related fields, such as engineering, environmental science, meteorology, marine biology, oceanography, and leadership. Marine Science offers full tuition, fees, book stipend and $400 per month. Marine Science scholarships are not dependent on individual financial need.

Requirements for Commissioning
Midshipmen must complete a commission, upon graduation, in the United States Marine Corps. Marine Science midshipmen must complete and be selected for a two- or three-year scholarship or be placed in an "Advanced Standing" status in order to continue in the program and receive an active duty commission.

Program Requirements
Scholarship Program
The majority of Marine Science students attend the university on Marine Corps scholarships. Scholarships are awarded primarily on a four-year basis to high school seniors selected in nationwide competition. Two- and three-year scholarship programs are also available with a similar selection process. In addition to tuition and fees, books and uniforms, students receive subsistence allowance of $250–$400 per month. Marine Science midshipmen later will be required upon graduation to serve a minimum of five years of active military service. Additional requirements may be required for specific job assignments. The Marine Science program only commissions Marine officers into the following communities: Avon (pilot or naval flight officer), Submarine Warfare, Surface Warfare, Special Operations (Explosive Ordinance Disposal), Special Warfare (SEALS) or Medical/Dental Corps.

College Program
Students may join NROTC as non-scholarship "College Program" students. These students receive uniforms and participate as regular midshipmen in the program but do not receive scholarship or stipend funds or attend summer training. College Program students must complete and be selected for a two- or three-year scholarship or be placed in an "Advanced Standing" status in order to continue in the program and receive an active duty commission.
Application for Admission

Admission to graduate programs in the Price School of Public Policy is highly selective and competitive. Preference is given to those with a record of high educational achievement and personal qualities favoring success in the fields of planning or development. Applicants must have achieved superior grades during undergraduate and any graduate education. A grade point average of at least 3.0 (A = 4.0) is normally expected as well as satisfactory scores on the Graduate Record Examinations (GRE). The GRE and GMAT are neither accepted nor required for the DPPD or executive MHA programs. Applicants applying for admission to the Master of Nonprofit Management, Master of Planning, Master of Planning and Development Studies or the Master of Real Estate Development program may submit results from the Graduate Management Administration Test (GMAT). MRED applicants may also submit results from the Law School Admission Test (LSAT). In exceptional cases, an applicant who has not met these scholarship requirements may be admitted with conditions of admission.

For specific information on admission requirements and application procedures, contact the Price School of Public Policy, Office of Recruitment and Admissions, at (213) 740-0530. Certificate in Transportation Systems Administration Test (GMAT). MRED applicants may also submit results from the Law School Admission Test (LSAT). In exceptional cases, an applicant who has not met these scholarship requirements may be admitted with conditions of admission.

Transfer Credit

The Degree Progress Department determines whether work done elsewhere is available for consideration for credit toward the USC degree. That office requires official transcripts of all course work done before entering USC. A Graduate Transfer Credit Statement from the official office of transcripts, done after a student has been admitted to regular status at USC, will indicate which units are available for transfer. These courses do not apply toward the degree unless, and until, the student’s major department approves and submits transfer credit to the Degree Progress Department in the Office of Academic Records and Registrar.

Application of any available transfer credits toward a graduate degree will be determined by the director of the particular degree program, based on the semester units available for transfer as shown on the Transfer Credit Statement.

These general guidelines are followed by the admissions evaluator and by faculty members: (1) the work must be completed at an accredited graduate school; (2) the grade must be B or better; (3) the work must be a fair and reasonable equivalent to current USC course work at the graduate level which fits into the logical program for the degree; (4) the units are not more than seven years old at the time of admission to their master’s program (or 10 years old for a doctoral program); (5) the units must reflect current knowledge in the field; and (6) the work must be completed prior to admission to the USC program.

USC does not give transfer credit for life experience, credit by examination, noncredit extension courses or thesis course supervision.

Please consult with your degree director before enrolling in courses outside of USC. In many of the Price School’s master’s degree programs, only courses taken outside of USC prior to admission may be applied to your degree.

Waiver of Course Content

The school recognizes that some applicants may have covered the material contained in core courses or courses required for a particular specialization. Under these circumstances, one particular course requirement may be waived, allowing the student to complete a more advanced course in the same area. Students who have a background in a particular area of study may be allowed to substitute other courses. In these situations students do not receive unit credit but are permitted to take course work, which does not repeat earlier academic experiences.

Waiver of content is usually given only in the case of previous academic study of the subject, not in the case of experiential background in the area.

Students who believe they are eligible for content waiver decisions must petition the faculty of the school, providing evidence of the previous work through transcripts, syllabi and other pertinent material. Contact the school’s Student Affairs Office for information.

Graduate Degrees

Master of Health Administration

The issues surrounding the delivery and financing of health services have an enormous impact on individuals and the communities in which we live. The health care industry now accounts for more than 15 percent of the U.S. economy. Fast-moving developments in technology, economics, ethics, finance, policy, management and globalization are driving changes in the health sector. Effective health leadership requires an understanding of governance systems and the complex interplay between the public, private and nonprofit sectors as well as the dual imperatives of both the clinical and business facets of health care delivery. As the health care system changes, career opportunities abound. The field has a tremendous need for leaders, managers and analysts — in hospitals, health plans, physician practices, health-related enterprises, community health organizations, social advocacy groups, and regulatory and legislative agencies.

The Price School of Public Policy’s multidisciplinary nature, with degree programs in public policy, public administration, urban planning, and international policy, adds breadth that distinguishes USC’s MHA degree, providing students with an understanding of the larger social context in which the health sector is embedded and how it intersects and interacts with other social policy issues.

The Price School programs in health management and policy offer two degree options — the Master of Health Administration and the Executive Master of Health Administration. These degrees position the student to acquire the knowledge, skills and applied experience to shape health policy and lead health organizations. Requirements for the Executive MHA differ from those of the traditional MHA and are found on the program page.

The Master of Health Administration builds a solid foundation emphasizing managerial, analytical and public policy skills for those entering the health field, while the Executive Master of Health Administration deepens professional skills and permits those already working in the health field to advance to higher levels of leadership.

The MHA curriculum incorporates five major areas of competence: management/operations/leadership; health policy analysis; health finance; health information technology; and, health care quality. Each student will be exposed to these core areas and will specialize in two of them. The program prepares students for management positions in hospitals; managed care systems; physician groups; ambulatory care systems; government agencies concerned with health care policy, planning, quality assurance and regulation; and private firms involved in health care consulting, finance, performance assessment and evaluation.

Requirements for Admission

General

Applicants must have a bachelor’s degree from an accredited college or university. Applicants may take courses on limited standing pending formal admission to the master’s degree program.

Applicants with bachelor’s degrees must have a minimum grade point average of 3.0 in their undergraduate course work and a score of at least 500 on the verbal and at least 500 on the quantitative sections of the GRE. Deviations from these minimums will be allowed when justified by exceptional work experience, letters of recommendation or improvement in academic performance during the third and fourth years of undergraduate study.

Prerequisites

Statistics

A basic competence in descriptive and inferential statistics is also required for the MHA program. The statistics prerequisite must be satisfied within the first 12 units or before enrolling in PPD 557 Modeling and Operations Research. This prerequisite may be met in one of two ways: (1) entering students must have passed an undergraduate inferential statistics class, with a grade of “B” or better, at an approved university within three years of matriculation, or (2) completing PPD 550x Statistical Foundations for Public Management and Policy with a grade of “B” or better (this course credit may not count toward the MHA degree).

Limited Status Students (Preadmission)

Students taking courses who have not been admitted to the school are designated limited status students. These students may be waiting for part of their application package materials to arrive; or they may be investigating whether an MHA may be right for them.

To be considered for limited status reenrollment, interested students need to complete the Price School of Public Policy Limited Student Application for Enrollment form and submit official or unofficial copies of their transcripts from their bachelor’s degree granting institution. Students with a 3.0, grade point average (A = 4.0) may enroll in up to 8 units of graduate courses in the Price School of Public Policy.

Price School of Public Policy Limited Student Application for Enrollment forms may be obtained from the Admissions Office, USC Price School of Public Policy, University of Southern California, RGL 111, Los Angeles, CA 90089-0626, telephone (213) 740-6842. Limited students may only enroll during the in-person registration period (the week before classes begin).

Limited status students may apply only 8 units of appropriate graduate work toward the MHA after admission. Units beyond these first 8 must be petitioned for through the school. Students on limited status are encouraged to complete the application and admission process before completing those first 8 units.

Certificate Program
Information regarding the Certificate Program in Health Management and Policy Programs can be found on the Graduate Certificates page.

Curriculum

Curriculum for the MHA includes 48 units (40 required units and 8 elective units). In addition, a supervised field placement (residency) in a health service organization is required. The MHA degree is designed to be completed in two years of full-time study, but can be extended for those who work while going to school. Evening classes and courses that meet in an intensive, workshop format of two to four sequential days of training are designed to accommodate working professionals.

Required Core (40 units)

Electives

In addition to the 40 required units, students are required to take 8 units of electives. Elective courses will be taken in two of the five specialization areas: management/operations/leadership, health policy analysis, health finance, health information technology, and health care quality. The two specializations will be selected by the student with the advice and written consent of the MHA program director and faculty advisor.

Residency

The MHA student is required to complete a 1,000 hour residency at a health care organization, generally during the second year of study. This residency may be reduced, but must include at least 500 hours, depending on the health care experience of the student. The residency is designed to provide the student with practical administrative experience that complements program course work.

Executive Master of Health Administration

The Executive MHA Program offers clinical and management professionals an opportunity to advance their careers in health care and to more effectively improve health services within their communities. Mid- to senior-level professionals who have the ambition and potential to serve as industry leaders in the highly dynamic and competitive health care environment are encouraged to consider the Executive MHA degree. The Executive MHA is designed for those who have demonstrated capabilities, yet who will benefit from expanded skills and competencies that will enable them to lead.

Participants sharpen their business acumen by gaining exposure to in-depth knowledge of the latest theories and the best in contemporary health management practice. A practical, problem-solving approach ensures that skills can immediately be applied on the job.

Requirements for Admission

Applicants for the Executive Master of Health Administration apply directly to the program. A minimum of five years of experience with progressively greater levels of responsibility in health care or a related field is required for entry into the Executive MHA program. Applicants must have earned a bachelor's degree from an accredited college or university. A minimum grade point average of 3.0 in undergraduate course work is required. Allowances may be made when justified by exceptional work experience or letters of recommendation.

Prerequisites

Accounting

A basic competence in accounting is required for the Executive MHA program. The accounting prerequisite must be satisfied before enrolling in HMGT 565 Managing the Organization’s Financial Health. This prerequisite may be met in one of three ways: (1) completing the non-credit Executive MHA accounting workshop with a passing score; (2) demonstrating prior work experience or (3) completing prior course work at an accredited academic institution in accounting and finance.

Curriculum

The Executive MHA offers a hybrid online/in-residence executive education program that will prepare the graduate to meet career objectives. The program provides students with the flexibility to meet program requirements while maintaining full-time administrative positions, but also emphasizes the importance of an integrated approach to executive education. In addition to the synchronous and asynchronous learning modules included in each course, students will participate in five-day, in-residence sessions at the University Park Campus twice during the program. The first in-residence session will occur before the midpoint of the program, and the second session will be a capstone experience in the last semester of the program. The Executive MHA degree program does not require a supervised field placement (residency) in a health care organization.

The curriculum of the EMHA is organized around five themes: thriving in transformational times through innovative leadership; delivering cost-effective care in an era of value-based purchasing; providing efficient management and administration; developing and implementing strategies to enhance patient safety and quality of care; and demonstrating organizational and clinical effectiveness through health information technology. These integrated themes and the associated content provide graduates with a comprehensive approach that expands their understanding of the key principles and applications necessary to function in a senior administrative leadership role.

Participants in the executive program gain practical skills. Emphasis is given to executive decision-making, development of sound planning, analytical and leadership capabilities; and strong interpersonal communication.

More specifically, Executive MHA graduates will achieve advanced competency in disciplines which include economics and finance, health care regulation, business development, operations, strategic analysis and management, organizational design, quality and outcomes assessment, and information management. Our graduates will model effective leadership and management in a rapidly evolving health care environment.

The core faculty is drawn from the USC Price School of Public Policy and includes senior, experienced faculty, along with nationally renowned academic specialists and health care experts. The opportunity to interact with health care's leading thinkers, policymakers and practitioners is an essential component of the Executive MHA program.

The Executive MHA office is located in Ralph and Goldy Lewis Hall, Room 307, Price School of Public Policy, (213) 740-2984, email: emha@usc.edu.

Master of Science in Health Systems Management Engineering

This program is jointly sponsored by the Epstein Industrial and Systems Engineering Department and the Price School of Public Policy, and administered by the Epstein Industrial and Systems Engineering Department. This degree is designed for students with sufficiently quantitative bachelor's degrees in engineering, the sciences or applied social science who are interested in operations management and health care applications, and whose career objectives lead to increasing technical management responsibilities in large health care organizations, particularly hospitals. Students with less quantitative social science or other non-technical backgrounds interested in health administration objectives may also want to consider the Master of Health Administration program in the Price School of Public Policy. For information, see Industrial and Systems Engineering.

Executive Master of Leadership

The Executive Master of Leadership Program offers professionals from a variety of fields including public administration, public policy, planning, law enforcement, transportation and other public, nonprofit and business organizations, with at least five years of professional
Degree Requirements

Students are required to complete 40 units of graduate work, with 32 units of core organized under three areas: theory and context, leadership and management, and analytical skills and 8 elective units based on their interests.

Electives

Students complete 8 units of electives based on their interest and in consultation with their adviser.

Master of Planning

The planning of cities is as old as urban civilization. The contemporary planning profession has expanded to include a broad range of applications that draws upon emphases of foresight, common good and interconnections of elements in human settlements. Planners are engaged in evaluating and guiding community and urban development at geographic scales, ranging from the local American neighborhood to the global village utilizing the public, private and nonprofit sectors.

Planners play an increasingly important role in managing the pressing problems and competing demands of change and growth in shaping a better future. The Master of Planning (MPl) curriculum reflects this forward-looking and constantly evolving role.

The MPl curriculum provides a core of knowledge underlying the key forms and applications of planning. This core sets the foundation for a wide choice of specific careers in the field and extends the relevance and value of graduate education over an extended period of time. A goal of the MPl curriculum is to prepare planners to practice anywhere in the world.

The Planning Accreditation Board of the American Planning Association and the Association of Collegiate Schools of Planning accredit the MPl program.

All persons pursuing the MPl will complete core courses, which present basic theories, techniques and methods.

Concentrations are available in five broad areas: economic development; preservation and design of the built environment; social and community planning; sustainable land use planning; and transportation and infrastructure planning. After students register, the faculty will suggest specializations that allow students to focus their concentrations even further or span planning more broadly.

A concentration in any of these areas qualifies graduates for a wide range of private, public and nonprofit sector careers with government agencies, consulting firms, corporations, utilities, international technical assistance programs, nonprofit and special interest organizations and joint public-private ventures.

Curriculum Requirements

The program of study for this professional graduate degree requires completion of 48 units, including 16 units of core curriculum, 8 units of planning studios, 4 units of methodology related to the student’s concentration, a required concentration gateway course and 16 units of electives, including two additional courses related to a student’s concentration. A comprehensive examination and an approved non-credit internship are also required.

The degree may be pursued on either a full-time or part-time basis.

Statistics Prerequisite

A basic competence in descriptive and inferential statistics is required. This prerequisite may be fulfilled by successfully completing PPD 535 or by having completed a previous course (within five years) with a grade of B or higher (A = 4.0).

Core Curriculum (8 Lecture-Seminar Courses): 16 units

Note: 2-unit courses may be offered in seven-and-a-half week blocks.

Planning Studios

Planning studios are an integral part of the curriculum of the Price School of Public Policy, providing the essential educational link between academic education and preparation for professional practice. The planning studios require that students learn to work together as a team by applying their respective capabilities and knowledge to a real-world common problem and to produce a professional project. Students must complete 8 units of domestic or international planning studios under PPD 531L (4) to satisfy this requirement. A maximum of 12 units may be taken.

Local agencies, communities and firms often sponsor planning studios to obtain research and analysis. Community groups seek assistance as a means of informing themselves more thoroughly on community problems and issues or for obtaining planning analysis otherwise unavailable to them. The products of planning studios are usually in the form of policy recommendations, a suggested plan or alternative plans, databases, background information, base maps, or any one of many specific contributions.

MPl planning studios can either be situated in the United States or around the world. Past courses have examined the tragedy around Katrina in New Orleans, developed economic development plans for local Southern California cities, and studied changing public spaces in Germany.
Price International Laboratories (PPD 612ab) can be taken as an elective in the MPI program. The program strongly encourages students to enroll in one laboratory during their course of study. In recent years, Price lab courses have been offered in China, Brazil and England.

Concentrations (16 units)

Students must declare their concentration during the fall semester prior to taking the comprehensive examination in the spring semester. Students are required to complete the gateway course and methodology course related to their concentration as part of their preparation for their comprehensive examination. The student’s concentration must contain a 4-unit methodology course, a 4-unit gateway course and 8 other units. At least 12 of these units must be selected from Price School curriculum. Courses outside the Price School should be selected by the student with the approval of an academic adviser and must be directly concerned with the subject matter of the concentration.

After students register, the faculty will provide them with a series of specializations they may take in association with the concentrations. These specializations are not required but are provided as guidance for students interested in these subject areas. The specializations vary. Some suggest ways that students can more deeply study a single area within planning, while others provide a broad overview of planning and policy issues. The specializations draw upon courses within the MPI program, the Price School sister programs and courses from other USC units.

Economic Development is the basis for prosperous community development. Job creation and the development of service or employment sites are the core of economic development. At a higher geographical scale, development of regional economies provides a focus for planning in an international context. Suggested courses for students selecting this concentration include PPD 622, PPD 624, PPD 626, PPD 626, RED 509 and RED 542.

Preservation and Design of the Built Environment addresses the architecture of the city, viewed not as a series of individual buildings, but as a set of visual and functional connections between buildings on a street front or in a district. In contemporary settings, planning and construction do not begin with a blank slate. Rather, new structures are inserted into an existing built environment, which must be respected for its historical heritage and its contributions to the new. Students in this concentration are encouraged to develop courses related to landscape architecture and historic preservation in the School of Architecture. Suggested courses for students selecting this concentration include PPD 530, PPD 616, PPD 618, PPD 619, PPD 623, PPD 631 and PPD 692.

Social and Community Planning gives specific attention to the changing needs of neighborhood residents and to the ways in which different planning policies, programs and activities contribute to resident well-being. Community planning is a process of organizational change that links residents and services to produce communities that are safe, healthy and socially connected. Achieving these goals demands that residents actively advocate for their communities. Suggested courses for students selecting this concentration include PPD 606, PPD 607, PPD 618, PPD 619, PPD 620, PPD 621, PPD 686 and PPD 690.

Sustainable Land Use Planning centers on community land use planning set in the context of regional growth or decline. The plan involves forecasting transportation means, population growth and housing needs, together with providing comprehensive planning to accommodate that growth in a way that preserves and enhances local quality of life. Envisioning better futures, livability, environmental protection accessibility, mobility and affordable housing production are all part of smart growth strategies for sustainable regional growth. Suggested courses for students selecting this concentration include PLUS 611, PPD 615, PPD 618, PPD 620, PPD 621, PPD 627, PPD 631, PPD 692 and PPD 694.

Transportation and Infrastructure Planning is the combination of vital functions that determine the efficiency and productivity of a city. Issues of access and mobility of urban residents must be addressed. Circulation of workers from home to workplace, and of residents to shopping and services, are fundamental determinants of land use and urban form. Students in this concentration acquire mastery of the basics of transportation analysis, with emphasis on analysis of different policies that serve transportation and infrastructure needs within urban areas. Suggested courses for students selecting this concentration include PPD 557, PPD 588, PPD 589, PPD 621, PPD 630, PPD 631, PPD 635 and PPD 692.

Concentration Gateway Courses

Students are required to complete their gateway course prior to participating in the comprehensive examination. The following courses are required for their concentration:

Economic Development: PPD 639 Introduction to Community and Economic Development
Preservation and Design of the Built Environment: PPD 644 Shaping the Built Environment
Social and Community Planning: PPD 628 Urban Planning and Social Policy
Sustainable Land Use Planning: PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions
Transportation and Infrastructure Planning: PPD 634 Institutional and Policy Issues in Transportation

Concentration Methodology Courses

Students are required to complete one methodology course related to their concentration. Students are encouraged to complete a second methodology course among their electives. The following courses are required for their concentration:

Economic Development: PPD 635 Planning and Economic Development
Preservation and Design of the Built Environment: PPD 644 Design Skills for Urban Planners
Social and Community Planning: PPD 616 Participatory Methods in Planning and Policy
Sustainable Land Use Planning: PD 634 Methodology, Methods and Tools for Urban Sustainability
Transportation and Infrastructure Planning: PPD 633 Urban Transportation Planning and Management

Comprehensive Examination

Successful completion of a comprehensive examination is required of each student seeking the Master of Planning degree (except for students pursuing the dual degree with either economics or gerontology). Students pursuing the dual degree with real estate development can choose the MRED or MRID examination. The comprehensive examination integrates accumulated lessons of the core courses and planning studios. Students are also expected to utilize material covered in their concentration and electives.

The comprehensive examination is given only in the spring semester of each year. Students usually take the examination in the last semester of their second year. Students must declare their concentration during the fall semester prior to completing the comprehensive examination in the spring semester. They must have completed the gateway and methodology courses in the declared concentration prior to taking the comprehensive examination.

The MPI Program degree committee administers the comprehensive examination. Examinations are graded on a pass/fail basis. Students who fail the examination may take it a second time the next year. The examination may only be repeated once.

Planning Electives

Students are encouraged to select electives related to their course of study. A Price international laboratory course is especially encouraged.

Internship

Students working toward the Master of Planning degree must complete an internship of at least 10 weeks duration and 400 hours in an organization engaged in planning or a closely related activity. Students must submit a report to the director of career services describing and evaluating the internship experience. Arrangements must also be made for an evaluative report of the internship by the student’s supervisor submitted directly to the academic adviser. The internship is not for unit credit.

Students often fulfill their internship while working part-time in a planning-related job during their course of study in the program or in the summer between the two academic years. If a student has had equivalent career experience prior to admission to the program, the MPI director may waive the internship requirement on the recommendation of the student’s academic adviser.

The Price Office of Career Services actively works with school alumni and area planning organizations to assist students in obtaining appropriate internships. Numerous internship opportunities are available in the greater Los Angeles area. The student is responsible for securing the internship and fulfilling the requirement.

Directed Research

With the advice of the faculty, a student may elect to enroll in directed research as an elective. Working directly with a faculty member, the student pursues an interest or problem appropriate to the student’s program of study.

The faculty member supervising the student must approve the final product of directed research. The final product may be a written report, article, graphic formulation, physical model, mathematical-statistical analysis, computer output or film — depending on the most appropriate expression of the research undertaken.

General Requirements

Residence and Course Load

The Master of Planning normally requires two academic years of full-time study. Courses are also scheduled to allow completion on a part-time basis.

At least 36 units of graduate-level study must be done in residence at USC. The residency requirement may not be interrupted without prior permission from the Price School of Public Policy. Students accepted into the
program with academic deficiencies will require a correspondingly longer time to complete their course work. Students seeking the degree on a part-time basis must take at least one course each semester.

Students must be enrolled at USC for the fall and spring semesters each year until all degree requirements have been met. Students who find it necessary to be excused from a semester of registration must request a leave of absence from the Academic Programs Office by the last day to drop/add courses of the semester in question; such leaves may be granted for up to one year. For additional information refer to USC policies governing continuous enrollment, readmission, and leaves of absence in the Academic Policies section of this catalogue.

**Time Limits**

All requirements for the Master of Planning must be completed within five calendar years from the beginning of the semester in which the student was admitted to the program. University regulations prohibit the acceptance of credits for courses taken toward the Master of Planning degree more than seven years after the date they were successfully completed.

**Grade Point Average Requirement**

While enrolled in the program a student must maintain a grade point average of at least 3.0 for all courses taken toward the degree.

**Probation and Disqualification**

Any student with a cumulative grade point average below 3.0 for all courses taken in the program will be placed on academic probation. A student whose semester grade point average is below 3.0, but whose cumulative grade point average is 3.0 or higher, will be placed on academic warning.

A student may be disqualified to continue toward a graduate degree if the student has been on academic probation for two consecutive semesters. Whether or not on academic probation or warning, a student may be disqualified at any time from continuing in the program if the dean of the school, after consultation with the faculty, determines that the student is deficient in academic achievement or in another qualification required for the attainment of the Master of Planning degree.

**Course Exemptions and Transfer of Credits**

Graduate work by transfer may be accepted from approved graduate schools as determined by the USC Articulation Office upon recommendation of the dean of the school. Not more than 12 units of graduate work, with grades of B or better may be transferred for credit to the Master of Planning degree.

The following courses, or their equivalents, cannot normally be transferred for unit credit from other institutions: PPD 500, PPD 501A, PPD 524, PPD 525, PPD 526, PPD 527, PPD 529, PPD 531L, PPD 533, PPD 590, PPD 594AB. Undergraduate work will not be credited for advanced or graduate standing. Students may petition to receive subject credit for these courses; but unit requirements must be met through the completion of additional electives.

Some applicants for admission to the school have been engaged in work in planning, development or closely related activities. Although this experience may have been beneficial to the students involved and may satisfy the internship requirement, it may not be considered equivalent to academic education.

**Master of Planning and Development Studies**

The Master of Planning and Development Studies degree is designed for mid-career professionals in planning, development or related disciplines who desire to update and/or redirect their professional skills and careers. The program is very flexible, allowing students to pursue areas of expertise that they find valuable in their present or future careers. Entering students must have a minimum of five years of planning, development or related professional work experience.

**Curriculum Requirements**

The Master of Planning and Development Studies program requires completion of 28 units. Basic degree requirements consist of two core courses; 16 units in a concentration area approved by an adviser; and an integrative seminar course during which the student completes a written and oral comprehensive examination.

**Required Courses**

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>

<td>4</td>
</tr>
<tr>
<td>PPD 612</td>
<td>4</td>
</tr>
<tr>
<td>PPD 638</td>
<td>4</td>
</tr>
</tbody>
</table>

**Concentration Area(s)**

Students elect a concentration area from one of three already defined or, with prior approval by an adviser, design a concentration from Price School of Public Policy courses and USC graduate courses. A minimum of eight units must be Price School of Public Policy courses. The three defined concentration areas are:

- **Community Economic Development**: Select 16 units from the following courses: PPD 618 (4), PPD 623 (4), PPD 624 (4), PPD 625 (4), PPD 626 (4), PPD 629 (4), PPD 631 (4); RED 509 (4), RED 542 (4), RED 546 (4)
- **Environmental Policy and Planning**: Select 16 units from the following courses: PLUS 600 (4), PLUS 633 (4), PPD 531L (4), PPD 617 (4), PPD 619 (4), PPD 620 (4), PPD 621 (4), PPD 622 (4), PPD 623 (4), PPD 632 (4), PPD 634 (4), PPD 714 (4)
- **International Planning and Development**: Select 16 units from the following courses: PLUS 631 (4), PLUS 632 (4), PLUS 633 (4), PLUS 635 (4), PLUS 640 (4); PPD 626 (4); RED 585 (3), RED 586 (4)

**Integrative Seminar and Comprehensive Examination**

Successful completion of a comprehensive examination is required of all students seeking the Master of Planning and Development Studies degree. The integrative seminar course (PPD 638) and comprehensive exam should be taken during the semester of intended graduation. During the seminar class, students identify a practice-oriented problem covering the core courses and concentration area, which ideally is sponsored by a planning and/or development office or firm. The student will: (1) prepare a professional-quality document; (2) present the solution to a faculty committee with invited sponsor guests; and (3) have an oral defense. Students who fail the examination may take it again within one year, but it may only be repeated once.

**General Requirements**

**Residence and Course Load**

The Master of Planning and Development Studies may be completed in one academic year of 12 units in the fall and spring semesters and the four-unit integrative seminar/comprehensive examination the following summer semester.

At least 18 units of graduate study must be done in residence at the University Park Campus, the USC State Capital Center or at an approved off-campus study center.

**Time Limit**

Students in the program must complete all requirements for the Master of Planning and Development Studies within five calendar years from the beginning of the semester in which the student was admitted to the program.

**Grade Point Average Requirement**

While enrolled in the program, a student must maintain a grade point average of at least 3.0 (A = 4.0) for all courses taken toward the degree.

**Probation and Disqualification**

Any student with a cumulative grade point average below 3.0 for all courses taken in the program will be placed on academic probation. A student whose semester grade point average is below 3.0, but whose cumulative grade point average is 3.0 or higher, will be placed on academic warning.

A student may be disqualified to continue toward a graduate degree if the student has been on academic probation for two consecutive semesters. Whether or not on academic probation or warning, a student may be disqualified at any time from continuing in the program if the dean of the school, after consultation with the faculty, determines the student is deficient in any degree requirement.

**Course Exemption and Transfer of Credits**

Credit for graduate work may be transferred from approved graduate schools as determined by the USC Degree Progress Department in the Office of Academic Records and Register on recommendation of the dean of the school. Not more than four units of graduate work, with grades of B or better, can be transferred for credit toward the Master of Planning and Development Studies degree.

The following courses, or their equivalents, may not normally be transferred for unit credit from other institutions: PPD 611, PPD 612 and PPD 638. Undergraduate work may not be transferred into the degree program for unit credit.

Some applicants for admission to the school will have been engaged in work in planning, development or closely related activities. Although this experience should be beneficial to the students involved, it may not be considered equivalent to academic education.

**Master of Public Administration**

**Admission**

The Master of Public Administration programs are under the jurisdiction of the Price School of Public Policy. All admissions decisions are made by the school, following guidelines set by the university. See the Admission section of this catalogue.
All questions about the programs and all materials required for admission should be submitted to: MPA Programs, Admissions Office, RGL 111, University Park, University of Southern California, Los Angeles, CA 90089-0626.

Admission to each of these programs is determined by the faculty and admissions committees connected with those areas. Application packages should be sent directly to the program office.

Applications

The admission decision is made using criteria, which include verification that the applicant has completed a bachelor’s degree from an accredited college, has maintained a B average in undergraduate course work and has earned an acceptable score on the verbal and quantitative portions of the Graduate Record Examinations (GRE) or the Graduate Management Admissions Test (GMAT). Other elements of the applicant’s educational and experiential background are also evaluated. International students whose native language is not English must also submit a Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) score.

Each candidate should submit the following to the school: (1) official transcripts of all previous college and university work, showing an awarded degree where appropriate; (2) copies of GRE or GMAT scores; (3) an essay answering questions on the admission questionnaire provided by the school; (4) an up-to-date resume which includes academic and professional accomplishments; (5) three or more letters of evaluation from previous instructors and from professional associates who can attest to the applicant’s potential; (6) completed USC Graduate Admission Application, along with the nonrefundable processing fee; and (7) completed Price School of Public Policy Supplemental Graduate Application.

International applicants may be asked to supply additional information. See the Graduate Admission section of this catalogue.

Deadlines

Applications for admission are evaluated monthly. Those students who are also applying for financial aid, or who must meet other deadlines for admission, should submit application materials early enough to allow the school to make decisions to be made in advance of those other deadlines.

The admissions process generally takes about four to six weeks after all necessary materials have been submitted.

Pre-Service/In-Service Designation

Most MPA students are classified as pre-service or in-service students at the time of admission. Pre-service students are those who enter the program with less than two years of professional work experience, in addition to course work. Pre-service students complete an internship. Students pursuing the Intergovernmental Management specialization or one of the dual degree programs are not classified as pre-service or in-service. Appeals for reclassification of this designation must be submitted during the first semester of enrollment.

Prerequisites

Social Science

Any undergraduate major is acceptable as preprofessional background, provided the applicant has had at least 12 semester units (16 quarter units) of undergraduate course work in cultural anthropology, economics, ethnic studies, social and human geography, political science, sociology or related social science area courses; no more than two of these courses may be in the same field.

Deficiencies in the social science prerequisite may be met while in residence by taking appropriate courses in other departments, but such course work may not be counted toward the course requirements for the master’s degree.

Statistics

A basic competence in descriptive and inferential statistics is also required for the MPA programs. This prerequisite may be met in one of two ways:

1. Entering students must have passed an undergraduate inferential statistics class, with a grade of "B" or better, at an approved university within three years of matriculation.

2. If students do not satisfy this prerequisite, they will be required to take PPD 502x Statistical Foundation for Public Management and Policy, a two-unit graduate level inferential statistics course. They must complete the course with a grade of "B" or better. The units associated with this class may not be used toward the MPA degree.

All prerequisites must be fulfilled within the first 12 units of graduate course work. The statistics prerequisite must also be met before enrolling in PPD 542, PPD 557, PPD 638 or PPD 666.

International Students

Students applying for graduate programs should send applications and appropriate documents to the MPA Programs Admissions Office, which processes all such applications.

Admission

A student is accepted for admission only for the semester indicated on the letter of admission. If the student desires to enter at another time, or if the student cannot arrive on campus in time for the semester in which he or she was admitted, the student must contact the MPA Programs Admissions Office in writing. That office will contact the Office of International Admissions.

Students who do not enroll for the semester indicated on the letter of admission cannot be guaranteed admission to a later session. They will need to work with the MPA Programs Admissions Office to determine procedures to follow.

Registration Requirements

International students on student visas must be registered as full-time students as arranged by the Office of International Services. Doctoral students must carry a load of at least 6 units to be considered full-time students. A full-time graduate load is 8 units. Such students are not eligible to be considered for tuition without formal registration and may be in violation of immigration laws when not properly registered.

International students who have questions about registration requirements should contact the Office of Recruitment and Student Affairs.

Admission Status

MPA applicants may be permitted to take courses before the admission process is completed or they may be admitted before certain conditions have been met; each student must, however, attain regular status (standing) admission to the school prior to or upon completion of 8 graduate units.

Limited Status Students (Preadmission)

Students taking courses who have not been admitted to the school are designated limited status students. These students may be taking courses to meet prerequisites; they may be waiting for part of their application package materials to arrive; or they may be investigating whether an MPA is the best choice for them.

To be considered for limited status enrollment, interested students need to complete the Price School of Public Policy Limited Student Application for Enrollment form and submit official or unofficial copies of their transcripts from their bachelor’s degree granting institution. Students with a 3.0 grade point average (A = 4.0) may enroll in up to 8 units of graduate courses in the Price School of Public Policy.

Price School of Public Policy Limited Student Application for Enrollment forms may be obtained from the Admissions Office, Price School of Public Policy, University of Southern California, RGL 111, Los Angeles, CA 90089-0626; (213) 740-6842. Limited status is not required enrollment. Units beyond these first 8 must be petitioned through the school. Students on limited status are encouraged to complete the application and admission processes before completing their first 8 units.

Ph. D. Candidates

Ph.D. students who pass the qualifying examinations and complete the MPA course requirements or their equivalent during their course work at USC may, with the recommendation of the coordinator of the MPA program, apply for and receive the MPA degree.

MPA Curriculum

The MPA course requirements are designed to address current and future professional competencies for accomplishment; to establish a sequence of basic required courses; and to maximize student choice and depth in specialized studies. The curriculum requires 40 units for completion (41 for pre-service students). Pre-service students, that is, those who have less than 25 months’ employment experience in a professional level position, are also required to take an internship that includes a one-unit seminar.
Management Competencies

MPA students are expected to develop managerial competencies in three areas by taking at least one course in each of the following areas:

Management Competencies

<table>
<thead>
<tr>
<th>Analytic Methods</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPD 547* Policy and Program Evaluation, or PPD 557*</td>
<td></td>
</tr>
<tr>
<td>Financial Management and Operations Research, or</td>

</tr>
<tr>
<td>PPD 666* Administrative Research and Analysis</td>
<td>4</td>
</tr>
</tbody>
</table>

Organizational Behavior

PPD 545 Human Behavior in Public Organizations 4

(With the approval of the MPA or center director, the student may choose a human resources management elective to fulfill this requirement.)

Finance

PPD 541 Public Financial Management and Budgeting, or
PPDE 645 Financial Management of Nonprofit Organizations 4

(With the approval of the MPA or center director, the student may choose a financial management elective to fulfill this requirement.)

*Athe statistics requirement must be met before enrolling in PPD 542, PPD 557 or PPD 666.

Area Cluster Electives

Students may elect to devote their elective courses (14 units) to gain depth in a designated area cluster. These areas include the following: community and economic development, environmental management and land-use policy, financial management, health administration, human resources management, information technology management, intergovernmental management, international policy and management, local government, nonprofit management, planning, public policy, real estate development, transportation, and urban form and design.

Students may elect to follow a more generalist perspective and take their elective courses from the array of elective offerings.

Thesis Option

Thesis option, PPD 584ab Master’s Thesis (4 units), may be taken as part of the elective category. Information regarding the thesis contract is available from the MPA director. All theses and dissertations submitted in fulfillment of requirements for graduate degrees must conform to university regulations with regard to form and method of preparation.

Internships

Pre-service students — that is, those with fewer than 25 months’ employment in a professional level position — are required to complete at least 300 hours of an internship and an internship seminar (PPD 543). MPA students may enroll in the internship seminar during their first semester. Students complete internships in conjunction with the internship seminar.

Specialization in Intergovernmental Management

in addition to the substantive area cluster, MPA students may choose the specialization in intergovernmental management.

Students enroll in courses and serve in internships in at least two levels of governance. A student may take courses toward this specialization at either the Los Angeles or USC State Capital Center. Internships may be taken through either of these centers. Students electing this specialization meet with the intergovernmental management coordinator at either the Los Angeles or the USC State Capital Center to design their program.

To complete this specialization, students complete three courses from the following lists (with at least two drawn from the first list): (1) PPD 661, PPD 662, PPD 663, PPD 665, PPD 669, PPD 670; (2) PPD 688, PPD 689, PPD 690.

Master of Public Policy

The Master of Public Policy (MPP) program is designed to prepare students for careers as professional policy analysts. Through an interdisciplinary curriculum and real world experience, students gain an understanding of the policy process, and develop the capacity to formulate, analyze and implement public policy.

The MPP degree is offered at the University Park Campus only.

Requirements for Admission

Candidates for admission must have maintained a minimum B (3.0) average during their undergraduate degree work and attain a score of at least 500 on the verbal and at least 500 on the quantitative sections of the GRE. Exceptions to these requirements are allowed if justified by outstanding work experience, letters of recommendation, or demonstrated improvement in academic performance during undergraduate studies.

Applicants must have a bachelor’s degree from an accredited institution and have a basic competence in descriptive and inferential statistics. This prerequisite may be met in one of two ways: (1) entering students must have passed an undergraduate inferential statistics class, with a grade of “B” or better, at an approved university within three years of matriculation, and must pass the MPP lab associated with PPD 554 Foundations of Policy Analysis, or (2) take PPD 502x Statistical Foundations for Public Management and Policy and complete with a grade of “B” or better. If students select to take PPD 502x, the units associated with this class may not be used toward the MPP degree.

Degree Requirements

Students are required to complete 48 units of graduate work, with 24 units of core and 24 elective units divided between management, analytic and specialization areas.

</tbody>
</table>

*Students who select PPD 660 to meet their analytic requirement will add the remaining 2 units to the 12 specialization units in consultation with their academic adviser.

In addition, students take 12-14 units of additional electives selected by the students with the advice of the academic adviser or director of the MPP program. These electives typically are taken in an area of policy specialization, such as: community economic development, education policy, environmental policy, health, infrastructure, international policy and development, media and communications, philanthropy and nonprofit, and transportation.

Students may not take more than 12 units outside of the Price School of Public Policy without written consent of the director of the MPP program.

Master of International Public Policy and Management

The International Public Policy and Management (IPPMAM) Program offers a Master of International Public
Policy and Management (IPPM). The degree is designed for managers, planners and analysts involved in social sector programs who want to strengthen their management skills and further develop their policy analysis capabilities. For professionals working in the social sectors, IPPAM offers an opportunity to deepen their conceptual understanding of the forces driving change in their sectors and to develop an analytical approach for accessing and reshaping social policy. The program is well-suited for mid-career professionals working in the social sectors, such as physicians, nurses and pharmacists in the health professions; educators and administrators in the teaching professions; government regulators, managers and staff; community organizers, aid workers and others working in the NGO sector; and reporters and others in the news professions interested in covering social issues.

This program is specifically designed for international students and U.S. students who wish to work in international settings, including the Pacific Rim, Latin America and countries in other regions with evolving social systems.

Students are required to complete a minimum of 32 units. All students must fulfill core requirements (16 units) in fundamental policy analysis and management disciplines and an additional 14 units in an area of concentration chosen by the student. The core requirements include: PPD 501A Economics for Policy Planning and Development; PPD 542 Policy and Program Evaluation; PPD 569 Applied International Policy Analysis and Management Project; PPD 570 Applied Statistics for Planning, Policy and Management; and PPD 571 International Public Policy and Management Seminar.

Students select an area of concentration in which they complete a set of recommended elective courses. Each concentration allows students to pursue in depth one or more areas of particular relevance to their career goals. The concentration areas enable students in the program of graduate study for the professional degree to pursue an advanced degree.

The concentration allows students to pursue in depth one or more areas of particular relevance to their career goals. The program of graduate study for the professional degree is designed for full-time faculty members from the Price School of Public Policy. In addition, practicing developers, lawyers, planners and other professionals make regular contributions to the course of study, helping students link learning to practice.

Curriculum Requirements

The program of graduate study for the professional degree requires successful completion of the core curriculum (36 units), elective courses (8 units) and a comprehensive examination. Students must complete a total of 44 units.

Core Curriculum

The core comprises 13 lecture-seminar courses that combine lectures, projects, case analyses, and exercises which allow students to experience the practical aspects of the developer’s tasks and problems. The integrative project, RED 575L, provides problem solving exercises and the evaluation of actual development situations. Courses emphasize various design, regulatory and fiscal problems associated with urban development and the developer’s role in improving development standards in the industry.

Eight units of elective course work are required for the Master of Real Estate Development. These courses may be taken in the schools of Public Policy, Architecture, Business, Law and the Department of Civil Engineering. Admission to some classes requires advanced prerequisites and is subject to availability and approval of the instructor.

Comprehensive Examination

Successful completion of a comprehensive written and oral examination is required of all students seeking the Master of Real Estate Development degree. The examination explicitly covers the core courses. It is normally administered late in the spring semester by a faculty committee appointed by the dean. Students who fail the examination once may take it again within one year. The examination may not be repeated more than once.

General Requirements

Residence and Course Load

The Master of Real Estate Development may be completed on either a full-time or part-time basis. Both options begin in the summer session in June. The full-time program requires 11 months of study. The evening executive option is completed over a two-year period. Students are also expected to participate fully in all extracurricular activities associated with the Master of Real Estate Development program, including the weekly speaker series.

Students who wish to take a leave of absence for a semester or longer must request it from the dean in writing; such leaves may be granted for up to one year.

Students must have an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills.

Time Limit

The time limit within which students in the program must complete the requirements for the Master of Real Estate Development is governed by the following regulations:

All requirements for the Master of Real Estate Development must be completed within five calendar years from the first course at USC applied toward the degree.

University regulations prohibit the acceptance of credits for courses taken toward a Master of Real Estate Development degree more than seven years after the date they were successfully completed.

Grade Point Average Requirement

While enrolled in the program, a student must maintain a grade point average of at least 3.0 for all courses taken toward the degree.

Probation and Disqualification

Any student with a cumulative grade point average of below 3.0 for all courses taken in the program will be placed on academic probation. A student may be disqualified to continue toward a graduate degree if the
student has been on academic probation for two consecutive semesters. Whether or not on academic probation or warning, a student may be disqualified at any time from continuing in the program if the dean of the school, after consultation with the faculty, determines that the student is deficient in academic achievement or in another qualification required for the attainment of the Master of Real Estate Development degree.

**Course Exemptions and Transfer of Credits**

Courses taken toward other degree programs, if determined by the dean to be equivalent to courses in the curriculum, may be accepted for credit only. All students are required to complete 44 units while enrolled in the Master of Real Estate Development program. The acceptance of previous course work for subject credit will enable the student to take additional elective courses.

**Graduate Professional Labs**

USC’s Price School of Public Policy offers professional consulting-like experience for graduate students in its core master’s degree programs. Participants are presented with a challenging professional assignment and a well-defined client and terms of reference. Students typically work in teams to produce a professional report and related materials that are presented to the client at the close of the assignment. The terms of reference for the lab vary each year depending upon the client, the instructor and the setting, among other considerations.

In principle, these professional labs may be held anywhere, either in Los Angeles, elsewhere in the United States or abroad.

The Price School professional laboratory teaches students to integrate scholarly knowledge with professional practice. Likewise, it helps participants make the transition from the classroom back to a #&$200-real world#&$211; setting. In the case of international labs, participants also gain a deeper and more direct understanding of how the culture of professional practice can vary from one setting to the next. Through the Price School professional laboratory students build their credentials and experience while also extending their network of professional contacts.

These professional labs are intended primarily for graduate students in public administration, planning, real estate development, public policy and health administration. A distinctive feature of the professional laboratory is that it is intended as an integrative professional experience across the school, so that students from any of these programs may participate fully.

Each summer the Price School offers one or more international labs/workshops. Recent international labs have been held in China, Brazil, Germany, Morocco, Italy and Vietnam. All students are encouraged to take at least one international lab course.

**Exchange Program**

The Hertie School of Governance exchange program is a one-semester exchange program offered during the fall semester. The program will provide opportunities for students to acquire knowledge and skills necessary to become global leaders and succeed in a global market. All instruction is in English; proficiency in a foreign language is not required. Courses completed at the Hertie School of Governance are graded credit/no credit on the student’s USC transcript. The courses are selected from a list approved by the Price School of Public Policy. Students must work with their program administrator to understand how the courses will return to their degree.

**Graduate Certificate Programs**

**Certificate in Transportation Systems**

The graduate certificate in Transportation Systems is an interdisciplinary program administered by the Department of Civil Engineering. The certificate program allows students to specialize in transportation applications, while simultaneously receiving a degree in their home department. The certificate in transportation systems combines elements of transportation engineering with transportation policy, planning and project management. The program is especially appropriate for students intending to pursue careers as developers of transportation technologies or as implementers of technologies within government agencies.

Students electing the certificate program apply to the Department of Civil Engineering.

Course prerequisites for the program are:

1) one course in statistics or uncertainty, equivalent to CE 408, ISE 225 or PPD 404;
2) one course in engineering economy, equivalent to ISE 460;
3) one course in microeconomics, equivalent to ECON 203; and
4) one course in a high level programming language, such as C or Fortran.

These prerequisites may be satisfied after enrollment in the certificate program by taking the indicated courses or their equivalent. Graduate students cannot receive credit for courses numbered below 400. Detailed admissions requirements are published by the Department of Civil Engineering.

**Requirements for Completion**

The curriculum consists of five graduate courses for a total of 17 units.

- **Required Courses**
  - CE 471 Principles of Transportation Engineering, or Transportation Engineering 3
  - CE 583 Design of Transportation Facilities, or Transportation Engineering 3
  - CE 585 Traffic Engineering and Control 3
  - ISE 516 Engineering Project Management 3
  - PPD 633 Urban Transportation Planning and Management 4
  - PPD 634 Institutional and Policy Issues in Transportation 4

Applicants for the Certificate in Nonprofit Management and Policy who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program, which may be obtained from the student services advisor.

Applicants for the Certificate in Nonprofit Management and Policy who have not matriculated at USC must make a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.

The certificate in nonprofit management and policy consists of 16 units of graduate course work.

</tbody>
</table>

**Elective Course**

Students select 4 elective units. The elective course(s) may be taken from within the Price School of Public Policy course offerings or other USC units. The elective selection must be approved by the faculty advisor for the certificate program.

Up to 10 units of the certificate may be applied to both the certificate and the core requirements or electives in the Master of Public Administration program. Up to 12 units may be applied toward both the certificate and the core or electives in the Master of Public Policy program.

The Master of Public Administration director will provide advisement.

**Certificate in Political Management**

This graduate certificate program provides students with a foundation in political management. It is designed to provide expertise for students who wish to work in public policy advocacy, in political relations, with elected officials and with the public, nonprofit or private sectors.

Applicants who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program which may be obtained from the student services advisor.

Applicants who have not matriculated at USC must make a formal application for admission to the certificate program, as well as provide transcripts of all college work, a resume and one letter of recommendation.

The Certificate in Political Management consists of 14-16 units of graduate course work depending on the courses selected.

Choose Two of the Following (8 units)
Certificate Programs in Public Financial Management

Students enrolled in the Public Financial Management certificate program are required to take 52 graduate units of course work (51 for pre-service students). Seventeen of these units are MPA core courses (PPD 500, PPD 501ab, PPD 540 and PPD 545); and 12 units of management competencies (PPD 541, PPD 542 or PPD 557 or PPD 666, and PPD 544). In addition, students must take 16 units of course work in finance and related subjects (PPD 516, PPD 554 or PPD 555, PPD 567 or PPD 661 or PPD 662 or PPD 669). Ten units of approved electives will be selected from among: PPD 510b, PPD 542, PPD 652, PPD 660, PPD 661, PPD 662, PPD 669, PPD 679 and PPD 688. Pre-service students must also serve an internship and be enrolled in PPD 543.

Students may receive this certificate with a specialization in intergovernmental management provided they complete the three course sequence (PPD 661, PPD 662, PPD 669). Students may satisfy this requirement if they apply to two of these courses toward the 10-unit elective requirement and apply the third course toward the 16-unit finance and related subjects requirement.

Students who select PPD 564 (rather than PPD 555) must select an additional 2-unit elective.

Certificate Programs in Health Management and Policy Programs

The Health Management and Policy Programs of the Price School of Public Policy offers certificate programs in specialized areas of health care administration. The certificates are designed to provide practitioners with means for improving or updating their knowledge and experience in a challenging and professionally relevant course of study. Certificates are offered in Administration of Long Term Care Programs and Management of Ambulatory Care Systems. Applicants for the certificate programs must make formal application for admission to the certificate program, provide transcripts of all college work, submitted by three letters of recommendation, including one from a former instructor, a resume and a personal statement describing their career goals and the relationship of the certificate to those ends.

It is expected that applicants to the certificate programs should have graduated from a recognized college with an approximate grade point average of B in the last 60 units of college work. Non-grantees may be admitted if the director believes that there is evidence to suggest that the applicant is capable of graduate level work.

Successful completion of the certificate will not be a deciding factor in the admission decision for the degrees offered by the Health Management and Policy Programs or the Price School of Public Policy.

The Ambulatory Care program requires 20 units of graduate credit including a 16-unit core and a four-unit specialized seminar in the area of the certificate concentration. Core courses (16 units): PPD 509; PPD 510a or PPD 516; PPD 545 or PPD 557; one elective. One specialized seminar as follows (four units): PPD 600, PPD 601 or GERO 550.

The Certificate in Administration of Long Term Care Programs requires 16 units of course work. The required courses are GERO 500; PPD 513; PPD 518; PPD 601; PPD 510a or PPDE 645. The program can be completed via distance learning.

Completing a certificate program does not constitute completion of or admission to the Master of Health Administration (MHA) or Executive Master of Health Administration (EMHA) degree programs nor will it be a deciding factor in the admission decision to those programs. Students in the MHA program, however, may qualify for award of these certificates if they complete the applicable course requirements.

Certificate in Public Management

This program provides students with a solid foundation of training and skills in management. Individuals who need training in public administration but who are unable to enroll for the Master of Public Administration (MPA) degree find this certificate program of particular interest. Key to the program’s success is the close integration of the academic curriculum and the application of skills and theory to managerial work assignments. Students may enroll at any time throughout the year.

The program consists of four courses: PPD 540, PPD 542, PPD 545, and one elective selected from any 500-level offering in the Price curriculum.

Certificate in Public Policy

This graduate certificate program provides students with a foundation in public policy analysis. It is designed to provide expertise in public policy to individuals who do not want to pursue the Master of Public Policy degree. Potential students include those who are pursuing another degree and want to complement that work with a specialization in public policy, as well as qualified students holding a bachelor’s degree who have not matriculated at USC. The certificate develops policy analytic skills and their integration with a policy issue area of interest to the student.

Applicants for the Certificate in Public Policy who have not matriculated at USC must make a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.

The program consists of 16 units of graduate course work.

Required Core Course (4 units)

- PPD 683 Homeland Security and Public Policy
- Choose three of the following (11-12 units):
  - PPD 501ab Economics for Policy, Planning, and Development
  - PPD 557 Modeling and Operations Research
- ISE 530 Optimization Methods for Analytics
- ISE 562 Value and Decision Theory
- PPD 587 Risk Analysis

Certificate in Sustainable Policy and Planning

This graduate certificate program provides students with a foundation in policy and planning issues in sustainability and the environment. The certificate develops analytic and methodological skills and provides students the knowledge to understand the increasing importance of issues surrounding the environment and sustainability in policy and planning.

For admissions information, please visit the Price Website. The Master of Planning director will provide advisement.

The Certificate in Sustainable Policy and Planning consists of 12-14 units of graduate course work:

Required Courses (6 units)

- PPD 517 Environmental Governance and Sustainability
- PPDE 634* Methodology, Methods and Tools for Urban Sustainability
- PPDE 660 Environmental Policy Design and Analysis

*Students in the certificate program will take the 2-unit
Elective Courses (6-8 units)

Students select six to eight* units of electives.

**ARCH 519** Sustainability in the Environment: 3
- Infrastructure, Urban Landscapes and Buildings

**MOR 566** Environmental Sustainability and Competitive Advantage 3

**PDD 587** Risk Analysis 4

**PDD 619** Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions 4

**PDD 621** Environmental Impacts 4

**PDD 62a** Alternative Dispute Resolution 4

**PDD 62g** Transportation and the Environment 4

**PDD 694** Coastal Policy and Planning 4

**PDE 632** Sustainable Cities 4

*If students select MOR 566 or ARCH 519, they will take 6-7 units of electives. Others will take 8.

Certificate in Health Systems Operations

This 17-unit graduate certificate is jointly sponsored by the Epstein Industrial and Systems Engineering Department and the Price School of Public Policy (Master of Health Administration program), and administered by the Epstein Industrial and Systems Engineering Department. See the Industrial and Systems Engineering Department for course requirements.

Certificate in Real Estate Development

This graduate certificate program provides students with a foundation of the key elements of real estate development. It is designed to provide these foundations for non-Master of Real Estate Development students who wish to obtain this knowledge to complement their graduate program of study as well as their careers. For admissions information, visit the Price School Website.

The certificate in real estate development consists of 12 units of graduate course work: RED 510, RED 511 and RED 512.

Certificate in International Policy and Planning

The Graduate Certificate in International Policy and Planning strengthens students’ understanding of global policy, planning and public management issues underscoring comparative differences in policy approaches and governance institutions across countries, builds a core foundation of knowledge about the governing institutions and agreements that operate on a global level, and prepares students for working in international organizations. The professions of graduate students in the Price School (public administration, public policy, urban planning, health policy and management, and real estate development) are globalizing. To analyze and understand the impact of globalization on their chosen field and to be competitive in a global context, emerging leaders in these professions should be conversant in thinking and operating on a global scale. Earning this certificate better prepares students for the professional demands of the globalized era.

The Certificate in International Policy and Planning consists of 14 units of graduate course work.

Required Courses (8 units)

<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>PDD 677</td>
<td>4</td>
</tr>
</tbody>
</table>

Elective Courses (6 units)

Students select at least 6 units of elective courses. The elective courses may be taken from within the Price School of Public Policy course offerings or other USC units. The electives will be selected from three topic areas: international development; urbanization, policy issues and sustainability; and global health. The electives will be selected in consultation with and approved by the faculty advisor for the certificate program. The electives should be chosen such that the combination of core classes and electives produces a well-rounded and rigorous preparation for professional practice in a globalized context.

Admission Requirements and Application Procedures

Applicants for the Certificate in International Policy and Planning who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program, which may be obtained from the program administrator.

For more information, please contact the USC Price Office of Admissions at uscprice@usc.edu for more information.

Non-Credit Programs Offered by the Center for International Training and Development

Management Effectiveness Program

This is a four-week intensive training program in the art and science of management. The program is designed to enhance leadership effectiveness and the development of a management generalist perspective.

International Executive Development Laboratory

This five-week laboratory focuses on issues in executive leadership, strategic management, environmental analysis, international finance and economics, computer-based project planning, and implementation of planned change strategies.

Dual Degree Programs

A dual degree program is an academic option that allows a student to enroll in two graduate programs simultaneously. Application must be made to both schools, and if accepted to both, the student pursues a specially designed program which combines selected courses from the two academic units. Students are required to seek advisement from both schools. The student will have the opportunity to acquire the knowledge and skills from two fields of study.

The dual degree program enables the student to integrate a closely related field with planning or development. The purpose of the dual degree program is to provide an enriched educational experience; accordingly, concurrent course work in the two fields is required.

Since the unit requirements of dual degrees depend upon the mutual transfer of units between the two academic units, no other transfer of credits will be allowed.

Students who decide, at any point, to earn only one of the two degrees must meet all the regular requirements for earning that degree alone.

Students in Master of Planning dual degree programs must fulfill the comprehensive examination and appropriate internship requirements except where noted otherwise.

Master of Heritage Conservation/Master of Planning

The Master of Heritage Conservation/Master of Planning dual degree program facilitates highly related cross-disciplinary studies in heritage conservation and in urban planning at the master’s level. The primary objective of the dual degree curriculum is to impart to students a basic familiarity with the origins and development of the philosophies, theories, and practices of planning and heritage conservation. This curriculum has been developed so that students will graduate from this program with a broad practical knowledge of the laws, regulations, and policies that apply to planning and conservation practice in the United States and internationally. This expertise will include knowledge of urban design, public policy, and architectural and planning history and theory. Students will be expected to understand the critical methodological tools necessary for a professional engaged in the investigation, interpretation, and evaluation of the urban built environment.

Qualified students who are admitted to the graduate programs in both the School of Architecture and the USC Price School of Public Policy may complete both degrees in a highly integrated five-semester program.

Requirements

Requirements for completion of the dual degree program are 60 units, including 30 units in heritage conservation and 30 units in planning, as follows:

PPD 525 Statistics and Arguing from Data 2
PPD 527 The Social Context of Planning 2
PPD 529 Legal Environment of Planning 2
PPD 531L Planning Studio 4
PPD Concentration – Gateway course 4
PPD Concentration – Methodology course 4
PPD Electives 6
Total 30

Concentration Methodology: Students in this program will be required to select a concentration for the Master of Planning program.

Electives: Electives must be taken within the USC School of Architecture or the Price School of Public Policy.

Degree Completion requirements: Dual degree students, like all other MPL students, must take a comprehensive examination and fulfill the internship requirement. In addition, like all other MHC students, dual degree students will be expected to complete a thesis.

Master of Planning/Master of Advanced Architectural Studies

The Master of Planning/Master of Advanced Architectural Studies dual degree program facilitates highly related cross-disciplinary studies in architecture and in planning at the master’s level. This program offers students interested in developing a career in urban design an opportunity to make more substantial commitments in both disciplines and to achieve a more coherent and extensive knowledge in the design of built environments and public policy. This dual degree program normally requires five semesters in residence.

Qualified students who are admitted to the graduate programs in both the School of Architecture and the USC Price School of Public Policy may complete both degrees in a highly integrated five-semester program. Such students must already possess a five-year professional degree in architecture.

Requirements

Requirements for completion of the dual degree program are 72 units, including 36 units in architecture and 36 units in planning. See the School of Architecture for course requirements.

Master of Planning/Master of Business Administration

The Master of Planning/Master of Business Administration dual degree program enables the student to understand the conduct and requirements of business, accounting, corporate and strategic planning, real estate marketing, and finance. Further, students gain expertise in public policy, city planning and the interpretation of government regulations. Exposure to both fields becomes an educational as well as a professional asset for careers in either public service or private enterprise. This dual degree program normally requires five semesters in residence.

Requirements

A total of 84 units is required for the dual degree: 48 units of work in the USC Marshall School of Business and 36 units in the Price School of Public Policy. Required courses that must be taken in the Marshall School of Business include: all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree students must not count courses taken outside the Marshall School of Business toward the 48 units.

Electives

A 4-unit course selected from the concentration list shown in the MPL program.

Planning Studios: PPD 531L (4.4) to total 8 units.

Electives: 8 units of elective courses taken within the Price School of Public Policy.

Dual degree students, like all other MPL students, must take a comprehensive examination and fulfill the internship requirement.

Master of Planning/Master of Arts in Economics

The USC Price School of Public Policy and the Department of Economics jointly offer a two-year program leading to the MPL and M.A. degrees. Applicants must apply to the Price School of Public Policy and the USC Graduate School and meet the admission requirements of both.

Requirements

Requirements for completion of the dual degree program are 58 units, including 24 units in economics and 34 units in planning.
ELECTIVES: 12 units of PPD courses and 12 additional units of elective courses taken within the Price School of Public Policy.

Students are also required to complete a comprehensive examination. Students have the option of selecting either the existing MPH or existing RED examination.

The internship requirement is waived for students who enter the program with professional experience in either planning, real estate or a related field.

Master of Planning/Master of Science in Gerontology

The M.S./MPH dual degree is one of a few in the nation which combines the knowledge of the older population with the skills needed to plan services for older people. The MPH prepares the graduate for the responsibilities involved in development of public and private institutions and programs. The M.S. indicates a special focus on the older person and the skills to analyze and design programs. The MPH indicates a special focus on the older person and the skills to analyze and design programs. The M.S. is offered through the USC Davis School of Gerontology.

Requirements

Requirements for completion of the dual degree program are 66 units and 26 units in gerontology, 36 units in planning and a minimum of 4 units of thesis in either gerontology or planning, as follows:

<table>
<thead>
<tr>
<th>GERONTOLOGY</th>

<td>2</td>
</tr>
</tbody>
</table>

Note: 2-unit courses may be offered in seven-and-a-half-week blocks.

Concentration Methodology: A 4-unit course selected from the concentration list shown in MPH program.

Planning Studies: PPD 531L (4.4) to total 8 units.

Electives: 8 units of elective courses taken within the Price School of Public Policy.

Thesis: A thesis is required on a subject interrelating gerontology and planning. Students must register in a minimum of 4 units of PPD 594abz (2,2,0) or GERO 594abz (2,2,0). Students must maintain continuous registration until completion of the thesis.

Program Adaptation: The USC Davis School of Gerontology waives GERO 589 Case Studies in Leadership and Change Management because students enrolled in this program will have a primary professional focus in planning.

Master of Planning/Master of Landscape Architecture

The dual degree option in planning and landscape architecture (in the USC School of Architecture) trains professionals in policy and design, and to be competent with design problems at different scales, but with a distinctly urban focus. Candidates must be independently admitted to the Master of Planning and Master of Landscape Architecture programs. The dual degree program normally requires between five and seven semesters in residence.

Requirements

Completion of the dual degree requires 24 units of courses in urban planning, 10 units of thesis option I or II and either 32 units of landscape architecture (for those students admitted with advanced standing); 48 units of landscape architecture (for those students admitted with advanced placement); or 74 units of landscape architecture (for those students admitted to the three-year curriculum). See School of Architecture for course requirements.

Master of Planning/Master of Public Administration

The Master of Planning/Master of Public Administration dual degree program is designed for the study of the relationships between planning and public administration. Administrative skills, budgeting and fiscal analysis, a knowledge of operations services of local governments, and formulation and conduct of planning operations within the context of municipal management are required. This dual degree program normally requires five semesters in residence.

Requirements

Requirements for completion of the dual degree program are 60 units, including 26 units in public administration, 20 units in planning and 14 units of electives (8 in planning), as follows:

Prerequisites: 12 undergraduate course credit units of social science, not more than 8 units in any one field, are required. Students must also satisfy the MPA statistics prerequisite and other prerequisites. PPD 529 satisfies the Price School of Public Policy prerequisite in descriptive and inferential statistics for students in the Master of Planning/Master of Public Administration dual degree program. Dual degree students completing PPD 529 with a grade of B or higher (A–4.0) need not take PPD 52X Statistical Foundations for Public Management and Policy.

Concentration

Students must select 16 units in a concentration from one of the five concentrations in the planning program. Students are required to complete the gateway course and methodology course related to their concentration as part of their preparation for their comprehensive examination. The student’s concentration must contain a 4-unit methodology course, a 4-unit gateway course and 8 other
units. See further details on the concentrations in the Master of Planning section of the catalog.

**Planning Studios**

Students will complete a total of 8 units of domestic or international planning studios under PPD 531L (4) to satisfy this requirement.

Dual degree students, like all other MPI students, must take a comprehensive exam and fulfill an internship requirement. Students will take 200 hours of planning internship placement in addition to 2 units in PM 596 and 2 units in PM 597. See below for further internship details for this dual degree.

**PREVENTIVE MEDICINE — PUBLIC HEALTH CORE UNITS REQUIREMENTS**

| PM 501 | Foundations in Health Education and Promotion | 4 |
| PM 508 | Health Service Delivery in the U.S. | 4 |
| PM 510 | Principles of Biostatistics | 4 |
| PM 512 | Principles of Epidemiology | 4 |
| PM 529 | Environmental Health: An Epidemiological Approach | 4 |
| PM 533* | Public Health Practicum | 4 or 8 |
*PM 593 is a variable unit course, 4 or 8 units. Students are required to take 4 units for this dual degree.

**HEALTH PROMOTION TRACK REQUIREMENTS 19 UNITS**

| PM 528 | Program Design and Evaluation | 4 |
| PM 562 | Intervention Approaches for Health Promotion and Disease Prevention | 4 |
| PM 563 | Organizing and Mobilizing Communities for Public Health | 4 |
| PM 565 | Health promotion track electives | 4 |
| Other electives | | 3 |

All students admitted into the dual degree program must complete all requirements for each program.

Students in the dual degree may substitute two MPI core courses with PM courses. PPD 525 may be substituted with PM 510 and PPD 526 may be substituted with PM 583. Students enrolled in the dual degree are not required to take PPD 525 (as opposed to the stand alone MPI degree students) because they develop the necessary proficiencies in statistics in PM 510L, which provides them the opportunity to learn biostatistics, health statistics and the application of statistics necessary for success in this dual degree and for their future career. Dual degree students are not required to take PPD 526 and may take PM 563 as this course covers global health and international issues and will provide students with the information needed for success in their career.

Students may substitute 4 units of the health promotion track electives with relevant courses from the Price School of Public Policy. Relevant courses would include PPDE 630 Community Health Planning, PPD 511, PPD 513, and PPD 514.

In addition, for PM 596, students complete an internship specific to meet the competencies of the health promotion track. Dual degree students would enroll in this 2-unit course and complete a 150-hour placement. The other 150 hours would be waived because students will spend 200 hours during their planning internship, acquiring additional relevant practical experience. (Note: This is consistent with the established dual degree programs with medicine, pharmacy, social work and clinical psychology).

The skeleton curriculum is described by these requirements. In fact, students will tend to take additional courses specific to their planning concentration and will enroll in additional units.

Units required to complete program: 79

**Master of Planning/Master of Arts, Art and Curatorial Practices in the Public Sphere**

The Master of Planning/Master of Arts, Art and Curatorial Practices in the Public Sphere dual degree program offers an unusually rich opportunity for students interested in developing a new knowledge base to become successful professionals working in the arena of organizing art projects in urban public space, planning and community development. Los Angeles and the facilities at USC provide a unique learning laboratory to educate a more competitive professional with a better understanding of both the administration of public art and issues of urban planning.

Students must complete the following requirements in this program: 70 units, including 28 units in the Master of Arts, Art and Curatorial Practices in the Public Sphere program, 22 in policy, planning, and development, and 20 in a field of study with no more than 8 units taken from other USC programs.

**MASTER OF ARTS, ART AND CURATORIAL PRACTICES IN THE PUBLIC SPHERE (28 UNITS)**

| PADS | Methodologies of Art Writing | 3 |
| PAP | Curatorial Practicum | 2/2-2 |
| PAPS | Curatorial/Organizational Models | 2 |
| PAS | Histories of Art in the Public Sphere | 3 |
| PAS | Contemporary Art in the Public Sphere | 3 |
| PAS | Critical Conclusions | 3 |
| PAS | Theorizing the Public Realm | 3 |
| PAS | Field Internship Experience | 1 |
| PAPS | Master’s Thesis | 2.2 |

**MASTER OF PLANNING (22 UNITS)**

| PPD 500 | Intersectoral Leadership | 2 |
| PPD 500a | Economics for Policy, Planning and Development | 2 |
| PPD 524 | Planning Theory | 2 |
| PPD 525 | Statistics and Arguing from Data | 2 |
| PPD 526 | Comparative International Development | 2 |
| PPD 529 | Legal Environment of Planning | 2 |
| PPD 531L | Core Laboratory Workshop | 4 |
| PPD 533 | Planning History and Urban Form | 2 |
| PPD 627* | Design Skills for Urban Planners | 4 |

*PPD 627 is the methodology course for the Preservation and Design of the Built Environment concentration. Students who choose to do a concentration other than Preservation and Design of the Built Environment need to take the respective methodology course.

Dual degree students, like all other MPI students, must take a comprehensive examination and fulfill the internship requirement.

**Field of Study (20 units)**

Students may include no more than 8 units from outside the Roski School of Art and Design and the Price School of Public Policy. The MPI program requires students to declare their concentration during the fall semester prior to taking the comprehensive examination in the spring semester. Students are required to comply with the gateway course and methodology course related to their concentration as part of their preparation for their comprehensive examination. The student’s concentration must contain a 4-unit methodology course, 2-unit gateway course and 8 other units directly concerned with the subject matter of the concentration.

**Capstone Projects**

Students must complete a master’s thesis or final thesis project through the Roski School of Art and Design and the MPI comprehensive examination through the Price School of Public Policy.

**Internship**

All students must complete 400 hours of internship through the Price School of Public Policy. This internship may be partially or completely fulfilled through prior professional experience.

**Master of Public Policy/Master of Planning**

The Master of Public Policy/Master of Planning dual degree program gives students the opportunity to develop a depth of analytic and design skills with which to effectively address the problems of urban communities. The dual degree program normally requires six semesters in residence.

**Requirements**

Complete of the dual degree requires 72 units, including: PPD 500 and PPD 501a, 22 units in public policy, 22 units in planning, 6-8” units in electives and 8 units in planning studios/practicum.

**Prerequisites**

Applicants must have a basic competence in descriptive and inferential statistics. This prerequisite may be met in one of two ways: (1) entering students must have passed an undergraduate inferential statistics class, with a grade of “B” or better, at an approved university within three years of matriculation, and must pass the MPI lab associated with PPD 554 Foundations of Policy Analysis, or (2) take PPD 502x Statistical Foundations for Public Management and Policy and complete with a grade of “B” or better. If students select to take PPD 502x, the units associated with this class may not be used for graduate credit.

**REQUIRED COURSES**

| PPD 500 | Intersectoral Leadership | 2 |
| PPD 501a | Economics for Policy, Planning and Development | 2 |
| PPD 524 | Planning Theory | 2 |
| PPD 525 | Statistics and Arguing from Data | 2 |
| PPD 526 | Comparative International Development | 2 |
| PPD 529 | Legal Environment of Planning | 2 |
| PPD 531L | Core Laboratory Workshop | 4 |
| PPD 533 | Planning History and Urban Form | 2 |
| PPD 627 | Design Skills for Urban Planners | 4 |

Note: 2-unit courses may be offered in seven-and-a-half week blocks.

**PUBLIC POLICY COURSES**

| PPD | Economics for Policy, Planning and Development | 2 |
| PPD 554 | Foundations of Public Policy Analysis | 2 |
| PPD 555 | Public Policy Formulation and Implementation | 4 |
| PPD 558 | Multivariate Statistical Analysis | 4 |
| PPD 560 | Methods for Policy Analysis | 4 |
| Public policy elective | | 4 |
| Analytic electives (PPD 542, PPD 557, PPD 587, PPD 617 or PPD 647, PDE 660*, PDE 661, PM 542, SD6 621, COMM 650, SD6 587) Students who select PDE 660 will take an additional 2 units of electives in consultation with the adviser. | | |
| One management elective from the following list: | | |
| PPD 541 | Public Financial Management and Budgeting | 4 |
| PPD 545 | Human Behavior in Public Organizations | |
Electives

Students are required to take 6-8* units of electives from the curriculum offered by the university. Non-Price School courses may be selected by the students with the approval of an academic advisor.

Practicum/Planning Studios

After finishing the core courses of both programs, students are required to take 8 units in practicum/planning studios: 4 units from the public policy program (PPD 651ab) and 4 units from the planning program (PPD 511).

Comprehensive Exam and Internship

Dual degree students, like all other MPI students, must take a comprehensive examination and fulfill the internship requirement.

Master of Planning/Master of Social Work

The dual degree program between the USC School of Social Work and the USC Price School of Public Policy offers unique opportunities for students who want to devote their professional careers to social policy, social planning or social services delivery. Students with a dual degree will have broader employment opportunities beyond those in traditional planning or social work.

The schedule of courses allows students to experience direct service in the first year so that course work planning is supplemented by a knowledge of consumers, service delivery, etc. Courses for both schools are taken simultaneously, intermingling social work and planning content. Two years of field practicums in social work provide in-depth exposure to social service issues from both planning and direct service perspectives, thus satisfying some of the planning laboratory/workshop requirements and eliminating the need for a separate planning internship requirement.

Requirements

For completion of the MSW/MPR degree are 83 units including 51 units in social work and 32 units in planning. Students must select a community organization, planning and administration concentration in the second year of their social work program.

Note: 2-unit courses may be offered in seven-and-a-half week blocks.

Planning Studios: PPD 521L (4) for 4 units.

Electives: 8 units of elective courses taken within the Price School of Public Policy.

Dual degree students, like all other MPI students, must take a comprehensive examination and fulfill the internship requirement.

Master of Public Policy/Juris Doctor

The Price School of Public Policy and the USC Gould School of Law offer a dual degree that enables qualified students to earn both a Juris Doctor and a Master of Public Policy in approximately four years of study.

The dual degree allows students to acquire a blend of the analytic skills of public policy and an understanding of legal institutions and processes. This combination of knowledge is well suited for law students who want to affect the policy-making process and craft legislation to aid in the achievement of public policy goals. It is equally appropriate for prospective policy analysts who are interested in law and public policy.

Students must apply to, and be accepted by, both schools. They may be accepted to the dual degree at the time of their acceptance to the law school or at the beginning of their second year of law school. Dual degree students spend the first year of the program completing the required first year of law school. The remaining units of law school courses and the required 16 units of core MPP courses are taken by students in the second through fourth years.

Students are required to complete 114 units of course work, 78 units in the law school and 36 units in the Price School of Public Policy. To earn the J.D., all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs. In addition, the MPP program has a statistics prerequisite. Please see the MPP degree in the Price School of Public Policy section of the catalogue for the requirements.

The required MPP courses are PPD 500, PPD 501ab, PPD 554, PPD 555, PPD 558, PPD 560, PPD 619ab; 4 units of a management elective (PPD 541, PPD 545, PPD 564, PPD 656, PPD 662, PPD 673, PPD 675, PPD 690 or PPDE 645); and 8 units of an analytic elective (COMM 560, PM 542, PPD 542, PPD 557, PPD 587, PPD 677, PPD 647, PPDE 661, SOC 621 or SOC 581).

Master of Real Estate Development/Juris Doctor

The Juris Doctor/Master of Real Estate Development dual degree program provides the opportunity for in-depth study of legal issues and real estate development. The increasing regulatory environment developers work within demands that professionals in the real estate industry have a strong understanding of the legal system. Lawyers who plan to specialize in real estate law will benefit from a thorough understanding of the development process, including financial, planning, marketing and design issues. Application must be made to both the USC Gould School of Law and the USC Price School of Public Policy. This program normally requires three years (including one summer) of full-time study in residence to complete.

Requirements for completion of the dual degree program are 112 units, including 78 units in law and 34 units in planning and development. To earn the J.D., all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs.

Please see the MPP degree in the Price School of Public Policy section of the catalogue for the requirements.
Real Estate Development

Units

EBRD 574 Building Typologies 2
EBRD 575L Community Design and Site Planning 4
EBRD 598 Real Estate Product Development 2

Elective from the Price School of Public Policy 2

Students are required to complete a comprehensive examination administered by faculty members from both the law school and the Price School of Public Policy.

Students are required to complete a comprehensive examination administered by faculty members from both the law school and the Price School of Public Policy.

Students must have an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills.

Master of Real Estate Development/Master of Business Administration

The Master of Real Estate Development/Master of Business Administration dual degree program enables students to expand their skills in planning, land development, marketing, decision sciences, accounting, management, finance and economics. The program is targeted for students who have a clear career goal of becoming real estate developers but who lack formal training in business. The program normally requires two years (including summers) of full-time study in residence to complete.

Requirements

A total of 82 units is required. Required courses include: all required courses in an MBA program; EEBR 585 Economics of Urban Land Use — Feasibility Studies (3 units); EEBR 588 Advanced Real Estate Law (3 units); graduate business electives sufficient to bring the total units completed in the USC Marshall School of Business to at least 48; and Policy, Planning, and Development courses (34 units). Dual degree students may not count courses taken outside the USC Marshall School of Business toward the 48 units.

Students must have an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills.

Real Estate Development

Units

PPD 500 Intersectoral Leadership 2
EBRD 509 Market Analysis for Real Estate 4
EBRD 544 Real Estate Capital Markets 2
EBRD 546 Applications of Real Estate Finance to Problems of Development 3
EBRD 547 Project Management and Construction 2
EBRD 551 The Approval Process 4
EBRD 573 Design History and Criticism 2

Elective from the Price School of Public Policy 2

Comprehensive Examination: Students are required to complete a comprehensive examination administered by faculty members from both the Marshall School of Business and the Price School of Public Policy.
professional focus in public administration. For the Master of Public Administration, 12 units of gerontology courses are used as the substantive specialization.

**Master of Health Administration/Master of Science in Gerontology**

Gerontology and health administration students can specialize in health care administration (profit and nonprofit) through the dual degree with the USC Davis School of Gerontology and the USC Price School of Public Policy’s Health Administration Program. Students in the dual degree program must be admitted by both academic units and complete 78 units of post-graduate academic work.

**Gerontology Requirements**

</table>

**Statistics:** The statistics requirement for dual degree students is the same as that applied to the Master of Health Administration.

**Program Adaptation:** The USC Davis School of Gerontology will waive GERO 591 Case Studies in Leadership and Change Management because students enrolled in this program will have a primary professional focus in health administration.

Students enrolled in the dual degree are not required to take PPD 511 (as opposed to the stand alone MHA degree students) because they develop the necessary proficiencies related to their career goals in long term care administration through other courses such as GERO 550, GERO 591 and GERO 593. In addition, PPD 601 is required for the dual degree (and not the stand alone MHA program) because most of these students will work in long-term care facilities and this course is critical for success in that market.

Any course substitutions are done by petition on an individual basis and should be part of a carefully developed course of study. The USC Price School of Public Policy should be consulted concerning this program of study.

**Master of Public Administration/Juris Doctor**

The dual degree program with the USC Gould School of Law and the USC Price School of Public Policy enables qualified students to earn a Juris Doctor/Master of Public Administration (J.D./MPA) in approximately four years of study.

Some of the topics covered in the law school are also covered in the program of the Price School of Public Policy, so some credit toward the law degree may appropriately be given for specified graduate work taken in the Price School of Public Policy. Similarly, some credit toward the master’s degree may appropriately be awarded for certain work completed in the law school. The goal of the program is to encourage law students to gain a recognized competence in administration, which has a direct relevance for the roles lawyers are asked to play in society.

Students must apply to and be accepted by both schools. They may be accepted to a dual degree program at the time of their acceptance to the law school or at the beginning of their second year of law school. The program requires the completion of the required first year of law school and the fulfillment of a statistics prerequisite, which can be met by passing an undergraduate inferential statistics class with a grade of B or better at an approved university within three years of matriculation or taking PPD 520x Statistical Foundations for Public Management and Policy and completing with a grade of “B” or better. To earn the J.D., all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs.

Credit toward the law degree may not be given for graduate work completed prior to the completion of the first year of law school. The Price School of Public Policy, on the other hand, may allow some credit toward the MPA for approved work completed prior to the first year of law school.

Students are required to complete 97 units of course work.

**Curriculum Requirements**

**First Year** Required law school courses

**Second and Third Year** The remaining 39 units of law school courses, 32 additional units of public administration courses. These courses are from the MPA core (PPD 500, PPD 501ab, PPD 540, and PPD 545) and management competencies (PPD 542 or PPD 557 or PPD 666, PPD 541 or PPDE 645, PPD 545) and 6 units of PPD electives.

**Master of Public Administration/Master of Social Work**

The Master of Public Administration/Master of Social Work (MPA/MSW) dual degree offers students interested in careers as administrators of social agencies the opportunity to prepare for social work while developing the administrative capabilities necessary in the public sector.

The MPA/MSW requires two calendar years of full-time study. The first academic year is devoted to the standard social work first year curriculum. During the second year, the curriculum combines social work and public administration course work. The curriculum for both summers will be in public administration.

Students can enter this program only with the written consent of both schools. Students who apply initially to the USC School of Social Work must declare their intention to pursue the MPA/MSW dual degree at the time of their application. If admission is approved, such students will be admitted to the dual degree program. Social work students selecting this program are required to select the Community Organization, Planning and Administration concentration in their second year program.

Students must complete 82 units (54 in social work and 28 in public administration).

**Electives in public administration need to be approved by the graduate adviser in the Price School of Public Policy.

**Master of Public Administration/Master of Arts in Jewish Nonprofit Management**

The Master of Public Administration/Master of Arts in Jewish Nonprofit Management (MPA/M.A.) has been developed, in cooperation between the USC Price School...
of Public Policy and the HUC-JIR School of Jewish Nonprofit Management, to prepare those students who want to make a career in Jewish nonprofit management. Students receive a solid academic and experiential foundation in the American Jewish experience — its history, culture and structure — combined with the theory and practice of community organization and administration.

Students must complete 88 units of course work, 36 in public administration, and must serve two academic years in supervised fieldwork. There is an opportunity to spend either 12 months in Sacramento, California, or Washington, D.C. At these sites, students attend classes while serving internships in the offices of politicians, lobbyists or other advocates.

Students must meet admission requirements and be admitted by both the Price School of Public Policy and HUC-JIR’s School of Jewish Nonprofit Management (Formerly the HUC-JIR School of Jewish Community Service).

Curriculum Requirements

The program begins in June of each year and continues for the next 24 months. Students are expected to work out individual course plans with advisers from each school.

In addition to applying to the Price School of Public Policy, those interested in the program should contact the Office of Admissions, Hebrew Union College — Jewish Institute of Religion, 3077 University Avenue, Los Angeles, CA 90027-3765, for comprehensive information about its requirements.

Public administration course work may be taken in Los Angeles or Sacramento. In Sacramento, a student will complete the core program and elective courses, take independent study with an HUC professor, and will serve in an internship while enrolled in HUC fieldwork classes.

</tbody>
</table>

Select 14 units from the list above. Substitutions may be requested by petition to the graduate adviser in the Price School of Public Policy.

Fieldwork Requirement

Throughout the program, students are expected to serve in supervised internships. Fieldwork is administered cooperatively by the faculties of HUC-JIR School of Jewish Nonprofit Management and the Price School of Public Policy.

Program Adaptation

Students enrolled in the dual degree are not required to take a research methods course (PPD 542, PPD 557 or PPD 666) in the MPA program (as opposed to the stand alone MPA degree students) because they develop the necessary proficiencies in research methods in the course offered in the HUC-JIR School of Jewish Nonprofit Management (CS 562 Jewish Social Research: Trends and Analysis). Students in the dual degree may elect an alternative four units within the Price School.

Regulations Concerning a Second Master’s Degree

For rules governing a second master’s degree, see the Requirements for Graduation page. In accordance with these policies, transfer credits will be granted only on the basis of a written petition to the MPA program coordinator and on the basis of credits recognized by USC in a Transfer Credit Statement.

Teaching Opportunities

Students may want to prepare for teaching as well as for public service. By careful planning in the upper division of the undergraduate degree and during the graduate years, requirements for a bachelor’s degree, a master’s degree and the university recommendation for a community college instructorship may be met without unnecessary duplication of effort and waste of time. Those interested in teaching should consult advisers in both the USC Price School of Public Policy and the USC Rossier School of Education before beginning upper division and graduate work.

Public Administration Professional Sequence with the Viterbi School of Engineering

Regulations governing the Master of Science in Civil Engineering permit some candidates for this degree to take 12 units outside the School of Engineering. Those who wish to do so may take 12 units in public administration. Two courses in this sequence must be selected from among PPD 500, PPD 501ab, PPD 540, PPD 541, PPD 545, PPD 546. One course in this sequence must be selected from among PPD 542, PPD 557, PPD 666. PPD 545 requires PPD 502x and statistics as prerequisites. PPD 546 should be taken last if elected.

Joint Degree Programs

Master of Long Term Care Administration

This program is designed to prepare competent individuals to administer the long term care needs of America’s elderly population. It is jointly offered by the Davis School of Gerontology, the Marshall School of Business, and the Price School of Public Policy. For information see the USC Davis School of Gerontology.

Master of Science in Health Systems Management Engineering

For information, see Industrial and Systems Engineering.

Doctoral Degrees

Doctor of Philosophy in Public Policy and Management

Doctor of Philosophy in Urban Planning and Development

The Price School offers two Ph.D. programs. Both the Doctor of Philosophy (Ph.D.) in Public Policy and Management and the Doctor of Philosophy (Ph.D.) in Urban Planning and Development degree programs are under the jurisdiction of the Graduate School. Students should also refer to the Graduate and Professional Education and Graduate School sections of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

The Ph.D. programs in the Price School both emphasize rigorous programs of advanced study and research, stressing qualitative or quantitative analysis and the theoretical foundations of their field of study. The programs are designed to provide students with the opportunity to develop their own specialization and expertise in either major field — public policy and management or urban planning and development — while also offering them a breadth of knowledge in an especially rich intellectual environment.

Curriculum Requirements

The Doctor of Philosophy in Public Policy and Management and the Doctor of Philosophy in Urban Planning and Development are administered by the doctoral committee of the school. The Ph.D. program in Public Policy and Management requires the completion of 60 units of course work, comprising the following elements: master’s core in a substantive field (15-17 units), theoretical core (11-12 units), methodology (10-12 units), field/specialization courses (12 units), teaching seminar (2 units), research seminar (4 units) and dissertation (4 units minimum). The Ph.D. program in Urban Planning and Development requires the completion of 60 units of course work, comprising the following elements: master’s core (14-16 units), doctoral core (8 units), methodology (10-12 units), field/specialization courses (16 units), teaching seminar (2 units), research seminar (4 units), and dissertation (4 units minimum).

</tr>
</tbody>
</table>

One additional methods course selected with qualifying exam committee approval

Field Courses (12 units)

Students select 12 units of field courses which can be used to develop disciplinary expertise related to specialization interest or additional methodological expertise. Fields are developed with qualifying exam committee approval, can include any combination of the Price School and outside courses and are unique to each student.

Research Seminar (4 units)

Students will take PPD 710ab (2 units each, 4 total units), the Price School research seminar course.

Teaching Seminar (2 units)

Students will take two semesters of the teaching seminar, PPD 700ab (1 unit each, 2 total units).

Students entering the doctoral program without a relevant master’s degree in public administration or public policy or a related field will be required to complete prerequisites (15-17 units) relevant to their program.

For the Ph.D. in Public Policy and Management, possible courses include:

Specialized Field Courses (16 units)

Students take a minimum of four courses to develop their specialized area of study. Courses may be taken in the Price School or other USC units. Students, working with their qualifying exam committees, have considerable flexibility in forming specializations.

Research Seminar (4 units)

Students will take PPD 710ab (2 units each, 4 total units), the Price School research seminar course.

Teaching Seminar (2 units)

Students will take two semesters of the teaching seminar, PPD 700ab (1 unit each, 2 total units).

Students entering the doctoral program without a relevant master’s degree in urban planning or a related field will be required to complete prerequisites (16-18 units) relevant to their program.

For the Ph.D. in Urban Planning and Development, possible courses include:

Admission with Advanced Standing

Students entering the doctoral program with a master’s degree from an accredited institution in public management/administration, public policy, planning, or urban development or related field may be admitted with advanced standing to either Ph.D. program. In the Public Policy and Management program, students must complete a minimum of 39-41 units of doctoral classes beyond that graduate degree, exclusive of 794ab doctoral dissertation units, for a minimum of 42-45 semester units. In the Urban Planning Development program, students must complete a minimum of 40-42 units of doctoral classes beyond that graduate degree, exclusive of 794ab doctoral dissertation units, for a minimum of 44-46 semester units. Additional course work may be required if deemed necessary by the student’s faculty following the screening examination.

A maximum of 6 units of transfer credit may be applied toward a doctoral degree with advanced standing. Only course work not used to complete the master’s degree described above is available for transfer credit. No exceptions are allowed.

Qualifying Exam Committee

Students will form an initial qualifying exam committee by the end of the fall semester, which officially oversees the development of the student’s academic program through the qualifying examination. Five tenure or tenure-track committee members are designated to provide guidance in the field developed by the student. A minimum of three members, including at least one tenured member, must be from among the faculty participating in this Doctor of Philosophy program, and at least one member must be from outside the Price School of Public Policy. Students should refer to the Graduate School section regarding the qualifying exam committee and the outside member. The complete qualifying exam committee must be in place no later than the third semester.

Screening Procedures

Students must have a 3.3 overall GPA in first-year courses to continue in the program.

Work Plans

At the end of each spring semester, the student submits an academic work plan for the coming year to his or her qualifying exam committee chair. The plan should include courses, degree progress, seminar attendance and what was learned from those, and a research plan that articulates the major research questions being explored. At the conclusion of year one, the chair reviews and approves the work plan and at the end of year two, the chair reviews the work plan and the second year paper.

Qualifying Examination

The qualifying exam committee prepares a comprehensive written examination covering the fields of study. Following completion of the written portion, the entire committee conducts an oral examination of the student, focusing on material both complementary and supplementary to the written examination but relevant to the field and overall program selected by the student. Upon passing both portions of the qualifying examination, the student becomes a candidate for the Doctor of Philosophy degree. The qualifying exam will occur in the fall of year three.

Proposal Defense

Students are expected to have a proposal defense within one year of passing the qualifying exam.

Doctoral Dissertation

The dissertation is based on original research. The research is supervised by a dissertation committee of three or more regular USC faculty, at least one of whom must be from outside the Price School of Public Policy. A two-semester minimum registration in PPD 794 is required of all candidates. Students must maintain continuous registration until completion of the dissertation.

Defense of the Dissertation

Oral defense of the dissertation before the dissertation committee is usually made on a preliminary draft.

Format for Theses and Dissertations

All theses and dissertations submitted in fulfillment of requirements for graduate degrees must conform to university regulations with regard to format and method of preparation. Regulations for Format and Presentation of Theses and Dissertations is available from the Graduate School, Grace Ford Salvatori 315, or online at the Graduate School Website.

General Requirements

Refer to the Graduate School section in this catalogue for policies regarding time limits, leave of absence, scholarship standing and probation.

Doctoral Degrees

Doctor of Policy, Planning, and Development

Planning and development are critical concerns of the nation and the world today. Whether redesigning the health care system, reproducing economic innovation in our central cities, or facilitating economic and social relationships across the globe, planners and developers are on center stage.

Leading the way into the next century will be a group of experienced practitioners who have updated and expanded their professional achievements by developing additional conceptual and research competency through the Doctor of Policy, Planning, and Development (DPPD).

The goals of the program are: to create a unique educational environment that will forge these professionals into a cadre for urban change; to develop urban professionals who can merge development and planning tools to design new integrative policy planning and implementation systems; to establish a set of new problem solving paradigms for examining and altering planning and development decision-making and to equip professionals with sophisticated analytical tools and a
sharper cultural awareness so they can practice planning and development anywhere in the world.

Admission

The program is intended for people with considerable professional experience and intellectual interests. Requirements for admission include: GPA of 3.0 (A = 4.0) for all post-high school academic work, and, for international students, submission of TOEFL or IELTS scores; five letters of recommendation, including at least one academic and one professional; five or more years of professional experience; a resume and, if appropriate, a portfolio; and a study prospectus detailing a proposed field of study. Guidelines for preparing the prospectus are included in the application package. Additional requirements for international students are listed under Admission of International Students. The GRE and GMAT are neither accepted nor required for the DPPD program. Each application will be examined with the aim of admitting an applicant whose study prospectus suggests the ability and focus to produce an innovative approach to professional practice.

Applicants are expected to hold a master’s degree in architecture, landscape architecture, public administration, real estate development, urban/city/regional planning, urban design or a closely related field. Applicants with master’s degrees in other fields will be expected to complete foundation courses prior to entering the degree’s core classes.

Upon admission to the program, each student will be assigned a faculty adviser who will oversee his or her program.

Curriculum Requirements

The Doctor of Policy, Planning, and Development is administered by the Price School of Public Policy for full-time and part-time students. The DPPD requires completion of 60 units of course work comprising the following elements:

<table>
<thead>
<tr>
<th>Requirements</th>

| PPD 707 Survey Research Methods                             | 4     |
| PPD 708 Qualitative Methods                                 | 4     |

Screening Process

As quickly as possible, the student will form a Professional Advisory Committee consisting of the student’s adviser and two other school and/or USC faculty and up to five professionals whose activities are related to the student’s. This committee shall oversee the student’s program to its conclusion.

At the completion of no more than 16 units beyond the foundation courses and/or PLUS 603 and PLUS 623, students will complete a written examination which will consist of responding to a short list of specific planning and development problems using appropriate professional paradigms. The student will then meet with the Professional Advisory Committee to formally review the student’s progress toward the degree.

Field of Study

In consultation with their faculty adviser and Professional Advisory Committee, students will craft a field of study related to the professional arena of practice. The field may or may not reflect standard academic boundaries, such as transportation and land use planning. Students should take advantage of USC’s resources in developing the field, especially taking into consideration the relationship of practice to theory and context. Twenty units of course work are required for the field of study, 8 of which may be taken outside the Price School of Public Policy.

Conspectus Preparation

In PLUS 692 students complete a professional conspectus that defines their field of study, its structure and place within professional practice, and other related questions. The conspectus will be presented to the student’s Professional Advisory Committee for acceptance. Only after it is accepted may the student proceed to the Planning, Design and Development Project.

Planning, Design and Development Project

The capstone project of the DPPD is the student’s completion of the Planning, Design and Development Project (PDDP). The PDDP is a study of an aspect, site, issue or other such element of professional practice. Each PDDP should be designed to present an innovative or original contribution to the practice of planning and development. The parameters of the PDDP are intentionally left wide, allowing the project to be produced as solely text, or text in conjunction with film, computer program, design or another multimedia format.

The PDDP is supervised by the student’s Professional Advisory Committee. Students must maintain continuous registration in the PLUS 694 series until completion of the PDDP. Upon completion of an approved draft of the PDDP, students will present their findings in an open session, but the Professional Advisory Committee is the sole evaluator.

General Requirements

This degree is administered by the Price School of Public Policy. At least 24 units must be fulfilled in residence at USC. The total length of the study must not exceed six academic years. Students are encouraged to actively participate in a non-credit Price School of Public Policy doctoral workshop. Policies regarding time limits, leave of absence, scholarship standing, academic warning, and other issues not directly addressed are consistent with those of the Graduate School. Please consult the Academic Policies, Graduate and Professional Education and the Graduate School sections for additional information.

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Health Care Management (HMGT)

HMGT 510 The Dynamics of Health Care Leadership (4) A five-day residential provides an intensive, multi-faceted learning experience in leadership, communication, managed care, systems thinking, and the health care environment. Open to EMHA students only.

HMGT 512 Information Technology and Patient Engagement (3, FaSpSm) Strategic management and utilization of healthcare information technology in the delivery of healthcare; patient engagement and the use of technology to facilitate participation in their own care. Open only to Executive Master of Health Administration students.

HMGT 520 Leading People and Health Care Organizations (4, Fa) An exploration of contemporary force issues and skills development in organizational design, performance measurement, teamwork, conflict resolution, leadership, and change management. Open to EMHA students only.

HMGT 525 Managed Care Operations (4) Focuses on managerial, operational, and organizational aspects of managed care for integrated delivery systems, health plans, and medical groups. Open to EMHA students only.

HMGT 540 Health Economics, Financing and Reimbursement (3, Fa) Provides a framework for the economic analysis of healthcare issues and provides students with an opportunity to apply economic methods to a number of actual health care problems. Open to EMHA students only.

HMGT 545 Systems Thinking and the Analysis of Data (4) Quality improvement and statistical tools for health managers. Covers analyzing processes; collecting and analyzing operational data; drawing valid conclusions from data. Open to EMHA students only.

HMGT 550 Law, Regulation, and Ethics (4) An intensive introduction to business and health care law, ethics and regulation; gives executive practical knowledge regarding legal consideration in business transactions. Open to EMHA students only.

HMGT 560 Customer-Focused Health Care Organization (3) Strategies for gaining and using customer-derived data in planning, marketing and managing health care organizations. Open to EMHA students only.

HMGT 565 Managing the Organization’s Financial Health (4, Fa) Executives confront and solve problems requiring use of accounting, finance, and management control principles; provides core financial skills for non-finance professionals. Open to EMHA students only.
HMGT 570 Strategic Management (4, 5m) Provides skill development and application in the integrative discipline of strategic management including assessment, strategy formulation, implementation and control. Open to EMHA students only.

HMGT 575 Managing and Improving Health (4, 5m) Methods for monitoring and improving the health of populations. Topics include outcomes management, risk adjustment, development and implementation of practice guidelines. Open to EMHA students only.

HMGT 600 Managing Risk (4, FaSp) Overview of reimbursement models in clinical and institutional settings; legal, financial and clinical assumption of risk pursuant to new and evolving federal and state statutory and regulatory provisions. Open only to EMHA students.

HMGT 601 Operations Management for Accountability (4, FaSp) Hospital operations in the inpatient/outpatient setting; special emphasis on the growing requirement to more effectively manage across the continuum of care while assuming greater accountability in the delivery of care. Open only to EMHA students.

HMGT 602 Operational Efficiency Processes in Health Care Organizations (4, FaSp) Improving productivity and efficiency of health care organizations combining the application of key operational analysis principles to improve quality, speed and productivity in the delivery of health care. Open only to EMHA students.

HMGT 603 Developing and Monitoring of Quality and Patient Safety Outcomes (3, 5m) Overview of contemporary methods used to develop and monitor patient quality and safety outcomes; develop skill in data collection and analysis of clinical care outcomes; focus on operationalizing outcomes that matter to payers, organizations, and clinicians. Open only to EMHA students.

Urban and Regional Planning (PLUS)

PLUS 600 Environmental Goods in Planning and Development (4, Irregular) Production, distribution, and valuation of environmental goods with attention to amenity concepts, externalities, public goods, consumer behavior; as characterized in economics, political science, sociology, psychology.

PLUS 601 Advanced Planning Theory I (4, Fa) Value hierarchies, means-ends continuums, and the nature of social action; problems of prediction and choice under conditions of uncertainty; alternative planning strategies.

PLUS 603 Planning and Development Paradigms (4, Sp) Introduction to historic, prevalent, and alternative paradigms of professional planning and development practice; seminar format and case studies.

PLUS 612 Analysis of Quantitative Data for Planning and Development (4, Fa) Planning and development case study approach to identifying data needs, acquisition, evaluation, manipulation, analysis, and multimedia presentation. Prerequisite: PPD 525.

PLUS 615 Behavioral Issues in Environmental Design (4, Irregular) Planning and design of the physical environment for human activities, e.g., user preferences, privacy, territoriality, stress and adaptation, cognitive mapping, lifestyles.

PLUS 623 Politics of Planning and the Urban Environment (4, Sp) Historic roots of property rights and obligations related to public policy, focus on current issues and discourse.

PLUS 626 Information Systems for Planning and Development (4, 2 years, Sp) Structure, content, and applications of formal information systems in planning and policy making emphasizing social accounts and indicators, censuses, social reporting, and economic growth, future research.

PLUS 631 Seminar in Physical Planning and Design in Developing Countries (4, Irregular) Issues in comparative urbanism; planning and design in developing countries: slums and squatters, housing and infrastructure, new towns, land policy, conservation and redevelopment, city design.

PLUS 632 National Urban Policy in Developing Countries (4, Irregular) The problems of the primate city, the role of intermediate cities, and the implicit spatial impacts of macro and sectoral policies.

PLUS 633 Seminar in Comparative Housing Policy and Urban Planning Programs (4, Irregular) Comparative examination of urbanization experience in selected areas and cities throughout the world; housing policies, urban planning approaches, financial, administrative, legal, and other techniques.

PLUS 635 Urban Finance (4, Irregular) The theory of fiscal federalism and municipal finance, with examples from the USA and other countries, public/private partnerships in urban development, and government decentralization.

PLUS 640 International Urban Development (4, Irregular) Study of urbanization in developing countries; special attention to urban growth, migration, city size, land use, and urban development. Comparative case studies.

PLUS 680 Advanced Urban and Regional Transportation Planning (4, 2 years, Fa) Social and environmental impacts; incentive structures; alternate travel; investment guidelines; technological change.

PLUS 693 Conspectus Preparation (4, FaSpSm) Preparation of a case study of a specific planning and/or development project that defines the student’s field of study.

PLUS 699c Advanced Planning and Design Development Project (4, 2 years, 2-4) Credit on acceptance of planning, design and development project. Graded IP/CR/NC.

Policy, Planning, and Development (PPD)

PPD 100m Los Angeles, The Enduring Pueblo (4, FaSp) Gateway to the minor in Planning and Development. Ethnic history of Los Angeles, emphasis placed on architecture, planning, and development. Multiplicity of cross-connections shaped by race, ethnicity, religion, gender, and sexual orientation. (Duplicates credit in former PLDV 100.)

PPD 237 Urban Planning and Development (4, FaSp) Gateway to B.S., Public Policy, Management and Planning and minor in Planning and Development. City building and development process; who plans, politics of planning and development; major topics include land use, fiscal policy, transportation, sustainability, and economic development.

PPD 240 Citizenship and Public Ethics (4, FaSp) Review of legal and ethical traditions of citizenship with emphasis on the latter; consideration of implications for current practice of public policy-making and management. (Duplicates credit in former PPMT 240.)

PPD 245 The Urban Context for Policy and Planning (4, FaSp) The urban context for planning and policy decisions. Socioeconomic, physical, and spatial structure of cities; and the underlying demographic, economic, and social processes that drive their ongoing transformation.

PPD 320m Third World Cities (4, FaSp) Gateway to the B.S., Planning and Development. The transition from traditional to modern cities in the developing world. Primacy and dualism; comparative urbanism as an expression of cultural variation; contrast in Western cities. (Duplicates credit in former PPD 320.)

PPD 330 Public Policy and Management for Development (4, FaSp) Institutional foundations and analysis of public policy issues; policy formulation and implementation; application of theories; case analyses.

PPD 340 Visual Methods in Policy, Management, Planning and Development (4, FaSp) Introduction to graphic design, photograph, documentation, and the use of computer information systems as employed in planning, policy, and development. Visual explanations. Computer and by-hand applications. (Duplicates credit in former PPD 420.)

PPD 351 Finance of the Public Sector (4, FaSp) Justifications for and effects of government policies; tax and spending sides of government budgets; public goods; externalities; social insurance; redistribution and welfare; tax policy. (Duplicates credit in former PPD 351.)

PPD 352 Public Policy and Law (4, FaSp) Institutional foundations and analysis of public policy issues; policy formulation and implementation; application of theories; case analyses.

PPD 353 Analytic Foundations for Public Policy (4, Sp) Qualitative methods of analysis; ethical and political implications of policy choices; issue diagnosis and policy design skills; critical reasoning and ethics; policy leadership.

PPD 360 Human Resource Management for Public Organizations (4, FaSp) Understanding human resource development and management; values and processes in civil service career systems; training practices; human relations in supervision; personnel theory. (Duplicates credit in former PPD 360.)

PPD 370 Financial Accounting in Public and Nonprofit Organizations (4, FaSp) Basic accounting principles and concepts necessary for the preparation and understanding of financial statements; accounting for service organizations in the public/nonprofit sector; fund accounting. (Duplicates credit in former PPD 370.)

PPD 380 Organizational Behavior in Public Administration (4, FaSp) Understanding human behavior in public organization: motivation, roles, communication; group behavior and decision-making in public context; managing conflict; leadership and change
behavioral responses to change in health care policy; new legislation; policy trade-offs. Prerequisite: PPD 514.

PPD 521ab Information Technology Management Systems in Health Care (2-2, 5m)
Principles and methods of systems analysis; assessment; strategic planning; design considerations; e-health and e-commerce system trends; health care information systems application areas; regulatory requirements. Prerequisite: PPD 511. b: Analytic methods used to develop data-driven solutions; specific problems in health care organizations; integrating data; communicating data; interpretation; exploration of new approaches for improvement.

PPD 524 Planning Theory (2, FaSp) Development of a critical perspective by becoming more aware of the intellectual roots of the planning profession, with a focus on practical outcomes of actions. (Duplicates credit in former PLUS 501.)

PPD 525 Statistics and Arguing from Data (2, FaSp) Fundamentals of probability and statistics, planning analysis techniques, computing standards, and understanding of the rhetoric related to statistical analysis. (Duplicates credit in former PLUS 502.)

PPD 526 Comparative International Development (2, FaSp) Introduction to comparative international development with a focus on regional growth and urban development. (Duplicates credit in former PLUS 505.)

PPD 527 The Social Context of Planning (2, Sp) Examination of the formation of the modern urban environment with its consumer culture, social classes, and racial and ethnic diversity. (Duplicates credit in former PLUS 506.)

PPD 529 Legal Environment of Planning (2, Sp) Understanding of the legal system and its processes and laws applicable to land use and development and the legal nature of powers of public and private entities. (Duplicates credit in former PLUS 509.)

PPD 530 Historical Analysis of Urban Form and Planning Practice (2, FaSp) Awareness, analysis, understanding, and influencing the city building process locally and regionally; isolate and exercise tools and methods of visual literacy. (Duplicates credit in former PLUS 510.)

PPD 531 Planning Studio (4, 8, 12, max 12, FaSp) Application of methods in planning, programming, research, and evaluation in a professional context; data collection and analysis; case studies; practical applications. (Duplicates credit in former PLUS 576L and PLUS 676L.)

PPD 532 International Planning and Development Laboratory Workshop (4-8, Sm) Application of planning principles and methods to specific urban planning problems abroad; involves preparation in the spring semester and an overseas field visit and a collaborative practicum. (Duplicates credit in former PLUS 575L.)

PPD 533 Planning History and Urban Form (2) History of urban planning with an emphasis on the evolution of how planning shaped the physical environment in response to political, economic, and social issues.

PPD 540 Public Administration and Society (4, FaSpSm) Administrative concepts, institutions, legal systems, and practices; values; facilitation of responsibilities and rights; professional applications for personal, private sector, and public achievement. (Duplicates credit in former PUAD 500.)

PPD 541 Public Financial Management and Budgeting (4, Fa) Financial management applied to public and nonprofit organizations; financial valuation, financial markets, budgeting, tax administration, debt financing, cost-benefit analysis and financial analysis. (Duplicates credit in PPDE 645.)

PPD 542 Policy and Program Evaluation (4, Sp) Methods and models for policy and program evaluation; methods of collecting and analyzing evaluation data; processes for linking evaluation to policy formulation and program management. (Duplicates credit in former PUAD 525 and former PUAD 529.) Prerequisite: PPD 512.

PPD 543 Internship Seminar (1, FaSp) Supervised study of management, analytical, or other professional activities in government; integration of theory, practice and relevant literature. (Duplicates credit in former PUAD 544.)

PPD 545 Human Behavior in Public Organizations (4, FaSpSm) Behavior in organizations; focus on personal, interpersonal, and group level factors that influence such behavior. (Duplicates credit in former PUAD 585.)

PPD 546 Capstone in Public Administration (4, FaSpSm) Constitutionally accountable and ethical practice, individually and organizationally; applications of core competencies; practical inquiry, analysis, systems; comparative frameworks; citizenship and public service. Prerequisite: PPD 540 and PPD 545; and PPD 542 or PPD 557 or PPD 666. Open only to master and doctoral students.

PPD 552 Managing and Financing Public Engineering Works (3, FaSpSm) (Enroll in CE 552)

PPD 554 Foundations of Public Policy Analysis (2, FaSp) Introduction to public policy analysis; issue diagnosis and policy design; analytic reasoning and argumentation; the role of the public policy professional; ethical issues in policy analysis. Open only to MPP students and Certificate in Public Policy students.

PPD 555 Public Policy Formulation and Implementation (4, Sp) Political and organizational perspectives on policy making process; agenda setting, policy design, adoption, implementation, evaluation, modification or termination. Policy leadership skills: negotiation and strategic mapping. (Duplicates credit in former PPD 555.)

PPD 557 Modeling and Operations Research (4, FaSpSm) Management science methods that support decision making in policy, management, and planning settings. Includes linear programming, queuing theory, decision analysis, and forecasting. Open only to master's or doctoral students. Prerequisite: PPD 502x or PPD 557.

PPD 558 Multivariate Statistical Analysis (4, FaSp) Applied multivariate statistics in support of policy, management, and planning problem solving. Includes regression analysis, logit models, and an introduction to time-series models and multi-equation estimation. Open only to master's and doctoral students. Prerequisite: PPD 502x or PPD 557.

PPD 559 Policy Implementation and Evaluation (4, FaSp) Theoretical approaches, critical issues, and research methods in public policy implementation. Field-based research project. (Duplicates credit in former PUAD 570.)

PPD 560 Methods for Policy Analysis (4, sp) Examination of methods used in the analysis of policy methods, including cost benefit analysis, decision and risk analysis, and applied social science methods. (Duplicates credit in former PUAD 572.) Prerequisite: PPD 502x and PPD 554 and PPD 501b.

PPD 561ab Policy Analysis Practicum (1, 3, FaSp) Application and integration of the knowledge and techniques of analytic, quantitative, managerial, political and ethical analyses to specific public policy problems. (Duplicates credit in former PUAD 589.)

PPD 568 Environmental Governance and Sustainability (4, FaSp) Introduction to leading issues of environmental governance and policy in looking toward a more sustainable future; normatively important concerns and the social, cultural, and political dimensions; thematic look from values to action.

PPD 569 Applied International Policy Analysis and Management Project (4, Sp) Enables students to integrate theory, research and practice into an applied project of their own choosing. The output of this course is a professional report in a selected public policy or management area. (Duplicates credit in former PUAD 507.)

PPD 570 Applied Statistics for Planning, Policy and Management (4, Sm) Use of statistical reasoning to answer questions related to public policy and management. Students will review and understand selected statistical techniques for analyzing data and for addressing public policy and management questions of interest using applied data analysis. (Duplicates credit in former PUAD 523.)

PPD 571 International Public Policy and Management Seminar (4, FaSp) An introduction to the concepts and methods of public policy analysis and management. Highlights some of the constraints of the policy process. Includes examples from the United States but also presents comparative views of the contours of public policy in both developed and developing nations. The course applies public policy and management frameworks to selected areas of social policy. (Duplicates credit in former PUAD 524.)

PPD 572 Special Issues in International Public Policy (1-4, max 12, FaSpSm) Current international public policy issues such as governmental reform, regulation, social welfare, poverty alleviation and international aid. Policy framework and in-depth analysis of specific topics of relevance to governmental agencies and international organizations.

PPD 587 Risk Analysis (4) Concepts of risk analysis, risk in engineered systems, environmental risk, security risks; fault trees, event trees, risk simulations; risks and decision-making. Recommended preparation: MATH 108 or MATH 116.

PPD 588 Introduction to Transportation Planning Law (3) (Enroll in CE 579)

PPD 589 Port Engineering: Planning and Operations (2) (Enroll in CE 589)

PPD 590 Directed Research (1-12, FaSpSm) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

PPD 594abz Master's Thesis (3-5, 0, FaSp) Credit on acceptance of thesis. Graded IP/CR/NC.

PPD 599 Special Topics (2-4, max 8, FaSpSm) Selected topics in public policy, management and planning.

PPD 600 Management of Managed Care Organizations (3, FaSpSm) Managed care arrangements, interorganizational relations, management practices and controls, medical staff relations, strategic
planning, marketing, utilization review, quality assurance, outcomes measures. Pre-requisite: PPD 545 or HMGT 530; recommended preparation: PPD 516, PPD 510a or HMGT 565.

PPD 601 Management of Long-Term Care Organizations (4, Fa) History, development, trends; major policy issues; organization of systems; principles and techniques of administration; management of institutional and community based programs. Open only to graduate students.

PPD 603 Strategic and Operational Planning for Health Services (4, 2 years, Fa) Strategic, institutional, and program planning theory and methods; governmental and legal requirements, certificate of need processes, reimbursement controls; financing and marketing considerations, practices, and methods. (Duplicates credit in former PUAD 535.)

PPD 604 Marketing of Health Services (4, Sm) Assessing community needs and organizational service capabilities; evaluating competition; qualitative and quantitative market research methods; market communications and advertising; developing marketing plans. Recommended preparation: PPD 502 or competence in statistics.

PPD 605 Seminar in Hospital Administration (4, Sm) Hospital systems and functions; managerial processes, theory, and practice; governance structures: legal, regulatory, administrative, and professional requirements; medical and professional staff; multi-institutional arrangements; controls. Open only to graduate students. Prerequisite: PPD 545 or HMGT 520; recommended preparation: PPD 516.

PPD 606 Seminar in Urban Planning and Development (5, max 6, FaSpSm) Emphasis on current or emerging issues in the health care industry. Focus on impact of recent health legislation and/or health care system responsiveness.

PPD 607 Urban Health Policy (4, Fa) Addresses current U.S. health policy issues and the critical processes that shape them, with an emphasis on urban populations; institutional, economic, social, ethical, and political factors.

PPD 608 Leadership Symposium in Health Management and Policy (4, max 3, FaSpSm) A forum for leading executives and policymakers to address ways they or their organizations improve healthcare financing, delivery and management, in the U.S. and internationally.

PPD 610 Managed Care Contracting (3, Fa) Provides practical and strategic decision-making skills in managed care contracting, including contract types, terms and conditions; financial assessment; proposal development and analysis; and negotiation. Prerequisite: PPD 600B; recommended preparation: PPD 510a or HMGT 565, PPD 514.

PPD 611 Policy Issues in Planning and Development (4, Fa) Overview of policy issues in planning and development professions in the U.S. and abroad. Special attention to collective decision making, role of institutions, and ethics. (Duplicates credit in former PLUS 503.)

PPD 612 Research and Analytical Techniques (4, Sp) Professional practice-oriented analytic skills; fundamentals of data manipulation; spreadsheet applications and forecasting; and communication of results. (Duplicates credit in former PLUS 504.)

PPD 613a Policy, Planning, and Development International Laboratory (a: 1, max 2, Sp; b: 3, max 6, Sm) Research methods for intensive practical field research and evaluation; policy, management and planning practice in intercultural contexts; preparation for professional-level consulting abroad.

PPD 614 Management in Planning Practice (4 or 4, 2 years, Sp) Administrative, management, political, and other problems faced by the practicing professional planner. (Duplicates credit in former PLUS 521.)

PPD 615 Comparative Urbanization, Development, and Inequality (4, Irregular) Theories of inequality, dependency and dualism in relation to urbanization, growth, and poverty in developing countries; development and underdevelopment; core-periphery linkages. (Duplicates credit in former PLUS 534.)

PPD 616 Participatory Methods in Planning and Policy (4) Approaches to community participation, introducing students to the theories behind participatory methods as well as to the skills to implement them.

PPD 617 Urban Demography and Growth (4, Fa) Theory and policy regarding population change in urban areas; housing; cohort analysis; immigration; ethnicity; employment; education. Methods of graphic representation; census data manipulation, interpretation, forecasting. (Duplicates credit in former PLUS 539.)

PPD 618 Housing Facilities and Community Development (4, Irregular) Structure of the building industry and technology. Housing markets and programs; environmental standards. Community development and redevelopment. Planning, program development, finance, and coordination of public facilities and services. (Duplicates credit in former PLUS 540.)

PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions (4, Irregular) Determinants and analytical models of land use; interaction of land uses with environmental quality and natural resources; land use policy instruments; regulation, taxation, public services. (Duplicates credit in former PLUS 562.)

PPD 620 General Plans (4a, Fa) Assessment of a recently adopted general plan, analysis of the general plan process, and detailed review of each major element and issue. (Duplicates credit in former PLUS 563.)

PPD 621 Environmental Impacts (4, Sp) Legal, political/institutional, and technical aspects of environmental impact reports for urban planning. (Duplicates credit in former PLUS 561.)

PPD 622 Seminar in Urban Development (4, Irregular) Central city housing and renewal problems and policies. Site selection, organization; land valuation, acquisition, disposition; relocation and management; reuse; site planning and development; politics; financing. (Duplicates credit in former PLUS 541.)

PPD 623 Community Development and Site Planning (4, Sp) Urban form and emerging community design practices; design project development; evaluation and assessment of site planning in cities and local communities.

PPD 624 Local Economic Development: Theory and Finance (4, Sp) Socioeconomic change, economic development theory, assessment techniques, and economic indicators in the context of planning and development policies and programs. (Duplicates credit in former PLUS 547.)

PPD 625 Planning and Economic Development Finance (4, Fa) Fundamentals for economic development professionals and policy makers including feasibility analysis and the financing of facilities, social services, and community based enterprises. (Duplicates credit in former PLUS 546.)

PPD 626 Public/Private and Mixed Enterprises Planning (2, Sp; 4, Fa) Case studies of planning and public/private and mixed enterprises; public production of private goods; privatization of public services; public/private partnerships; mixed enterprises.

PPD 627 Design Skills for Urban Planners (4, Fa) Develop observation, description, analysis, and conceptualization skills related to urban spatial conditions; advance professional communication and critical thinking. (Duplicates credit in former PLUS 572.)

PPD 628 Urban Planning and Social Policy (4, Irregular) Urban planning and social work: theory, values, techniques of inquiry, and problem-solving methods appropriate to urban planning and social work. (Duplicates credit in former PLUS 552.)

PPD 629 Planning in the Voluntary Nonprofit Sector (4, Irregular) Structure of voluntary nonprofit sector; role in social, economic, and spatial planning; corporate philanthropy; foundations; pass-through organizations; nonprofit planning requirements. (Duplicates credit in former PLUS 545.)

PPD 630 Urban Economic Analysis (4, Sp) Economic models of cities and city development and structure; housing and land markets; transportation systems; problems of congestion and pollution; evaluation of urban policies. (Duplicates credit in former PLUS 566.)

PPD 631 Geographic Information Systems for Policy, Planning, and Development (5) Introduction to GIS systems and usage in the public sector; spatial data; understanding software and the application of technology; analysis of data using GIS.

PPD 632 Planning Analysis and Evaluation (4, 5p) Methods of policy, program, and plan evaluation: economic principles and theoretical concepts introduced, followed by case studies. (Duplicates credit in former PLUS 574.)

PPD 633 Urban Transportation Planning and Management (4, 2 years, Fa) Background knowledge, and applications of established urban travel forecasting techniques; travel demand; trip-generation, trip-distribution, modal-choice, trip-assignment; evaluation; criticisms. (Duplicates credit in former PLUS 580.)

PPD 634 Institutional and Policy Issues in Transportation (4, 5p) Analysis of policies relating to transportation alternatives; institutional environment and background; federal, state, regional, and local agency responsibilities and interactions. (Duplicates credit in former PLUS 581.)

PPD 635 Principles of Transportation Systems Analysis (4, Fa) Planning, design, modeling, and operation of inter- and intra-urban transportation networks. Analysis of contemporary engineering/economic issues relevant to transport, especially questions pertaining to infrastructure. (Duplicates credit in former PLUS 582.)
PPD 636 Infrastructure and Modern Society (4, Sp) Survey of infrastructure issues that relates principles from multiple disciplines to the provision of vital services and encourages critical thinking within a systems context.

PPD 637 Forecasting and Urban Planning: A Survey of Theory and Methods (4, Sp) Overview of forecasting methods and applications in urban planning processes used to determine urban futures; includes theoretical and institutional factors as well as quantitative methods.

PPD 638 Integrative Seminar (4, FaSpSm) Individual research and preparation of an integrated comprehensive study coordinated with a sponsor such as a government agency or development firm. (Duplicates credit in former PLUS 591.) Prerequisite: PPD 611, PPD 612.

PPD 639 Introduction to Community and Economic Development (4, FaSpSm) Theories of community and economic development and a contextual understanding of the forces that shape the development and community life of urban areas.

PPD 640 Leadership Foundations: Competencies and Core Values (4, Sm) An intensive introduction to leading through core values. Focuses on developing leadership skills at the personal level to build a foundation for leadership at all levels. Open only to Executive Master of Leadership students.

PPD 641 Leading Individuals, Groups and Teams (4, Fa) Leadership styles in various settings; team demographics, and dynamics; problem-solving; decision-making; diversity and critical thinking skills; effect of culture on small group communication; managing conflict. Open only to Executive Master of Leadership students. Prerequisite: PPD 640.

PPD 642 Strategic Leadership of Organizations (4, Sp) Strategic analysis; strategic planning; leadership; performance measurement and management; control systems; organizational structure and networks; organizational culture; organizational learning and change. Open only to Executive Master of Leadership students. Prerequisite: PPD 641.

PPD 643 Leading Transformations Across Sectors: Integrative Seminar (4, Sm) Application and practice of leadership skills working across the public, private and nonprofit sectors. Skills include negotiation, collaboration, communication, political management and ethical responsibilities. Open only to Executive Master of Leadership students. Prerequisite: PPD 642.

PPD 644 Shaping the Built Environment (4) Introduction to the theories and concepts and good city form. Explores the options for designing more livable and sustainable urban communities.

PPD 645 Professional Development (1-4, max 8, Irregular) Selected topics in the practical application of administrative concepts. Graded CR/NC. (Duplicates credit in former PUAD 505.)

PPD 646 Fieldwork (1-4, max 8, Sp) Supervised study of management activities in governmental agencies. Graded CR/NC. (Duplicates credit in former PUAD 503.)

PPD 647 Finance of the Public Sector (4, Sp) Sources of government revenue; intergovernmental financial relations, budgeting, public goods theory. Theoretical and applied skills in analysis of equity and efficiency issues. (Duplicates credit in former PUAD 513.) Prerequisite: PPD 501b.

PPD 648 Concepts and Practices of Public Budgeting (4, Irregular) Budget planning, budget formulation, tools for budget analysis and budget implementation. (Duplicates credit in former PUAD 515.)

PPD 649 Concepts and Practices in Public Personnel Administration (4, FaSm) Concepts of man and of work; workforce; government personnel systems, including merit concepts, classification, and compensation; collective bargaining; organizational justice; training and development. (Duplicates credit in former PUAD 516.)

PPD 650 Organization Development in Public Administration (4, FaSp) Overview of concepts and methodologies of organization development; diagnosing organizational needs; developing change strategies; selecting appropriate interventions. (Duplicates credit in former PUAD 577.)

PPD 651 Seminar in the Administration of Local Government (4, Irregular) Intensive consideration of the functions of the municipal executive and his environment. Research preparation and discussion of cases. (Duplicates credit in former PUAD 521.)

PPD 652 Financial Administration in Local Government (4, Irregular) Revenue sources, fees and charges, benefit assessments; financing economic development and redevelopment, issuing and managing debt, current asset management, and state-local relations. (Duplicates credit in former PUAD 521.)

PPD 653 Training in the Public Sector (4, Fa) Emergence of public service training; learning theories; program development process — assessing needs, design, delivery, and evaluation; role of media; individual, group, organization development; managing training. (Duplicates credit in former PUAD 521.)

PPD 654 Information Technology Management in the Public Sector (4, FaSm) Application of computer and information technology in government; e-government; information technology architecture; systems project management. (Duplicates credit in former PPD 518.)

PPD 655 Administrative Law and Public Management (4, FaSm) Administrative perspectives on legal principles of agency rule-making and adjudication; distinctions between the two; informal administrative proceedings; decision-making; judicial review; public control of administrative decisions.

PPD 656 Political Management: Theory and Applied Techniques (4, Sp) Political management theories; strategy formation; research and data collection approaches; computer applications; electronic databases; issue management; problem-solving techniques; ethical considerations. (Duplicates credit in former PUAD 545.)

PPD 657 Political Leadership in Public Organizations (4, Sp) Concepts and skills for public executives and senior managers; understanding the dynamics of governmental institutions and policy processes; organizational and personal assessment skills. (Duplicates credit in former PUAD 546.)

PPD 658 Advocacy in Public Administration (4, Fa) Perspectives on advocacy in the policy process; practice of advocacy; accessing the policy process; simulation of the advocacy process; ethical considerations. (Duplicates credit in former PUAD 547.)

PPD 659 National Security Administration and the Domestic and International Environment (4, Irregular) Interplay of domestic and international environments; resultant constraints upon national security program administration; administrative and organizational implications for future scenarios. (Duplicates credit in former PUAD 549.)

PPD 660 Local Agency Debt and Cash Administration (4, Irregular) Overview of methods of debt and cash administration; analysis of official statement analysis; mechanics of different types of issues; and cash management principles. (Duplicates credit in former PUAD 550.)

PPD 661 Intergovernmental Management: Local Perspective (4, Fa) Role of city, special district, and metropolitan governments in intergovernmental relations; intergovernmental impacts on local policy process and service delivery; management problems and alternatives. (Duplicates credit in former PUAD 552.)

PPD 662 Intergovernmental Management: State Perspective (4, FaSpSm) Role of state government in intergovernmental relations, emphasis on California experience; financial aspects of intergovernmental system. (Duplicates credit in former PUAD 553.)

PPD 663 Intergovernmental Management: Federal Perspective (4, Irregular) Role of national government in intergovernmental process; impact of federal legislative, executive, and judicial actions on state and local government; intergovernmental policy-making process. (Duplicates credit in former PUAD 554.)

PPD 664 Contract Management (3, Sp) Contract management techniques in the public and private sectors; micro and macro management; compliance and negotiation; conflicts of interest and ethical issues.

PPD 665 Contemporary Issues in Philanthropy (4) Motivations and strategies of philanthropists; philanthropic foundations and emerging institutions for philanthropy; issues of philanthropic stewardship, public policy and public accountability.

PPD 666 Administrative Research and Analysis (4, Irregular) Theory and methods for study of administrative effectiveness: problem solving, performance measurement, administrative and organizational research, quality improvement, and change implementation. (Duplicates credit in former PUAD 506.) Prerequisite: PPD 502x.

PPD 667 Public Ethics (4, Sp) Following an introduction to the study of ethics, relationships among administrative, political and policy ethics are examined, emphasizing the ethics of the administrative role. (Duplicates credit in former PUAD 560.)

PPD 668 Entrepreneurship in the Public Sector (4, Irregular) Providing public services through the private and nonprofit sectors; public-private partnerships; political and organizational skills required for public entrepreneurship. (Duplicates credit in former PUAD 561.)

PPD 669 Federal Management Systems (4, FaSpSm) Principal institutions and processes in federal government for overhead leadership and control; examines Office of Management and Budget, Office of Personnel Management, Merit Systems Protection Board, General Services Administration, and General Accounting Office. (Duplicates credit in former PUAD 564.)

PPD 670 Management of Intergovernmental Programs (4, Sp) Analysis of relationships among governmental units in delivery of governmental programs; historical development of intergovernmental relations; present status and future implications. (Duplicates credit in former PUAD 566.)

PPD 671 Decision-Making in Regulatory Agencies (4, Irregular) Risk assessment, management, and communication concepts and practices; comparisons of regulatory decision making in regulatory agencies; emerging benefit assessment, cost-
effectiveness, and communication issues. (Duplicates credit in former PUAD 587.)

**PPD 672 Presidency, Congress, and the Bureaucracy (4, SSp) Relationships in national government among political executive, legislative, and administrative units; reviews institutions, formal processes, and political dynamics. (Duplicates credit in former PUAD 568.)**

**PPD 673 Strategic Planning in the Public Sector (4, Sp) Analysis/field application of action research models for strategic planning in public agencies; design of effective public systems; citizens/administrators’ roles in strategic decision-making. (Duplicates credit in former PUAD 574.)**

**PPD 674 Science, Technology, and Government (4, Irregular) Impact of science/technology on governmental policy, processes, institutions; critical policy areas in science/technology; machinery for formulating science policy; governmental impact on science/technology. (Duplicates credit in former PUAD 575.)**

**PPD 675 Nonprofit Management and Leadership (4, FaSpSm) Issues in nonprofit management and leadership including: the role of boards; strategic planning; marketing and fund-raising; financial management; and volunteer and human resource management. Recommended preparation: PPD 689.**

**PPD 676 Comparative Public Administration (4, Irregular) Methodologies, theories and models of comparison; administrative systems; role and functions of the public sector; administrative cultures. (Duplicates credit in former PUAD 579.)**

**PPD 677 International Development Administration (4, Sp) Development of theories; role of international institutions in resource exchanges; foreign investment and trade policies; national planning and allocation systems; development and modernization strategies and implementation. (Duplicates credit in former PUAD 581.)**

**PPD 678 Processes of Change in Developing Societies (4, Irregular) Nature of traditional and transitional societies; theories and practice of developmental change; role of bureaucracy in development; institution building; public enterprise; technology assessment and transfer. (Duplicates credit in former PUAD 582.)**

**PPD 679 Financial Administration in Developing Countries (4, Sm) Public sector finance; tax policy and administration; budgeting and auditing; debt management; public enterprise and development banks; planning; techniques; project assessment. (Duplicates credit in former PUAD 583.)**

**PPD 680 Development of Effective Groups and Organizations (4, Fa) Theories and techniques of assessing and improving interpersonal relationships and group dynamics in an organizational context; action research-based approaches to implementing organizational change. (Duplicates credit in former PUAD 584.)**

**PPD 681 Public Organization and Management Theory (4, FaSp) Nature and management of public organizations; examining organizational characteristics, forms, and processes, including the relationship with the broader environment. (Duplicates credit in former PUAD 585.)**

**PPD 682 Justice Administration: A Management Perspective (4, 2 years, Fa) Justice administration as an interactive system: law, etiology of crime, police, the judiciary and corrections. Interface of offenders with community and political force fields. (Duplicates credit in former PUAD 540.)**

**PPD 683 Homeland Security and Public Policy (4, FaSp) Definition and history of terrorism, counterterrorism, domestic policy and public sector management; intelligence/information sharing and analysis; emergency preparedness planning, response and recovery.**

**PPD 684 Leadership Development in the Public and Nonprofit Sectors (3, Fa) An overview of leadership concepts, frameworks and skills; application of leadership in complex or inter-sectoral settings.**

**PPD 685 Human Resources Management in Public and Non-Profit Sectors (2, Fa) Merit principles, position classification, recruitment and selection, compensation, organizational development, labor relations; challenges and strategies for managing a diverse workforce.**

**PPD 686 U.S. Immigration Policy (4, Sp) Overall understanding of contemporary U.S. immigration policy.**

**PPD 687 Strategic Management in the Nonprofit Sector (4, Sp) Strategic management of nonprofit organizations; social entrepreneurship, and management practice. Prerequisite: PPD 675 and PPD 689.**

**PPD 688 Business and Public Policy (4, Irregular) The business-government relationship; effects of selected public policies (antitrust, economic, and social regulation, industrial policies, legal policy) on firm and industry behavior. (Duplicates credit in former PUAD 557.) Prerequisite: PPD 501b.**

**PPD 689 The Nonprofit Sector and Philanthropy (4, FaSpSm) Nonprofit organizations and their relation to government and business; the role of philanthropy, social enterprise and public support; and implications for policy, strategy and management.**

**PPD 690 Alternative Dispute Resolution (4, Fa) Theory and methods of conflict analysis, negotiation, facilitation and mediation in the public sector. (Duplicates credit in former PUAD 519.)**

**PPD 691 Transportation and the Environment (4, Sp) Analysis of the benefits and costs of urban transportation; concepts of social costs; benefits and externalities; environmental costs; social justice issues; policy and planning alternatives for sustainable transportation. (Duplicates credit in former PPD 584.) Prerequisite: PPD 501a.**

**PPD 693 Communicating Public Policy (4) Exploring the complex relationships that exist among policies, policymakers, and the media; analyzing the role of journalists and policy analysts in the public policy process.**

**PPD 694 Coastal Policy and Planning (4, Sp) Coastal management issues in the context of public and private users competing for land resources, the costs and benefits of seaports, compare coastal development models.**

**PPD 695 Clinical Issues for Managers (1, Fa) Introduces key information and concepts for managers of clinical services. Examines problems and issues facing health care managers and clinician relations.**

**PPD 696 Health Care Venture Development (4, SpSm) Focuses on developing the resourcefulness, know-how and decision support skills needed to identify, assess and develop new health ventures. Includes business planning, financing, strategy, entrepreneurship. Recommended preparation: PPD 501a or HMGT 585.**

**PPD 697 Cultural Proficiency in Health Management and Policy (2, Sp) Provides an understanding of what social factors contribute to racial/ethnic, socioeconomic, and gender disparities in health and the culturally proficient provision of health care.**

**PPD 698 Strategic Management and Change (4) Theory and applied skills in management of social sector organizations with applications in international settings. Strategic management and planning; communication strategies, marketing and promotion; leadership skills; organizational development and change.**

**PPD 700a Teaching Seminar (1-1, FaSpSm) Pedagogy: learning objectives, curriculum design, teaching methods, evaluation. Open only to doctoral students. Graded CR/NC.**

**PPD 706 Paradigms of Research and the Design of Inquiry (4, FaSpSm) Philosophy of social science; applied social research; research design; sampling and validity; overview of qualitative and quantitative methods. Open only to doctoral students.**

**PPD 707 Survey Research Methods (4, Sp) Collection and use of survey data: basic orientation, mechanics of using SAS, and interpretation of survey tabulations. Graduate standing. (Duplicates credit in former PLUS 606.) Prerequisite: PPD 525.**

**PPD 708 Qualitative Methods (4, Sp) Reflective and critical approach that questions data collection techniques, positions relative to those being studied, and explanatory methods. (Duplicates credit in former PLUS 608.) Recommended preparation: PPD 525 or PPD 612.**

**PPD 709 Applications in the Advanced Quantitative Methods (4, Sp) Statistical and econometric modeling in real estate finance, urban economics, public policy, and planning research. Building, estimating and adjusting models for real-world. Prerequisite: PPD 525.**

**PPD 710ab Research Seminar (a: 2, Fa; b: 3, Sp) Research fields and design; literature reviews; critical reading and critiquing; project development. Open only to doctoral students. Graded CR/NC. Prerequisite: PPD 706.**

**PPD 711 Theoretical Foundation of Public Management (4, Fa) Theories of the role, structure, and growth of the public sector; political economy of public bureaucracies; the voluntary nonprofit sector. Prerequisite: PPD 501b.**

**PPD 712 Seminar in Public Policy (4, Fa) Critical analysis of the policy field; theoretical foundations; integration of quantitative, organizational, and political considerations; policy research. (Duplicates credit in former PUAD 626.) Prerequisite: PPD 501b, PPD 554.**

**PPD 713 Advanced Planning Theory (4, Fa) Positive and normative attitudes of public plans, policies, programs, organizational and institutional settings; policy analysis; modeling of social choices; evaluation; applied welfare analysis; performance assessment. (Duplicates credit in former PLUS 663.)**

**PPD 714 Advanced Urban Development (4, Fa) Urbanization, urban economics, land use, the politics of growth, governance, regulation, and the state, immigration, and place promotion.**

**PPD 715 Political Economy and Institutional Analysis (4) Institutional dimensions of political economy; analytic approaches in institutional analysis and their relevance for understanding the interactions between political and economic factors in public-sector issues. Prerequisite: PPD 501b.**
Policy, Planning, and Development — Expanded (PPDE)

PPDE 630 Community Health Planning (4, Sp)
The role of planning in sustaining community health; examines relationship between health and environment; historical development, conceptualization and practice of community health planning.

PPDE 631 Public Space: Theory, Policy, and Design (4) Examination of contemporary issues and practices in the design, production, and uses of public space in a comparative perspective; implications for future design and public policy.

PPDE 632 Sustainable Cities (4, FaSp)
Exploration of environmental problems linked to urbanization, drawing on historical analysis, social theory, scientific research, and city planning/design practice. Alternative policy options for urban sustainability. (Duplicates credit in the former GEOG 601.)

PPDE 633 Communicating City Design: Positions and Representations (3) Communicating the processes, products, and concepts of city design; merging theoretical and skill-based exercises for effective communication; verbal and graphic communication; physical components of urban landscape and dimensional attributes.

PPDE 634 Methodology, Methods and Tools for Urban Sustainability (2-4, FaSp) Methodology, assessment and planning methods for urban sustainability and land use planning; how the choice and use of theory and methods impact the planning process; systems and spatial analysis.

PPDE 635 Housing and Land Use in Rapidly Urbanizing Regions (4, Fa) Interdisciplinary approach to conceptualize urban land and property rights; property rights strategies; design and policy interventions; the struggle for rights to space in the city.

PPDE 636 Land Use and Transportation Planning (4) Key theories of land use — transportation interactions; understanding of land markets and derived-demand approach; use of evidence for information; travel data collection methods; application of land use.

PPDE 645 Financial Management of Nonprofit Organizations (4) Accounting and financial management principles and practices in nonprofit organizations: budgeting financial analysis, internal controls, financial policies, grant making and financial reporting. (Duplicates credit in PPD 541.)

PPDE 646 Grant Writing Practicum (3) Grant making process and proposal development; philanthropic foundations; strategies for funding; budgeting, logic models, and evaluation; peer review.

PPDE 647 Civic Engagement in Governance (4, Sp) Roles of citizens, civic associations, nonprofit organizations, government and business in democratic governance; civil society as the interface among these entities; techniques, purposes and contexts of civic engagement.

PPDE 648 Performance Management (4) Concept and practice of performance management; examination of performance measurement; analysis and reporting practices for organizational accountability and improvements; performance design, indicators, utilization of information.

PPDE 649 International Development NGOs: Theory, Policy and Management Issues (4) Critical issues involved in International Development NGO management; theoretical work and analytical framework to understand organizational features; NGO management, issues and challenges.

PPDE 660 Environmental Policy Design and Analysis (3, Sp) Analytical foundation for design of institutions and policies; environmental policy; welfare economics and market failure; policy evaluation; economic policy instruments; climate change policy issues; other policy issues. Prerequisite: PPD 512A; recommended preparation: PPD 512B.

PPDE 661 Methods for Equity Analysis (4) Techniques to measure inequality and segregation. Policy evaluation using techniques for casual inference. Prerequisite: PPD 518.

PPDE 662 China from a U.S. Policy Perspective (4) Examination of China through the lens of the U.S. federal government; trade issues; economic coordination and stability; environment and sustainability; defense and security; human development.

PPDE 680 Board Governance and Leadership (4) Governance of nonprofit organizations; responsibilities and expectations of boards; board effectiveness; and changes in governance as a result of recent federal and state legislation.

PPDE 681 Fund Development for Nonprofit Organizations (4) Key aspects of the fundraising process for nonprofit organizations; theoretical foundations and general fundraising principles; techniques sources of donations; key aspects of managing the process.

PPDE 682 Strategic Management and Leadership in Nonprofit Organizations (4) Mission-mandated accountable and ethical practice, individually and organizationally; applications of core competencies; practical inquiry, analysis, systems; comparative frameworks; strategic leadership and management of public value production. Prerequisite: PPD 500 and PPD 675, PPD 689. Open only to Master of Nonprofit Leadership and Management students.

Public Administration (PUAD)

Frequency of course offerings varies from campus to campus. Check with individual campuses regarding availability.

PUAD 615 Seminar in Financial Policy (4, Irregular) Historical development and trends in public revenues and expenditures. Political, economic, and administrative significance of decisions in the field of financial management. Prerequisite: PPD 647.

PUAD 617 Seminar on Behavioral Aspects of Training and Development (4, Irregular) Theoretical concepts governing the administration of socio-technical systems, organization development, action training and research, and other development and change processes utilized in public service.

PUAD 619 Institutional Context of the Public Sector (4, Sp) Theories of the role, structure and growth of the public sector; public choice processes; political economy of public bureaucracies; the voluntary nonprofit sector. Prerequisite: PPD 510B.

PUAD 665 Seminar on Organizational Behavior in Public Systems (4, FaSp) Organizing processes; decision-making; communication; leadership; behavioral models; political and social behavior in organizations. Prerequisite: PPD 545.

PUAD 692 Multivariate Statistical Analysis (4, FaSp) Multivariate analysis of qualitative and quantitative variables including multiple linear regression, multiple contingency table analysis, log-linear and logit models, and path analysis. Prerequisite: PPD 502X.

PUAD 695 Seminar in Administrative Theory (4, FaSp) Assessment of current normative and descriptive theories of public administration; variety of conceptual systems; operationalism; levels of organizational analysis. Prerequisite: PPD 540.

PUAD 697 Seminar in Public Management (4, Irregular) Public management research and theory; differences between private and public organizations; contextual influences on public management; contemporary empirical studies; bibliographic research. Prerequisite: admission to the DPA program.

PUAD 791B Public Administration Research Seminar (1, 1, FaSp) Presentation and discussion of research histories and current research projects of members of the faculty and distinguished guest scholars. Open only to Ph.D. and DPA students. Graded CR/NC.

Real Estate Development (RED)

RED 509 Market Analysis for Real Estate (4, Fa) Explores macro and micro aspects of residential, retail, office, and industrial markets and examines methodologies for analyzing such markets for real estate development/investment purposes. Prerequisite: RED 542.

RED 510 Real Estate Practice and Principles (4, FaSp) Fundamental principles of real estate analysis; economics; capital markets; development decision-making; relationships between real estate markets and federal, state and local government policies; property value.

RED 511 Foundations of Real Estate Analysis (4, FaSp) Principles of real estate analysis; capital markets; importance of uncertainty and metrics of risk; investments; valuation techniques; use of debt and equity, leases, taxes. Prerequisite: RED 510.

RED 512 Real Estate Project Analysis (4, FaSp) Fundamental economic theories; analytical techniques;
practical applications for market analysis of various forms of real estate. Prerequisite: RED 511.

RED 541 Finance Fundamentals for Real Estate Development (2, 5M) Introduction to the general principles of finance with application to real estate development, including capital markets, financial institutions, valuation and risk management.

RED 542 Finance of Real Estate Development (2, FaSm) Theory and methods of real estate finance and investment analysis. Real estate investment analysis, real estate entities, taxation; introduction to securitization of real estate equities, debt. Prerequisite: RED 541.

RED 545 Advanced Real Estate and Financial Modeling (2, Sp) Quantitative problem solving using computerized modeling. Complex debt financing, including lender participation, subordination, joint venture structuring, systematic treatment of real estate portfolios. Prerequisite: RED 542.

RED 546 Applications of Real Estate Finance to Problems of Development (2, Sp) Advanced topics in finance applied to cases and problems of real estate development; emphasis on structuring, finance and evaluation of various types of development projects. Prerequisite: RED 542.

RED 551 The Approval Process (4, FaSpSm) Approval process for real estate development including land use entitlement, site selection, zoning, environmental review, community and government relations, infrastructure financing, ethical issues, negotiation skills.

RED 582 Legal Issues in Real Estate Development (4, FaSp) Ownership and transfer of real estate; formation and enforcement of contracts; business associations; environmental regulation; taxation of property transfers; acquiring, financing, leasing of commercial property. (Duplicates credit in former RED 662.)

RED 583 Introduction to the Asset Management of Real Estate (2, Fa) Overview of institutional asset management: creating and implementing investment and portfolio strategies through the development, acquisition, underwriting, and operational stages of the investment, asset disposition.

RED 584 Issues in Asset Management of Real Estate (2, Sp) Advanced issues in institutional asset management. How value is created during investment process with focus on tactical, operational, and strategic goals of asset and owner. Prerequisite: RED 583.

RED 573 Design History and Criticism (2, Sm) The concepts, language and metaphors of design-related disciplines are examined in relation to design and construction values and choices in real estate development. (Duplicates credit in former RED 673.)

RED 574 Building Typologies (2, Fa) The exploration of categories of building types, including retail, industrial, residential, office and institutional, using key examples or case studies from each. (Duplicates credit in former RED 674.)

RED 575 Community Design and Site Planning (2-4, max 8, Sp) Physical implementation of development projects. Students will develop concept plan, preliminary design and marketing plan for selected domestic and/or international development sites. (Duplicates credit in former RED 675.)

RED 585 Comparative International Development Opportunities (2, Sp) A survey of various markets prominent in the global real estate community. Protocols for analyzing international real estate development opportunities and cultural, political, and socioeconomic considerations.

RED 586 Comparative International Development Workshop (2-4, 5M) Comparative study tour focused on understanding international real estate development practices and markets, site visits and meeting with principals.

RED 589 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department.

RED 598 Real Estate Product Development (2-4, max 12, FaSpSm) An evaluation of various real estate development types. Case studies and site visits.

RED 599 Special Topics (2-4, max 8) Current issues, trends, and developments in real estate development.

Military Courses of Instruction
- Aerospace Studies
- Military Science
- Nautical Science
- Naval Science

Aerospace Studies (AEST)

AEST 100ab Aerospace Studies I: Air Force Mission and Organization (1-1, FaSp) : Introduction to U.S. Air Force and the military profession; USAF organization and functions; Strategic Air Command organization, command, control, and weapons systems; communication skills; b: Organization and function of NORAD; tactical air, military airlift, systems, logistics, air training and communications commands; Army, Navy, Marines; reserves; separate operating agencies.

AEST 110ab Leadership Laboratory I (1-1, FaSp) Introduction to the military experience focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Graded CR/NC.

AEST 200ab Aerospace Studies II: Air Force History (1-1, FaSp) : Development of aerospace power in the U.S. through World War II; emphasis on the Army Air Corps; communication skills; b: Development of aerospace power since World War II; emphasis on international confrontations involving the United States; communication skills.

AEST 210ab Leadership Laboratory II (1-1, FaSp) Introduction to the military experience focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Graded CR/NC.

AEST 220ab Advanced Leadership Laboratory II (2-1, Fa; b: 1, Sp) Additional exposure to the military experience for continuing AFROTC cadets, focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Graded CR/NC.

AEST 310ab Leadership Laboratory III (1-1, FaSp) Practical introduction to Air Force leadership focusing on military communicative skills, group dynamics, and application of theories of leadership and management. Graded CR/NC.

AEST 410ab Aerospace Studies IV: International Security Forces in Contemporary American Society (3-3, FaSp) Military professionalism and the context in which defense policy is formulated and implemented; national security policy, political/social constraints, and military justice.

AEST 410ab Leadership Laboratory IV (1-1, FaSp) Advanced Air Force leadership experience focusing on the practical development of the Air Force officer through command and staff positions within the Cadet Corps. Graded CR/NC.

AEST 420ab Leadership Laboratory V (1-1, FaSp) Advanced leadership experiences for AFROTC continuing cadets. Graded CR/NC.

Military Science (MS)

MS 101 Foundations of Officership (1, Fa) Introduces students to issues and competencies that are central to a commissioned officer’s responsibilities. Establish framework for understanding officership, leadership, and Army values followed and — life skills — such as physical fitness and time management. (Duplicates credit in former MS 100.)

MS 102 Basic Leadership (1, Sp) Establishes foundation of basic leadership fundamentals such as problem solving, communications, briefings and effective writing, goal setting, techniques for improving listening and speaking skills and an introduction to counseling. (Duplicates credit in former MS 110.)

MS 201 Individual Leadership Studies (1, Sp) Students identify successful leadership characteristics through observation of others and self through experimental learning exercises. Students record observed traits (good and bad) in a dimensional leadership journal and discuss observations in small group settings. (Duplicates credit in former MS 200.)

MS 202 Leadership and Teamwork (3, Sp) Study examines how to build successful teams, various methods for influencing action, effective communication in setting and achieving goals, the importance of timing the decision, creativity in the problem solving process, and obtaining team buy-in through immediate feedback. (Duplicates credit in former MS 210.)
MS 301 Leadership and Problem Solving (3, Fa) Students conduct self-assessment of leadership style, develop personal fitness regimen, and learn to plan and conduct individual/small unit tactical training while testing reasoning and problem-solving techniques. Students receive direct feedback on leadership abilities. (Duplicates credit in former MS 300.)

MS 302 Leadership and Ethics (3, Sp) Examines the role communications, values, and ethics play in effective leadership. Topics include ethical decision-making, consideration of others, spirituality in the military, and survey Army leadership doctrine. Emphasis on improving oral and written communication abilities. (Duplicates credit in former MS 310.)

MS 401 Leadership and Management I (3, Fa) Develops student proficiency in planning and executing complex operations, functioning as a member of a staff, and mentoring subordinates. Students explore training management, methods of effective staff collaboration, and developmental counseling techniques. (Duplicates credit in former MS 400.)

MS 402 Leadership and Management II (3, Sp) Study includes case study analysis of military law and practical exercises on establishing an ethical command climate. Students must complete a semester long Senior Leadership Project that requires them to plan, organize, collaborate, analyze, and demonstrate their leadership skills. (Duplicates credit in former MS 410.)

MS 499 Special Topics (2-4, max 8, FaSpSm) Selected topics in military science.

Nautical Science (NAUT)

NAUT 001abX Deepwater Cruising (2-2, FaSp) An experiential approach to the sailing ship and seafaring, introducing offshore sailing theory and techniques, navigation, and basic oceanography as relevant to seamanship. Lecture and lab. Not available for degree credit. a: Crew level. b: Watch captain.

NAUT 002abX Advanced Deepwater Cruising (2-2) Responsibilities and operations commanding an offshore sailing vessel including sailing theory and advanced techniques, navigation, ships engineering, and oceanography relevant to seamanship. Not available for degree credit. a: Senior skipper. b: Advanced senior skipper. (Duplicates credit in former NAUT 302ab.) Prerequisite: NAUT 001bx.

Naval Science (NSC)

NSC 135 Introduction to Naval Science (2, Fa) Introduction to the structure, principles, and practices, lines of command and control, and functions of the various components of the naval service. Lecture, 2 hours; laboratory, 2 hours.

NSC 137 Seapower and Maritime Affairs (4, Sp) Analysis of U.S. Navy development and campaigns; evolution of strategic, tactical, and maritime doctrines; interaction of naval affairs with national security and domestic policies. Lecture, 3 hours; laboratory, 2 hours.

NSC 251 Seamanship and Ship Operations (3, Fa) Vector solutions of relative motion, tactical problems; tactical communications, instructions; fleet communications, organizations; rules of the Nautical Road; aviation and maritime meteorology; operation plans and orders. Lecture, 3 hours; laboratory, 1 hour.

NSC 283 Naval Ships Systems I (Engineering) (3, Sp) Types, structure, and purpose of Naval ships, compartmentation, propulsion systems, auxiliary power systems, interior communications, ship control; ship design and stability. Lecture, 3 hours; laboratory, 2 hours.

NSC 335 Navigation (3, Fa) Purposes, methods, and instruments of navigation; terrestrial and celestial navigation and astronomical navigation; time diagrams; lines of position by observation of celestial bodies. Lecture, 3 hours; laboratory, 2 hours.

NSC 377 Naval Ships Systems II (Weapons) (3, Sp) Systems approach to naval weapons; linear analysis of ballistics; weapons control systems configurations and dynamics. Field trips. Lecture, 3 hours; laboratory, 2 hours.

NSC 343 Evolution of Warfare (3, Fa) Causes and practice of warfare from ancient times; impact of changes in strategy, tactics, and technology; modern revolutionary warfare, global conflict, and politico-military relationships. Lecture, 3 hours; laboratory, 2 hours.

NSC 345 Leadership and Management I (3, Fa) Principles of human relationships; principles of decision-making and management at the junior officer level; theory and techniques of leadership. Lecture, 2 hours; laboratory, 2 hours.

NSC 346 Leadership and Management II (3, Sp) Introduction to primary duties of junior naval officers; counseling and interviewing techniques; review of basic administrative responsibilities at the division officer level. Lecture, 2 hours; laboratory, 2 hours.

USC School of Social Work

Now the nation's largest and fastest growing school of social work, the USC School of Social Work is celebrated for its rigorous career preparation and scientific contributions. Led by Dean Marilyn L. Flynn, the school recently initiated the Grand Challenges effort among social work scholars to tackle the most serious societal issues.

The USC School of Social Work offers programs of study leading to the Master of Social Work (MSW) and Doctor of Philosophy (Ph.D.) in social work. These programs provide the student a broad background of knowledge about health and welfare problems, the meaning of programs past and present that have been established to meet them, and current issues and policy trends in the field.

At the same time, the student is helped to become a professional person through development of a philosophy of work in harmony with that of the profession: to prevent and mitigate social problems that challenge the viability of culturally diverse and complex urban settings; to build on the strengths of individuals, families and communities; and to lead the scholarly search for innovative, efficacious and just solutions.
Amit, Ph.D.; Renee Smith

The Master of Social Work degree requires a minimum of 60 units (46 units of course work and 14 units of field practicum). The program is available at these locations: University Park, Orange County Academic Center in Irvine, Skirball Academic Center in West Los Angeles, San Diego Academic Center in Rancho Bernardo and Virtual Academic Center via the Internet and can be completed in a full-time (two-year) program or part-time (three- or four-year) program. In addition, some classes are offered at City Center in downtown Los Angeles.

The basic foundation curriculum introduces students to the range of social welfare problems and programs, and to the varieties of human behavior with which social work is concerned. At the same time, students learn the methods by which the social worker, the social agency and the organized community work with people and problems. Field instruction, under supervision in a social agency, is scheduled for two or three days a week, enabling students to apply theory to practice. All content areas include content on diversity, social work values and ethics, and economic justice and populations at risk. At the completion of foundation requirements, students are expected to have acquired a sense of professional responsibility and the ability to use knowledge on behalf of the individual, the group and the community.

The concentration curriculum builds on the generic social work knowledge obtained in the foundation study by offering a choice of five advanced practice concentrations: families and children; health; mental health; community organization, planning and administration (COPA); and social work and business in a global society. Students can complete all foundation courses in Orange County, as well as course work for the concentrations offered, which is determined by student interest but is typically families and children; health; and mental health concentrations. If a student’s concentration is not offered, classes must be taken at the University Park Campus. The San Diego Academic Center offers all foundation courses, as well as all course work for the mental health and COPA concentrations. Students in the Virtual Academic Center may select the COPA; families and children; health; mental health; and social work and business in a global society concentrations. The Skirball Academic Center offers selected courses in the concentrations. Students who attend first-year courses at the Skirball Academic Center will take some or all concentration courses at University Park.

There are also five sub-concentrations at University Park: social work practice (1) with older adults; (2) for systems of mental illness recovery; (3) in school settings, which meets the academic requirements for the Pupil Personnel Services Credential necessary for social work practice in the public schools of California; (4) in public child welfare; and (5) in military social work and veteran services. The San Diego Academic Center offers the social work practice in school settings and the military social work and veteran services sub-concentrations. Students in the Virtual Academic Center may select the military social work and veteran services sub-concentration. Students designate their choice of concentration in the final semester of the foundation year. The basic second-year curriculum (required courses and field instruction placement) will be determined by this choice of concentration; elective courses are available as part of the concentration-year curriculum. Students in all concentrations are required to enroll in SOWK 611 Leadership in the Social Work Profession and Organizations: Theory and Practice.

This system of curriculum offerings provides a strong educational program with a continuing commitment to a generalist base and a focused set of concentrations, in combination with a range of options to meet special interests. This program enables graduates to move into the social work community with a combination of knowledge and skills in a broad arena, as well as in-depth knowledge and skills in a particular method, population or area of service. The curriculum builds on a liberal arts foundation, which all entering students are required to have. The applicant should have a range of undergraduate courses in the humanities and the social and physical sciences.

General Requirements

The Master of Social Work degree requires a minimum of 60 semester units of courses, including field education (1000 clock hours).
The degree is not awarded solely on the basis of credits earned but also requires evidence of competence in both theory and practice. At their discretion, the faculty may require courses or fieldwork or both beyond the minimum requirements.

Time Limit
The master’s degree program requires two academic years of full-time study or a structured part-time program, which must be completed in a maximum of four years.

Grade Point Average Requirement
In accordance with the requirements of the Graduate School, a grade point average of 3.0 (A = 4.0) is required for admission to the School of Social Work. Likewise, the university requires an overall GPA of 3.0 for graduation from the master’s degree program.

Course Requirements
Course requirements are organized in five interdependent content areas that continue throughout the two years: social work practice; social welfare, policy and services; human behavior and the social environment; research; and fieldwork.

A typical foundation program includes two courses in social work practice; two courses in social welfare, policy and organizations; two courses in human behavior; two semesters of fieldwork; two semesters of fieldwork seminars; and one course in research methods.

Students typically choose their concentration in the final semester of the foundation year and must enroll in three courses required by the concentration they select. Additionally, students in all concentrations must take two semesters of field instruction, three elective courses and SOWK 611 Leadership in the Social Work Profession and Organizations: Theory and Practice. Each student completes an individualized study plan, which is approved by the concentration faculty.

Academic credit is not granted for life experience or work experience in lieu of the field practicum or any other courses in the curriculum.

Field Education
Field education is an integral part of the Master of Social Work curriculum. Two year-long field education courses are required. In the foundation year, the field courses include: 16 hours per week in field placement and participation in a field seminar on campus. In the concentration year, students are typically in placement 20 hours per week. Field education takes place in selected agencies and centers, which represent the complete range of social services. Field placements are approved on the basis of the quality of their professional practice, commitment to social justice and to addressing social work problems, interest in participating in professional education, and ability to make personnel and resources available. Field instructors, who are employed by either the agency or the school, are responsible for teaching students in their field placements. The associate dean for field education is administratively responsible for all field assignments.

Each placement in field education is made on an individual basis, which takes into consideration the following: geographic location, previous experiences, future goals, professional interests, special needs and stipend requirements. In these placements, students engage in selected and organized social work activities that provide practical experience in applying skills learned in the classroom.

Foundation field placement is arranged by the school with the view of building a generalist foundation in direct services through providing practice experiences in a continuum of modalities including work with individuals, families, small groups and communities and with a diversity of client populations and treatment issues. All students are also required to complete an assignment related to the organization in which they are placed. The generalist experience also encompasses a range of theoretical concepts and models to develop breadth of learning and establish a broad base for practice. The foundation year field course is a prerequisite for entry into the concentration placement.

The school, the agency and the student collaboratively decide on the concentration field placement with the view of developing the special knowledge and depth of skill needed for professional practice in a designated area of concentration. This advanced experience is designed to build on the student’s foundation year and to develop knowledge and skills within the concentration the student has selected.

Students must participate in an appropriate practice class concurrently with the field course and in a field seminar during the foundation field course. Satisfactory performance in both foundation and advanced field courses is required for all students entering the Master of Social Work degree, including those enrolled in dual degree programs.

The number of field placement options for non-driving students is limited. Students are encouraged to have access to an automobile for field placement.

A student must complete and receive credit for a minimum of 450 hours in the foundation year and 550 hours in the concentration year of field placement in order to be awarded the Master of Social Work degree.

Research Requirement
The research requirement consists of one concentration course. In the foundation year of study, SOWK 582 is designed to impart knowledge of research methodology and statistics. In the concentration year, students are required to enroll in core concentration courses that combine research skills acquired in the foundation year with evaluation and program development in their concentration field of study.

Transfer Students
Applicants who have recently completed part or all of the first half of graduate study at a Council on Social Work Education-accredited school of social work may apply as transfer students. In addition to materials described in the section on application procedures, transfer students should forward course syllabi and a bulletin of the school for the year in which the course or courses were taken.

Transfer credits may be applied for those courses determined to be equivalent to USC’s first-year courses or to meet the expectation of the second-year electives. The grade point average for any course taken at another school of social work must be at least 3.0 on a 4.0 grading scale. Where foundation courses are similar, but not equivalent, transfer students may be permitted to take a waiver examination for possible exemption from those courses. Transferred credit for fieldwork will be computed on the basis of clock hours completed as well as on the breadth and depth of contents covered.

Military Social Work and Veteran Services
The School of Social Work offers a Military Social Work and Veteran Services sub-concentration in the MSW curriculum targeting military personnel, spouses and other military dependents and military retirees who wish to maintain a post-military career affiliation with the armed forces; military veterans who wish to provide professional services to their military comrades; and civilian personnel who are committed to assisting military personnel, their families and military veterans with adapting, coping and managing the stresses and strains of military life and post-military life.

Course Requirements
Beyond the basic professional social work foundation course requirement of the Master of Social Work degree, the sub-concentration in Military Social Work and Veteran Services will offer a series of highly specialized courses focusing on the needs of military personnel, veterans and their families. Students will take three courses in special topics that focus on this sub-concentration. Individuals pursuing the Military Social Work and Veteran Services sub-concentration will also be able to select from a variety of highly relevant elective courses that will serve to enhance their training and future service delivery capabilities.

Field Instruction
Students must complete a 600-clock hour internship in a military hospital, base/installation family services unit, Veterans Affairs, Vet Center, etc.

Advanced Standing Option
The School of Social Work offers an advanced standing option for students who have graduated with a Bachelor of Social Work (BSW) degree from a Council on Social Work Education (CSWE)-accredited BSW program within the past five years. To be eligible for the advanced standing option, students must have successfully completed their BSW with a minimum GPA of 3.25 for the last 60/90 units of undergraduate work. A cumulative 3.5 GPA for all social work courses with a grade of B or better is required for admission.

Students admitted to advanced standing must successfully complete three two-unit intensive courses (SOWK 600 Assessment in Social Work Practice, SOWK 606 Neuropsychological Development and SOWK 604 The Role of Evidence-Based Practice in Social Work) in one six-week session prior to their first academic semester. Students who successfully complete these courses will be given credit for foundation year requirements (31 units) and advance into the concentration year or second year of study to complete the additional 29 units required for graduation. Students who do not pass the bridge courses will not be given the 31 units of credit, but may opt for the 60-unit MSW program and enter the foundation year or first year of the program.

Advanced standing allows students to bypass the foundation year and enter the concentration year of
studies. The concentration curriculum builds on the generic social work knowledge, which they obtained through their BSW experience, by offering a choice of five advanced practice concentrations: (1) community organization, planning and administration (COPA); (2) families and children; (3) health; (4) mental health; and (5) social work and business in a global society. Students in all concentrations are required to enroll in SOWK 611 Leadership in the Social Work Profession and Organizations: Theory and Practice. Advanced standing students may also complete one of the following five sub-concentrations at the University Park Campus: (1) social work practice with older adults; (2) systems of mental illness recovery; (3) school social work, which meets the academic requirements for the Pupil Personnel Services Credential necessary for social work practice in the public schools of California; (4) public child welfare; and (5) military social work and veteran services. Please note, some academic centers do not offer all concentration and/or sub-concentration areas of studies.

The advanced standing option consists of 35 units (27 units of course work and 8 units of field practicum). The option is available at these locations: University Park Campus, Orange County Academic Center in Irvine, San Diego Academic Center in Rancho Bernardo and Virtual Academic Center via the Internet and can be completed in three semesters. In addition, some classes are offered at City Center in downtown Los Angeles.

Dual Degree Programs

The School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline, which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master of Social Work/Doctor of Philosophy, Social Work (MSW/Ph.D.)

The MSW/Ph.D. dual degree program is a course of study leading to both a graduate degree (Master of Social Work) and doctor of philosophy (Ph.D.) in social work. This course of study is offered to exemplary students seeking advanced research based study in social work to become professional leaders who will make significant contributions to the knowledge base of the profession in the social work academic world.

Prospective students must meet both the MSW and Ph.D. standing admission requirements.

Requirements

A total of at least 90 units is required for the dual degree with at least 42 units in the MSW program and at least 48 units in the Ph.D. program (exclusive of SOWK 794 Doctoral Dissertation). Students who select the mental health concentration will be required to complete at least 91 units (at least 45 MSW units and at least 48 Ph.D. units). The program can be completed within four years.

The M.S./MSW dual degree offers the student interested in direct service or community organization the credentials most highly valued in clinical and therapeutic practice. Students enrolled in this dual degree receive an MSW as well as an M.S. in Gerontology. This dual degree requires completion of 72 units: 32 units of work in the Davis School of Gerontology and 40 units in the School of Social Work. The course work is usually completed over a 24-month period for full-time students. Dual degree students in this program complete the standard foundation year courses in the School of Social Work, with the exception of SOWK 535 Social Welfare. Students may select any concentration, with the exception of Families and Children. In the concentration year, students must complete the three required core concentration courses as well as SOWK 611 Leadership in the Social Work Profession and Organizations: Theory and Practice. See the Davis School of Gerontology for course requirements.

**Master of Social Work/Master of Planning, Public Policy**

The dual degree program between social work and planning offers unique opportunities for students who want to devote their professional careers to social policy, social planning or public services delivery. Dual degree students in this program receive an MSW as well as a Master of Planning (MP). The MP/MSW degree requires completion of a total of 83 units: 51 units in social work and 32 units in planning. The course work is normally completed over a period of 28 months for full-time students.

Dual degree students in this program complete the standard foundation year courses in Social Work, with the exception of SOWK 535 Social Welfare. Students must select the Community Organization, Planning and Administration (COPA) concentration. In the concentration year, students must complete the following SOWK courses: SOWK 599, SOWK 611, SOWK 639, SOWK 648, SOWK 686ab, as well as one of the following courses: SOWK 603, SOWK 636 or SOWK 672. Students must apply to both programs prior to matriculation. See the USC Price School of Public Policy for course requirements.

**Master of Social Work/Master of Public Administration, Public Policy**

The Master of Public Administration/Master of Social Work (MPA/MSW) dual degree program provides those students interested in careers as administrators of social service agencies the opportunity to combine preparation in the substantive field of social work with the acquisition of the administrative capabilities necessary in the public sector. Students must complete 89 units: 51 units in social work and 38 units in public administration. Dual degree students in this program complete the standard foundation year courses in the School of Social Work. Students must select the Community Organization, Planning and Administration (COPA) concentration. In the concentration year, students must complete the following SOWK courses: SOWK 599, SOWK 611, SOWK 639, SOWK 639, SOWK 648 and SOWK 686ab. Most students complete both program requirements over a 24-month period for full-time students. See the USC Price School of Public Policy for course requirements.

**Master of Social Work/Master of Public Health, Medicine**

The Master of Social Work/Master of Public Health (MSW/MPH) dual degree offers the student interdisciplinary preparation in the fields of public health and social work leading to the Master of Social Work (MSW) and Master of Public Health (MPH) degrees. The dual degree program is a collaborative effort between the School of Social Work and the Department of Preventive Medicine in the Keck School of Medicine. The objectives of the program are to provide students with the knowledge
students must complete a minimum of 81 units: 45 units in social work and 36 units in preventive medicine; 16 of these units fulfill requirements for both degrees. Depending on specific social work concentration and public health track requirements, there may be additional courses and an increase in the total number of units. Most students complete both program requirements over three years for full-time students; however, the program can be completed in two years if the student takes a full course load during the two summer sessions.

Dual degree students in this program complete the standard foundation year courses during the first year in the School of Social Work with the exception of SOWK 652 Social Work Research. Students may select only the health concentration in social work and either of two public health tracks: health education and health promotion; or child and family health. Master of Social Work/Juris Doctor, Law

The J.D. Doctor and Master of Social Work (J.D./MSW) dual degree program with the USC Gould School of Law is a four-year program in which students complete a total of 123 units. This includes 47 units in social work and 76 units in law.

To earn the J.D., all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs. Students must apply to both programs prior to matriculation. The program of study is as follows:

First and Second Years: Complete both the first year J.D. program of study and the first year MSW course of study.

Third Year: Complete the second year J.D. program.

Fourth Year: Complete the core required concentration courses, one semester of field instruction and the final semester of the J.D. program in the spring.

The law school gives credit for the third semester in the School of Social Work, upon which the latter recognizes law courses as substitutions for a one-semester practice course, special topics courses, a third semester of social policy and one semester of field instruction (for which a clinical law semester is substituted).

Master of Social Work/Master of Arts, Jewish Nonprofit Management

The dual degree program combines in-class learning and fieldwork under the auspices of the Hebrew Union College-Jewish Institute of Religion’s School of Jewish Nonprofit Management (formerly the School of Jewish Communal Service) and the University of Southern California’s School of Social Work. Students in this dual degree program simultaneously pursue graduate studies leading to the MSW and an M.A. in Jewish Nonprofit Management over a 24-month period for full-time students. A total of 90 units must be completed to meet the requirements of both degrees (44 units in social work and 46 units at the HUC-JIR School of Jewish Nonprofit Management). Dual degree students in this program complete the foundation year course in the School of Social Work, including the foundation field instruction. Students may select any concentration of interest. During their concentration year, students must enroll in the following concentration courses: two SOWK 599 Special Topics courses (to be approved for the concentration). Students must apply to both programs prior to matriculation.

Master of Social Work/Master of Business Administration, Business

The MSW/MBA dual degree develops knowledge and skills in working with individuals, families and groups, as well as organizational dynamics, marketing, decision sciences, accounting and human relations. Students interested in working in the management of human services and not-for-profit organizations will develop knowledge of human resources, philanthropic and corporate social responsibility, organizational development and information management. Prospective students must apply to both the School of Social Work and the Marshall School of Business. The MSW/MBA requires completion of a total of 96 units: 48 in the Marshall School of Business and 48 in the School of Social Work. This dual degree program is typically completed in a three-year period, including summer, for full-time students.

Dual degree students in this program complete the standard foundation year courses in the School of Social Work. Students must select the social work and business in a global society concentration. During their concentration year, students must enroll in the following: three core required concentration courses and SOWK 686ab Field Practicum. Course requirements in the Marshall School of Business include all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units.

The MBA and the MSW degrees are awarded simultaneously upon completion of all program requirements.

Doctor of Philosophy

With the enrollment of a small group of highly qualified experienced social workers, the School of Social Work established the first social work doctoral program in the Western United States in 1953. Over the years, the school has continued the tradition of providing opportunities for learning in small classes, seminars and tutorials.

The major goal of the doctoral program in social work is to produce social work scholars who will have the capacity to bring about a significant contribution to the knowledge base of the profession. Students acquire the necessary knowledge to become professional scholars and develop a significant capacity for professional leadership. Toward this end, the school is committed to pursuing excellence in education with persons of definite promise and to seeking gifted students of varied social, ethnic and economic backgrounds.

Through training in specific areas, graduates of the program develop theoretical, conceptual, critical and analytic skills, which can be applied to social, organizational, interpersonal and personal problems. They emerge from the program with substantive knowledge and analytic skills that enable them to contribute to understanding social problems and ways of solving them. With these skills, they are able to take a disciplined approach to the issues confronting the profession of social work and the field of social welfare and are prepared to make a significant contribution to the research and scholarship that informs society’s effort to improve the human condition.

The Ph.D. program in social work is administered by the Doctoral Committee of the School of Social Work in accordance with the policies set by the Graduate School. The requirements listed below are special to the School of Social Work and must be read in conjunction with the general requirements of the Graduate School.

Admission Requirements

Applicants for admission to the doctoral program must meet the following requirements:

1. A master’s degree from a program accredited by the Council on Social Work Education or from another field related to social work.

2. Academic promise, as evidenced by above average achievement in undergraduate and professional education and a personal statement outlining the applicant’s scholarly goals.

3. Professional competence as demonstrated through substantial experience in responsible social work, internships or other positions either during or subsequent to the master’s program.

4. Personal qualities compatible with performance in social work and indicating a potential for leadership in the field: skill in relationships, flexibility and openness to new ideas, maturity, identification with the profession of social work, and commitment to furthering the development of the profession.

5. Satisfactory performance on the Graduate Record Examinations; existing test scores may be submitted if the GRE has been completed no more than five years prior to the date of application. Information may be obtained from the USC Center for Testing and Assessment, Student Union 301, Los Angeles, CA 90089-0896, (213) 740-7166, or from the Educational Testing Service at ets.org.

6. Satisfactory performance on the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) for all international students prior to the date of application. Existing test scores may be submitted if the TOEFL or IELTS has been completed no more than two years prior to the date of application. Information may be obtained from the USC Center for Testing and Assessment, Student Union 301, Los Angeles, CA 90089-0896, (213) 740-7166, or from the Educational Testing Service at ets.org.

7. Submission of application materials as required. Instructions for application to the Doctor of Philosophy in Social Work program may be obtained by writing to the director of the program.

Under unusual circumstances, applications from persons who do not meet these requirements, including those who have just been awarded the MSW degree, will be considered. In cases where the MSW (or its equivalent) has been completed no more than five years prior to the date of application, the applicant must demonstrate evidence of professional leadership experience, and a personal statement outlining the applicant’s scholarly goals.

The requirements listed below are special to the School of Social Work and must be read in conjunction with the general requirements of the Graduate School.

Under very unusual circumstances, applications to the Doctor of Philosophy in Social Work will be considered from persons who do not hold the MSW or an equivalent degree. Such applicants, in order to be admitted to the program, must have a master’s degree (or its equivalent) in a field related to social work and a demonstrated commitment to the field of social work as evidenced by substantial contribution to the knowledge base of the profession. Under unusual circumstances, applications to the doctoral program in social work will be considered from persons who do not hold the MSW or an equivalent degree.
Doctoral Program Committee of the School of Social Work rather than by a subcommittee of that body.

Priority will be given to applications that are completed by January 1.

Application Procedure
All applicants to the doctoral program must submit the following information: (1) graduate admission application using the university's online system; (2) statement of purpose which is submitted as part of the online application; (3) current resume which is uploaded as part of the online application; (4) all undergraduate and graduate transcripts; (5) four letters of reference, at least three of which are from persons who can assess the student’s scholarly potential; (6) recent GRE scores; (7) recent TOEFL or IELTS scores; (8) documented evidence of financial support is required of all international applicants; (9) Ph.D. Information Form for the School of Social Work; (10) career plans and goals; and (11) scholarly writing sample.

Foreign Language/Research/English Language Requirements
There is no foreign language requirement for the Ph.D. degree. Competence in advanced research methodology and statistics is required through satisfactory completion of required courses. All international students are required to submit their TOEFL or IELTS scores from a test date prior to application and to meet university requirements for teaching.

Course Requirements
Students must complete a minimum of 48 course units beyond the master’s degree (exclusive of SOWK 794 Doctoral Dissertation). Students must complete at least 24 units within the School of Social Work and at least three courses in other departments or schools within the university. At least 8 of these 12 units must be in courses with a substantive rather than a research-methodology or statistic focus. Students must also take at least one 3-unit elective and one additional research or statistics course either in the School of Social Work or elsewhere in the university. Each student must develop a concentration either in another discipline outside the School of Social Work (such as gerontology; sociology; psychology; preventive medicine; business; policy, planning and development; or political science) or in a problem area where different external courses in different departments or schools bear on a specific social problem like homelessness. An overall grade point average of B (3.0) on all graduate work attempted in the doctoral program is required for graduation.

Core Content
All students are expected to master core content. They must also complete 12 units from the substantive five core courses.

Core Courses:

| SOWK 760L       | 3     |
| Introduction to Social Work Research |
| SOWK 761L       | 3     |
| Multiple Regression in Social Work |

Support the student’s dissertation within the field of practice.

Students fulfill the requirement for the mastery of the content of their individualized course of study through a combination of at least three (2-unit) directed tutorials (SOWK 790) with members of the social work faculty, at least three university courses in other departments of the university and an elective.

Students prepare an individualized course study plan with their faculty advisor in the spring of the first year that is approved by the doctoral committee. It details classes and tutorials that each student will take during the second year of the program.

Opportunities for Further Skill Development
The program offers students skills training in both teaching and research.

Teaching Skills
All doctoral students must teach for two semesters before they graduate. Requirements may be fulfilled by co-teaching, teaching as an assistant or solo teaching. Before beginning these teaching experiences, students must take a teaching course approved by the doctoral committee. International students must meet the English proficiency standards set forth by the American Language Institute and participate, if necessary, in specialized training offered by the Center for Excellence in Teaching.

Additional Research Skills
Students are also offered the opportunity for enhanced skills building in research through a research internship. The one- or two-semester internship (SOWK 783), starting typically in the spring of the second year, is designed to provide students with hands-on, practical experience with an ongoing faculty research project prior to the start of their own dissertation research. Typically, activities include data collection and/or analysis. The practicum is expected to yield a paper of publishable quality co-authored by the student and the faculty member.

Students may enroll in SOWK 599 Special Topics by petitioning the doctoral committee in writing. The decision to grant or deny admission will be based on each applicant’s learning and research interests and permission of the instructor.

The usual program includes two years of full-time course work, plus an additional period for completing the qualifying examinations and dissertation. In rare cases, students who are not able to take the full-time program because of employment may spread course work over three years. They must, however, have the equivalent of full-time study in residence for at least one year.

Students should specify whether they are applying for the full-time or part-time program at the time they apply to the program. Part-time students usually carry two courses per semester during the academic year. They may wish to accelerate their progress by enrolling in appropriate courses when available during the summer session.

The time limit for completing all requirements for the Ph.D. degree is eight years from the first course taken at USC to be applied toward the degree. Students who have completed an applicable master’s degree at USC or elsewhere (almost all students in the social work doctoral program) must complete the Ph.D. in six years.

Transfer of Credit
The transfer of post-master’s doctoral course work from another institution will only be considered if a grade of B or better (A – 4.0) has been obtained, and the course
has been completed within the last five years. Transfer of credits must be petitioned and approved by both the School of Social Work and the Graduate School.

Screening Procedures

When students have completed a minimum of 16 units (but not more than 24 units) of doctoral course work, the doctoral committee assesses their performance and makes a decision about their readiness to continue in the program. If the decision is to deny permission to continue, the students are so notified. If permission is granted, a qualifying exam committee is established.

Qualifying Exam Committee

The qualifying exam committee is composed of five faculty members, four of whom, including the chair, are from the School of Social Work and one from an academic unit of the university other than the School of Social Work. The function of the qualifying exam committee is to oversee the development of the student’s academic program through the qualifying examination.

Qualifying Examination

As a prerequisite to candidacy for the Ph.D. degree, students must pass written and oral qualifying examinations. In order to take the examinations, students must complete all core courses, at least 6 units of SOWK 790 tutorials and at least 32 units of course work in the doctoral program with a minimum grade point average of 3.0.

All students must pass a qualifying examination by completing a paper that the examination committee judges to be of publishable quality and passing an oral examination on subject matter related to the paper. The paper must deal with a substantive theoretical, model-building or methodological issue in the student’s chosen area. Critical reviews of the literature or reports of empirical studies conducted by the student specifically for the qualifying examination are acceptable. The topic of the paper will be chosen in conjunction with the student’s chair and must be defended before and agreed to by the entire examination committee. The content of the paper is to go beyond products developed for tutorials and must be an independent effort. Further details for completing the paper and oral examination are provided as needed. When students pass the written and oral portions of the qualifying examination, they advance to candidacy.

In accordance with university policy, since the two portions of the qualifying examination are considered part of a single examination, only one retake of either portion of the examination is permitted. When the oral examination has been passed, the student is formally admitted to candidacy.

Doctoral Dissertation

When the student is admitted to candidacy, a dissertation committee is established consisting of three members of the qualifying exam committee, one of whom must be from outside the School of Social Work. The dissertation committee has the responsibility of providing consultation in research, approving the dissertation, conducting the final oral examination and recommending the candidate for the Ph.D. degree. The doctoral dissertation should make a contribution to knowledge and theory related to the profession of social work. Dissertations must not only show technical mastery of the subject and research methodology but must also demonstrate the candidate’s ability to work independently as a scholar.

The first step in the dissertation process is the development of a dissertation proposal. Normally about 25-30 pages, the proposal should contain a clear statement of purpose, a rationale for the research, research questions or hypotheses, a review of pertinent literature, and an explication of the research methods to be used including the design, instrumentation, sampling procedures and plan for analysis. The proposal must include human subject clearances for the anticipated research obtained from the appropriate school and university committees.

The dissertation proposal is submitted to the student’s dissertation committee and defended. Upon approval of the proposal, a copy is filed with the director of the doctoral program.

It is expected that students will begin work on their dissertation prospectus as soon as possible after completion of the qualifying examinations, and that an acceptable proposal will be presented within three months of the completion of the examination.

Abstract of Dissertation

Since the abstract of the dissertation is also published in Dissertation Abstracts International, it should be written with care and must be representative of the final draft of the dissertation. A shorter abstract for publication in Social Work Research and Abstracts is also required.

Final Oral Examination

Upon approval of the final draft of the dissertation by all members of the dissertation committee, the candidate must pass a general final oral examination. After the candidate successfully completes the final oral examination, the committee recommends the candidate to the Graduate School for the Ph.D. degree.

Hamonich Center for Science in the Human Services

The Hamonich Center for Science in the Human Services, located in the School of Social Work, serves as the administrative umbrella for the school’s centers of research excellence. These centers of interdisciplinary research include the areas of mental health, health, corporate and industrial social work, child abuse, interpersonal violence and other projects of interest to individual faculty. The center hosts seminars and colloquia, which are open to the university and community.

Research projects are supported by federal, state, county and school resources. The center engages faculty in research, demonstration and application in building and testing theory, developing research instruments, testing models of service and treatment modalities, evaluating programs and service policy. The center also provides opportunities for doctoral students to acquire research training through ongoing and newly initiated faculty research projects. Doctoral students are encouraged to apply to participate in such projects, which often lead to dissertation possibilities. Predoctoral fellowships and/or research assistantships for projects conducted at the center are sometimes available to incoming and ongoing doctoral students. The center also enables the university to conduct their own research through the auspices of the center, including their dissertation research. All doctoral students are encouraged to attend and participate in the center’s colloquia and programs to enhance their involvement with and skills in research and knowledge development.

Courses of Instruction

Social Work (SOWK)

The following courses may be offered during any given term; consult the Schedule of Classes.

SOWK 200xM Institutional Inequality in American Political and Social Policy (4) Historic and philosophical roots of inequality for minority groups in the United States and implications for public policy. Not available for major credit.

SOWK 304 Children and Families in Urban America (4) Gateway to the minor in Children and Families in Urban America. Provides foundation for principles on the conditions of children, families and communities, partnerships between families and human service professionals, and interprofessional practice in urban American communities.

SOWK 325L Children and Families in Urban America Integrative Seminar (5) Introduction to human service professionals, agencies and institutions in the greater Los Angeles area which serve children and families who reside there.

SOWK 350 Adolescent Gang Intervention (4) The incidence of gangs (particularly in the Los Angeles area), gang interventions, and policies developed to address the growing gang situation.

SOWK 350P Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

SOWK 400 Children and Families in Urban America Capstone Course (4) The capstone course for the “Children and Families in Urban America” minor will provide an opportunity to understand the relationship between federal, state, and local policies which provide services to children and families. It will apply the knowledge learned in previous minor-related courses.

SOWK 499 Special Topics (1-, 2-, 3-, 4-, max 8) Selected topics in various specialty areas within social work.

SOWK 505 Human Behavior and the Social Environment I (4) The ecological systems paradigm is the lens through which theories of personality, family, group, organization, community and culture and the interaction among these systems are explored.

SOWK 505P Human Behavior and the Social Environment II (4) The course of human life, including the factors which impinge on the developmental continuum between normal and pathological conditions. Prerequisite: SOWK 503.

SOWK 522 Global Violence Against Women (2) This course provides a broad understanding of violence against women within a global context.

SOWK 534 Policy and Practice in Social Service Organizations (3) Study of social work organizations with emphasis on the policy contexts, organizational theory, and the development of delivery systems.

SOWK 535 Social Welfare (2) Structure and operation of current American social welfare programs (social policy analysis). Prerequisite: SOWK 534.

SOWK 545 Social Work Practice with Individuals (4) Theory and principles underlying generic social work practice with primary emphasis on working with individuals.

SOWK 545P Social Work Practice with Families, Groups and Complex Cases (3) Theories and principles with primary emphasis on families and groups with application to problems requiring multi-level interventions. Prerequisite: SOWK 503, SOWK 534, SOWK 543.
SOWK 582 Social Work Research (3) Introduction to research methods, including conceptualization of research problems, literature review, research design, sampling, measurement, data collection and data analysis.

SOWK 586ab Field Practicum (1-3, FaSpSm) Supervised field placement to develop generalist practice skills in working with individuals, families, groups, communities and organizations. Prerequisite: SOWK 611. Graded IP/CR/NC.

SOWK 590 Directed Research (1-12) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

SOWK 599 Special Topics (1-4, max 12) SOWK 600 Assessment in Social Work Practice (3, Sm) Theory and principles underlying generic social work practice with primary emphasis on psychosocial assessment. Open only to master's students in the School of Social Work.

SOWK 601 Advanced Theories and Interventions with Children and Adolescents (3) Advances students' knowledge and clinical skills working with children and adolescents. Emphasis on problems affecting children, including developmental derailments and disruptions. Prerequisite: SOWK 505, SOWK 545; or SOWK 600, SOWK 604, and SOWK 606.

SOWK 602 Advanced Theories and Clinical Interventions (3) Advances students' knowledge and clinical skills working with diverse urban families experiencing various stressors. Exploration and application of a range of family therapy models. Prerequisite: SOWK 505, SOWK 545; or SOWK 600, SOWK 604, and SOWK 606.

SOWK 603 Merging Policy, Planning and Research for Change in Families and Children's Settings (3) Development and evaluation of service programs for children and families incorporating social welfare policy, macro practice and research skills. Prerequisite: SOWK 534, SOWK 535, SOWK 562; or SOWK 600, SOWK 604, and SOWK 606.

SOWK 604 The Role of Evidence-Based Practice in Social Work (2, Sm) Study of the important role research plays in the development of evidence-based practice methods. Open only to doctoral and master's students in the School of Social Work.

SOWK 605 Human Development and Mental Health (3) Understanding problem-producing behaviors and their ramifications on individuals, families, and groups that comprise the clientele in mental health settings. Required for students in Mental Health concentration. Prerequisite: SOWK 505, SOWK 545; or SOWK 600, SOWK 604, and SOWK 606.

SOWK 606 Neuropsychological Development (2, Sm) Study of human neuropsychological development within the context of social work. Open only to doctoral and master’s students in the School of Social Work.

SOWK 607 Feminist Theory, Social Action, and Social Work: Philippines (4, Sm) Understanding and awareness of the political, economic, social, and cultural contexts through a feminist perspective, using the Philippines as a case study. Prerequisite: SOWK 505, SOWK 535.

SOWK 611 Leadership in the Social Work Profession and Organizations: Theory and Practice (3) Through didactic and experiential methods, students learn to interpret and apply leadership theory and research. Covers skills of effective leadership at all organizational levels.

SOWK 612 Psychopathology and Diagnosis of Mental Disorder (3) Assessment of psychopathology, and the rationale and organization of the system for diagnosis of mental disorders. Emphasis is on developing diagnostic differential skills.

SOWK 614 Social Work Practice in School Settings (3) Based on ecosytems perspectives, this course examines policies, theories and principles of social work practice in school settings.

SOWK 615 Brief Therapy and Crisis Intervention (3) Theory and multimodal approaches for brief therapy and crisis intervention with diverse clientele in a range of mental health and health settings.

SOWK 616 Clinical Practice with Older Adults (3) Developmental tasks of adulthood and later life, as well as assessment and intervention for problems and disorders associated with aging.

SOWK 617 Substance Abuse with Consideration of Other Addictive Disorders (3) Exploration of nature and treatment of substance abuse and other addictive disorders as well as relevant treatment models for individuals, groups and families.

SOWK 618 Systems of Recovery from Mental Illness in adults (3, FaSpSm) Focus on the multi-level impact of mental illness on adults and families. Evidence-based interventions promoting increased quality of life and stability are emphasized.

SOWK 619 Social Work in Public Child Welfare Settings (3) This advanced seminar will provide tools to enhance the practitioner’s response to the special challenges (substance abuse, HIV/AIDS, domestic violence) in public child welfare.

SOWK 620 Social Work Practice With Transitional Youth (3, FaSpSm) Students will be introduced to policies affecting transitional youth and use a biopsychosocial perspective to work with them on macro, meso, and micro levels. (Duplicates credit in former SOWK 525.)

SOWK 622 Social Work Practice with African American Families (3, FaSpSm) Presents various theories for understanding African American families and addresses an Africentric framework for clinical practice and intervention with individuals and families. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 625 Evaluation of Research: Mental Health (3) Range of research conducted in mental health; evaluation of selected research reports and their application to social work practice. Required for students in Mental Health concentration. Prerequisite: SOWK 505; or SOWK 600, SOWK 604, and SOWK 606.

SOWK 626 Social Conflict, Empowerment and Creative Practice in Israel (4, Sm) The summer global immersion program in Israel focuses on understanding social problems and alleviating them through empowerment approaches and the utilization of expressive practices. Open only to social work students.

SOWK 629 Evaluation of Research: Community Organization, Planning and Administration (3) Research for macro-practice, emphasizing qualitative methods, participatory action research, program evaluation, needs assessment; mapping and GIS to understand urban environments. Prerequisite: SOWK 562; or SOWK 600, SOWK 604, and SOWK 606.

SOWK 631 Advanced Theories and Clinical Interventions in Health Care (3) Evaluation of theory, best practices, emerging issues, and skill development in health settings; interaction among cultural, socioeconomic, and organizational factors. Prerequisite: SOWK 505, SOWK 545; or SOWK 600, SOWK 604, and SOWK 606.

SOWK 632 Program Planning and Evaluation in Health Care (3) Program and intervention development and evaluation research in health settings. Issues and skill development in program design and methods for evaluation. Prerequisite: SOWK 562; or SOWK 600, SOWK 604, and SOWK 606.

SOWK 636 Policy in the Health Care Sector (3) Analysis of behavioral, practice and research considerations in addressing a range of health problems and the policy-making process. Required for students in Mental Health in Health Settings concentration. Prerequisite: SOWK 535; or SOWK 600, SOWK 604, and SOWK 606.

SOWK 639 Social Policy for Managers, Planners and Community Organizers (3) Analysis of efforts to improve local human services organizations and agencies with consideration of political, social, demographic and organization contexts. Prerequisite: SOWK 535; or SOWK 600, SOWK 604, and SOWK 606.

SOWK 640 Clinical Practice with the Military Family (3) Theoretical and practical approaches to clinical practice with military families. Overview of common social issues in the military system and demands on the family dynamic. Prerequisite: SOWK 505, SOWK 535.

SOWK 641 Clinical Practice with Service Members and Veterans (3) Theoretical and practical approaches to trauma and PTSD. Advances students’ knowledge of best practices and current evidence-based models on PTSD. Prerequisite: SOWK 505, SOWK 535.

SOWK 645 Clinical Practice in Mental Health Settings (3) Social work processes from intake to termination; emphasis on clinical skills required for social work practice in a broad spectrum of mental health settings. Required for students in Mental Health concentration.

SOWK 648 Management for Community and Social Services (3) Methods and principles of management in urban settings with primary emphasis on strategic management, financial analysis, and innovative project development.

SOWK 652 Social Work with Older Adults (3, FaSpSm) Integrates foundation and advanced knowledge and skill for practice with and in behalf of older adults.

SOWK 655 Global Immersion in Military Culture: U.S. Forces Abroad (4, Sm) This course will enhance students’ understanding of the delivery of human services on overseas military installations.

SOWK 660 Health Care Delivery Systems: Planning for Health and Social Services (3)
Evaluating health care delivery systems in the U.S. and internationally including community social capital, health disparities, access to care, and policy implications for diverse populations.

SOWK 661 Case Management as a Service Model (3) Case management as a service model for increasing cost effectiveness and quality of care for diverse populations including transitional planning, utilization management and resource utilization.

SOWK 662 Information Technology for Human Services (3) Information technology as a resource for quality health and human services. Implications for interagency collaboration, empowerment of clients and professionals, evidence-based practice, education and ethics.

SOWK 663 Clinical Practice with Couples (3) Examination of major models and diverse intervention strategies to ameliorate common presenting problems of couples. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 664 Consultation, Coaching and Social Entrepreneurship (3) Expanding roles that social workers play within both non-profit and for profit corporations. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 665 Program Development and Grant Writing for Social Workers (3) Planning and program development that are generalized to any setting and relevant to direct and macro social work practice expertise. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 666 Domestic Violence (3) Recognition of domestic violence and examination of effective intervention measures and preventive methods. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 667 Information Systems for Program Development (3) Theoretical framework and practical skills in the use of some of the most common and up-to-date applications today of computers and electronic communication. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 668 Social Work and Law (3) Examination of roles, opportunities, and concerns for the practice of social work in the structures and procedures of the law. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 669 Managing Change and Organization Development (3) Conceptual framework and practical skills needed to design, implement and evaluate effective change and organization development programs. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 670 Global Dimensions in Social Policy and Social Work Practice (3) Exploration and critique of how political, economic, cultural, religious and environmental factors impact social welfare policies, social work practice, and social development globally. Prerequisite: SOWK 505, SOWK 535.

SOWK 671 Micro Practice and Evaluation in Work-Related Environments (3, FaSpSm) Drawing upon clinical evidence-based models, this course prepares students for micro level practice and evaluation to improve individual/family well-being within diverse work-related environments. Prerequisite: SOWK 505, SOWK 545; or SOWK 600, SOWK 604 and SOWK 606.

SOWK 672 Context and Policies of Social Work Practice in Work Environments (3, FaSpSm) Prepares students for practice in work-related environments through analysis of practice roles, settings, historical to current practice trends, business and economic contexts, and policy analysis. Prerequisite: SOWK 600 and SOWK 604 and SOWK 606 or SOWK 535.

SOWK 673 Macro Practice and Evaluation in Work-Related Environments (3, FaSpSm) Prepares students for macro level practice and evaluation in work-related environments to improve individual, family, organizational and community well-being. Prerequisite: SOWK 600 and SOWK 604 and SOWK 606 or SOWK 562.

SOWK 674 Human Sexuality in Clinical Social Work Practice (3) Explores physiological, psychological, and sociocultural variables associated with sexual identity, sexual orientation, and sexual behavior to increase student understanding and appreciation for human sexual behavior. Prerequisite: SOWK 505, SOWK 535.

SOWK 675 Play Therapy in Social Work with Children and Adolescents (3) Advances student theoretical knowledge and clinical practice skills in working with children, adolescents, and their families and explores the process of child psychotherapy. Prerequisite: SOWK 545, SOWK 535.

SOWK 676 Psychopharmacology for Therapists and Counselors (1, FaSpSm) Overview of several classes of basic psychotherapeutic medications. Useful to social workers, counselors, therapists, and other individuals who counsel and treat mentally ill patients.

SOWK 677 Mental Health Practice with Children and Adolescents (3) The assessment and treatment of children with serious emotional disturbance, including the service delivery models and policies that influence service delivery. Prerequisite: SOWK 505, SOWK 535.

SOWK 678 Child Abuse and Neglect: Intervention and Treatment (3) Advanced practice course focusing on interventions with and treatment of complex family systems where the effects of child maltreatment are the presenting problems. Prerequisite: SOWK 505, SOWK 535.

SOWK 679 Mezzo Theory and Practice in Work-Related Environments (3, FaSpSm) Emphasizing group and organizational dynamics, this course provides an understanding of human behavior in work-related environments, and prepares students for mezzo practice in these settings. Open only to master’s students in the School of Social Work. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 680 Social Work Spanish for Culturally Competent Services (3) Integration of cross-cultural practice skills with Spanish language development through the class instruction and practice development. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 681 Managing Diversity in a Global Context (3) Interdisciplinary approach to innovative practices that make the workplace more inclusive and productive. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 682 Spirituality, Religion, and Faith in Clinical Practice (3) Examination of diverse spiritual and religious traditions. Spiritually-sensitive treatment approaches applied to psychological and spiritual clinical problems of individuals, couples, and families. Prerequisite: SOWK 505, SOWK 535.

SOWK 683 Hypnosis Social Work Practice (3) Examination of major theoretical and practice applications of hypnosis in social work practice and development of a beginning level of competency. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 684 Community Practice for Social Change (3) Prepares students to work effectively within complex and diverse community settings. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535.

SOWK 685 Working with Adolescents: Practice, Systems and Advocacy (3) Enhance knowledge and skill in working with adolescents involved in the child welfare, juvenile justice and other systems. Prerequisite: SOWK 505, SOWK 535.

SOWK 686abcz Field Practicum II (4-4-4-0) Supervised field placement to develop depth of skill and practice in area of concentration. Graded CR/NC/IP. Open only to Social Work students. Prerequisite: SOWK 586ab.

SOWK 687 Media in Social Work (3) Creation of short documentaries for social change. Techniques in media production, strategies for media outreach, and development of media literacy skills to deconstruct media messages. Prerequisite: SOWK 505, SOWK 535.

SOWK 688 School Violence (3) Examines theoretical, empirical and practice-based literature on school violence including how students’ physical well-being, academic functioning, social relations, and emotional and cognitive development are affected. Prerequisite: SOWK 505, SOWK 535.

SOWK 689 Models of Family Therapy: Theory and Practice (3) Expand students’ theoretical and practical competence in systemic and narrative family therapy models for work with nuclear and extended families. Prerequisite: SOWK 505, SOWK 535.

SOWK 690ab Research (1-4; 1-4) Intensive individual study of specific problems. Graded CR/NC.

SOWK 692 Loss, Grief and Bereavement (3) Focus on the experiences of loss, death and bereavement as it is viewed by individuals, families and loved ones. Prerequisite: SOWK 505, SOWK 535.

SOWK 693 Diagnosing Psychopathology: Introduction to DSM IV-TR (3) Advanced exposure to several issues in the area of adult psychopathology and diagnostics through didactic and experiential modalities. Prerequisite: SOWK 505, SOWK 535.

SOWK 694 Group Psychotherapy in Mental Health Settings (3) Focus on group therapy for clinical social workers as practiced in various mental health settings. The entire process of group development is examined. Prerequisite: SOWK 505, SOWK 535.

SOWK 695 Research Project I (3) Credit on acceptance of professional research project proposal. Graded CR/NC. Prerequisite: SOWK 585.

SOWK 696 LGBT Psycho/Social/Political Issues (3) Overview of clinical, social and political issues with which social workers should be familiar when working with lesbian, gay, bisexual and transgender clients. Prerequisite: SOWK 505, SOWK 535.

SOWK 697 Research Project II (3) Credit on acceptance of professional research project. Graded CR/NC. Prerequisite: SOWK 695.

SOWK 700 Innovations in Interactive Media and Informatics (3, SpSm) Theory, design, and analysis of interactive media research applications and informatics resources relevant to behavior and neurobiology within global interdisciplinary practice and policy settings. Open only to doctoral students. Recommended preparation: advanced research methods classes and grounding in discipline.

SOWK 702 Theories of Human Behavior in the Contexts of Social Environments (3) A focus on...
human behavior in interaction with the social environment; major paradigms including general systems theory, ego psychology, and role theories are examined.

**SOWK 703 Explanatory Theories for Larger Social Systems (3)** Theories of organizational and community behavior are examined in relation to their influence on the development of social services.

**SOWK 743 Theories for Practice with Small Systems (3)** Early practice theories and their historical roots are examined. Implications for evolving current practice theories with individuals, families, and groups are discussed.

**SOWK 744 Theories for Practice with Large Systems (3)** Examination of the development and utility of theories, models and approaches to social work community and administrative practice.

**SOWK 760L Introduction to Social Work Statistics (3)** Foundation course covering univariate and bivariate descriptive and inferential statistics. Required lab covering basic computer skills and utilization of statistical software.

**SOWK 761L Multiple Regression for Social Work Research (3)** Multivariate statistical methods including descriptive and inferential statistics, parametric and non-parametric tests of hypotheses; correlation, analysis of variance, multiple regression, and factor analysis; utilization of computer programs for statistical analysis.

**SOWK 762 Social Work Research Methods I (3)** Models of research, the nature of inquiry, and the research process including problem formulation, measurement, designs, sampling and data sources. **Prerequisite:** doctoral standing.

**SOWK 763 Social Work Research Methods II: Issues in Research for Social Work Practice (3)** Research methods to provide students with advanced methodological knowledge in two areas related to social work practice: psychotherapy outcome research and program research. **Prerequisite:** SOWK 762.

**SOWK 764 Advanced Multivariate Statistics (3)** Introduction to single equation statistical modeling using limited dependent variables (categorical and ordered categorical). Methods are drawn from statistics and econometrics.

**SOWK 770 Introduction to Qualitative and Mixed Research Methods (3)** Overview of the use of qualitative and mixed methods in social, clinical and health services research.

**SOWK 781 Guided Teaching Experience (3)** Mentorship with a member of the teaching faculty; discussions of curriculum design; observation; preparation and delivery of selected course sessions. Graded CR/NC.

**SOWK 785 Guided Research Internship (2)** Research practicum designed to provide students with hands-on practical experience with an ongoing faculty research project. Graded CR/NC. **Prerequisite:** SOWK 763.

**SOWK 790 Research (1-12)** Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.
